Parent University: Math Series

Oct. 5, 2023

As part of Parent University, we hosted our second Parent Math Series Night in partnership with Fraser's Mathematics Solutions. The evening was hosted by the STEAM Academy campus.

The workshops aim to expose teachers, students, and families to new ways of teaching math and connecting it to current and culturally relevant topics. The workshops for this night were broken down by grade spans as follow:

- K - 2 Addition and subtraction Strategies (part 2, focused on subtraction)
- 3 - 5 Addition and Subtraction Strategies
- 6 - 7 Independent and Dependent Variables
- 8 Exponents

29 Families were in attendance, with over 50 participants. Shout to the High School freshman, who returned to their former campus to assist with preparing for the event, with some attending the grade 8 workshop as a refresher for their current Algebra 1 class.

The next workshop will be a STEM Night on November 20, 2023 with activities from Fraser's Mathematics Solutions and Liberty Science Center.
