JCPRD Out of School Time (OST)

What we offer...

Before School Program (7a-8:40a)

We open at 7:00 am and the Morning Programming is full of self- selected center choices and a healthy morning snack to help prepare children for the day.

After School Programming (3:40-6:00p)

After school the kids are served a healthy snack. They have the opportunity of starting on homework or make a choice from a range of activities. We love to get the kids outside as soon as possible, weather permitting. We have open play as well as organized activities outside or in the gym. We have a variety of daily special activities, based on the interests and likes of the kids in our program. The activities change from month to month and year to year. Some of the activities include: science experiments, Lego building challenges, STEAM activities, arts and crafts, cooking, cooperative games, animal and nature study, and much more!

Professional/Conference Days

JCPRD offers all-day programming for scheduled Professional/Conference days on the USD 232 calendar (with the exception of JCPRD major Holidays). These all-day programming days are included with your full-time regular fees, with no additional charge. On these days we often have special activities, guest presenters, and possible field trips.

Summer Camps

We operate summer camps each year packed with fun activities. Locations vary summer to summer. Enrollment occurs in March each year.

Find Registration instructions @ www.jcprdkids.com.

Fall Registration will begin Monday, April 26, 2021
@ Noon on our website
