INDEPENDENT AUDITOR'S REPORT

To the Board of Education of Regional School District No. 10 Burlington, Connecticut

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Regional School District No. 10 (the "District") as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Regional School District No. 10, as of June 30, 2016, and the respective changes in financial position thereof, and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3 through 12 and the schedules on the District's pension plans and other post-retirement benefit plan on pages 51 through 54 be presented to supplement the basic financial statements. Such information, although not a required part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining and individual fund financial statements and schedules on pages 55 through 63 are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

Mahoney Sabol + Coupany, LLP

In accordance with *Government Auditing Standards*, we have also issued our report dated December 16, 2016, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Glastonbury, Connecticut December 16, 2016

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of Regional School District No. 10 (the "District"), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2016.

FINANCIAL HIGHLIGHTS

- Assets and deferred outflows of resources of the District exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$40,725,745 (net position). Of this amount, \$2,268,572 (unrestricted net position) may be used to meet the District's ongoing obligations.
- The District's overall change in net position for the year ended June 30, 2016 amounted to a decrease of \$1,079,646.
- As of the close of the current fiscal year, the District's governmental funds reported a combined ending fund balance of \$3,371,537, a decrease in ending fund balance of \$79,819 in comparison with the prior year.
- At the end of the current fiscal year, unassigned fund balance for the General Fund amounted to \$2,239,483. Of this amount, \$332,005 represents the District's budgetary surplus for the year ended June 30, 2016.
- The District's principal balance on long-term bonded debt decreased by \$1,530,000 due to scheduled principal repayments. The District's balance on long-term capital lease obligations increased by \$320,434 due to new leases entered into during the year ended June 30, 2016 relating to energy efficient improvements and technology upgrades.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the District's assets, deferred outflows/inflows of resources and liabilities, with net position as the residual of these other elements. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods.

OVERVIEW OF THE FINANCIAL STATEMENTS (Continued)

Government-wide Financial Statements (Continued)

The government-wide financial statements are intended to distinguish functions of the District that are principally supported by District towns and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the District include instruction and support services. The District has no business-type activities.

The government-wide financial statements can be found on pages 13 and 14 of this report.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental funds and fiduciary funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term outflows and inflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains a number of individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund and the Educational Grants Fund, both of which are considered to be major funds.

The basic governmental fund financial statements can be found on pages 15 through 20 of this report.

Fiduciary Funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the District. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to the District's own programs. The accounting used for fiduciary funds is much like that used for the government-wide financial statements.

The basic fiduciary fund financial statements can be found on pages 21 and 22 of this report.

OVERVIEW OF THE FINANCIAL STATEMENTS (Continued)

Notes to the Financial Statements

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 23 through 50 of this report.

Required Supplementary Information

Required supplementary information on the District's pension and other post-employment benefit plans can be found on pages 51 through 54 of this report.

Other Information

Combining and individual fund statements and schedules can be found on pages 55 through 63 of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net Position

Over time, net position may serve as one measure of a government's financial position. The District's net position totaled \$40,725,745 and \$41,805,391 as of June 30, 2016 and 2015, respectively, and are summarized as follows:

	2016	2015
Current and other assets	\$ 4,155,614	\$ 4,477,117
Capital assets, net	56,337,649	58,343,205
•		
Total assets	60,493,263	62,820,322
Deferred outflows of resources	1,170,313	1,159,576
Total deferred outflows of resources	1,170,313	1,159,576
Long-term liabilities	20,057,442	21,130,715
Other liabilities	823,954	934,835
Total liabilities	20,881,396	22,065,550
Deferred inflows of resources	56,435	108,957
Total deferred inflows of resources	56,435	108,957
Net position:		
Net investment in capital assets	38,457,173	39,271,744
Unrestricted	2,268,572	2,533,647
Total net position	\$ 40,725,745	\$ 41,805,391

GOVERNMENT-WIDE FINANCIAL ANALYSIS (Continued)

Net Position (Continued)

94.4% and 93.9% of the District's net position as of June 30, 2016 and 2015, respectively, reflected its net investment in capital assets. The District uses these capital assets to provide educational services; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources since the capital assets themselves cannot be used to liquidate these liabilities.

The remainder 5.6% and 6.1% of the District's net position as of June 30, 2016 and 2015, respectively, were considered unrestricted and available to be used to meet the District's ongoing obligations to citizens and creditors.

GOVERNMENT-WIDE FINANCIAL ANALYSIS (Continued)

Changes in Net Position

Changes in net position for the years ended June 30, 2016 and 2015 are as follows:

	2016	2015	
Revenues:			
Program revenues:			
Charges for services	\$ 898,729	\$ 957,450	
Operating grants and contributions	6,416,637	7,110,070	
Capital grants and contributions	52,199	-	
General revenues:			
District Towns	37,346,848	36,309,802	
Unrestricted investment earnings	12,867	5,295	
Total revenues	44,727,280	44,382,617	
Program expenses:			
General instruction	28,239,933	27,620,081	
Support services - students	3,694,038	3,549,511	
Improvement of instruction	2,919,918	2,878,013	
Support services - administration	578,168	497,630	
School-based administration	2,479,605	2,292,663	
Plant operation and maintenance	4,346,440	3,798,065	
Transportation	2,103,808	2,262,710	
Other support services	836,839	716,732	
Interest and fiscal charges	608,177	629,755	
Total expenses	45,806,926	44,245,160	
Change in net position	\$ (1,079,646)	\$ 137,457	

The District's decrease in net position for the year ended June 30, 2016 of \$1,079,646 represented a decrease of \$1,217,103 over the prior year change in net position of \$137,457.

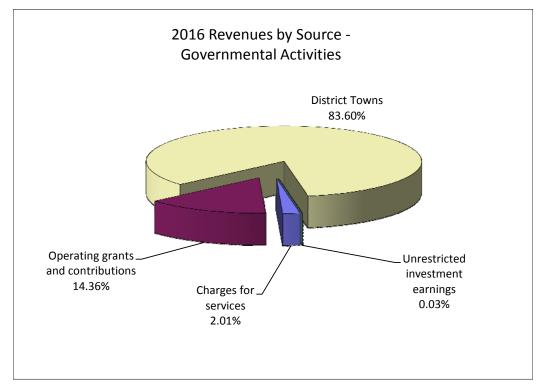

Overall revenues increased by \$344,663 or 0.8% over the prior year. Operating grants and contributions decreased by \$693,433 or 9.8%. This decrease is primarily due to a decrease in eligible grant reimbursements for excess cost special education student placements. The decrease in operating grants and contributions was offset by an increase in revenues assessed to the District's member towns in the amount of \$1,037,046 or 2.9%. With the decrease in excess cost reimbursements and other recurring operating grants remaining level, additional revenues from District Towns were raised to cover the overall increase in operating costs.

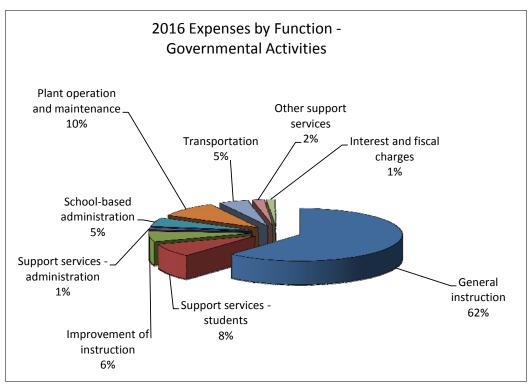

Overall expenses increased by \$1,561,766 or 3.5% over the prior year. This increase is primarily due to an increase in contractually negotiated salaries and related benefits of \$972,252 or 3.6% and an increase of \$494,377 or 13.6% in facility repairs and maintenance.

GOVERNMENT-WIDE FINANCIAL ANALYSIS (Continued)

Changes in Net Position (Continued)

The following is a summary of revenues by source and expenses by function for the year ended June 30, 2016.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance related legal requirements.

Governmental Funds

The focus of the District's governmental funds is to provide information on near-term outflows, inflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

As of the close of the current fiscal year, the District's governmental funds reported a combined ending fund balance of \$3,371,537, a decrease in ending fund balance of \$79,819 in comparison with the prior year.

General Fund

The General Fund is the chief operating fund of the District. The fund balance of the General Fund totaled \$2,782,218 as of June 30, 2016. Unassigned fund balance totaled \$2,239,483 and includes a \$332,005 budgetary surplus recognized for the year ended June 30, 2016.

Educational Grants Fund

The Educational Grants fund has no fund balance because the fund primarily records activity related to cost reimbursement grants and contracts. Consequently, grant and contract revenues equal expenditures.

GENERAL FUND BUDGETARY HIGHLIGHTS

The District's original budget contemplated the use of fund balance in the amount of \$227,467. The actual change in fund balance was a decrease of \$264,462, which included a \$369,000 additional appropriation and transfer of a portion of its prior year budgetary surplus to its Capital Projects Fund to be used for capital purposes. The resulting budgetary surplus for the year ended June 30, 2016 totaled \$332,005. Revenues were \$28,067 less than budgeted revenues and expenditures were \$360,072 less than budgeted expenditures.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

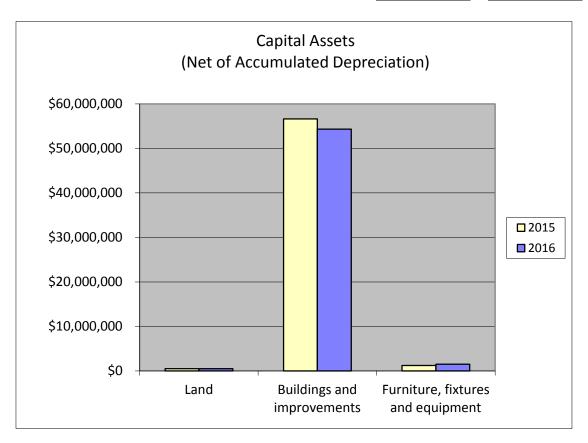

The District's investment in capital assets for its governmental activities as of June 30, 2016 totaled \$56,337,649 (net of accumulated depreciation). This investment in capital assets includes land, buildings and improvements and furniture, fixtures and equipment. The net decrease in the District's investment in capital assets for the current fiscal year was \$2,005,556. This decrease consists primarily of current year depreciation in the amount of \$2,534,198, offset by capital additions of \$607,847. Significant current year capital asset additions consisted of energy efficiency and security improvements made to the District's facilities as well as technology upgrades.

CAPITAL ASSET AND DEBT ADMINISTRATION (Continued)

Capital Assets (Continued)

The following table is a two year comparison of the investment in capital assets, net of accumulated depreciation and amortization:

	2016	2015		
Land	\$ 501,479	\$ 501,479		
Buildings and improvements	54,315,813	56,613,541		
Furniture, fixtures and equipment	1,520,357_	1,228,185		
Totals	\$ 56,337,649	\$ 58,343,205		

Additional information on the District's capital assets can be found in Note 5 to the basic financial statements.

CAPITAL ASSET AND DEBT ADMINISTRATION (Continued)

Long-term Debt

At the end of the current fiscal year, the District had total principal bonded debt outstanding of \$17,345,000, which is backed by the full faith and credit of the District. In addition, the District had obligations under capital lease arrangements in the amount of \$624,373.

The District's total long-term bonded debt decreased by \$1,530,000 during the current year due to scheduled principal repayments. The District's capital lease obligations increased by \$320,434 due to scheduled principal repayments of \$161,389 offset by new leases entered into in the amount of \$481,823 relating to energy efficient improvements and technology upgrades.

The District maintains an "AA" and "Aa2" rating from Standard and Poor's and Moody's Investor Service, respectively, for its general obligation debt.

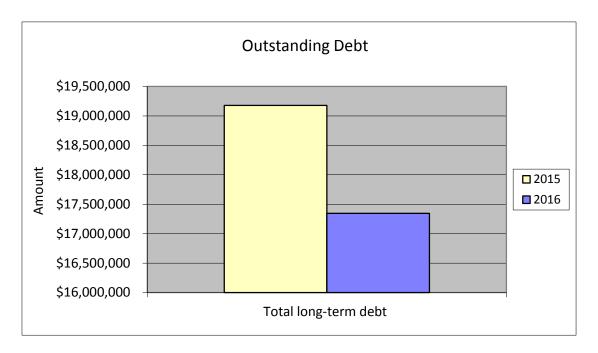

State statutes limit the amount of general obligation debt the District may issue to four and a half times its annual receipts from Member Towns, as defined by the statutes. The current debt limitation for the District is significantly in excess of the District's outstanding general obligation debt.

The following table is a two year comparison of long-term bonded debt:

	2016	2015
General obligation bonds	\$ 17,345,000	\$ 18,875,000
Capital leases	624,373	303,939
Total long-term debt	\$ 17,969,373	\$ 19,178,939

2016

201E

Additional information on the District's long-term debt can be found in Note 8 to the basic financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS

The District receives a significant amount of federal and state grants. Any loss or significant reduction in federal or state funding could have an impact on the District's budget and program services. The District operates under various negotiated union contracts that span multiple budgetary years. A significant portion of the District's budget consists of contractual wages and related employee benefits. In addition, special education costs can vary significantly from year to year based on student needs.

These factors were considered in preparing the District's budget for fiscal year 2017. In May 2016, the District's fiscal year 2017 budget was approved at referendum. The approved budgetary expenditures total \$38,972,279, a \$981,774 or 2.58% increase over the District's fiscal year 2016 approved budgetary expenditures.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the District's finances for all those with an interest in the District's finances. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the Office of the Business Manager, 24 Lyon Road, Burlington, CT 06013.

REGIONAL SCHOOL DISTRICT NO. 10 RECONCILIATION OF THE BALANCE SHEET OF GOVERNMENTAL FUNDS TO THE STATEMENT OF NET POSITION JUNE 30, 2016

Total fund balances for governmental funds		\$ 3,371,537
Total net position reported for governmental activities in the statement of net position is different because:		
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the governmental funds.		56,337,649
School construction grants receivable from the State of Connecticut are not susceptible to accrual and are, therefore, not reported in the governmental funds.		139,939
Deferred charges on refundings are not susceptible to accrual and are, therefore, not reported in governmental funds.		903,344
Deferred outflows and inflows of resources resulting from changes in the components of the net pension liability are reported in the statement of net position.		210,534
Long-term liabilities applicable to the District's governmental activities are not due and payable in the current period and, accordingly, are not reported as governmental fund liabilities. All liabilities - both current and long-term - are reported in the statement of net position. Those liabilities consist of:		
Long-term debt:	17,345,000) (814,447) (624,373) (179,816)	
Other long-term liabilities: Compensated absences Net OPEB obligation Net pension liability Total long-term liabilities	(689,783) (155,662) (428,177)	(20,237,258)
Net position of governmental activities		\$ 40,725,745

REGIONAL SCHOOL DISTRICT NO. 10 RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2016

Net change in fund balances for governmental funds

(

(79,819)

Total change in net position reported for governmental activities in the statement of activities is different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation and amortization expense. The amount by which depreciation and amortization exceeded capital outlays in the current period is as follows:

Expenditures for capital assets \$ 607,847

Depreciation and amortization expense (2,534,198)

Net adjustment (1,926,351)

The statement of activities reports losses arising from the disposal of existing capital assets. Conversely, governmental funds do not report any gain or loss on disposal of capital assets. This amount represents the net book value of capital assets written-off.

(79,205)

Intergovernmental revenue on school construction grants is not susceptible to accrual and, therefore, is only reported as revenue in the governmental funds when the cash is received by the District. In the government-wide financial statements, the cash received reduces the grant receivable recognized in the government-wide statement of net position.

(139,939)

The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of principal on long-term debt consumes the current financial resources of governmental funds. However, neither transaction has any effect on net position. The net effect of these differences in the treatment of long-term debt and related items is as follows:

Debt issued or incurred:

Capital lease financing

(481,823)

Principal repayments:

Obligations under capital leases 161,389
Bonds payable 1,530,000

Net adjustment 1,209,566

REGIONAL SCHOOL DISTRICT NO. 10 RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES (Continued) FOR THE YEAR ENDED JUNE 30, 2016

Under the modified accrual basis of accounting used in the governmental funds, expenditures are not recognized for transactions that are not normally paid with expendable available financial resources. However, in the statement of activities, which is presented on the accrual basis, expenses and liabilities are reported regardless of when financial resources are available. In addition, interest on long-term debt is not recognized under the modified accrual basis of accounting until due, rather than as it accrues. Also, governmental funds recognize the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. The net effect of such items is as follows:

Amortization of deferred charge on refundings		(157,142)
Amortization of bond premiums		138,561
Deferred charges on pension		220,401
Net pension liability and related deferrals		(294,599)
Net OPEB obligation		(41,682)
Accrued interest		9,136
Compensated absences	Ş	61,427

(63,898)

Change in net position of governmental activities

\$ (1,079,646)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of Regional School District No. 10 (the "District") conform to accounting principles generally accepted in the United States of America, as applicable to governmental organizations. The following is a summary of significant accounting policies:

Financial Reporting Entity

The District is governed by a Board of Education (the "Board").

The Board is an elected group of individuals which has governance responsibilities over all activities related to public elementary and secondary school education within the jurisdiction of Regional School District No. 10, serving the towns of Burlington and Harwinton, Connecticut ("Member Towns"). The District receives funding from local, state, and federal government sources and must comply with the compliance requirements from these funding sources. The District is not included in any other governmental "reporting entity" since Board members are elected by the public, have decision making authority, the power to designate management, the responsibility to significantly influence operations, and primary accountability for fiscal matters.

The basic financial statements of the reporting entity include only the funds of the District as no component units exist based on operational or financial relationships with the District.

Government-wide and Fund Financial Statements

Government-wide Financial Statements

The statement of net position and the statement of activities display information about the District and include the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize the double-counting of internal activities. Governmental activities generally are financed through payments from the Member Towns, intergovernmental revenues, and other non-exchange transactions.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. The District does not allocate indirect expenses to functions in the statement of activities. Program revenues include 1) charges to other governments or students who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Payments from Member Towns and other items not properly included among program revenues are reported as general revenues.

Fund Financial Statements

The fund financial statements provide information about the District's funds, including its fiduciary funds. Separate statements for each fund category - governmental and fiduciary - are presented. The emphasis of governmental fund financial statements is on major governmental funds, each of which is displayed in a separate column. The remaining governmental funds have been reported as nonmajor governmental funds.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Government-wide and Fund Financial Statements (Continued)

Fund Financial Statements (Continued)

The District reports the following major governmental funds:

General Fund - This fund is the District's primary operating fund. It accounts for all financial resources of the District, except those required to be accounted for in another fund.

Educational Grants Fund - This fund is used to account for the proceeds of federal and state cost reimbursement grants controlled, not by the District's legal budgets but, by requirements specific to the grants.

In addition, the District reports the following fiduciary fund types:

Pension Trust Funds - These funds are used to account for resources held in trust for the members and beneficiaries of the Employees' Pension Plan, which is a defined benefit pension plan, and the Custodial and Maintenance Employees' Plan and the Employees' Defined Contribution Plan, both of which are defined contribution plans.

Private Purpose Trust Fund - This fund is used to account for trust arrangements under which principal and income benefit individuals, private organizations, or other governments. The District utilizes this fund to account for amounts contributed to fund student scholarships.

Agency Fund - These funds are used to account for resources held by the District in a purely custodial capacity. The District utilizes this fund to account for assets held for students and adult educational activities.

Measurement Focus and Basis of Accounting

Government-wide and Fiduciary Fund Financial Statements

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Revenues from the Member Towns are recognized as revenues in the year for which the Member Towns levied the property taxes. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the grantor have been met.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurement Focus and Basis of Accounting (Continued)

Governmental Fund Financial Statements

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measureable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital lease are reported as other financing sources.

Revenues from Member Towns and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues in the current fiscal period. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year end). Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or is available to be received within the availability period for this revenue source (within 60 days of year end). All other revenue items are considered to be measurable and available only when the cash is received.

The pension trust funds are reported using the economic resources measurement focus and the accrual basis of accounting. The agency fund has no measurement focus but utilizes the accrual basis of accounting for reporting its assets and liabilities.

Implementation of New Accounting Standards

Effective July 1, 2015, the District adopted the provisions of Governmental Accounting Standards Board (GASB) Statement No. 72, Fair Value Measurement and Application, GASB Statement No. 73, Accounting and Financial Reporting for Pensions and Related Assets that are not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68, GASB Statement No. 76, The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments, and certain provisions of GASB Statement No. 79, Certain External Investment Pools and Pool Participants. The adoption of these statements did not have a material effect on the District's financial statements.

Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position/Fund Balance

Cash Equivalents

The District's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position/Fund Balance (Continued)

Investments

Investments are measured by the District at fair value (generally based on quoted market prices), except for investments in certain external investment pools as described below.

Investments in certain external investment pools consist of money market mutual funds. Investments in these types of funds, which are permitted to measure their investment holdings at amortized costs, are measured by the District at the net asset value per share as determined by the fund.

Inventories

Purchased inventories are reported at cost using the first-in first-out (FIFO) method, except for USDA donated commodities, which are recorded at market value. Inventories are recorded as expenditures when consumed rather than when purchased.

Capital Assets

Capital assets, which include land, construction in progress, buildings and improvements, and furniture, fixtures and equipment are reported in the government-wide financial statements. Capital assets are defined by the District as assets with an initial individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost, or estimated historical cost, if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of a capital asset or materially extend capital asset lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Capital assets of the District are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings and improvements	20 – 50
Furniture, fixtures and equipment	5 – 10

Deferred Outflows/Inflows of Resources

Deferred outflows and inflows of resources represent an acquisition or consumption of net position that applies to a future period(s) and so will not be recognized as an outflow or inflow of resources until then.

Deferred outflows of resources consist of deferred charges on refundings and deferred pension expenses reported in the government-wide statement of net position. Deferred charges on refundings are amortized to interest expense using the effective-interest method over the life of the related bonds. Deferred pension expenses are amortized as a component of pension expense on a systematic and rational basis.

Deferred inflows of resources consist of deferred pension benefits reported in the government-wide statement of net position and are amortized as a component of pension expense on a systematic and rational basis.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position/Fund Balance (Continued)

Unearned Revenue

This liability represents resources that have been received but not yet earned.

Compensated Absences

Employees are granted vacation and sick leave based upon length of employment. Under certain union contracts, District employees' unused vacation can be accumulated from year to year subject to certain limits. Sick days can also be accumulated up to certain limits and paid upon death, retirement or termination using a prescribed formula.

All compensated absences are recorded when incurred in the government-wide financial statements. Expenditures for compensated absences are recognized in the governmental fund financial statements in the current year to the extent they are paid during the year, or the vested amount is expected to be paid with available resources.

Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net position. Bond premiums and discounts are deferred and amortized over the life of the related bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed when incurred.

In the governmental fund financial statements, bond premiums and discounts are recognized during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Net Position/Fund Balance

The government-wide statement of net position presents the District's non-fiduciary assets, liabilities and deferred outflows and inflows of resources, with the difference reported as net position. Net position is reported in three categories:

Net investment in capital assets - This category consists of capital assets, net of accumulated depreciation and amortization and reduced by outstanding balances for bonds, notes and other debt that are attributed to the acquisition, construction or improvement of capital assets.

Restricted net position - This category consists of net position whose use is restricted either through external restrictions imposed by creditors, grantors, contributors, and the like, or through restrictions imposed by law through constitutional provisions or enabling legislation.

Unrestricted net position - This category consists of net position, which does not meet the definition of the two preceding categories.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position/Fund Balance (Continued)

Net Position/Fund Balance (Continued)

The District's governmental funds report the following fund balance categories:

Nonspendable - Amounts that cannot be spent because they are not in spendable form or they are legally or contractually required to be maintained intact.

Restricted - Constraints are placed on the use of resources that are either externally imposed by creditors, grantors, contributors or laws and regulations of other governments or imposed by law through enabling legislation.

Committed - Amounts can only be used for specific purposes pursuant to constraints imposed by formal action of the Board of Education (the highest level of decision making authority of the District) and cannot be used for any other purpose unless the District removes or changes the specified use by taking the same formal action.

Assigned - Amounts are constrained by the government's intent to be used for specific purposes, but are not restricted or committed. The Board of Education has delegated the responsibility to assign funds to management of the District, with the exception of those amounts assigned by the Board of Education during the District's annual budgeting process.

Unassigned - Residual classification for the General Fund or amounts necessary in other governmental funds to eliminate otherwise negative fund balance amounts in the other four categories.

The District does not have a formal policy over the use of fund balance. In accordance with applicable accounting guidance, the District uses restricted resources first, then unrestricted resources as needed. Unrestricted resources are used in the following order: committed; assigned; then unassigned.

Interfund Activities

Interfund activities are reported as follows:

Interfund Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e. the current portion of interfund loans) or "advances to/from other funds" (i.e. the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds".

Advances between funds, as reported in the fund financial statements, are offset by a restricted fund balance designation (non-spendable) in the General Fund and by a restricted, committed or assigned fund balance designation of other governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

Interfund Services Provided and Used

Sales and purchases of goods and services between funds for a price approximating their external exchange value are reported as revenues and expenditures, or expenses, in the applicable funds.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Interfund Activities (Continued)

Interfund Transfers

Interfund transfers represent flows of assets without equivalent flows of assets in return and without a requirement for repayment. In governmental fund financial statements, transfers are reported as other financing uses in the funds making transfers and other financing sources in the funds receiving transfers.

Interfund Reimbursements

Interfund reimbursements represent repayments from the funds responsible for particular expenditures or expenses to the funds that initially paid for them.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

NOTE 2 - BUDGETARY INFORMATION

The General Fund is the only fund for which an annual budget is legally adopted. The District adheres to the following procedures in establishing the budgetary data for the General Fund:

- Not less than two weeks before the annual meeting, which must be held on the first Monday of May, the Board holds a public District meeting to present a proposed budget for the next fiscal year. Any person may recommend the addition or deletion of expenditures at such time.
- o After the public District meeting, the Board shall prepare an annual budget for the next fiscal year, make available on request copies thereof, and deliver a reasonable number of copies to the Town Clerk of each Member Town at least five days before the annual meeting. At the annual meeting, the Board shall present a budget which includes statements of (1) estimated receipts and expenditures for the next fiscal year, (2) estimated receipts and expenditures for the current fiscal year, (3) estimated surplus or deficit in operating funds at the end of the current fiscal year, (4) bonded or other debt, (5) estimated per pupil expenditures for the current and for the next fiscal year and (6) such other information as is necessary in the opinion of the Board.
- Persons present and eligible to vote at the annual meeting may accept or reject the proposed budget. If a majority of such persons voting reject the budget, the Board shall, within two weeks thereafter and upon notice of not less than one week, call a District meeting to consider the same or an amended budget. Such meetings shall be convened at such intervals until a budget is approved.
- o Formal budgetary integration is employed as a management control device during the year.
- The legal level of control (the level at which expenditures may not legally exceed appropriations) is at the fund level. The superintendent is authorized to make budget transfers, provided that such transfers do not exceed one percent of the District's annual adopted budget.

NOTE 2 - BUDGETARY INFORMATION (Continued)

- Except for the use of encumbrances, the budget is prepared on the modified accrual basis of accounting.
 Intergovernmental and other reimbursements for certain special education costs are recorded as reductions to expenditures for budgetary purposes and "on-behalf" payments made by the State of Connecticut into the State Teachers' Retirement System are not recorded for budgetary purposes.
- Encumbrances are recognized as a valid and proper charge against a budget appropriation in the year in which the
 purchase order, contract or other commitment is issued and, accordingly, encumbrances outstanding at year-end
 are reported in budgetary reports as expenditures of the current year.
- o All unexpended and unencumbered appropriations lapse at year-end.

Accounting principles applied for purposes of developing data on a budgetary basis differ significantly from those used to present financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP basis"). A reconciliation of General Fund amounts presented on the budgetary basis to amounts presented on the GAAP basis is as follows for the year ended June 30, 2016:

	Revenues	Expenditures	Other Financing Sources (Uses)	Change in Fund Balance	Fund Balance
Budgetary basis	\$ 37,734,971	\$ 37,630,433	\$ (369,000)	\$ (264,462)	\$ 2,418,349
"On-behalf" payments -					
State Teachers' Retirement Fund	4,216,874	4,216,874	-	-	-
Reimbursement for certain special education and other costs recorded as a reduction to expenditures for budgetary purposes	1,187,761	1,187,761	_	_	_
Noncash financing sources related to	1,107,701	1,107,701			
recording of capital leases not recognize	d				
for budgetary purposes	-	481,823	481,823	-	-

Encumbrances outstanding:					
June 30, 2015	-	356,587	-	(356,587)	-
June 30, 2016	-	(363,869)	-	363,869	363,869
GAAP basis	\$ 43,139,606	\$ 41,480,878	\$ (1,915,908)	\$ (257,180)	\$ 2,782,218

NOTE 3 - CASH DEPOSITS AND INVESTMENTS

Cash Deposits – Custodial Credit Risk

Custodial credit risk is the risk that, in the event of a bank failure, the District will not be able to recover its cash deposits or will not be able to recover collateral securities that are in the possession of an outside party. The District does not have a deposit policy for custodial credit risk. As of June 30, 2016, the carrying amount of the District's cash deposits was \$870,216. As of June 30, 2016, \$1,050,350 of the District's bank balance of \$1,712,214 was exposed to custodial credit risk as follows:

Uninsured and uncollateralized	\$ 945,315
Uninsured and collateralized with securities held by the pledging	
bank's trust department or agent but not in the District's name	 105,035
	\$ 1,050,350

All of the District's cash deposits were in qualified public institutions as defined by Connecticut state statute. Under this statute, any bank holding public deposits must at all times maintain, segregated from its other assets, eligible collateral in an amount equal to a certain percentage of its public deposits. The applicable percentage is determined based on the bank's risk-based capital ratio. The amount of public deposits is determined based on either the public deposits reported on the most recent quarterly call report, or the average of the public deposits reported on the four most recent quarterly call reports, whichever is greater. The collateral is kept in the custody of the trust department of either the pledging bank or another bank in the name of the pledging bank.

A reconciliation of the District's cash deposits as of June 30, 2016 is as follows:

Government-wide statement of net position:	
Cash and cash equivalents	\$ 3,895,036
Less: cash equivalents considered investments	
for disclosure purposes	3,597,760_
	297,276_
Statement of fiduciary net position:	
Cash and cash equivalents	888,957
Less: cash equivalents considered investments	
for disclosure purposes	316,017
	572,940
	\$ 870,216
	· · · · · · · · · · · · · · · · · · ·

NOTE 3 - CASH DEPOSITS AND INVESTMENTS (Continued)

Investments

A reconciliation of the District's investments as of June 30, 2016 is as follows:

Government-wide statement of net position:	
Investments	\$ -
Add: cash equivalents considered investments	
for disclosure purposes	3,597,760
	3,597,760
Statement of fiduciary net position:	
Investments	4,564,499
Add: cash equivalents considered investments	
for disclosure purposes	316,017
	4,880,516
	\$ 8,478,276

As of June 30, 2016, the District's investments consist of the following:

Investment type	Valuation Basis	Credit Rating	Value	Investment Maturities (In Years) Less Than 1
Debt Securities:			- Value	
Governmental activities:				
Repurchase agreement	Amortized cost	Unrated	\$ 3,597,760	\$3,597,760
Fiduciary Funds:				
Money market mutual funds	Net asset value	Unrated	316,017	316,017
			3,913,777	\$3,913,777
Other Investments:				
Fiduciary Funds:				
Mutual funds	Fair value	N/a	4,443,575	
Equity securities	Fair value	N/a	120,924	
			\$ 8,478,276	

Because the money market mutual funds have weighted average maturities of less than 90 days, they are presented as investments with maturities of less than one year.

NOTE 3 - CASH DEPOSITS AND INVESTMENTS (Continued)

Investments (Continued)

Interest Rate Risk

The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk

The District has no investment policy that would further limit its investment choices beyond those limited by Connecticut state statutes ("Statutes"). Connecticut state statutes permit the District to invest: (1) in obligations of the United States, including its instrumentalities and agencies; (2) in obligations of any state or of any political subdivision, authority or agency thereof, provided such obligations are rated within one of the top two rating categories of any recognized rating service; (3) in shares or other interests in custodial arrangements or pools maintaining constant net asset values and in highly rated no-load open end money market and mutual funds (with constant or fluctuating net asset values) whose portfolios are limited to obligations of the United States and its agencies, and repurchase agreements fully collateralized by such obligations; or (4) in obligations of the State of Connecticut or of any political subdivision thereof, provided such obligations are rated within one of the top three rating categories of any recognized rating service. Other provisions of the Statutes cover specific municipal funds with particular investment authority. The provisions of the Statutes regarding the investment of pension funds do not specify permitted investments. Therefore, the investment of such funds is generally controlled by the laws applicable to fiduciaries and the provisions of the applicable plan.

The District's investments in debt securities were unrated at June 30, 2016.

Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of the failure of a counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The District does not have a policy for custodial credit risk. The District's reverse repurchase agreement was not exposed to custodial credit risk as of June 30, 2016 because it was held by the buyer-lender. The District's other investments were not exposed to custodial credit risk as of June 30, 2016 because their existence was not evidenced by securities that exist in physical or book entry form.

Concentrations of Credit Risk

The District places no limit on the amount of investment in any one issuer. As of June 30, 2016, 100% or \$3,597,760 of the District's investments within its governmental activities were invested in an overnight repurchase agreement. The underlying securities were held for the benefit of the District at the Federal Home Loan Bank of Boston. In addition, as of June 30, 2016, 11.5% or \$563,620 of the District's fiduciary investments were invested in the PIMCO Total Return Class R Fund issued by PIMCO.

NOTE 4 - FAIR VALUE MEASUREMENTS

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants, as of the measurement date. Authoritative guidance establishes a hierarchy of valuation techniques based upon whether the inputs to those valuation techniques reflect assumptions other market participants would use based upon market data obtained from independent sources (also referred to as observable inputs). The District classifies its assets and liabilities measured at fair value into Level 1 (securities valued using quoted prices from active markets for identical assets), Level 2 (securities not traded on an active market for which market inputs are observable, either directly or indirectly), and Level 3 (securities valued based on unobservable inputs). Investments are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

The District's financial assets that are accounted for at fair value on a recurring basis as of June 30, 2016, by level within the fair value hierarchy are presented in the table below.

Financial Assets Measured at Fair Value	Pri	Prices in Active Market (Level 1)		ant Other ervable puts evel 2)	Unob:	ificant servable puts vel 3)
Mutual funds	\$	4,443,575	\$	-	\$	-
Equity securities		120,924		_		-

NOTE 5 - CAPITAL ASSETS

Capital asset activity for the year ended June 30, 2016 consisted of the following:

	Beginning			Ending
	Balance	Increases	Decreases	Balance
Governmental Activities				
Capital assets, not being depreciated:				
Land	\$ 501,479	\$ -	\$ -	\$ 501,479
Total capital assets, not being depreciated	501,479	-		501,479
Capital assets, being depreciated:				
Buildings and improvements	95,017,218	-	-	95,017,218
Furniture and equipment	4,687,094	607,847	(208,473)	5,086,468
Total capital assets, being depreciated	99,704,312	607,847	(208,473)	100,103,686
Less accumulated depreciation and amortization for:				
Buildings and improvements	38,403,677	2,297,728	-	40,701,405
Furniture and equipment	3,458,909	236,470	(129,268)	3,566,111
Total accumulated depreciation and amortization	41,862,586	2,534,198	(129,268)	44,267,516
Total capital assets, being depreciated, net	57,841,726	(1,926,351)	(79,205)	55,836,170
Governmental activities capital assets, net	\$ 58,343,205	\$ (1,926,351)	\$ (79,205)	\$ 56,337,649

NOTE 5 - CAPITAL ASSETS (Continued)

Depreciation and amortization expense was charged to functions of the District as follows:

Governmental Activities:	
General instruction	\$ 1,755,877
Support services:	
Support services - students	187,389
Improvement of instruction	169,253
Support services - administration	30,145
School-based administration	179,911
Plant operation and maintenance	153,824
Transportation	12,069
Other support services	45,730
Total depreciation and amortization expense	\$ 2,534,198

NOTE 6 - INTERFUND RECEIVABLES AND PAYABLES

Interfund receivable and payable balances at June 30, 2016 are as follows:

Receivable Fund	Payable Fund	Amoun	
Governmental Funds			
Nonmajor governmental funds	General Fund	\$	251,713
	Nonmajor governmental funds		5,452
		\$	257,165

Amounts receivable by the General Fund from other funds are primarily due to the time lag between when goods and services are paid by the General Fund on-behalf of the other funds and when the reimbursement is paid by the other funds to the General Fund.

NOTE 7 - INTERFUND TRANSFERS

Interfund transfers for the year ended June 30, 2016 consisted of the following:

Transfers In	Transfers Out	Amount
Governmental Funds		
Nonmajor governmental funds	General Fund	\$ 2,397,731

Transfers are used (1) to move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them, and (2) to account for unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

NOTE 8 - LONG-TERM LIABILITIES

The following is a summary of changes in long-term liabilities for the year ended June 30, 2016:

	Beginning		_	Ending	Due Within
	Balance	Increases	Decreases	Balance	One Year
Governmental Activities					
Bonds payable:					
General obligation bonds	\$ 18,875,000	\$ -	\$ (1,530,000)	\$ 17,345,000	\$ 1,560,000
Unamortized premiums	953,008		(138,561)	814,447	
Total bonds payable	19,828,008	-	(1,668,561)	18,159,447	1,560,000
Other liabilities:					
Capital leases	303,939	481,823	(161,389)	624,373	222,621
Compensated absences	695,075	40,226	(45,518)	689,783	202,134
Net OPEB obligation (see Note 10)	113,980	41,682	-	155,662	-
Net pension liability (see Note 9)	215,975	212,202		428,177	
	\$ 21,156,977	\$ 775,933	\$ (1,875,468)	\$ 20,057,442	\$ 1,984,755

Bonds payable are liquidated in the Debt Service Fund from use of fund balance and transfers in from the General Fund. All other liabilities are typically liquidated in the General Fund.

Bonds Payable

A summary of bonds payable outstanding at June 30, 2016 is as follows:

	Final		
	Maturity	Interest	Amount
Purpose of Bonds	Dates	Rates	Outstanding
Bonds Payable			
General Obligation Bonds:			
General obligation bonds issued			
8/1/07, original amount of \$10,000,000,			
\$6,735,000 refunded during fiscal year 2015	8/2016	4.00% - 6.00%	\$ 475,000
Consum obligation bonds issued			
<u> </u>	0/2020	2 000/ 4 000/	2 705 000
8/1/10, original amount of \$3,500,000	8/2030	2.00% - 4.00%	2,795,000
General obligation bonds and refunding bonds issued			
4/13/12, original amount of \$8,170,000	8/2025	2.00% - 4.00%	7,095,000
Canada labiastica astrodina banda isorad			
	0/2025	2 000/ 4 000/	6 000 000
8/1/14, original amount of \$7,400,000	8/2025	2.00% - 4.00%	6,980,000
			\$17,345,000
	8/2030 8/2025 8/2025	2.00% - 4.00% 2.00% - 4.00% 2.00% - 4.00%	6,980,000

NOTE 8 - LONG-TERM LIABILITIES (Continued)

Bonds Payable (Continued)

Annual debt service repayments to maturity at June 30, 2016 are as follows:

Year ending	General Obligation Bonds			
June 30:	Principal	Interest	Total	
2017	\$ 1,560,000	\$ 555,589	\$ 2,115,589	
2018	1,285,000	513,962	1,798,962	
2019	1,320,000	472,162	1,792,162	
2020	1,435,000	420,562	1,855,562	
2021	1,485,000	368,563	1,853,563	
2022-2026	7,725,000	1,073,679	8,798,679	
2027-2031	2,535,000	154,813	2,689,813	
	\$ 17,345,000	\$ 3,559,330	\$ 20,904,330	

As of June 30, 2016, the District has no authorized and unissued bonds.

School Bond Reimbursements

The State of Connecticut reimburses the District for eligible school bond principal and interest costs. The amount of principal and interest reimbursements for the year ended June 30, 2016 was \$139,933 and \$4,454, respectively. Additional reimbursements of principal and interest in the amounts of \$139,939 and \$1,488, respectively, are expected to be received through the applicable bonds' maturity dates.

Debt Refundings

In prior years, the District advanced refunded general obligation bonds to reduce its total future debt service payments. The amount for which the reacquisition price exceeded the carrying amount of the old debt, has been presented as a deferred charge on refunding and is being amortized over the remaining life of the refunded debt, which is shorter than the life of the new debt issued. The carrying value of the deferred charges on refundings totaled \$903,344 as of June 30, 2016 and amortization expense for the year ended June 30, 2016 totaled \$157,142.

Legal Debt Limit

The District did not exceed its statutory debt limitations as of June 30, 2016.

Capital Leases

A summary of assets under capital leases is as follows as of June 30, 2016:

Equipment	\$ 834,849
Less: accumulated amortization	304,314
	\$ 530,535

Amortization expense relative to leased property under capital leases totaled \$120,322 for the year ended June 30, 2016 and is included in depreciation and amortization expense disclosed in Note 5.

NOTE 8 - LONG-TERM LIABILITIES (Continued)

Capital Leases (Continued)

The future minimum lease obligations and the net present value of these minimum lease payments as of June 30, 2016 are as follows:

Year ending June 30:	
2017	\$ 241,345
2018	241,345
2019	79,956
2020	 79,936
Total minimum lease payments	642,582
Less: amount representing interest	 18,209
Present value of minimum lease payments	\$ 624,373

NOTE 9 - PENSION PLANS

Defined Contribution Plans

Custodial and Maintenance Employees' Plan

The District maintains a single employer defined contribution plan (the "Plan"). Under the provisions of the Plan, all full-time custodial and maintenance employees (except those covered under a comparable employer plan) who are at least 21 years of age and have twelve months of service to the District are eligible. Participation in the Plan is optional. The District is required to contribute an amount equal to 5.5% of participants' compensation. Employee contributions are permitted through the use of individual 403(b) participant accounts, under which a participant can contribute on a pre-tax basis. Such accounts are included in the Plan.

The Plan does not issue stand-alone financial statements and is part of the District's financial reporting entity since the District has trustee responsibilities related to the participant accounts, which contain employer contributions. As such, the Plan is accounted for in the fiduciary fund financial statements as a pension trust fund.

The Plan is accounted for using the accrual basis of accounting. Employee contributions are recognized in the period in which the contributions are due. District contributions are recognized when due and the District has made a formal commitment to provide contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the Plan. Investments are reported at fair value. Securities traded on national exchanges are valued at the last reported sales price. Investment income is recognized when earned and gains and losses on sales or exchanges are recognized on the transaction date.

Contribution requirements of the District are established and may be amended by the Board. Employer and employee contributions totaled \$63,234 and 39,460, respectively, for the year ended June 30, 2016.

NOTE 9 - PENSION PLANS (Continued)

Defined Contribution Plans (Continued)

Employees' Defined Contribution Plan

The District established a single employer defined contribution plan (the "Plan"), effective July 1, 2003, for participants in the existing defined benefit pension plan as well as newly eligible employees. Under the provisions of the Plan, all full-time employees (except those covered under a comparable employer plan), who are at least 21 years of age and have six months of service in the District, may participate. Participation in the Plan is optional. The District is required to contribute an amount equal to 50% of participants' contributions up to 3% of participants' base compensation. In addition, the District may make discretionary contributions equal to 2% of the participants' base compensation. Employees may annually contribute on a pre-tax basis up to 100% of their salary, subject to IRS limitations.

The Plan does not issue stand-alone financial statements and is part of the District's financial reporting entity since the District has trustee responsibilities related to the participant accounts which contain employer contributions. As such, the Plan is accounted for in the fiduciary fund financial statements as a pension trust fund.

The Plan is accounted for using the accrual basis of accounting. Employee contributions are recognized in the period in which the contributions are due. District contributions are recognized when due and the District has made a formal commitment to provide contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the Plan. Investments are reported at fair value. Securities traded on national exchanges are valued at the last reported sales price. Investment income is recognized when earned and gains and losses on sales or exchanges are recognized on the transaction date.

Contribution requirements of the District are established and may be amended by the Board. Employer and employee contributions totaled \$70,886 and \$183,194, respectively, for the year ended June 30, 2016.

Defined Benefit Pension Plan

Plan Description

Plan administration - The District maintains a single employer, contributory defined benefit pension plan (the "Plan"). The Plan covers all full time employees who met the eligibility requirements of the Plan and who were fully vested prior to July 1, 2003, except certified teachers covered by the State Teachers' Retirement System. The Plan does not issue stand-alone financial statements and is part of the District's financial reporting entity. As such, the Plan is accounted for in the fiduciary fund financial statements as a pension trust fund.

Plan membership - Membership of the Plan consisted of the following at July 1, 2015, the date of the latest actuarial valuation:

Retirees and beneficiaries receiving benefits	18
Terminated employees entitled to benefits but not	
yet receiving them	1
Active plan members	12
Total	31

NOTE 9 - PENSION PLANS (Continued)

Defined Benefit Pension Plan (Continued)

Plan Description (Continued)

Benefits provided - The Plan provides for retirement benefits for all members.

Pension benefits for normal retirement under the Plan are based on the average monthly compensation during the 5 consecutive years of service which the participant's earnings were at their highest level. The participant's monthly benefit shall be equal to 1.8% of the average monthly compensation multiplied by the total number of years of employment with the District (limited to 40 years).

Benefit provisions are established and can be amended by the Board.

Contributions - The contribution requirements of Plan members and the District are established and may be amended by the Board. The Plan's funding policy provides for periodic District contributions at rates that, when expressed as a percentage of annual covered payroll, are designed to accumulate sufficient assets to pay benefits when due. Participants are required to contribute 5.0% of their annual earnings. The contribution rate for normal costs was determined using the Aggregate Actuarial Cost Method.

For the year ended June 30, 2016, employer contributions to the Plan totaled \$105,000 and represented 28.7% of covered payroll.

Other plan provisions - The Plan does not provide disability benefits.

Summary of Significant Accounting Policies

The Plan is accounted for using the accrual basis of accounting. Plan members' contributions are recognized in the period in which the contributions are due. District contributions to the Plan are recognized when due and the District has made a formal commitment to provide contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the Plan.

Investments - Investments are reported at fair value, except for investments money market mutual fund which are permitted to be measured at the net asset value per share as determined by the fund. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates.

Investment Policy - The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. It is the practice of the District to pursue an investment strategy that reduces risk through prudent diversification of the portfolio across a broad selection of distinct asset classes. The following was the asset allocation as of June 30, 2016:

Asset Class	Target Allocation
Mutual Funds	94%
Equity securities	6%

Rate of return - For the year ended June 30, 2016 the annual money-weighted rate of return on pension plan investments, net of pension plan investment expenses, was 2.80%. The money-weighted rate of return expresses investment performance, net of investment expense adjusted for the changing amounts actually invested.

NOTE 9 - PENSION PLANS (Continued)

Defined Benefit Pension Plan (Continued)

Summary of Significant Accounting Policies (Continued)

Concentrations - Investments in certain mutual funds exceeded 5.0% of the Plan's net position. However, mutual funds are not generally considered to be exposed to concentration risks as such investments are considered diversified by nature.

Net Pension Liability

The components of the District's net pension liability of the Plan at June 30, 2016, was as follows:

Total pension liability	\$ 2,848,680
Plan fiduciary net position	2,420,503
District's net pension liability	\$ 428,177
Plan fiduciary net position as a percentage	
of the total pension liability	85.0%

The components of the changes in the net pension liability for the Plan for the year ended June 30, 2016, was as follows:

	Increase (Decrease)				
	То	tal Pension Liability (a)	Plan Fiduciary Net Position (b)	Liab	t Pension pility (Asset) (a) - (b)
Balance as of June 30, 2015	\$	2,758,793	\$ 2,542,818	\$	215,975
Changes for the year:					
Service cost		62,762	-		62,762

Balance as of June 30, 2016	\$	2,848,680	\$ 2,420,503	\$	428,177

NOTE 9 - PENSION PLANS (Continued)

Defined Benefit Pension Plan (Continued)

Net Pension Liability (Continued)

Actuarial assumptions - The total pension liability for the Plan was determined by an actuarial valuation as of July 1, 2015, using the following actuarial assumptions, applied to all periods included in the measurement:

Salary increases	2.50%
Investment rate of return	7.00%

Mortality rates were based on the RP-2000 Unisex Healthy Annuitant Mortality Table, with adjustments to the valuation year for mortality improvements based on Scale AA.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2016 are summarized in the following table:

		Long-term expected
Asset Class	Target Allocation	Rate of Return
Cash	0%	1.5%
Mutual Funds	94%	4.5%
Equity Securities	6%	4.5%

The discount rate used to measure the total pension liability was 7.0%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that the District's contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the net pension liability to changes in the discount rate - The following presents the net pension liability of the District, calculated using the discount rate of 7.0%, as well as what the District's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.0%) or 1-percentage-point higher (8.0%) than the current rate:

	 Discount Rate				
	 6.0%		7.0%		8.0%
Net pension liability	\$ 653,078	\$	428,177	\$	229,770

NOTE 9 - PENSION PLANS (Continued)

<u>Defined Benefit Pension Plan (Continued)</u>

Pension Expense and Deferred Outflows/Inflows of Resources

For the year ended June 30, 2016, the District recognized pension expense of \$144,118. At June 30, 2016 the District reported deferred outflows and inflows of resources related to the Plan from the following sources:

	Deferred Outflows of Resources		(In	Deferred flows) of esources
Net difference between projected and actual earnings on pension plan investments Differences between expected and actual	\$	266,969	\$	(18,321)
experience		-		(38,114)
Change of assumptions				
Total	\$	266,969	\$	(56,435)

Amounts reported as deferred outflows and inflows of resources related to the Plan will be recognized as a component of pension expense in future years as follows:

		Amortization of Deferred Outflows (Inflows) of Resources	
Year ended June 30,	_		
2017		\$	46,962
2018			46,962
2019			69,310
2020	_		47,300
Total	_	\$	210,534

State Teachers' Retirement System

The faculty and professional personnel of the District participate in the Teachers' Retirement System ("TRS"), which is a cost-sharing multiple-employer defined benefit pension plan established under Chapter 167a of the Connecticut General Statutes. The TRS is administered by the Connecticut State Teachers' Retirement Board (the "Board") and is included as a fiduciary pension trust fund in the State of Connecticut's basic financial statements.

Plan benefits, cost-of-living allowances, required contributions of plan members and the State, and other plan provisions are described in Sections 10-183b to 10-183ss of the Connecticut General Statutes. The plan provides retirement, disability, death benefits, and annual cost-of-living adjustments to plan members and their beneficiaries.

NOTE 9 - PENSION PLANS (Continued)

State Teachers' Retirement System (Continued)

The contribution requirements of plan members and the State are established and may be amended by the State legislature. In accordance with Section 10-183z of the General Statues, the District does not and is not legally responsible to contribute to the plan as a special funding situation exists that requires the State to contribute one hundred percent of employer's contributions on-behalf of its participating municipalities at an actuarially determined rate. Plan members are currently required to contribute 7.25% of their annual earnings to the plan. After five years of service, teachers are fully vested in their own contributions. After ten years of service, teachers are fully vested in the monthly pension benefit which is payable at the age of sixty. For the year ended June 30, 2016, plan members of the District contributed \$1,251,426 to the plan and covered payroll for the year was \$17,261,048. The District has recognized on-behalf payments of \$4,216,874 made by the State of Connecticut into the plan as intergovernmental revenues and related expenditures of the General Fund in the accompanying statement of revenues, expenditures and changes in fund balances of the governmental funds.

Administrative costs of the plan are funded by the State.

The total estimated net pension liability of the TRS as of June 30, 2015 was \$10.97 billion, the most recent available reporting provided by the Board. The portion that was associated with the District totaled approximately \$48.95 million or approximately 0.45% of the total estimated net pension liability. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2015. The portion of the net pension liability associated with the District was based on a projection of the long-term share of contributions to the plan related to the District relative to the projected contributions of all participating employers, actuarially determined. For the year ended June 30, 2016, the District recognized pension expense and on-behalf revenues of \$4,216,874 in the accompanying statement of changes in net position of the governmental activities.

The total pension liability in the June 30, 2015 actuarial valuation was determined using the following actuarial assumptions, applied to all periods in the measurement:

Inflation 3.0%

Salary increases 3.75% - 7.0% (includes inflation)
Investment rate of return 8.5% (includes inflation)
Cost of living adjustments:

Retirements prior to 9/1/1992 minimum 3%, maximum 5.0% maximum 6.0%, if ROA in previous year was less than 8.5%, maximum

increase is 1.5%

For healthy retirees and beneficiaries, the RP-2000 Combined Mortality Table projected forward 19 years using scale AA, with a two-year setback for males and females.

NOTE 9 - PENSION PLANS (Continued)

State Teachers' Retirement System (Continued)

The long-term expected rate of return on pension plan investments was determined using a building block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

		Long-term
	Target	Expected Real
Asset Class	Allocation	Rate of Return
Large Cap U.S. Equities	21.0%	7.30%
Developed Non-U.S. Equities	18.0%	7.50%
Emerging Markets (Non-U.S.)	9.0%	8.60%
Core Fixed Income	7.0%	1.70%
Inflation Linked Bonds	3.0%	1.30%
Emerging Market Bonds	5.0%	4.80%
High Yield Bonds	5.0%	3.70%
Real Estate	7.0%	5.90%
Private Equity	11.0%	10.90%
Alternative Investment	8.0%	0.70%
Cash	6.0%	0.40%
	100.0%	

The discount rate used to measure the total pension liability was 8.50%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that State contributions will be made at the actuarially determined rates in future years. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 8.50%, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (7.50%) or 1-percentage-point higher (9.50%) than the current rate:

	1.00% Decrease (7.5%)		(Current		1.00%
			Rate (8.5%)		Increase (9.5%)	
District's Proportionate share of the		<u>, , , , , , , , , , , , , , , , , , , </u>		<u>(/</u>		(/
net pension liability (expressed in thousands)	\$	61,732	\$	48,952	\$	38,088

Detailed information about the plan's fiduciary net position is included in the State of Connecticut's basic financial statements.

NOTE 10 - OTHER POST-EMPLOYMENT BENEFITS (OPEB)

Description of Retiree Welfare Benefits

The District provides healthcare benefits for eligible retirees and their families through the District's group medical and dental insurance plans, which cover both active and retired members. Benefit provisions are established through negotiations between the District and the union representing the employees and are renegotiated each three-year bargaining period.

Funding Policy

Contribution requirements of the participants and the District are established by and may be amended through negotiations between the District and the union representing the employees. Currently, retirees are required to contribute 100% of their medical and dental premiums to the District, less any reimbursements received by the District from the State Retirement Board. The District pays the benefits on a pay-as-you-go basis.

Annual OPEB Cost and Net OPEB Obligation

The District's annual OPEB cost (expense) is calculated based on the annual required contribution ("ARC"), which is an amount actuarially determined. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed thirty years. The District's annual OPEB cost and net OPEB obligation are entirely attributed to an implicit rate subsidy, whereby retirees are considered to be receiving a benefit from the District for access to premium rates offered to the District's active employees.

The following table shows the components of the District's annual OPEB cost for the year, the amount actually contributed by the District for such benefits, and changes in the District's net OPEB obligation.

Annual required contribution	\$ 127,959
Interest on net OPEB obligation	3,989
Adjustment to annual required contribution	(5,988)
Amortization of Actuarial (Gains)/Losses	24,451
Annual OPEB cost (expense)	150,411
Contributions made	108,729
Increase in net OPEB obligation	41,682
Net OPEB obligation, beginning of year	113,980
Net OPEB obligation, end of year	\$ 155,662

NOTE 10 - OTHER POST-EMPLOYMENT BENEFITS (OPEB) (Continued)

Annual OPEB Cost and Net OPEB Obligation (Continued)

The District's annual OPEB cost, the percentage of annual OPEB cost contributed by the District for such benefits, and the net OPEB obligation for fiscal year 2016 is as follows:

			Percentage of		
	Year Ended	Annual	Annual OPEB	N	let OPEB
_	June 30	OPEB Cost	Cost Contributions	_ 0	bligation
	2016	\$ 150.411	72.3%	\$	155.662

Funded Status and Funding Progress

The funded status of the benefit obligation as of July 1, 2015 (the date of the most recent actuarial valuation) was as follows:

			Actu	arial Accrued					
	Actuar	ial	Lia	bility (AAL)					UAAL as a
	Value	of	Ent	try Age Cost	Underfunded	Funded	(Covered	Percentage of
Actuarial	Asset	:S		Method	AAL (UAAL)	Ratio		Payroll	Covered Payroll
Valuation Date	(A)			(B)	(B-A)	(A/B)		(C)	((B-A)/C)
July 1, 2015	\$	-	\$	1,677,771	\$ 1,677,771	0.0%	\$	22,911,182	7.3%

The projection of future benefit payments for an ongoing plan involves estimates of the value of reported amounts and assumptions about the probability of events in the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the District are subject to continual revision, as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information (RSI) following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Actuarial Methods and Assumptions

Projections of benefits are based on the substantive plan (the plan as understood by the District and plan members) and include the types of benefits in force at the valuation date and the pattern of sharing of benefit costs between the District and the plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations on the pattern of cost sharing between the District and plan members in the future. Actuarial calculations reflect a long-term perspective and employ methods and assumptions that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets.

NOTE 10 - OTHER POST-EMPLOYMENT BENEFITS (OPEB) (Continued)

Actuarial Methods and Assumptions (Continued)

Significant methods and assumptions were as follows:

Valuation date July 1, 2015
Actuarial cost method Individual Entry
Age Normal
Cost Method

Amortization method Level Dollar
Remaining amortization period 23 years at July 1, 2015
Asset valuation method Market Value

Actuarial assumptions (includes inflation rate):

Investment rate of return 3.50%
Inflation rate 2.75%
Healthcare cost trend rate 5.00%

NOTE 11 - DEFERRED COMPENSATION PLAN

The District offers a deferred compensation plan for all employees in accordance with Internal Revenue Code Section 403(b). In addition, employees of the District may participate in the State of Connecticut's deferred compensation plan created in accordance with Internal Revenue Code Section 457(b). Deferred compensation is not available to participants until termination, retirement, death, or unforeseeable emergency.

All amounts of compensation deferred under the plans, all property and rights purchased with those amounts, and all income attributable to those amounts, property or rights are held in trust for the exclusive benefit of the plan participants and their beneficiaries. In addition, the District has no liability for losses under the plan. Therefore, the accounts of the deferred compensation plans are not reported in the basic financial statements of the District.

NOTE 12 - RISK MANAGEMENT

The District is exposed to various risks of loss related to torts, theft of, damage to, or destruction of assets; errors or omissions; injuries to employees or acts of God for which the District carries commercial insurance. During fiscal year 2016, deductibles paid by the District were insignificant. Neither the District nor its insurers have settled any claims which exceeded the District's insurance coverage in any of the last three fiscal years. There have been no significant reductions in any insurance coverage from amounts in the prior year.

NOTE 13 - CONTINGENCIES

There are several lawsuits pending against the District. The outcome and eventual liability to the District, if any, in these cases is not known at this time. The District's management, based upon consultation with legal counsel, estimates that potential claims against the District, not covered by insurance, resulting from such litigation would not materially affect the financial position of the District.

The District has received state and federal grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to requests for reimbursements to the grantor agency for any expenditure disallowed under terms of the grant. Based on prior experience, District management believes such disallowances, if any, will not be material.

NOTE 14 - IMPACT OF NEW ACCOUNTING STANDARDS NOT YET EFFECTIVE

In June 2015, the GASB issued Statement No. 74, Financial Reporting for Postemployment Benefit Plans other than Pension Plans. This statement establishes new accounting and financial reporting requirements for OPEB plans included in the general purpose external financial reports of state and local governmental OPEB plans and replaces the requirements of GASB Statements No. 43, Financial Reporting for Postemployment Benefit Plans other than Pension Plans, as amended, and GASB Statement No. 57, OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans. The requirements of this statement are effective for the District's reporting period beginning July 1, 2016. The District currently provides other post-employment benefits to certain eligible employees. The District has not yet determined the impact that this statement will have on its financial statements.

In June 2015, the GASB issued Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits other than Pensions. This statement establishes new accounting and financial reporting requirements for OPEB plans and replaces the requirements of GASB Statements No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions, as amended, and GASB Statement No. 57, OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans, for OPEB. The requirements of this statement are effective for the District's reporting period beginning July 1, 2017. The District currently provides other post-employment benefits to certain eligible employees. The District has not yet determined the impact that this statement will have on its financial statements.

In August 2015, the GASB issued Statement No. 77, *Tax Abatement Disclosures*. This statement establishes disclosure of information about the nature and magnitude of tax abatements to allow users of the financial statements to understand 1) how tax abatements affect a government's future ability to raise resources and meets its financial obligations and 2) the impact those abatements have on a government's financial position and economic condition. The requirements of this statement are effective for the District's reporting period beginning July 1, 2016. The District does not expect this statement to have a material effect on its financial statements.

In December 2015, the GASB issued Statement No. 78, Pensions Provided through Certain Multiple-Employer Defined Benefit Pension Plans. This statement amends the scope and applicability of Statement 68 to exclude pensions provided to employees of state or local governmental employers through a cost-sharing multiple-employer defined benefit pension plan that (1) is not a state or local governmental pension plan, (2) is used to provide defined benefit pensions both to employees of state or local governmental employers and to employees of employers that are not state or local governmental employers, and (3) has no predominant state or local governmental employer (either individually or collectively with other state or local governmental employers that provide pensions through the pension plan). The requirements of this statement are effective for the District's reporting period beginning July 1, 2016. The District does not expect this statement to have a material effect on its financial statements.

In December 2015, the GASB issued Statement No. 79, Certain External Investment Pools and Pool Participants. This statement addresses accounting and financial reporting for certain external investment pools and pool participants. Specifically, it establishes criteria for an external investment pool to qualify for making the election to measure all of its investments at amortized cost for financial reporting purposes. Certain provisions of this statement are effective for the District's reporting period beginning July 1, 2016. The District does not expect this statement to have a material effect on its financial statements.

In January 2016, the GASB issued Statement No. 80, Blending Requirements for Certain Component Units – an amendment of GASB Statement No. 14. This statement amends the blending requirements established in GASB Statement No. 14, The Financial Reporting Entity, as amended. The requirements of this statement are effective for the District's reporting period beginning July 1, 2017. The District does not expect this statement to have a material effect on its financial statements.

NOTE 14 - IMPACT OF NEW ACCOUNTING STANDARDS NOT YET EFFECTIVE (Continued)

In March 2016, the GASB issued Statement No. 81, *Irrevocable Split-Interest Agreements*. This statement addresses accounting and financial reporting for irrevocable split-interest agreements by providing recognition and measurement guidance for situations in which a government is a beneficiary of the agreement. The requirements of this statement are effective for the District's reporting period beginning July 1, 2017. The District does not expect this statement to have a material effect on its financial statements.

In March 2016, the GASB issued Statement No. 82, Pension Issues – an amendment of GASB Statements No. 67, No. 68 and No. 73. This statement addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practice for financial reporting purposes, and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements. The requirements of this statement are effective for the District's reporting period beginning July 1, 2017. The District does not expect this statement to have a material effect on its financial statements.

REQUIRED SUPPLEMENTARY INFORMATION

REGIONAL SCHOOL DISTRICT NO. 10 SCHEDULE OF CHANGES IN NET PENSION LIABILITY PENSION PLAN (UNAUDITED)

	2016	2015	2014
Total pension liability			
Service cost	\$ 62,762	\$ 62,232	\$ 44,341
Interest	186,677	189,672	190,447
Changes in benefit terms	-	-	-
Differences between expected and actual experience	24,427	(108,957)	25,798
Changes of assumptions	-	-	-
Benefit payments, including refunds	(183,979)	 (187,373)	 (178,035)
Net change in total pension liability	89,887	 (44,426)	 82,551
Total pension liability - beginning	2,758,793	2,803,219	2,720,668
Total pension liability - ending	2,848,680	2,758,793	2,803,219
Plan fiduciary net position			
Contributions - employer	105,000	175,000	225,000
Contributions - members	22,016	22,075	24,024
Net investment income	(29,292)	111,706	323,455
Benefit payments, including refunds	(183,559)	(187,373)	(178,035)
Other	(36,480)	(37,064)	(38,161)
Net change in plan fiduciary net position	(122,315)	84,344	356,283
Plan fiduciary net position - beginning	2,542,818	2,458,474	2,102,191
Plan fiduciary net position - ending	2,420,503	2,542,818	2,458,474
District's net pension liability	\$ 428,177	\$ 215,975	\$ 344,745
Plan fiduciary net position as a percentage			
of total pension liability	84.97%	92.17%	87.70%
Covered employee payroll	\$ 442,124	\$ 441,500	\$ 469,968
District's net pension liability as a percentage of covered employee payroll	96.85%	48.92%	73.35%

NOTES TO THE SCHEDULE:

The District began to report the schedule of changes in net pension liability when it implemented GASB Statement No. 67 in fiscal year 2014.

Benefit changes: There have been no changes in benefit terms that have affected the measurement of the total pension liability.

Assumption Changes: There have been no changes in assumptions or methods from prior years that have affected the measurement of the total pension liability.

REGIONAL SCHOOL DISTRICT NO. 10 SCHEDULE OF CONTRIBUTIONS AND INVESTMENT RETURNS PENSION PLAN (UNAUDITED)

	2016	2015	2014
Actuarially determined contribution	\$ 126,038	\$ 151,312	\$ 204,948
Contributions in relation to the actuarially determined contribution	127,016	197,075	249,024
Excess Contribution	\$ (978)	\$ (45,763)	\$ (44,076)
Covered employee payroll	\$ 442,124	\$ 441,500	\$ 469,968
Contributions as a percentage of covered employee payroll	28.73%	44.64%	52.99%
Annual money-weighted rate of return, net of investment expense	2.80%	3.14%	13.78%

NOTES TO THE SCHEDULE:

The District began to report the schedule of changes in net pension liability when it implemented GASB Statement No. 67 in fiscal year 2014.

Actuarially determined contribution rates are calculated as of July 1, two years prior to the end of the fiscal year in which contributions are reported.

Methods and assumptions used to determine contribution rates:

Actuarial cost method Aggregate Actuarial Cost Method

Amortization method Not applicable
Remaining amortization period Not applicable
Asset valuation method Market value

Investment rate of return 7.0%

Salary increases 2.5%, includes inflation Retirement age Normal retirement age

REGIONAL SCHOOL DISTRICT NO. 10 SCHEDULE OF THE DISTRICT'S PROPORTIONATE SHARE OF THE NET PENSION LIABILITY CONNECTICUT STATE TEACHERS' RETIREMENT SYSTEM

(Dollar amounts in thousands)

	2016	2015
Proportion of the net pension liability attributed to the District	0.446%	0.446%
District's proportionate share of the net pension liability	\$ -	\$ -
State's proportionate share of the net pension liability attributed to the District Total	48,951 \$ 48,951	45,246 \$ 45,246
District's covered payroll	\$ 17,261	\$ 16,895
District's proportionate share of the net pension liability as a percentage of its covered payroll	0.0%	0.0%
Plan fiduciary net position as a percentage of the total pension liability	59.50%	61.51%

NOTES TO THE SCHEDULE:

The District began to report this schedule when it implemented GASB Statement No. 68 in fiscal year 2015.

The total pension liability reported for each fiscal year is based on a measurement date as of the end of the prior fiscal year (i.e. the total pension liability reported for 2016 is based on a June 30, 2015 measurement date).

Benefit changes: There were no changes in benefit terms that affected the measurement of the total pension liability.

Changes in assumptions: There were no changes in assumptions that affected the measurement of the total pension liability.

REGIONAL SCHOOL DISTRICT NO. 10 SCHEDULES OF FUNDING PROGRESS OTHER POST-EMPLOYMENT BENEFITS (UNAUDITED) JUNE 30, 2016
