

Lea Prescreening Practice Sheet

In order for us to check your child's vision he/she must be able to play a matching game.

1. Cut the paper along the dotted lines.
 2. Place the four large letters (Chart 1) in front of your child.
 3. Point to a letter on Chart 2 and have your child touch the letter that looks the same on Chart 1. Start with the larger letters and move downward to the smaller.
 4. Play the game until your child responds correctly and consistently.
