CONSENT AGENDA. President Spaulding asked the board if they had any changes for the Consent Agenda.

Bill Fletcher asked to remove check number 60427 from Consent Agenda item "B. Approve payment of bills and transfer of funds" for approval separately.

Stephanie Makalous referred to Consent Agenda item "O. Approve start-up of a Powerlifting Club for students at Mill Valley High School" and asked what the policy is regarding board approval of student clubs and when they can become active. Superintendent Harwood said activities can occur in the schools without formal recognition of a club, but to make it officially recognized club a sponsor is needed, along with board approval, and the activity would have to be open to any student in the school. Mrs. Makalous asked how the district supports clubs. Superintendent Harwood said officially recognized student clubs can use district facilities free of charge and request transportation, however they typically pay for their own transportation.

Mr. Rick Amos moved to approve the Consent Agenda as amended.

ACTION ITEMS.

BOE Organizational Items. Superintendent Harwood said that since 2016, Kansas State Law requires boards of education to elect officers in January of each year unless they pass a resolution to elect officers at a later date. Based on past practice, he recommended adopting a resolution to elect board officers at the July 2023 meeting (the start of the school district's fiscal year).

Mrs. Stephanie Makalous moved to adopt a Resolution to Establish Election of School Board Officers in July 2023.

Mrs. Danielle Heikes seconded.

Carried 7/0.

Superintendent Harwood said the board is also required to set their regular board meeting schedule in January and presented the Board with a suggested schedule.

Mrs. Calley Malloy moved to approve the Board of Education February 2023 – January 2024 Regular Meeting Schedule.

Mrs. Brandi Jonasson seconded.

Carried 7/0.

Secondary Student & Teacher Technology Refresh. Brandon Riffel, Director of Technology, referred board members to the written report for background on the district's One Device per Learner initiative that started in the 2018-19 school year. He said it is time to refresh devices with the proposed MacBook Air M1, which is the same unit already in use with upgraded processors. He said the 5,300 units would be distributed to all secondary students, teachers PK-12, and support staff. Superintendent Harwood clarified that paraprofessionals get the same device students are using. He said the support staff getting the new devices would be those that are currently using MacBooks, and the iPad refresh will be next year.

Stephanie Makalous asked how teachers were surveyed about which device they like. Dr. Joe Kelly said during the initial technology adoption surveys were sent out and a committee was formed to evaluate devices based on battery life, functionality, and relation to district technology standards. He said this time a survey was done of all middle school teachers, a pilot was done at each middle school building, and survey results were shared with staff, showing a preference for MacBook Airs.

Bill Fletcher asked if the equipment could be purchased off the state contract. Mr. Riffel said Apple equipment has to be purchased directly from Apple and the district's pricing is at or below the state contract. Apple has a purchasing contract with the State of Kansas.

Danielle Heikes noted that the district purchased a 3-year AppleCare+ program with the first purchase in 2019. She asked if the new MacBook Airs could be expected to be used for four years with the 4-year AppleCare+. Mr. Riffel said they would be. He explained that the new devices are 2020 models (new), refreshed by Apple in 2020. The devices purchased in 2019 were 2017 models, still brand new, but had not been refreshed. He explained that the hardware the district is getting is much more modern which could allow for a longer life. Superintendent Harwood said this is actually the fourth year for the current devices, but the district only had three years of AppleCare+ so any repairs done this year will be paid for by the district. He said the additional year of AppleCare+ on this lease is only \$25 per device and a lot less than the cost of replacing the battery, which is the most common repair. He also said this is the first time Apple has offered a 4-year AppleCare+ plan.

Bill Fletcher asked how much the district would get back with sale of the old equipment. Mr. Riffel said the old equipment could be recycled through Synetic and he expects to get about \$100 per unit. Superintendent Harwood said the board would have to declare the old devices as surplus before they are sold. Superintendent Harwood said the district is also looking to collaborate with a third party, like Synetic, on deployment of the new devices, due to limited staff that can do it in the short timeframe, which may offset what is received from the company on payment.

Calley Malloy asked if the district has considered selling used computers to patrons or staff. Mr. Riffel said that by selling the computers to Synetic, staff and families could purchase similar equipment that comes with a warranty from Synetic.

Mrs. Stephanie Makalous moved to approve the purchase of 5,300 MacBook Air devices, with protective cases and AppleCare+, including Apple professional learning services for educators, in the amount of \$5,805,850.00 from Apple Computer Inc.

Mrs. Danielle Heikes second.

Carried 7/0.

2023 Legislative Priorities. Superintendent Harwood reviewed the following proposed legislative priorities with the Board:

- **Kansas Constitution** – USD 232 supports the intent of the Constitution of the State of Kansas where by local school boards are given the responsibility to operate school districts under the general supervision of the state board of education. USD 232 opposes amendments to the Kansas Constitution that would change the current governance structure or financing responsibility. The current working in the Kansas Constitution helped ensure adequate and equitable support for public schools for more than fifty years. During that time, the need for an educated citizenry in Kansas has become even more important and must be protected.
- **Public School Funding** – USD 232 endorses the full implementation of current school funding statutes. As such, USD 232 urges the state to follow K.S.A. 72-5132 (e6) when computing the 2023-24 BASE and to appropriate adequate funding. When allocating funding for special education, we believe K.S.A. 72-3422 should be applied as currently written. Additionally, USD 232 supports making High Density At-Risk funding a permanent part of the funding formula. Given that the current funding statute allows multiple ways to calculate enrollment for districts with declining enrollment, USD 232 supports the addition of a calculation whereby growing district can receive funding for student growth in the current year.
- **Non-Resident Transfers** – USD 232 supports the authority of local school boards to determine if they will accept non-resident student transfers. If a district decides to accept non-resident transfers, the board should be allowed to adopt equitable processes to determine how many non-resident students are accepted. This should include a provision to allow the district to give primary consideration for out-of-district transfers of employees' students. Additionally, a district's policy should be able to account for changes to in-district enrollment that increases over time and which no longer supports the continuation of non-resident student transfers.

Bill Fletcher asked if the district could communicate with the other Johnson County districts about challenging this law in the court. Superintendent Harwood said this will be a conversation among the Johnson County districts, one that they will see a lot of agreement on (that this should be a local decision). He said the hope is that some positive changes can be made during the legislative session, but if this doesn't happen a court challenge would be the next step.

- **Parental Engagement** – USD 232 is proud of the support we receive from our families and communities. Our parents are always encouraged to be partners in their children's education. There are multiple ways for parents to learn more about their child's school, get involved and provide input. There is no need for complex and onerous reporting mechanisms that are part of an outside agenda that are not relevant to Kansas.
- **School Bonds** – USD 232 endorses the removal of the cap on school bonds. The cap is based solely on the amount of past debt and it is not sensitive to the current needs of school districts. Additionally, USD 232 supports equitable bond state aid formula to help districts provide safe and effective facilities.
- **Mental Health** – USD 232 endorses the commitment of additional resources for community mental health services. The lack of available community mental health resources has a dramatic impact on students at school. USD 232 understands that we are a vital partner in addressing the mental health concerns faced by our students, but a focus on the whole community is a more productive way to positively impact the mental health crisis.

Bill Fletcher suggested looking at doing something for Seniors relating to Tax Increment Financing (TIF), maybe freezing tax rates for seniors over 65. Superintendent Harwood said there are a couple of different property tax breaks for seniors and low income and he could certainly talk to legislators about expanding that. He also said on the 20 mill state levy the board is required to levy, it used to be that the first \$20,000 of residential property value was exempt for seniors and has gone up to \$40,000 with it now set to go up as the median valuation of home prices goes up.

Superintendent Harwood said after he and President Spaulding meet with the other Johnson County superintendents and board presidents to develop a common legislative platform they will bring anything that is not presented on the legislative priorities this evening back to the board for discussion. He said once a final legislative platform is developed he will share it with the board.

Stephanie Makalous asked if the other Johnson County districts would be doing a similar letter. Superintendent Harwood said the larger districts do an annual Legislative Platform and typically post it on their web page.

FYI REPORT. The following informational report was included in the packet for this board meeting:

USD 232 Community Survey – Open Response Trends

On the superintendent survey, question 16 asked respondents to “Please share any other thoughts about the district believed to be important for the Board and new superintendent to know.” Dr. Christie reported that 289 surveys included responses to this item and most included multiple comments. He said that generally the comments were positive and complimentary in nature of USD 232. As board members have received copies of all responses to this question, they did not review the trends.

Board members were in agreement with GR Recruiting sharing survey responses with candidates for superintendent.

Dr. Christie shared a letter from the De Soto Teachers’ Association (DTA) Leadership Team that lists practices that the Association would like to see continued in the district, areas in which the district has room for growth, and potential interview questions from the Association perspective. Emily Valdez, President of the DTA, gave permission to GR Recruiting to share this letter with candidates.

Dr. Christie, Mr. Plugge and Mr. Evans shared feedback they had received in speaking with district administrators about desired qualities for the next superintendent. The Board gave permission to GR Recruiting to share this feedback with candidates.

Dr. Christie asked the Board to review the traits again and provide feedback. After discussion, the following ten traits were chosen for the superintendent profile:

- Is an effective communicator, creating strong school and community relations.
- Is a trusted Leader who values ethics and integrity, by practicing moral authority.
- Empowers others by promoting team strengths and students first approach.
- Is accountable and responsible for actions.
- Leads by example through honest practices.
- Shows transparency by sharing the organization’s goals and challenges to promote staff engagement.
- Makes strategic, high-quality decisions with big-picture lens, while managing district resources.
- Knows stakeholders’ interests through listening and learning continuously.
- Builds strong diverse teams, promotes teamwork for all, and is committed to promoting diversity, equity and inclusion.
- Fosters creative and innovative practices in order to promote continuous improvement.

Dr. Christie reviewed the Superintendent Search Timeline that was approved by the Board in their December 10th work session. After discussion, the Board was in agreement with having superintendent finalists participate in a tour of the district given by an administrator and two to three students and meeting with small groups of administrators, certified staff and classified support staff.

Danielle Heikes left the meeting at 6:38 p.m. She returned to the meeting at 6:41 p.m.

Dr. Christie confirmed with the Board where advertisements for the superintendent position will be placed, that the salary will be in the range of \$240,000.00, and that the district will reimburse candidates' travel expenses.

President Spaulding adjourned the meeting at 6:55 p.m.

Subject: **Website Services & Hosting Agreement Update (CONSENT)**

We will seek the Board's approval to update the district's website service and hosting agreement. The company with which the district has a current agreement was recently acquired. The new company is asking us to approve a new agreement identifying them as the provider of services.

Background

As you may recall, the Board of Education approved a five year agreement in March 2022 with Blackboard Web Community Manager for web design, hosting services, accessibility support, and related communications tools. Since that time, Blackboard Web Community Manger was acquired by Finalsité – one of the largest companies in the market catering to K-12 education.

Same Services, No Change in Cost

Finalsite is providing an updated five year agreement for the same services at the same cost as the current agreement. Additionally, the district will receive web content migration services and staff training at no additional cost. We will work with Finalsite to transition and/or integrate tools to its web hosting service over the next several months with services that will be equal to or better than the current web hosting service provided by Blackboard. This will cover the district's 14 websites (12 schools, CTEC, and the district). Because of the impending transition – due to the corporate acquisition of Blackboard by Finalsite – we will delay the implementation of mass notifications and the mobile app so that the district only has to migrate all web services once.

Recommendation

We recommend approving the agreement identifying Finalsite for web hosting services and related communications tools for the same amount as approved by the Board of Education in March 2022, which is \$27,908 annually for a period of five years.

MTMS Blind Replacement (Consent)

One of the many projects approved by the Board of Education at the December 2022 meeting was for the blinds at Monticello Trails to be replaced. Specifications were written and a legal advertisement was published on January 3. In addition, specifications were sent directly to five vendors. A mandatory pre-bid meeting was held on January 6 with two contractors in attendance. Sealed bids were due to the Service Center at 9:00 am on January 31 with two contractors submitting a bid. Bids ranged from \$28,195 to \$29,124 with Abbey-Simons submitting the lowest bid. Abbey-Simons has completed projects for the district in the past and they have always performed well.

At this time, we are asking the Board to approve the bid from Abbey-Simons for \$28,195 to replace blinds at Monticello Trails Middle School. As always, bid tabs are attached to this report and please contact me with any questions or concerns you may have regarding this project.

Subject: Professional Learning Communities Summit (CONSENT)

We will seek approval by the Board of Education for building administration and select teachers to attend the 2023 Professional Learning Communities (PLCs) At Work Conference in St. Charles, Missouri, from June 13th to the 15th. The cost of the professional training will be applied to federal grant funds and will provide an expanded learning opportunity for up to 60 teachers and school administrators.

For the past two years, school district staff have been working together to increase collaboration, share instructional strategies, align priorities and expectations in classes, and create common assessments that help guide decision-making in the classroom. The objective is to positively impact student success.

The PLCs At Work Conference will afford participants from each school in the district guidance from experienced educators who have successfully led schools through the PLC process, as well as time to work together to refine and improve practices in preparation for the 2023-2024 School Year. This work will empower staff to continue supporting a collaborative, results-oriented culture that addresses the needs of individual students.

Registration for principals and teachers will cost \$44,940, while the approximate, anticipated cost for transportation, meals, and lodging will be \$31,750.

Funding source: Nearly 97% of the total cost will be applied to federal grant funds. The remaining 3% will be from district allocated professional development funds.

Dr. Joseph Kelly, Director- Secondary Curriculum &
Instruction, Title Programs

Board Meeting Date: February 6th, 2023

Item Type: Consent

Topic: Surplus Library Books

Prepared by: Dr. Joseph Kelly

Date: January 31st, 2023

Pursuant to Kansas statute 72-3216(d), we will seek the Board's approval to declare the attached list of books as surplus. We determined the resources are no longer suitable for library use due to the age and/or condition of the items, and/or the need to cull resources as part of inventory management.

We have undertaken a systematic effort to clean, sort, and organize old resources on a regular basis, which is why we are bringing these items to your attention. Upon Board approval, the items will be either sold, donated or appropriately disposed. Please let us know what questions you may have.

We ARE Mill Valley!
Achievement—Responsibility—Empowerment

TO: USD 232 Board of Education
FROM: Marilyn Chrisler
DATE: January 18, 2023
SUBJECT: New Club Approval – (Consent Agenda)

Please review the following information regarding the approval of new club at MVHS for the 2023-20234 school year.

Name of Organization: Movie Club
Advisors: Ashley Agre

Overview

In movie club students would have the opportunity to watch critically acclaimed movies at home and then discuss their opinions about the films and their characters at school, along with any other details, morals, etc. they noticed that they would like to talk about. The club would consist of meetings every three weeks where at each meeting the students would participate in a poll to decide on the next movie to watch and discuss the last movie. Movies will be chosen by critics' ratings on IMDB along with meaningful ideas and lessons seen in each.

The MVHS sponsor will be Mrs. Agre, the school's librarian.

Membership

Membership in Movie Club is open to all students at Mill Valley High School that have a way to stream movies at home.

Officers

Reagan Swartz will be the only officer; however, other students may help her pick the movies to watch for each meeting. If Movie Club continues after 2025, Mrs. Agre and Reagan Swartz will choose a new officer.

Purpose

Goals of the Movie Club include the following:

1. To teach valuable lessons about people and the world
2. Expose students to different types of movies with different ideas
3. Encourage students to find hidden meanings and messages in movies
4. Give students a fun yet educational activity in their free time
5. Provide a space for students to share their personal opinions on the films and on subjects within the films with others who have seen them

Meetings

Meetings will be hosted every three weeks on Fridays

Location: Media Center

Time: After school for around 30 minutes at most

Extra Information

Movies will be kept G through PG-13 rated

Subject: **Memorandum of Understanding with the USD 232 Education Foundation**
(ACTION)

We will ask the Board of Education to consider approving a memorandum of understanding (MOU) with the USD 232 Education Foundation. The purpose of the MOU is to codify the existing relationship between the district and the foundation.

Background

The USD 232 Education Foundation (USD232EF) is a Kansas non-profit organization established in 2019 with the sole mission of seeking out community resources and creating strategic alliances to spark innovation and support educational excellence for students in USD 232. The education foundation is a tax-exempt organization under Section 501(c)(3) of the Internal Revenue Code with oversight provided by its own board of directors consisting of eleven members. Organizations described in section 501(c)(3) are commonly referred to as charitable organizations.

The Board of Education supported the idea of an education foundation in our community with initial discussions going back seven years. Other school districts in the county have had education foundations supporting schools and teachers for many years and those relationships (districts and foundations) provided a framework for the USD232EF. Tremendous benefits are gained from a mutually supportive partnership between districts and education foundations.

USD232EF donated more than \$70,000 to schools and teachers since 2019 through a series of school spotlight grants, innovative teacher grants, the employee Making a Difference recognition/award, and more. Donations to the foundation come from individuals, businesses, and other not-for-profit organizations.

Purpose of the MOU

The MOU codifies the district/foundation relationship and promotes clarity, accountability, and mutual understanding for both parties through a collaborative process for assessment and strategic thinking about how the foundation and the district can effectively work together. This model of district support is evident in some of the largest education foundations in the county,

such as Shawnee Mission Education Foundation, Olathe Education Foundation, and Blue Valley Education Foundation.

The MOU recognizes the special status of the USD232EF and its relationship with the district, which is different when compared to other non-district organizations. The foundation's sole purpose is to support the students and teachers of USD 232.

Since the launch of USD232EF, the district provides in-kind support by making available employee Casey Rومان Smith, who spends an average of 10 hours per week with administrative assistant duties, as well as serve as executive director of the foundation – in addition to her regular duties with the school district. Providing this level of support has allowed the foundation to grow its efforts and increase community donations to support schools and students. Ms. Rومان Smith receives no compensation from the foundation.
