

College Credit Options

By completing a program or specific courses at Great Oaks, you may be eligible for college credit.

College Credit Plus. If you took College Credit Plus (CCP) classes at Great Oaks or a college campus, you have earned credit that may be transferable to Ohio public colleges and universities. Be sure include your college transcripts when applying to college.

College Credit for Career-Technical Courses. Great Oaks participates in the Ohio Career-Technical Credit Transfer program, also known as CTAG. *NOTE: Not all Great Oaks courses qualify for CTAG credit; to see which courses are included, go to [Career Technical | Transfer Credit Ohio](#).*

Courses that qualify may be converted to college credit if these conditions are met:

- a. You successfully complete your career-technical courses and pass the WebXams and/or industry credentials. (WebXams are the end-of-course assessments.)
- b. Enroll in a public Ohio college or university that offers career majors with aligned courses. To see whether your chosen school has aligned courses, go to [Career Technical | Transfer Credit Ohio](#).
- c. The CTAG credits earned are communicated from Great Oaks directly to the college or university using your Statewide Student Identifier Number (SSID#). When enrolling, be sure to share this information with the admissions and/or your academic advisor. If needed, your SSID# can be found on your high school transcript.

Articulated Credit. For some career programs, Great Oaks has specific agreements with certain colleges. If you attend one of those colleges in a field related to the Great Oaks program, you may get credit toward a specific degree. Check with your career-technical instructor for details and eligibility requirements for these credits.

If you have questions regarding college credit, contact your career-technical instructor or your counselor at your campus:
