

Suspension Reduction
Process

Depending on the severity of the student violation and the length of suspension determined through the hearing process, the building administration may work with the Superintendent to offer a [reduction agreement](#) so the student may return to school earlier. If this opportunity is offered to the student, the following steps would be taken:

Stipulations of the agreement and reduction time would be determined

The building would present opportunity to the student and family. The student and parent/guardian would sign off on the agreement. A copy would be provided to the Superintendent, building admin. and counselor

The student would work to meet the stipulations of the agreement

Once the stipulations have all been met, the building would notify the Superintendent's office and would request that the student return early, providing a return date

The Superintendent would review the request and if approved, would issue a letter to the student/family welcoming them back to school. Building admin. and counselor would also receive a copy of the letter
