State Assessments

PSSA: The Pennsylvania System of School Assessment (PSSA) is an annual assessment administered in commonwealth classrooms in grades 3 through 8, and in English Language Arts and Mathematics and in grades 4 & 8 for Science.

Keystone Exams: The Keystone Exams are end-of-course assessments designed to assess proficiency in the subject areas of Literature, Algebra I, and Biology.

SPRING-FORD LEARNING

District Points of Pride

Comprehensive Plan is well underway with MTSS teams in place

Learning Loss Plan continues to address students' needs through tutoring, summer programs, and social, emotional & mental health resources.

Our students were high achieving by comparison to other schools across the county and state.

Cohort data shows that students are maintaining or growing in English Language Arts.

Mathematics

- Goal 1: All buildings will meet or exceed the 2030 PSSA proficiency targets for math.
- Goal 2: Ensure all curriculum documents are standards-aligned and eligible content is taught prior to the PSSA.
- Goal 3: Use current benchmark data to establish a system of interventions for students in math.

System of Intervention

- Goal 1: Establish a district system that fully ensures the consistent implementation of a multi-tiered system of support system of intervention including reading, math, and behavioral interventions.
- Goal 2: District will use disaggregated data to identify and close achievement gaps of all students. For the purposes of this plan, the district considers an achievement gap to mean the difference between where students are currently performing to that of the grade-level or content expectations.

Special Education - Inclusive Practices

- Goal 1: SFASD will increase the percentage of special education students receiving support and services in the general education setting through consideration of the Least Restrictive Environment (LRE) districtwide.

Comprehensive Plan: Priority Areas
