Boardman Local School District –Mahoning County
Notes to the Five Year Forecast
General Fund Only
November 20, 2023

Introduction to the Five-Year Forecast

A forecast is like a future painting based on a snapshot of today. That snapshot, however, will be adjusted because the further into the future the forecast extends, the more likely it is that the projections will deviate from experience. Various events will ultimately impact the latter years of the forecast, such as state budgets (adopted every two years), tax levies (new/renewal/replacement), salary increases, or businesses moving in or out of the district. The five-year forecast is a crucial management tool and must be updated periodically. The five-year forecast enables district management teams to examine future years' projections and identify when challenges will arise. This then helps district management to be proactive in meeting those challenges. School districts are encouraged to update their forecasts with ODE when events significantly change their forecast or, at a minimum when required under the statute.

In a financial forecast, the numbers only tell a small part of the story. For the numbers to be meaningful, the reader must review and consider the Assumptions of the Financial Forecast before drawing conclusions or using the data as a basis for other calculations. The assumptions are fundamental to understanding the rationale of the numbers, particularly when a significant increase or decrease is reflected.

Since the preparation of a meaningful five-year forecast is as much an art as it is a science and entails many intricacies, it is recommended that you contact the Treasurer/Chief Fiscal Officer of the school district with any questions you may have. The Treasurer/CFO submits the forecast, but the Board of Education is recognized as the official owner of the forecast.

Here are three essential purposes or objectives of the five-year forecast:

- (1) To engage the local board of education and the community in long-range planning and discussions of financial issues facing the school district
- (2) To serve as a basis for determining the school district's ability to sign the certificate required by O.R.C. §5705.412, commonly known as the "412 certificate"
- (3) To provide a method for the Department of Education and Auditor of State to identify school districts with potential financial problems.

O.R.C. §5705.391 and O.A.C. 3301-92-04 require a Board of Education (BOE) to file a five-year financial forecast by November 30, 2023, and May 31, 2024, for the fiscal year 2024 (July 1, 2023, to June 30, 2024). The five-year forecast includes three years of actual and five years of projected general fund revenues and expenditures. The fiscal year 2024 (July 1, 2023-June 30, 2024) is the first year of the five-year forecast and is considered the baseline year. Our forecast is updated to reflect the most current economic data available for the November 2023 filing.

Economic Outlook

This five-year forecast is submitted during the multiyear economic recovery following the 2020 COVID-19 Pandemic. The recovery began in the fall of 2020 and remains robust through this forecast date. Many supply chain concerns have lessened as manufacturing has caught up. However, persistently high inflation continues to impact our state, country, and broader globalized economy. Inflation in June 2022 hit a 40-year high of 9.1% before falling to the current annualized rate of 3.4% in August 2023. Costs in FY23 were notably impacted in areas such as capital and durable goods, diesel fuel for buses, electric, natural gas, and building materials for facility maintenance and repair. Increased inflation affecting district costs is expected to continue in FY24. However, the Federal Reserve is projecting inflation to be closer to their target rate of 2% sometime in calendar

2024. It remains to be seen if the cumulative cost increases over the past two years are transitory in goods and services or will last over several years, which could adversely impact our forecast.

The Federal Reserve Bank has made fighting inflation its number one concern. Interest rates are expected to increase again before December 2023, which may result in increased unemployment. Still, many economists anticipate a “full employment recession” in the first half 2024. In the history of our country, there has never been a full employment recession. However, the possibility of one underscores why this is a very unique time in our economic history.

As noted in the graphs below, the state of Ohio has enjoyed economic growth over the past three years, and the state’s Rainy Day Fund is at \$3.7 Billion, which is a record high. School funding cuts made in FY20 have been fully restored, and a new state funding formula is in the third year of a projected six-year phase-in. While increased inflation impacting district costs is expected to continue over the next few years, the state’s economy has grown, and many school districts received new funding in HB33 for FY24 and FY25. The ongoing growth in Ohio’s economy should enable the state to continue the phase-in of the new funding formula even if a cyclical recession occurs. Regardless, the state is well-positioned to continue state aid payments to Ohio’s school districts.

While all school districts are being aided by three (3) rounds of federal Elementary and Secondary Schools Emergency Relief Funds (ESSER), which began in the fiscal year 2020, the most recent allocation of ESSER funds must be spent or encumbered by September 30, 2024. Any ongoing costs are absorbed back into the district General Fund. ESSER funds positively impacted school resources.

Data and assumptions noted in this forecast are based on the best and most reliable data available to us as of the date of this forecast.

Forecast Risks and Uncertainty:

A five-year financial forecast has risks and uncertainty not only due to economic delays noted above but also due to state legislative changes that will occur in the spring of 2025 and 2027 due to deliberation of the following two (2) state biennium budgets for FY26-27 and FY28-29, both of which affect this five-year forecast. We have estimated revenues and expenses based on the best data available and the laws currently in effect. The items below give a short description of the current issues and how they may affect our forecast in the long term:

1) Property tax collections are the largest single revenue source for the school system. The housing market in our district is stable and growing slightly. We project growth in appraised values every three (3) years and new construction growth with modest increases in local taxes as the economy continues its recovery as anticipated. Total local revenues, predominately local taxes, equating to 72.8% of the district's resources. Our tax collections in the March 2023 and August 2023 settlements showed average collection trends. We believe there is a low risk that local collections would fall below projections throughout the forecast.

2) The District has a 5.9 mill and 6.0 mill operating levies that expire December 31, 2026 and a \$4.6 million emergency levy that expires December 31, 2027. The District will need to renew all three in order to remain financially viable long term.

3) Mahoning County experienced a triennial update in the 2020 tax year to be collected in FY21. The 2020 update increased overall assessed values by \$73.08 million or an increase of 9.11%, including the update and new construction for all property classes. A sexennial reappraisal will occur in tax year 2023 for collection in FY24. We anticipate value increases for Class I (Residential/Agriculture) and Class II (Commercial/Industrial) property by \$118.1 million for an overall increase of 13.33%. However, there is always a slight risk that the district could sustain a reduction in values in the next appraisal update, but we do not anticipate that now.

House Bill 187 and Senate Bill 153 have been introduced to average property value in reappraisals and updates. These bills are pending and could have an impact on the 2023 reappraisal and potentially the 20 mill floor which we should hit in the 2026 update. We are watching these proposals very carefully and will adjust the forecast pending their outcome.

4) The state budget represented 27.2% of district revenues, which means it is a significant risk to the revenue. The future risk comes in FY26 and beyond if the state economy stalls due to the record high inflation or the Fair School Funding Plan is not funded in future state budgets due to an economic recession. In this forecast, two forthcoming State Biennium Budgets cover FY26-27 and FY28-29. Future uncertainty in the state foundation funding formula and the state's economy make this area an elevated risk to district funding long-range through FY28. We have projected our state funding in FY24 and FY25 based on the additional phase-in of HB33 (the fair school funding plan). This forecast reflects state revenue to align with the FY25 funding levels through FY28, which we feel is conservative and should be close to what the state approves for the FY26-FY28 biennium budgets. We will adjust the forecast in future years as we have data to help guide this decision.

5) HB33, the current state budget, continues to phase in what has been referred to as the Fair School Funding Plan (FSFP) for FY24 and FY25. FY24 reflects 50% of the implementation cost at year three of a six-year phase-in plan, which increases by 16.66% each year. FY25 will result in 66.66% funding of (FSFP), however, the final two years of the phase-in are not guaranteed. The FSFP has made many significant changes to how foundation revenues are calculated for school districts and how expenses are charged off. State foundation basic aid will be calculated on a base cost methodology with funding paid to the district where a student is enrolled to be educated. We have used the most recent simulations published by the Department of Education and Workforce for our forecasted revenues in FY24 and FY25.

6) HB33 directly pays costs associated with open enrollment, community and STEM schools, and all scholarships, including EdChoice Scholarships. These costs are no longer deducted from our state aid. However, education option programs such as College Credit Plus continue to be removed from state aid, increasing costs to the district. Expansion or creation of programs not directly paid by the state of Ohio can expose the district to new expenditures currently outside the forecast. We closely monitor any new threats to our state aid and increased costs as new proposed laws are introduced in the legislature.

Labor relations in our district have been amicable, with all parties working for the best interest of students and realizing the resource challenges we face. Our positive working relationship will continue and grow stronger as we move forward.

The significant lines of reference for the forecast are noted below in the headings to make it easier to relate the assumptions made for the forecast item and refer back to the forecast. It should assist the reader in reviewing the assumptions noted below to understand the overall financial forecast for our district. If you want further information, please contact Arthur Ginnetti, Treasurer, at 330.726.3403 x67113.

General Fund Revenue, Expenditures, and Ending Cash Balance Actual FY21-23 and Estimated FY24-28

The graph below captures, in one snapshot, the operating scenario facing the district over the next few years if the renewal levy in 2026 does not pass.

Revenue Assumptions

Operating Revenue Sources General Fund FY24

Real Estate Value Assumptions – Line # 1.010

Property Values are established each year by the County Auditor based on new construction, demolitions, BOR/BTA activity, and complete reappraisal or updated values. Mahoning County experienced a triennial update for the 2020 tax year to be collected in FY21. Residential/agricultural values increased 13.75% or \$69.64 million due to the update, led by an improving housing market. Commercial/industrial values increased by \$3.44 million. Overall values increased \$73.08 million or 9.11%, which includes new construction for all classes of property.

A sexennial reappraisal will occur in 2023 for collection in FY24, for which we are estimating a 20% increase in residential and a 0% increase for commercial/industrial property. We anticipate overall residential/agricultural and commercial/industrial values to increase \$118.1 million or 13.33%.

Public Utility Personal Property (PUPP) values increased by \$2.47 million in the tax year 2022. We expect our values to continue to grow by \$1 million each year of the forecast.

ESTIMATED ASSESSED VALUE (AV) BY COLLECTION YEARS

	Estimated	Estimated	Estimated	Estimated	Estimated
	TAX YEAR2023	TAX YEAR2024	TAX YEAR2025	TAX YEAR2026	TAX YEAR2027
<u>Classification</u>	<u>COLLECT 2024</u>	<u>COLLECT 2025</u>	<u>COLLECT 2026</u>	<u>COLLECT 2027</u>	<u>COLLECT 2028</u>
Res./Ag.	\$696,518,928	\$697,118,928	\$697,718,928	\$708,784,712	\$709,384,712
Comm./Ind.	306,947,880	308,427,880	309,907,880	314,486,959	315,966,959
Public Utility Personal Property (PUPP)	<u>55,530,870</u>	<u>56,530,870</u>	<u>57,530,870</u>	<u>58,530,870</u>	<u>59,530,870</u>
Total Assessed Value	<u>\$1,058,997,678</u>	<u>\$1,062,077,678</u>	<u>\$1,065,157,678</u>	<u>\$1,081,802,541</u>	<u>\$1,084,882,541</u>

ESTIMATED REAL ESTATE TAX - Line #1.010

<u>Source</u>	<u>FY24</u>	<u>FY25</u>	<u>FY26</u>	<u>FY27</u>	<u>FY28</u>
General Property Taxes	<u>\$32,758,538</u>	<u>\$33,301,702</u>	<u>\$33,351,928</u>	<u>\$31,121,947</u>	<u>\$27,061,789</u>

Property tax levies are estimated to be collected at 98% of the annual amount. This allows a 2% delinquency factor. In general, 52.3% of the Res/Ag and Comm/Ind property taxes are expected to be collected in the February tax settlement and 47.70% in the August tax settlement.

Property tax collections in Line 1.01, 1.02 and 1.05 will decline starting in FY27 as we have two levies that expires in 2026 and a \$.6 million emergency levy that expires in 2027. These revenues must be moved to Line 11.02 of the forecast as noted below.

Levy Renewal –Line # 11.02

The District renewed a 5.9 mill operating levy and a 6.0 mill operating levy on November 3, 2020 that will expire December 31, 2026. The District also has a \$4.6 million emergency levy expiring December 31, 2027. We plan to renew all levies. State law requires that renewal levies be removed from revenues on Line 1.01, 1.02 and 1.05 and shown on this line 11.02 of the forecast. Please note that renewal levies do not bring in additional tax revenues to the district unless they are substitute emergency levies. We are renewing levies for the same revenue we currently collect.

<u>Source</u>	<u>FY24</u>	<u>FY25</u>	<u>FY26</u>	<u>FY27</u>	<u>FY28</u>

Total Line # 11.020	<u>\$0</u>	<u>\$0</u>	<u>\$0</u>	<u>\$3,873,304</u>	<u>\$9,863,616</u>

New Tax Levies – Line #13.030

No new levies are modeled in this forecast.

Estimated Tangible Personal Tax & PUPP Taxes – Line#1.020

The amounts below are public utility tangible personal property (PUPP) tax payments from public utilities. The values for PUPP are noted in the table above under P.U. Personal, which was \$54.53 million in assessed values in 2022 and is collected at the district’s gross voted millage rate. Collections are typically 50% in March and 50% in August, along with the real estate settlements from the county auditor. The values in 2022 rose by 1.02% or \$2.47 million and are expected to grow by \$1 million each year of the forecast.

<u>Source</u>	<u>FY24</u>	<u>FY25</u>	<u>FY26</u>	<u>FY27</u>	<u>FY28</u>

State Foundation Revenue Estimates – Lines #1.035, 1.040 and 1.045

Current State Funding Model per HB33 through June 30, 2025

Unrestricted State Foundation Revenue– Line #1.035

HB33, the current state budget, continued the Fair School Funding Plan for FY24 and FY25. We have projected FY24 funding based on the November 2023 foundation settlement and funding factors.

Our district is currently a formula district in FY24 and is expected to continue on the formula in FY25-FY28 on the new Fair School Funding Plan (FSFP). The state foundation funding formula has gone through many changes in recent years. The most recent funding formula began in FY14. It was dropped in FY19 after six (6) years, followed by no foundation formula for two (2) years in FY20 and FY21, then HB110, as amended by HB583 for FY22 and FY23, with continuation of this formula in HB33 for FY24 and FY25. The current formula introduced many changes to how state foundation is calculated and expenses deducted from state funding, which will potentially make the actual five-year forecast look different with estimates FY24 through FY28 compared to real data in FY21 through FY23 on Lines 1.035, 1.04, 1.06, and 3.03 of the forecasts.

Overview of Key Factors that Influence State Basic Aid in the Fair School Funding Plan

- A. Student Population and Demographics
- B. Property Valuation Per Pupil
- C. Personal Income of District Residents Per Pupil
- D. Historical Funding - CAPS and Guarantees from prior funding formulas “Funding Bases” for guarantees.

Base Cost Approach - Unrestricted Basic Aid Foundation Funding

The current funding formula uses FY22 statewide average district costs and developed a base cost approach that includes minimum service levels and student-teacher ratios to calculate a unique base cost for each district. Newer, more up-to-date statewide average prices will not update for FY24 and FY25 and remain frozen at FY22 levels, while other factors impacting a district’s local capacity will update for FY24. Base costs per pupil include funding for five (5) areas:

- 1. Teacher Base Cost (4 subcomponents)
- 2. Student Support (7 subcomponents-including a restricted Student Wellness component)
- 3. District Leadership & Accountability (7 subcomponents)
- 4. Building Leadership & Operations (3 subcomponents)
- 5. Athletic Co-curricular (contingent on participation)

State Share Percentage – Unrestricted Basic Aid Foundation Funding

Once the base cost is calculated, which is currently at a state-wide average of \$8,242.19 per pupil in FY24, the FSFP calculates a state share percentage (SSP) calculation. The state share percentage, in concept, will be higher for districts with less capacity (lower local wealth) and be a lower state share percentage for districts with more capacity (higher local wealth). The higher the district’s ability to raise taxes based on local wealth, the lower the state share percentage. HB33 increased the minimum state share from 5% in FY23 to 10% for FY24 and FY25. The state share percentage will be based on 60% property valuation of the district, 20% on federally adjusted gross income, and 20% on federal median income, as follows:

- 1. 60% based on the most recent three (3) year average assessed values or the most recent year, whichever is lower, divided by base students enrolled.

2. 20% based on the most recent three-year average federal adjusted gross income of district residents or the most recent year, whichever is lower, divided by base students enrolled.
3. 20% based on the most recent year's federal median income of district residents multiplied by the number of returns in that year divided by base students enrolled.
4. When the weighted values are calculated, and items 1 through 3 above are added together, the total is multiplied by a Local Share Multiplier Index from 0% for low-wealth districts to a maximum of 2.5% for wealthy districts.

When the unrestricted base cost is determined and multiplied by the state share percentage, the resulting amount is multiplied by the current year enrolled students (including open-enrolled students being educated in each district) and multiplied by the local share multiplier index for each district. The result is the local per pupil capacity of the base per pupil funding amount.

Categorical State Aid

In addition to the base state foundation funding calculated above, the FSFP also has unrestricted categorical funding and new restricted funding beginning in FY22, some of which will have the state share percentage applied to these calculations as noted below:

Unrestricted Categorical State Aid

1. Targeted Assistance/Capacity Aid – Provides additional funding based on a wealth measure using 60% weighted on property value and 40% on income. Uses current year enrolled average daily membership (ADM). It also will provide supplemental targeted assistance to lower wealth districts whose enrolled ADM is less than 88% of their total FY19 ADM.
2. Special Education Additional Aid – Based on six (6) weighted funding categories of disability and moved to a weighted funding amount, not a specific amount. 10% will be reduced from all districts' calculations to be used toward the state appropriation for Catastrophic Cost reimbursement.
3. Transportation Aid – Funding is based on all resident students who ride, including preschool students and those living within 1 mile of school. Provides supplemental transportation for low-density districts. Increases state minimum share to 37.5% in FY24 and 41.67% in FY25.

Restricted Categorical State Aid

1. Disadvantage Pupil Impact Aid (DPIA) - Formerly Economically Disadvantaged Funding is based on the number and concentration of economically disadvantaged students compared to the state average and multiplied by \$422 per pupil. Phase-in increases are limited to 50% for FY24 and 66.67% in FY25.
2. English Learners – Based on funded categories based on the time students enrolled in schools and multiplied by a weighted amount per pupil.
3. Gifted Funds – Based on average daily membership multiplied by a weighted amount per pupil.
4. Career-Technical Education Funds – Based on career technical average daily membership and five (5) weighted funding categories students enrolled in.
5. Student Wellness and Success Funds – These funds are based on initiatives similar to those for DPIA. They are restricted funds for school climate, attendance, discipline, and academic achievement programs.

State Funding Phase-In FY24 and FY25 and Guarantees

While the FSFP was presented as a six (6) year phase-in plan, the state legislature approved the first two (2) years of the funding plan in HB110, which was amended by HB583 in June 2022 and has now extended the plan in HB33 for FY24 and FY25. The FSFP does not include caps on funding; instead, it will consist of a general phase-in percentage for most components of 50% in FY24 and 66.67% in FY25.

The funding formula includes three (3) guarantees: 1) “Formula Transition Aid,” 2) Supplemental Targeted Assistance, and 3) Formula Transition Supplement. The three (3) guarantees in both temporary and permanent law ensure that no district will get fewer funds in FY24 and FY25 than they received in FY21.

Future State Budget Projections beyond FY25

Our funding status for FY26-28 will depend on unknown (2) new state budgets. There is no guarantee that the current Fair School Funding Plan in HB33 will be funded or continued beyond FY25; therefore, our state funding estimates are reasonable, and we will adjust the forecast when we have authoritative data to work with. For this reason, funding is held constant in the forecast for FY26 through FY28.

Casino Revenue

On November 3, 2009, Ohio voters passed the Ohio casino ballot issue. This issue allowed four (4) casinos to open in Cleveland, Toledo, Columbus, and Cincinnati. Thirty-three percent (33%) of the gross casino revenue will be collected as a tax. School districts will receive 34% of the 33% of Gross Casino Revenue that will be paid into a student fund at the state level. These funds will be distributed to school districts on the 31st of January and August each year, beginning for the first time on January 31, 2013.

The casino revenue has recovered from the pandemic from closing the casinos in 2020. Total funding in FY21 was 73.83 million or \$42.18 per pupil. In FY22, the funding was increased to \$109.39 million for schools or \$62.86 per pupil, and in FY23, the funding totaled \$113.1 million or \$64.90 per pupil. We expect the Casino revenues to have resumed their historical growth rate and are assuming a 2% annual growth rate for the remainder of the forecast.

<u>Source</u>	FY24	FY25	FY26	FY27	FY28

Restricted State Revenues – Line # 1.040

HB33 has continued Disadvantaged Pupil Impact Aid (formerly Economic Disadvantaged funding) and Career Technical funding. In addition, new restricted funds have been added under “Restricted Categorical Aid” for Gifted, English Learners (ESL), and Student Wellness. The amount of DPIA is limited to a 50% phase in growth for FY24 and 66.67% in FY25. We have flat-lined funding at FY25 levels for FY26-FY28 due to uncertainty on continued funding of the current funding formula.

<u>Source</u>	FY24	FY25	FY26	FY27	FY28

State Share of Local Property Tax – Line #1.050

Rollback and Homestead Reimbursement

Rollback funds are reimbursements paid to the district from the State of Ohio for tax credits given to owner-occupied residences. Credits equal 12.5% of the gross property taxes charged to residential taxpayers on levies passed before September 29, 2013. HB59 eliminated the 10% and 2.5% rollback on new levies approved after September 29, 2013.

Homestead Exemptions are credits paid to the district from the state of Ohio for qualified elderly and disabled. In 2007, HB119 expanded the Homestead Exemption for all seniors 65 years or older or disabled, regardless of income. Effective September 29, 2013, HB59 changed the requirement for Homestead Exemptions. Individual taxpayers who still need to get their Homestead Exemption approved or those who did not get a new application approved for the tax year 2013 and who become eligible after that will only receive a Homestead Exemption if they meet the income qualifications. Taxpayers who had their Homestead Exemption as of September 29, 2013, will not lose it and will not have to meet the new income qualification. This will generally reduce homestead reimbursements to the district over time, and as with the rollback reimbursements above, the state is increasing the tax burden on our local taxpayers.

Summary of State Share of Local Property Tax Reimbursement – Line #1.050

<u>Source</u>	<u>FY24</u>	<u>FY25</u>	<u>FY26</u>	<u>FY27</u>	<u>FY28</u>
Rollback and Homestead Line #1.050	<u>\$3,404,334</u>	<u>\$3,498,860</u>	<u>\$3,499,357</u>	<u>\$3,346,341</u>	<u>\$2,943,729</u>

Other Local Revenues – Line #1.060

All other local revenue encompasses any revenue that does not fit the above lines. The primary sources of revenue in this area have been open enrollment, interest on investments, tuition for court-placed students, student fees, Payment In Lieu of Taxes, Medicaid reimbursement, and general rental fees. HB110, the previous state budget, stopped paying open enrollment as an increase to other revenue for the district. Open enrolled students are counted as enrollment and paid to the educating district.

Interest income is based on the district’s cash balances and increased interest rates due to the Federal Reserve raising rates to curb inflation. Once the economy stabilizes, there will be pressure on the Federal Reserve to lower interest rates, which we believe will be sometime in 2024, decreasing the opportunity for more significant interest income for the district. We will continue to monitor the investments for the district. Rentals are expected to return to pre-pandemic levels over time. All other revenues are expected to continue on historical trends.

<u>Source</u>	<u>FY24</u>	<u>FY25</u>	<u>FY26</u>	<u>FY27</u>	<u>FY28</u>
Tuition Income-1200	\$772,392	\$780,116	\$787,917	\$795,796	\$803,754

Transfers In / Return of Advances – Line #2.040 & Line #2.050

These are non-operating revenues, which are the repayment of short-term loans to other funds over the previous fiscal year and reimbursements for expenses received for a prior fiscal year in the current fiscal year. The advances in the last fiscal year are expected to be repaid in the current year, as noted in the table below.

<u>Source</u>	<u>FY24</u>	<u>FY25</u>	<u>FY26</u>	<u>FY27</u>	<u>FY28</u>
Transfers In - Line 2.040	\$0	\$0	\$0	\$0	\$0
Advance Returns - Line 2.050	<u>50,000</u>	<u>50,000</u>	<u>50,000</u>	<u>50,000</u>	<u>50,000</u>
Total Transfer & Advances In	<u>\$50,000</u>	<u>\$50,000</u>	<u>\$50,000</u>	<u>\$50,000</u>	<u>\$50,000</u>

All Other Financial Sources – Line #2.060

This funding source is typically a refund of prior year expenditures that is very unpredictable. These revenues are inconsistent year to year, and we will not project that occurring in the remainder of the forecast.

	<u>FY24</u>	<u>FY25</u>	<u>FY26</u>	<u>FY27</u>	<u>FY28</u>
Other Financing Sources Line 2.06	<u>\$28,000</u>	<u>\$28,000</u>	<u>\$28,000</u>	<u>\$28,000</u>	<u>\$28,000</u>

Total General Fund Local Revenue (Not including Levy Renewal) Vs. State Revenue

Expenditures Assumptions

The district’s leadership team is always looking at ways to improve the education of the students, whether it be with changes in staffing, curriculum, or new technology needs. As the administration of the district reviews expenditures, the education of the students is always the main focus for resource utilization.

All Operating Expense Categories - General Fund FY24

Wages – Line #3.010

Negotiations with bargaining unit members was completed in spring 2023 and fall of 2023 resulting in a three year agreement that includes a base increases of 3% for FY24 through FY26. Step and training increases are included for FY24-28. For planning purposes a 1% increase is planned for FY27-FY28. In FY22 we added staff for an operations manager, speech pathology position, school psychologist and an auditorium manager. In addition we have added costs for classroom and independent aids, bus driver and bus driver aides and added costs for existing staff for additional coverage. Those costs continue in the forecast in FY24-28.

ESSER II and III will be allocated to our district that can be used through September, 2023 and September 2024, respectively, which will continue to offset the COVID expenses and help with academic support for lost learning due to school closures as a result of the pandemic. These final adjustments will be made as these funds are received and allocated through FY24.

Source	FY24	FY25	FY26	FY27	FY28
Base Wages	\$25,486,736	\$26,625,993	\$27,816,175	\$29,059,558	\$29,777,330
Increases/Stipend	764,602	798,780	834,485	290,596	297,773

Staff Reductions/Attrition	<u>0</u>	<u>0</u>	<u>0</u>	<u>0</u>	<u>0</u>
Total Wages Line #3.010	<u>\$27,692,454</u>	<u>\$28,893,301</u>	<u>\$30,147,455</u>	<u>\$30,876,106</u>	<u>\$31,622,594</u>

Fringe Benefits Estimates – Line #3.020

This area of the forecast captures all benefits and retirement costs. These payments and HSA costs are included in the table below.

A) STRS/SERS will increase as Wages Increase

As the law requires, the BOE pays 14% of all employee wages to STRS or SERS. The district is also required to pay SERS Surcharge, an additional employer charge based on the salaries of lower-paid members. It is exclusively used to fund health care.

B) Insurance

We were able to take two (2) premium holidays in FY21 which saved the district significant funds. In FY22 we have elected to switch carriers which will result in a 0% premium increase and actually reduce our costs by \$250,000. FY23 saw an increase in insurance rates of 3%. We are estimating an increase of 5% for FY24 and 7% for FY25 through FY28, which reflects the trend of our current employee census and claims data.

The Further Consolidated Appropriations Act of 2020 included a full repeal of three taxes initially imposed by the Affordable Care Act (ACA): the 40% Excise Tax on employer-sponsored coverage (a.k.a. “Cadillac Tax”), the Health Insurance Industry Fee (a.k.a. the Health Insurer Tax), and the Medical Device Tax. These added costs are no longer an uncertainty factor for our healthcare costs in the forecast.

C) Workers Compensation & Unemployment Compensation

Workers' Compensation is expected to be approximately 0.25% of wages FY24– FY28. Unemployment is likely to remain at a shallow level FY24-FY28. The district is a direct reimbursement employer, meaning unemployment costs are only incurred and due if we have eligible employees and draw unemployment.

D) Medicare

Medicare will continue to increase at the rate of wage increases and as new employees are hired. Contributions are 1.45% for all new employees to the district on or after April 1, 1986. These amounts are growing at the general growth rate of wages.

E) Other/Tuition

The district reimburses employees for the tuition to further their education to maintain licensure for teaching. The district does not anticipate any increase during the forecast.

Summary of Fringe Benefits – Line #3.020

<u>Source</u>	<u>FY24</u>	<u>FY25</u>	<u>FY26</u>	<u>FY27</u>	<u>FY28</u>
A) STRS/SERS	\$4,339,321	\$4,533,288	\$4,735,927	\$4,866,256	\$4,986,452

Purchased Services – Line #3.030

HB110, the previous state budget, impacted Purchased Services beginning in FY22 as the Ohio Department of Education will directly pay these costs to the education districts for open enrollment, community, and STEM

schools and for scholarships granted to students to be educated elsewhere, as opposed to deducting these amounts from our state foundation funding and shown below as expenses. We have continued to offer these amounts below as zeros to help reflect the difference between projected FY24-FY28 Line 3.03 costs and historical FY21 through FY23 costs on the five-year forecast. College Credit Plus, excess fees, and other tuition costs will continue to draw funds away from the district, which will continue in this area and has been adjusted based on historical trends.

<u>Source</u>	FY24	FY25	FY26	FY27	FY28
Base Services	\$457,475	\$462,050	\$466,671	\$471,338	\$476,051

Total Supplies Line #3.040	<u>\$2,677,418</u>	<u>\$2,757,740</u>	<u>\$2,840,472</u>	<u>\$2,925,686</u>	<u>\$3,013,456</u>

Equipment – Line # 3.050

The District does not anticipate costs increasing significantly in this line because the Permanent Improvement Fund pays most capital outlay. We are estimating buying four (4) new busses in FY24 and then purchasing two (2) new busses a year running through FY28.

Our Apple Lease entered into in 2017 was paid off in FY19. Those costs will be reallocated to replacing our Chromebooks in the supply line 3.04 noted above to ensure that our students are supported for testing.

ESSER II and III will be allocated to our district that can be used through September, 2023 and September 2024, respectively, which will continue to offset the COVID expenses and help with academic support for lost learning due to school closures as a result of the pandemic. These final adjustments will be made as these funds are received and allocated through FY24.

<u>Source</u>	<u>FY24</u>	<u>FY25</u>	<u>FY26</u>	<u>FY27</u>	<u>FY28</u>
Capital Outlay	\$313,232	\$200,000	\$200,000	\$250,000	\$250,000
Replacement Bus Purchases	<u>360,000</u>	<u>240,000</u>	<u>240,000</u>	<u>240,000</u>	<u>240,000</u>
Total Equipment Line #3.050	<u>\$673,232</u>	<u>\$440,000</u>	<u>\$440,000</u>	<u>\$490,000</u>	<u>\$490,000</u>

Principal and Interest Payment – Lines # 4.05 and 4.06

All payments for the two HB264 projects, the Qualified School Construction Bonds, and the related interest charges will be reflected as a transfer out to the bond retirement fund of the district where these obligations are paid beginning in FY18 and end in FY22.

Other Expenses – Line #4.300

The category of Other Expenses consists primarily of Auditor & Treasurer fees, liability insurance, OSBA membership, annual audit and other miscellaneous expenses. An average increase of 1.4% is projected in this area for the forecasted period.

<u>Source</u>	<u>FY24</u>	<u>FY25</u>	<u>FY26</u>	<u>FY27</u>	<u>FY28</u>
County Auditor & Treasurer Fees	\$507,248	\$512,320	\$517,443	\$522,617	\$527,843
Liability Ins., Prof. Dues & Audit Costs	189,821	195,516	201,381	207,422	213,645

Transfers and Advances Out – Lines #5.01 and #5.02

This account group covers fund to fund transfer and end of year short term loans from the General Fund to other funds until they have received reimbursements and can repay the General Fund. We are detailing the transfer out section for debt payment to reflect what amount the general fund supports to pay debt for the district in several series of debt issued over the past years. The district has two current debt issues it is supporting payment of principal and interest from the General Fund. Debt payments are made from the district’s Bond Retirement Fund (002 Fund). The #4 HB264 debt supported by a Qualified School Construction Bond (QSCB) is split 50/50 with the Permanent Improvement Fund (003 Fund). HB264 #3 includes the new principal and interest payment schedule from the refund of that issue in October 2017 that will save the district over \$114,000 in interest costs over the term of the notes which will be paid off January 1, 2024. The \$500,000 transfer to the Permanent Improvement Fund will be continued FY24-28.

<u>Purpose</u>	<u>FY24</u>	<u>FY25</u>	<u>FY26</u>	<u>FY27</u>	<u>FY28</u>
Fund 035 Severance	\$200,000	\$200,000	\$200,000	\$200,000	\$200,000
Fund 003 P.I.	500,000	500,000	500,000	500,000	500,000
Fund 300 Athletics	25,000	25,000	25,000	25,000	25,000
Fund 002 HB264 #3 & #4 -QSCB Debt	<u>421,338</u>	<u>421,338</u>	<u>122,267</u>	<u>122,267</u>	<u>119,267</u>
Transfers Out Line #5.010	1,146,338	1,146,338	847,267	847,267	844,267
Advances Out Line #5.020	<u>50,000</u>	<u>50,000</u>	<u>50,000</u>	<u>50,000</u>	<u>50,000</u>

Encumbrances –Line#8.010

These are outstanding purchase orders that have yet to be approved for payment as the goods were not received in the fiscal year in which they were ordered.

	FY24	FY25	FY26	FY27	FY28
Estimated Encumbrances	<u>\$200,000</u>	<u>\$200,000</u>	<u>\$200,000</u>	<u>\$200,000</u>	<u>\$200,000</u>

Operating Expenditures Actual FY21 through FY23 and Estimated FY24-FY28

As the graph on the following page indicates, we have diligently contained costs due to lower and flat state revenues. We control our expenses while balancing students' academic needs to enable them to excel and perform well on state performance standards.

Ending Unencumbered Cash Balance Including All Levy Renewals – Line#15.010

This amount must not go below \$0, or the district General Fund will violate all Ohio Budgetary Laws. Any multi-year contract knowingly signed that results in a negative unencumbered cash balance violates 5705.412, ORC, punishable by the personal liability of \$10,000. It is recommended that a district maintains a minimum of thirty (30) day cash balance, which is about \$4.2 million for our district.

The Graphs on the following page shows cash balances compared to one month or a 30 day reserve, including renewal of the 2026 expiring levies and the \$4.6 million expiring emergency levy in 2027, the district has included in this forecast period. The second graph shows a combination of revenue with and without the levy renewals and the impact on our ending cash balance if the levy was not renewed. This points out the financial exposure the district has to levy renewals and the impact it would have if any or all were to fail.

Ending Unencumbered Cash Balance Line #15.010 with Renewal Levies

	FY24	FY25	FY26	FY27	FY28
Ending Unencumbered Cash Balance	<u>\$22,149,853</u>	<u>\$22,739,759</u>	<u>\$21,315,051</u>	<u>\$19,196,373</u>	<u>\$16,322,221</u>

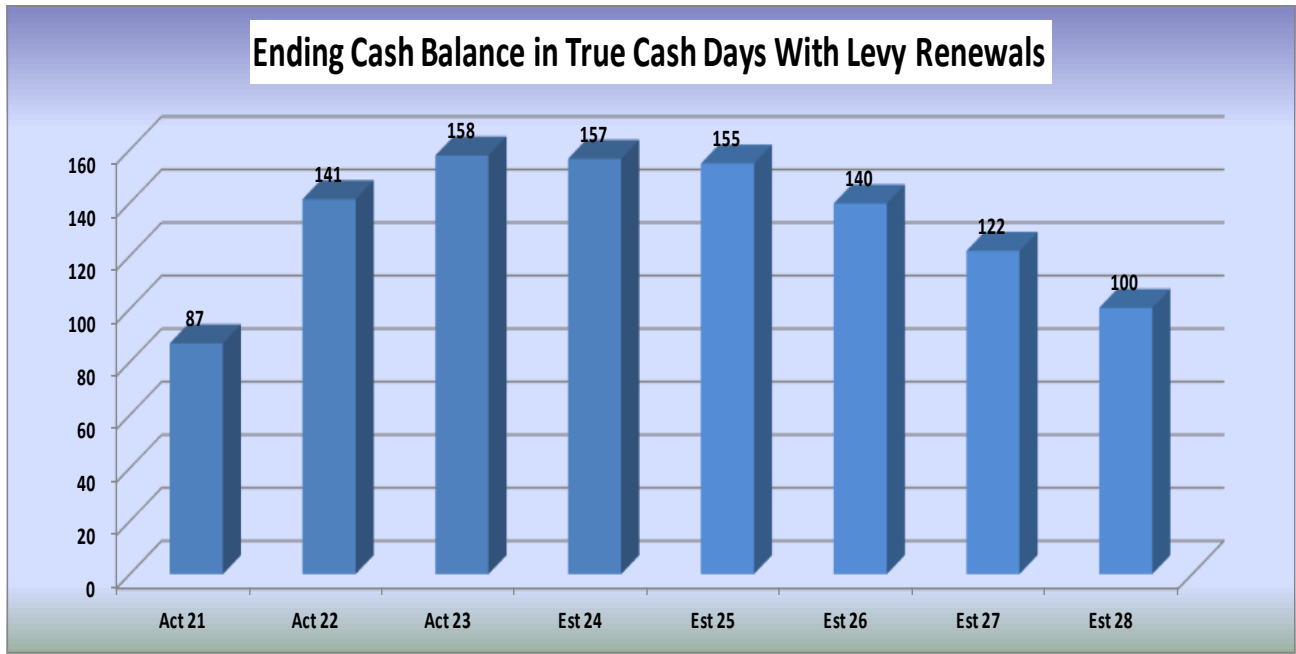

Ending Unencumbered Cash Balance Line #15.010 With & Without Renewal Levies

True Cash Days Ending Balance

Another way to look at ending cash is to state it in ‘True Cash Days’. In other words, how many days could the district operate at year-end if no additional revenues were received? This is the Current Years Ending Cash Balance divided by (Current Years Expenditures/365 days) = the number of days the district could operate without additional resources or a severe resource interruption. The government Finance Officers Association recommends that no less than two (2) months or 60 days of cash is on hand at year-end. Still, it could be more depending on each district's complexity and risk factors for revenue collection. This is calculated, including transfers, as this is a predictable funding source for other funds such as capital, athletics, and severance reserves.

The district administration is grateful for the changes in the current state budget HB33 as it has reduced the amount deducted for programs that were not within the district’s control and has included new revenues for FY24 and FY25.

The district is receiving funding through the CARES Act and ESSER funds that are to be used for helping due to the pandemic. Additional ESSER II and III have been allocated to our district that can be used through September 2023 and September 2024, respectively, which will continue to offset the expenses and help with academic support for lost learning due to school closures a result of the pandemic. All ESSER Funds will be gone after September 2024.

As you read through the notes and review the forecast, remember that the forecast is based on the best information available to us when the forecast is prepared.
