

## NEW MEDIA ACADEMY

### Human Advancement and Connection in a Digital Media World

#### The Program

NEW MEDIA ACADEMY is a 9-12th grade program offering a rigorous college prep curriculum that stresses critical reading, writing and thinking skills in a digital, project-based, program with interdisciplinary team-taught approach to learning.

THE LIBERAL ARTS curriculum incorporates digital media and elements of film production in a collaborative learning environment. Students interested in a strong academic program, have an interest in media arts, and want to be supported by a team of teachers who provide a nurturing environment will enjoy this program.

#### The New Media Academy Experience

Students enrolled in the program will experience:

- Field trips that relate to careers in film, television and media arts
- Tapings of nationally televised TV shows
- Tours of Los Angeles based studios
- Visits to colleges that focus on arts and media
- Live theater productions
- Museums that are focused on the intersection of liberal studies and media arts
- Opportunities in upcoming projects such as a digital journalism internship and others
- Students in CP Broadcasting (with prior approval) work in collaboration with the Communications Department in producing news, announcements, social media content, and editorials for GHC.

Honors or College Prep US History Film  
**American Images**

##### Grade 12

AP or College Prep English  
AP or College Prep Government/Economics  
**\*Filmmaking**

CAREER AND TECHNICAL EDUCATION is the practice of teaching skills-based careers to students in high school, and post-secondary institutions. This is important because CTE careers require workers to have experience in their field before starting a career. New Media Academy develops this in the film industry: creative thinking individuals with a strong educational background.

\* These courses ensure that all students complete the Design and Media Arts CTE pathway.
