

Regulation 8210R

Instruction

EYE SAFETY DEVICES

Every teacher, student and visitor is required to wear industrial quality eye protective devices whenever he or she is participating or observing in an instructional or experimental program in a shop or laboratory involving:

1. Hot solids, liquids, or molten metals
2. Milling, sawing, turning, shaping, cutting, or stamping any solid materials
3. Heat treatment, tempering, or kiln firing of any metal or other materials
4. Gas or electric arc welding
5. Repair or servicing of any vehicle
6. Caustic or explosive chemicals or materials

Eye safety devices within the meaning of this regulation includes face shields, goggles, safety glasses, welding helmets, hoods and other specialized equipment meeting the standards of *the American National Standard Practice for Occupational and Educational Eye and Face Protection, Z87.1 - 2003* promulgated by the American National Standards Institute, Inc.

All safety devices are to be properly repaired, cleaned and stored. Also, said devices must be sterilized or otherwise treated to prevent the spread of germs or diseases when the user changes.

Regulations for Specific Areas

Technology Shops

An eye protective device as supplied by the school must be worn over the eyes at all times by students, teachers, and visitors except for the following situations:

1. During chalkboard lessons.
2. While student is drawing or planning at an approved planning station.
3. While welding, brazing, or torch cutting at which times other special eye and face protection is mandated.

Elementary Schools

Teachers and students must wear an eye protective device during lessons and demonstrations involving any situation coming under those listed in the general regulations.

Science Department

1. The eye protective device must be worn at all times by students in chemistry labs.
2. The eye protective device must be worn by all students in all other laboratory situations where:
 - a. The heating of solutions is part of the lab.

- b. The handling of acids or caustic solutions is part of the lab.
- c. Cutting, bending, or breaking of glass tubing or plate is part of the lab.
- 3. All teachers must wear eye protective devices in any situation where:
 - a. Any of the above situations are being demonstrated by a teacher for a class.
 - b. A teacher is supervising a class participating in any of the above activities.

Any exceptions to the Regulations for Specific Areas will require approval of the principal and the Assistant Superintendent for Finance.
