## **INTRODUCTION**

The Safe Schools Against Violence in Education Act (SAVE) was passed by the New York State Legislature and signed into law by Governor Pataki on July 24, 2000. Project SAVE culminates the work of the Task Force on School Violence chaired by Lieutenant Governor Donohue. The Task Force consisted of a broad range of qualified people from all parts of the state including students, parents, teachers, school administrators, law enforcement experts, business leaders, mental health professionals and local elected officials. From its inception in January 1999, the Task Force sought information concerning the best school violence prevention and intervention practices in the state and the nation. Ten public hearings were held throughout the state, providing a rich array of recommendations from local communities about ways to ensure the safety of New York's students. The Task Force's final report, *Safer Schools for the 21<sup>st</sup> Century*, contained a series of recommendations intended to reduce incidents of violence in schools and strengthen schools' capacities for responding to emergencies that could affect the health and safety of students.

The New York State Board of Regents approved amendments to the Regulations of the Commissioner of Education as emergency measures in November 2000 to ensure compliance with the new legislation. The revised regulations in Section 155.17 of the Commissioner's Regulations contain the requirements for schools concerning school safety plans. A major component of SAVE is the development of school safety plans at the district and at the school building levels. At the district level, the new *District-Wide School Safety Plan* replaces the current school emergency management plan that is required for all districts. At the school building level, a newly required *School Building Emergency Response Plan* must be prepared for each school building in the state. Together, these plans are intended to provide the means for each school district and all the buildings in the district to respond to acts of violence and other disasters through prevention, intervention, emergency response, and management.

## **C. CONCEPT OF OPERATIONS**

**1300**

- The District-Wide School Safety Plan is directly linked to the individual Building-Level Emergency Response Plans for each school building. Protocols reflected in the District-Wide School Safety Plan guided the development and implementation of individual Building-Level Emergency Response Plans.
- In the event of an emergency or violent incident, the initial response to all emergencies at an individual school will be by the School Emergency Response Team.
- Upon the activation of the School Emergency Response Team, the Superintendent of schools or their designee will be notified and, where appropriate, local emergency officials will be notified.
- Efforts may be supplemented by county and state resources through existing protocols.

## **D. PLAN REVIEW AND PUBLIC COMMENT**

**1400**

- This plan will be reviewed and maintained by the District-Wide School Safety Team and reviewed on an annual basis on or before July 1 of each year.
- Pursuant to Commissioner's Regulation 155.17(e) (3), this plan will be made available for public comment 30 days prior to its adoption. The district-wide and building-level plans will be adopted by the School Board only after at least one public hearing that provides for the participation of school personnel, parents, students and any other interested parties. The plan will be formally adopted by the Board of Education.
- While linked to the District-Wide School Safety Plan, Building-Level Emergency Response Plans are confidential and will not be subject to disclosure under Article 6 of the Public Officers Law or any other provision of law, in accordance with Education Law Section 2801-a.
- Full copies of the District-Wide School Safety Plan and any amendments will be posted on the District's website within 30 days of adoption but no later than October 15 of each year. ## **WILLIAMSVILLE CENTRAL SCHOOL DISTRICT GUIDELINES**

When developing a specific list of potential sites for emergencies, at the building level, there are many variables that could serve as a catalyst or provide the environment for an emergency to take place at that site. Sites that have these variables or environment have been considered in the following list:

### **ON-SITE**

- various chemical storage areas
- welding/hot work area
- indoor vehicle transportation areas

## **EARLY DISMISSAL RECOMMENDATIONS**

**2210**

In the event of an imminent emergency that requires specific **EARLY DISMISSAL** procedures, they are as follows:

The EARLY DISMISSAL procedure will be implemented when a situation such as heavy snow warning, etc. is imminent. This would occur at any time of the day after the students are on their way to school, or while school is in session. The district order would be given by the Superintendent or Superintendent's designee.

1. Contact the district's transportation department to provide for go home procedure.
  - a. Teachers and students return to homeroom.
  - b. Attendance of all students should be taken by teachers.
  - c. Names of students not accounted for should be referred to office.
  - d. Teachers and students should remain in place until directions for dismissal are given.
  - e. Good conduct and discipline standards are to be enforced.
  - f. Special considerations should be given to:
    1. Individuals with disabilities – contact transporting agency
    2. Student drivers dismissed to go home if situation permits
    3. Day care students – notify parents to pick up student(s)
2. Information for reason of early dismissal may be shared with teachers and students as deemed necessary.
3. Information:
  - a. Explanation of situation
  - b. What is being done
  - c. Anticipation of length of time
4. Communication with parents or media as necessary.

## **EVACUATION RECOMMENDATIONS**

**2215**

In the event of an imminent emergency that requires specific **EVACUATION** procedures, they are as follows:

1. The central office, emergency coordinator or building administrator, upon realization or notification from a public official (fire chief, police officer, local or county disaster official), of a natural or man-made disaster will notify one another of the impending emergency and inform each other of the current situation.
2. Contact with local fire or police will be made by the building administrator.
3. The building administrator will inform their staff of the decision to evacuate and where the building population will be evacuated to.

These items will be considered in the event of an evacuation:

- a. Total accountability of students and staff

- b. Individuals with disabilities
- c. Transportation – District
- d. Time of travel and length of stay – temporary
- e. Notification of parents/guardians
- f. If short term sheltering is necessary, notify the site(s) the occupants will be taken to.

NOTE: Standard fire evacuation procedures will be used.

- 4. Building office staff will secure pertinent resource information such as emergency cards, computer data disks with student information, etc. Teachers will carry plan book or class registers.
- 5. Transportation needs.
- 6. Students will prepare for evacuation **AS TIME PERMITS**
  - a. Coats, lunches, books
  - b. Consideration to walkers and students with cars

## **SHELTER IN PLACE**

**2220**

### **Shelter in Place**

#### **Purpose**

A Shelter-in-Place are courses of action when students and staff are required to remain indoors, perhaps for an extended period of time, because it is safer inside the building or a room than outside. Depending on the threat or hazard, students and staff may be required to move to rooms that can be sealed (such as in the event of a chemical or biological hazard) or without windows, or to a weather shelter (such as in the event of a tornado).

#### **Actions**

##### **Initiate Shelter-in-Place**

- **Shelter-in-Place** will be announced by intercom, Public Address (P.A.) System, or otherwise with instructions on how to proceed. **(DO NOT USE CODES, CARDS or COLORS)**

##### **Instructions**

- Use clear, concise language to provide direction to the school based on the situation.
- If there is a situation requiring students and staff to move away from windows and doors (such as a weather emergency), they should be instructed to move to the interior of the room or relocate to an interior hallway or room. Students in temporary classrooms or outside of the main building for any reason should be instructed to move into the main school building.
- If the situation is not a threat to the exterior of the building, student's in-between classes or outside of their classroom for other reasons should be instructed to return to their class.

## **Additional Considerations for Shelter-In-Place**

The Building Level Safety Team should consider the following when reviewing the current plan or developing new policies and procedures. This is not an exhaustive list. Please add necessary actions appropriate for your response.

Procedures for the following should be included:

- Turn off utilities and ventilation systems (heating, ventilation and air conditioning) if appropriate.
- Prepare to shelter-in-place for extended periods including arrangements for food/water, sleeping, hygiene, medical needs, etc. Activate Annex (es) appropriate to respond to the situation.

Notify all concerned parties when the Shelter-in-Place is lifted.

## **HOLD-IN-PLACE**

**2222**

### **Hold-in-Place**

#### **Purpose**

If there is an internal incident or administrative matter such as students fighting in a hallway, a maintenance issue or medical emergency that requires students and staff movement be limited, a “Hold-in-Place” may be initiated. This is intended to keep students and staff out of the affected area until the situation can be rectified.

#### **Actions**

##### **Initiate Hold-in-Place**

- **Hold-in-Place** will be announced by intercom, Public Address (P.A.) System, or otherwise with instructions on how to proceed.  
**(DO NOT USE CODES, COLORS OR CARDS)**

##### **Instructions**

- Use clear, concise language to provide direction to the school based on the situation.

##### **Execute Hold-in-Place**

- Students in hallways, bathrooms or other common areas will return to their classroom. If the Hold-in-Place is announced between class periods, students will return to their previous class to await instructions. If the route is blocked, students will go to the nearest classroom and advise the teacher that they are unable to get to their class and await instructions.

All available staff members will assist in maintaining order and accounting for students. Remain in position until further instruction is given or remaining in place compromises safety.

## **LOCKDOWN**

**2225**

In the event of an imminent emergency that requires specific **LOCKDOWN** procedures, they are as follows:

The lockdown procedures will be implemented when the building administrator has become aware of a situation in which students and staff should be kept in locked rooms within the school building. These procedures may be implemented as a result of an intruder in the building, hostage situation or a biological threat. Lockdown may be activated at any time of the day and will affect the entire building.

### **Lockdown-Procedures:**

- **Lockdown** will be announced by intercom, public address system, or otherwise. Do not use codes. **Call 911 and report your situation. Consider a lockout for adjacent school buildings as well.**
- **Immediately** gather students from hall ways and areas near your room into your classroom or office. This includes common areas and restrooms immediately adjacent to your classroom.
- **Lock** Classroom door(s) and have students take a seated position on the floor next to the wall out of view from the door window. Stay out of sight.
- **Do Not** cover window.
- **Leave** the window blinds and lights as they are.
- **Document and Attend** to any injuries as well as possible.
- **No One** should be allowed to enter or leave a classroom or office under any circumstances.
- **Do not answer or communicate through your locked door.**
- **Do not allow anyone into your 'secured 'area.**
- **Do not answer a classroom telephone.**
- **Do not respond to a Fire Alarm unless imminent signs of fire are observed.**  
**Doing so could compromise the safety of those already secured.**
- **Do Not** talk within your secured area, except only as absolutely necessary.
- **Do Not** respond to the intercom, public address system, or other announcements.
- **Take Attendance** – include additions. Missing students' last known locations should be noted. Keep this record for when you are released from the lockdown.
- **Silence** all cell phones.
- **Lockdown will end ONLY when you are physically released from your room by emergency responders or other authority.**

**NOTE: The district has a specific Lockdown Plan per building.**

A “Lockout” is the response to an actual or potential threat from outside the school building. An example of such a threat might be an escaped fugitive, custodial interference, or a disgruntled employee or spouse. Where the situation warrants, the school faculty, staff, and students are aware of – but not disrupted by such a response being activated. Consequently, the school day continues as normal except for the termination of all outside activities. In some cases, the details of a lockout do not need to be shared with the students to protect the identity of the individuals involved and minimize disruption to the school.

## **Lockout Objectives**

- To keep any threat of violence or dangerous incident out of the school building.
- To promote minimal disruption to the education process when there is a potential or actual incident outside the school building.

## **Lockout Procedures:**

- Lockout will be announced by intercom, public address system, or otherwise. Use plain language to announce the lockout.
- If a school is in lockout because they were notified by police of a local situation, there is no need to call to advise police of the lockout. However, the school should keep the police advised of any change in status to your building.
- If the school is initiating the lockout due to a situation or potential incident discovered at the school, they should advise police of your lockout and what you may be anticipating.
- Lock all exterior doors and windows.
- All outside activities are terminated.
- Entry to the building is gained only on a one-on-one basis, and only through a locked and monitored door.
- Classes otherwise continue as normal.

# **WILLIAMSVILLE CENTRAL SCHOOL DISTRICT FACILITIES AGREEMENTS**

## **STATEMENT**

Williamsville Central School District has adopted agreements with state, county, and other agencies as appropriate for the use of school district building facilities and vehicles during a period of natural or man-made disaster, Facility Agreements with local public and private agencies for use of their facilities on a short term basis to house staff and students have been arranged.

Arrangements for school building facilities to be used as disaster shelters are coordinated through the Greater Buffalo Chapter, American Red Cross, Amherst Department of Emergency Services. These shelter agreements authorize their use of the building facilities for any natural or man-made disaster. The use of the building facilities is not restricted to only school district staff and students, but for any group as the need and location arises.

Notification of facility use will be made by:

1. School requesting the Red Cross to provide sheltering facilities as dictated by the emergency.
2. Local, county or state agency requested the Red Cross to provide sheltering facilities as dictated by the emergency.

The Red Cross will staff the shelter and will supply materials and food as needed. If school district supplies are drawn upon during the time of the disaster, or if the building becomes damaged as a result of use or misuse, then the Red Cross will reimburse the school district.

The Agreement Memorandum with the American Red Cross is on file in the Office of the Assistant Superintendent for Finance and Management Services.

## **WILLIAMSVILLE CENTRAL SCHOOL DISTRICT COMMUNICATION PROCEDURES**

### **Within Buildings**

1. Use of the public address system by an administrator or their delegate to provide information and/or direction to staff and students.
2. If unable to use electricity or public address system failure:
  - a. If there is NO time problem, an administrator or designee may walk through the building and inform faculty, staff and students of information and directions.
  - b. Use of a personnel delegate to communicate messages from chief administrator in charge to each floor and wing of the building. There should be as few persons as possible responsible to carry messages by word-of-mouth, as the more people used, the greater the chance of students and staff receiving information.
  - c. The use of strategically located portable 2-way radios/cellular phones may be used throughout the building to help speed communications and relay information using fewer persons.
  - d. Communications may be made easier if students were collected in a centralized location (auditorium, gymnasium, etc.) rather than individual classrooms.

**NOTE: In case of electrical system failure, public telephones may still be operational.**

### **Between Buildings**

1. Public Telephone – use a designated extension or private line may be kept clear for emergency information between building administrators or their delegates.
2. Portable 2-way radios may be used for communication if buildings are within range of each other. Cellular phones are another option.
3. Better 2-way radio communication may be made by use of a school bus or other school district vehicle operating on the same frequency.

### **COMMUNICATIONS EXPECTATIONS:**

1. Each school will have at least two dependable portable radios/cellular phones which have a battery back-up system with extra batteries that may be used in an emergency.
2. Each school will have at least one dependable scanner which can be programmed to emergency information frequencies (weather, police, fire). This scanner should have a battery back-up system with extra batteries.
3. Each school district will have access to a minimum of two (2) cellular phones.

## **VARIATIONS OF EMERGENCIES AND CHAIN OF COMMAND 2401**

There are three variations of emergencies which may present themselves in the Williamsville Central School District:

1. Emergency situation within the school district is managed by the Superintendent, unless authority is shifted to the District Emergency Coordinator.  
In this situation, the Superintendent or Emergency Coordinator is in control, and makes their own decisions to remediate the situation.
2. Emergency incident within the school district which requires the assistance of an outside agency.  
When the Fire Department is called by the school district, then the fire chief or ranking officer is in charge. The school district planning committee should then act as a resource and coordinating agency within the school district.  
When a law enforcement agency is called by the school district, the building administrator remains in charge. However, the law enforcement agency's recommendations should be fully complied with.
3. Emergency incident at local, county, state or national level where notification of the school district of the emergency is done from outside sources or in response to a criminal act occurring in school.  
In the event of a large scale emergency, the outside coordinating agency or police will be in charge and again the school district emergency coordinator and planning committee will act as a resource and coordinating agency within the school district.

<b>Other Personnel</b>	Will assist in the accounting process and maintenance of order.

As media personnel arrive to cover a story, they will be directed to a media staging/reception area and will not be allowed to interview students without expressed permission.

## **Media Site Selection**

Several factors will be considered when selecting a site to which the media can go and from which information will be dispensed:

Physical Space:	Select a room or area that will accommodate a media conference attended by several news agencies and school support staff.
Containment:	Ensure the site does not permit access by the media to the Command Post or student population.
Necessary Accommodations:	Choose a location that permits direct access to rest rooms and telephones and has sufficient electrical outlets and space for equipment.

## **Dissemination of Information**

The Superintendent of Schools, or designee, will act as the Public Information Officer (P.I.O.) or Media Coordinator to work with the media during a crisis. The individual assigned this duty assumes responsibility for organizing the details.

During the crisis the Public Information Officer, P.I.O/Media Coordinator should greet reporters, direct them to the media staging area where they will be provided a news conference or press release.

## **Communication Procedures**

The School District Superintendent will assign the P.I.O. or Media Coordinator for the district.

If there is a police or emergency service presence, release of information will be coordinated with the information officers from those agencies.

The P.I.O. for police, emergency services, and the school district will act as liaison to the media and coordinate press conferences and media deadlines.

Confidentiality and privacy issues regarding the identity of juveniles, staff members, and their involvement in a particular situation will be monitored very closely to prevent unauthorized disclosure of information.

The school district, police, and emergency services have an obligation to keep the media aware of significant developments as long as the investigation, actions, and/or locations are not compromised or parents/spouses are not unnecessarily alarmed.

Announcing to the media that only one person will be releasing information will prevent attempts to obtain information by circumventing the authorized channels.

If an arrest results from the situation, the police agency will coordinate this announcement through the school district spokesman and school Superintendent so necessary steps can be taken by the school to prepare the faculty, students, and parents.

### **P.I.O. Responsibilities**

Ensure all media inquiries are routed to one person or office.

Prepare an official statement about the crisis and action being taken. Include information to answer the basic who, what, when, where, why, and how questions.

Will not reveal names of students or employees involved in the incident, without prior approval from the responding police, emergency services, and the school's legal department.

When responding to the media, your prepared official statement is your guide.

Distribute the prepared statements to teachers, staff, and students, and ensure that they are given accurate and consistent information.

### **P.I.O. Guidelines**

Be brief.

Avoid providing superfluous information or using professional jargon.

Do not appear to be concerned mainly about the schools reputation.

Anticipate questions, especially on potentially controversial issues.

Keep calm. Show sensitivity to the seriousness of the matter, but do not overreact.

Answer one question at a time and answer only the question that is asked.

Do not treat anything as “off the record.”

As official spokesperson, do not hesitate to say, “I don’t know” or “I will have to get back to you.”

Do not reply “no comment.” This infers that information is being withheld.

Ignore abrasive comments made by reporters and maintain a professional attitude.

Provide updates to the media as events unfold, even after the initial crisis is handled.

Remember to follow up when information is available; bear in mind that the public has a right to know and understand what has happened.

## **E. PROCEDURES FOR ANNUAL MULTI-HAZARD SCHOOL TRAINING FOR STAFF AND STUDENTS**

The Williamsville Central School District will ensure that Annual Multi-Hazard Training is made available to staff and students. The annual submission to NYSED of the school district's PLP (Professional Learning Plan) will include allocated training blocks for anti-violence and multi-hazard training. Students and staff members will receive written information at the beginning of the regular school year summarizing the schools basic hazard plans and the availability of additional information and participation for those who desire. The Williamsville Central School District will work cooperatively with emergency management and law enforcement officials to ensure training is effective and appropriate, as well as consistent with local municipal disaster plans.

**Additional examples of training or awareness refreshers that may be performed include:**

- **Evacuation Procedures**
- **Shelter in Place Procedures**
- **Lockdown**
- **Lockout**
- **Medical/AED Emergencies Refreshers**
- **Emergency Response Team Instruction or Rehearsal**
- **Communication Training & Validation**
- **Transportation Emergencies**

## F. PROCEDURES FOR THE REVIEW AND CONDUCT OF DRILLS AND OTHER EXERCISES TO TEST THE COMPONENTS OF THE PLAN.

The Williamsville Central School District, in coordination with local and county emergency responders, will conduct and review drills that are components of the Comprehensive District Wide Multi-Hazard Plan. The Williamsville Central School District will annually prioritize and schedule drills in conjunction with local and county officials. At the completion of any scheduled drill, the Williamsville Central School District and local and county emergency responders will conduct an after action review of the sequence of events, and will update the Multi-Hazard Plan to reflect lessons learned. After Action Reviews (AAR) should include perspectives from representatives of all exercise participants, with emphasis on community responders and subject matter experts. A properly conducted AAR will seek to document three important aspects of the event/training. The three aspects should include:

- A. What went well? Positive reflections of the good things that happened (things to reinforce).
- B. What needs improvement ? Reflections upon the things that will require additional improvement and practice.
- C. Identify the important issues or key aspects of any given event or drill. Individuals should be encouraged to offer a potential course of action when identifying deficiencies.

Events that should be reviewed for lessons learned may include:

- Evacuation / Fire Drills
- Shelter in Place Drills
- Lockdown
- **Lockout**
- Medical / AED Emergencies Refreshers
- Emergency Response Team Instruction or Rehearsal
- Communication Checks / Validation
- Transportation Emergencies
- Public Information Releases (Actual or Notional)
- Early Dismissals / Non-scheduled Parental Releases
- Any event that requires the deployment of local emergency response personnel (i.e. Fire Alarm, ambulance Call, Arrest on Campus).

## **E. CIVIL DISTURBANCES**

**Each individual School Safety Committee in the Williamsville Central School District will review and update each of the following emergency responses annually.**

**New York State Education Department  
Bomb Threat Response Guideline**

3140  
1 of 6

**Revised February 2007**

**General**

- A bomb threat, even if later determined to be a hoax, is a criminal action. No bomb threat should be treated as a hoax when it is first received.
- The decision whether or not to evacuate is dependent upon information received in the threat, and how credible that information is.
- Two alternatives to evacuation are *compartmentalization* and *pre-clearance*.
- Compartmentalization relies on students remaining in their present locations while school administration and authorities assess and investigate the threat. Variations of compartmentalization – such as moving certain segments of the school population based upon new or developing information – can also be utilized in an effective response.
- Pre-clearance relies on anticipating a threat, and conducting pre-clearance and security screening. (see page 3).

**Receiving Bomb Threats**

**Written Threats**

- Contact Police (911)
- Anyone receiving a written bomb threat must immediately notify the school building administrator.
- Handling of written bomb threat should be kept to an absolute minimum, since it may be used as evidence in a criminal investigation.
- Fingerprints may be taken from the note to help determine its source.
- A threat written on a bathroom wall, mirror, or stall should not be removed until it is viewed or documented (photographed) by law enforcement.

**Telephone or Other Verbal Threats**

- Contact Police (911)
- Anyone receiving a written bomb threat must immediately notify the school building administrator.
- The **NYSP Bomb Threat Instruction Card** should be placed next to telephones that are most likely to receive such calls.
- The bomb threat caller is the best source of information about a possible bomb.
- It is desirable that more than one person listens in on the call.
- Persons likely to receive a threatening call (switchboard) should receive special training and have a list of emergency agency telephone numbers available, as well as the telephone numbers of school officials to be immediately contacted.

## **BOMB THREAT GUIDELINES (Con't.)**

- If possible, the telephone threat should be taped.
- Caller identification or other types of tracing devices should be considered.

Information to be asked of the caller includes:

- Where is the bomb located?
  - When will the bomb go off?
  - What does the bomb look like?
  - What kind of explosive is involved?
  - Why was the bomb placed?
  - What is your name? (The caller may be caught off guard and give you their name).
- 
- Also note: time of call; language used by caller; gender; approximate age; speech characteristic (slow, fast, soft, disguised, intoxicated); noticeable background noise (music, motors running, street traffic).

### **Suspicious Packages**

- Contact Police (911).
- Anyone receiving a suspicious package must immediately notify the school building administrator.
- Mail bombs can be contained in letters, books, and parcels of varying sizes, shapes, and colors.
- Letter bombs may feel rigid, appear uneven or lopsided, or are bulkier than normal.
- The container is irregularly shaped, asymmetrical, and has soft spots and bulges.
- There may be oil stains on the wrapper. The wrapper may emit a peculiar odor.
- The package may be unprofessionally wrapped and be endorsed with phrases such as "Fragile – Handle with Care," "Rush – Do Not Delay," "To Be Opened in the Privacy of," "Prize Enclosed," or "Your Lucky Day is Here."
- There may be cut and paste lettering on the address label.
- The package may have no postage or non-cancelled postage.
- The package may exhibit protruding wires, foil, string, or tape.
- The package may emit a buzzing or ticking noise.
- A suspect letter or package may arrive immediately before or after a telephone call from an unknown person asking if the item was received.

## **BOMB THREAT GUIDELINES (Con't.)**

- o **Do not open** or squeeze the envelope or package.
- o **Do not pull** or release any wire, string, or hook.
- o **Do not** turn or shake the letter or package.
- o **Do not** put the letter or package in water or near heat.
- o **Do not** touch the letter or package, thereby compromising fingerprint evidence.
- o **Do** move people away from the suspected envelope or package.
- o **Do** notify the state and/or local police (911).
- o **Do activate your emergency plan for dealing with bombs.**

### **Investigating Bomb Threats**

- Appropriate law enforcement agencies must be notified.
- Be aware of availability and limitations of specialized emergency services-including bomb squads, hazardous materials management, county, and state emergency management agencies.
  - o Be aware that law enforcement agencies generally do not initially send out bomb sniffing dogs.
  - o Bomb sniffing dogs have a limited time of efficiency so that their use is carefully considered.
- The school district administrator makes the decision regarding evacuation, continuation, or dismissal of school – first responders can assist and consult with them to make their decision (joint decision making – unified command).
- Police may enlist the assistance of the school faculty/staff who are familiar with the building and can recognize objects that do not belong or are out of place.
- Scanning does not involve touching or handling a suspect object.
- Once the incident has been resolved and no longer poses a danger, a full threat assessment inquiry should be conducted on the person making the threat if one is identified.

### **PRE-CLEARANCE AND SECURITY SCREENING IN LIEU OF EVACUATION (DURING TESTING)**

- It is strongly recommended that school officials carefully coordinate this option in cooperation with local law enforcement officials.
- This option may only be implemented prior to the receipt of an actual bomb threat,

And

- Only after building and grounds have been “cleared” at the start of the day and continually monitored throughout the day.

## **BOMB THREAT GUIDELINES (Con't.)**

- This option may be appropriate when a school reasonably anticipates the receipt of a bomb threat or if there is a particular concern over the possibility of a bomb threat. (During the administration of Regents examinations or during other school-wide events).

### **School Employee Involvement**

- Schools may form teams of volunteers from administration, faculty, and staff to assist in sweeping a building or grounds for anything that looks out of place.
- Prior to an incident, school officials should make certain that people who volunteer in the school building, such as parents or other community members, are trained and aware of their responsibilities.
- School employees who volunteer or by job duty are assigned to assist, should have access to building keys, floor plans, and information about shut-off valves for heat, electricity, water, and ventilation (HVAC).

## School Bomb Threat Reporting Form

In 1999, the Office of Facilities Planning started collecting data on school bomb threats via a reporting form included in the February 1999 school bomb threat guidance document issued by the State Education Department and the State Police. This process predated the Uniform Violent Incident Reporting (UVIR) process mandated by Project SAVE – which also includes school bomb threat data.

Since the UVIR system is now operational, please note that we are no longer accepting the 1999 bomb threat reporting form. Please report all bomb threat data annually on the UVIR. This will eliminate duplicate work by both school and SED staff. For additional guidance on the UVIR, please see: <http://www.emsc.nysed.gov/sss/SAVE/>.

## **F. MEDICAL EMERGENCIES**

**Each individual School Safety Committee in the Williamsville Central School District will review and update each of the following emergency responses annually.**

Response Action:Person(s) Responsible:

- |  |   |
|--|---|
| 1. Summon help or request someone call for help              | 1. First person on scene                            |

**RECOMMENDATIONS:**

In each case, the guiding principles are to provide appropriate emergency care until competent medical or parental care is secured. Emergency care is not authorized beyond proper first aid. First aid is treatment such as will protect the life and comfort of the victim until authorized medical treatment is available or, in the case of a student, until the child is placed under the care of the parent or guardian.

Signed instructions for emergencies from parents, guardians and from school personnel should be on file in the school medical office and the school main office. These signed statements should include the name and age of the person (pupil or employee) name, address and telephone number where one or both parents may be reached at home and at work; name, address and telephone number of another person who has agreed to care for the child if the parent cannot be reached; name, address and telephone number of the family physician (or Christian Science practitioner), family dentist, and preferred hospital; written authorization from the parent for school personnel to call the physician or hospital in serious emergencies when the parent cannot be reached; religion of the victim; and any special condition which should require special handling.

A list of all students and staff having special medical problems such as hypersensitivity to allergens, diabetes, epilepsy, etc. will be on file.

GENERAL GUIDELINES

1. Any teacher or staff member who has any reason to believe that a student may be a threat to themselves, or who receives a report from any source that a student may be a threat to themselves, will immediately contact an administrator. The District will supervise the student until the student is released to a parent, guardian, or person in parental relation to the student, or an appropriate professional.
2. The administrator will immediately refer the matter to the Student Support Center (SSC) and contact the parent, guardian, or person in parental relation to the student.
3. The SSC will conduct a lethality assessment and identify the appropriate action or actions to be taken based on the assessment results.

POTENTIAL FURTHER RESPONSE ACTIONS BY THE DISTRICT

1. Refer the parent, guardian, or person in parental relation to appropriate resources or agencies for support and assistance.
2. Secure permission from parent, guardian, or person in parental relation to share information or documents with the mental health care provider to further assist the student.
3. Provide support to the student. Assist the student with re-entry.
4. If a parent, guardian, or person in parental relation refuses to respond to the child's threat to themselves, the District may contact Child Protective Services or local law enforcement.
5. Complete any required paperwork, including any incident reports.
6. Maintain confidentiality as required by law or best practices.

**G. Policies and procedures to contact parents, guardians or persons in parental relation to the students in the event of a violent incident or an early dismissal:**

**3200**

**PARENT(S)/SPOUSE(S) AND RECEPTION CENTER NOTIFICATION PLAN**

Utilize telephone lists or television and radio media to notify parents and spouses of an emergency involving an occupied school facility.

Designate a reception center at a location away from the incident. Provide this information during the notification process.

Several factors should be considered when selecting a reception center. They are as follows:

Physical Space:	Select a site that will accommodate a large influx of people to include parents and/or spouses and district representatives.
Containment:	Ensure that the site does not permit access by the media and is isolated from the Incident Command Post (I.C.P.), Emergency Operation Center (E.O.C.), and student body.
Necessary Accommodations:	Select a location that permits direct access to rest rooms and telephones and allows for the serving of refreshments. Several rooms should be made available for grieving family members and counseling sessions.
Support Personnel/	If the situation warrants, station counselors, members of Agencies: the clergy, medical personnel and Critical Incident Stress Debriefing Team at the reception center. A law enforcement/emergency services representative should be at the site also.
Dissemination of Information:	The Superintendent of Schools should assign, in advance, a staff member as the liaison/information specialist to work with the parents/spouses during a crisis. The individual assigned this duty must assume responsibility for arranging the details and providing accurate, up-to-date information regarding the incident.

**SAMPLE****THREATS OF VIOLENCE IN THE SCHOOL: NOTIFICATION TO  
PARENT/GUARDIANS**

---

(Date)

Dear Parents/Guardians:

Due to recent events which have occurred in schools throughout the country, our school district has placed renewed efforts and priority on helping to ensure a safe and secure school environment for our students and staff, and to implement measures to prevent school violence.

We are asking your cooperation in helping us address the issue of violence in our schools. It is only through cooperation with the home that the schools can be successful in implementing appropriate standards of student behavior.

Attached to this letter is a copy of our School District Policy #3410 *Code of Conduct on School Property* which addresses Threats of Violence in the School. We have enclosed for your review a copy of a summary of the *Code of Conduct on School Property* which provides a list of sample proscribed activities (which is not intended to be exhaustive), as well as the range of disciplinary actions which may be taken. The complete *Code of Conduct* will be available upon request.

Effective immediately, if your child threatens violence against others, whether staff and/or students, or makes threats involving the school or school buildings, they will face immediate disciplinary action as well as possible referral to local law enforcement agencies.

Additionally, the school district retains the right to seek restitution for any costs or damages incurred as a result of a student's actions and/or threats, such as the evacuation of the school building.

We are requesting that you discuss with your child the importance of their cooperation in reporting threats of violence against others, suicide threats, or threats involving the school building by calling the school hotline or reporting the threat to faculty members or the building principal.

Please discuss the attached Policy and *Code of Conduct* summary with your child, and sign and return the bottom portion of this form to the classroom teachers within the next seven (7) days.

Sincerely,

---

(Principal)

---

Please detach and have your child return to their classroom teacher.

My child, \_\_\_\_\_, and I have read, discussed and understand the Policy #3410 addressing Threats of Violence in the School and the *Code of Conduct* summary.

## EMERGENCY CLOSINGS

The Superintendent is empowered to close the district schools, delay the opening, or to dismiss students early in the event of hazardous conditions, including weather, which threaten the safety of students.

In making the decision to close schools, either the Superintendent or their designee will consider many factors, including the following:

- 1) The availability of parent(s)/guardian(s) to receive the student at home in the event schools should be dismissed early.
- 2) The health and safety of students remaining in a school environment.
- 3) Weather conditions, both existing and predicted.
- 4) Driving and traffic conditions affecting public and private transportation facilities.
- 5) Continuance or discontinuance of the operations of business, commercial and professional people in the area.

Facts will be assembled from the appropriate agencies and organizations before any decisions are made. For example, the Highway Department, Police Department, Weather Bureau, transportation companies and other governmental agencies, as needed, will be called.

Following the decision, communications will begin for the total notification of the students and staff. Either the Superintendent or their designee will notify the public media. Employees should listen to broadcasts beginning at 6:00 o'clock a.m. Any employee who is doubtful about reporting should contact their immediate supervisor.

### Delayed School Plan

When it appears likely that weather and/or street conditions will improve later in the morning, a "delayed school opening" announcement may be made to the public. Employees will make an effort to report to their assignment at the regular starting time.

"A" Schedule (One hour delay in all school starting times):

All schools will begin one hour later than normal starting times and dismiss at regular time.

"B" Schedule (Two hour delay in all school starting times):

All schools will begin two hours later than normal starting times and dismiss at regular time.

## **EMERGENCY CLOSINGS – Continued**

### **Early Dismissal School Plan**

When a sudden, unanticipated emergency condition, including weather alert, arises after school has commenced, and it is deemed appropriate to close schools and offices, the following actions will be followed:

- 1) The district will notify parents/guardians directly using its mass notification system which includes text, email, and phone messaging.
- 2) Local broadcast media outlets will be notified and the district's social media channels will be used to inform the public of the decision.
- 3) Schools will be dismissed with dismissal time arranged to parallel the arrival of buses. No staff member may leave their assignment until all students have left the building (unless authorized to do so by the principal).
- 4) Elementary students can be released to the custody of their parent/guardian.

### **Staff Assignments**

The Superintendent is responsible for the effective operation of the school district at all times. Under Education Law, Sections 1711 and 3012, the Superintendent is empowered to require certain groups of employees to work while other employees are not required to work because the absence of students reduces the productivity of these employees.

When schools are officially closed for students due to inclement weather or other emergency conditions:

- 1) In general, school-based personnel will not report with the exception of the building plant operators, custodians, maintenance, and janitorial staff, as per negotiated agreement.
- 2) The Superintendent of Buildings and Grounds, the transportation supervisor and the Superintendent will report to work, along with other designated employees.
- 3) Principals will remain responsible for security of their schools and for seeing that the building and grounds are made as ready as possible for school on the next scheduled day.

### **Parent/Guardian Notifications**

Principals have the responsibility to urge parents/guardians to make plans for the emergency supervision of their children should an all-day closing, a delayed opening, or an early closing of school be necessary.

Automated phone messaging or telephone trees, as well as mass media announcements may be used to notify staff members.

- The Williamsville Central School District has established a strong collaboration between the Amherst Police Department and the Williamsville Central School District consisting of identification of point of contact for each entity and School Liaison Officer (SLO) program. In addition, building safety drills are conducted in collaboration with members of the Amherst Police Department and they are routinely consulted on matters of student safety.
- The Williamsville Central School District participates in the Amherst Youth Court. This is a program that familiarizes students with the judicial procedures in our society and offers an alternative disciplinary option for students who are involved in minor criminal situations. More information is available in the Office of Exceptional Education and Student Services.
- A Youth Wellness Council Report to the Board of Education is issued annually. This report provides a summary of the many interventions, scope of activities and initiatives spearheaded by students, faculty, staff, parents, and administration across the District. As has traditionally been the case, these range from a variety of service learning projects and fundraising activities, to the prevention of risk-taking behaviors and development of healthy coping skills to those fostering relationships and building connections to others (e.g., LINK Crew and WEB; Band Against Bullying). Asset development remains at the heart of wellness programming at all levels. This framework identifies a set of skills, experiences, relationships, and behaviors that enable young people to develop into successful and contributing members of their community and society. (<http://www.search-institute.org/research/developmental-assets>). This set of strategies provides students with experiences and supports needed to develop resiliency, as well as solid coping and resistance skills. Research has long revealed that the greater the number of assets a student possesses, the less likely the student is to engage in risk-taking behaviors. Years of Search survey data indicates that assets have a profound impact upon resiliency, coping and social-emotional development. The District also provides students with individual and group counseling, referrals to community resources and a myriad of other preventative measures. Examples (not exhaustive) of current initiatives include a focus upon the development of social-emotional learning and core competencies, mindfulness practices, suicide prevention (e.g., standardized lethality assessment protocols and participation in Sources of Strength), Crisis Response Planning and Postvention, Mental Health First Aid, Anti-bias Education and Culturally Responsive Instruction, Safe and Civil Schools, and implementation of articulation programs (LinkCrew and WEB) to facilitate a sense of belong and connectedness as students move from one instructional level to the next. Programs for parents and community members which address prevention of underage drinking and substance abuse or tackle the topic of social media and cyber safety are also offered.  
The Annual Report of the Youth Wellness Council can be obtained by accessing the Youth Wellness section of the District website or by contacting the office of the Assistant Superintendent of Exceptional Education & Student Services.

Improving communication among students, and students and staff and reporting of potentially violent incidents:

- Williamsville Central School District Youth Wellness Program draws its focus and philosophy from resiliency and the Search Institute model of youth development. The Williamsville Central School District Youth Wellness Program Responds to changing needs of the entire Williamsville community. The program is research based providing a

program of excellence, effectiveness and compassion. Research shows that a child experiences success, academically and personally, when school, family and community provide an integrated system of support.

- The Williamsville Central School District Youth Wellness Program offers a myriad of programs and activities designed to facilitate the development of developmental assets and resiliency in young people. A complete listing of these programs and activities can be found in the Annual Report of the Youth Wellness Council to the Board of Education. A copy of this report can be accessed on the District website [https://www.williamsvillek12.org/parents\\_and\\_students/youth\\_wellness/index.php](https://www.williamsvillek12.org/parents_and_students/youth_wellness/index.php) or by contacting the Office of the Assistant Superintendent of Exceptional Education and Student Services. Congruent with nationwide changes, the Williamsville program has evolved into a student wellness program that emphasizes prevention and addresses a wide variety of issues concerning health and wellness. Prevention programming involves seeking ways to create relationships among and between staff, student and the community.
- Bi-annual Youth Wellness Student Survey – Executive Summary. The Williamsville Central School District Youth Wellness Program has as its foundation a research-based program based upon the development of resiliency in young people and assisting youth to acquire as many developmental assets and thriving indicators as possible. Through the administration of a standardized survey of student attitudes and behaviors to current 8<sup>th</sup>, 10<sup>th</sup> and 12<sup>th</sup> graders, the school district is committed to securing, on a bi-annual basis, information that documents the efficacy of our Youth Wellness Program, identifies specific need areas with which to target our interventions, and provides an estimate of the existing status relative to the acquisition of developmental assets.
- Restorative Justice is a philosophy, in action, that places relationships at the heart of the educational experience. The basic principle is about creating an inclusive community around relationships that are predictable, safe, and engender connection (being seen and heard). By establishing a culture around community and supporting a climate of care, there is a shift from assertive and progressive discipline to a discipline model that supports learning, engagement and repairing harm. Restorative Practices utilizing Community Building Circles continues to be introduced as a standalone social-emotional practice at a Tier 1 level and infused as part of the academic instruction. Restorative Justice practices move from community building (Tier 1) to using restorative practices for minor behavioral problems (Tier 2) to then using for major or significant behavior problems (Tier 3).
- Important to both Social Emotional Learning and Restorative Practices framework has been Trauma Informed Educational Practices. The UB Institute of Trauma and Trauma-Informed Care has been instrumental in working with staff on how to create Trauma Informed classrooms and school spaces for students and colleagues at each of our schools.
- Since 2017, the Williamsville CSD has entered into an agreement with the Amherst Police Department (APD), supported by the Amherst Town Board, to have a school district School Resource Officer program in place on an annual basis. Three APD officers are assigned to monitor and patrol all of our schools while providing security-base tasks within our school communities.

# **Purpose, Scope, Situation Overview, and Assumptions**

## **Purpose**

This plan has been developed in accordance with the amended New York State Labor Law section 27-c and New York State Education Law paragraph m of subdivision 2 of section 2801-a (as amended by section 1 of part B of chapter 56 of the laws of 2016), as applicable. These laws were amended by the passing of legislation S8617B/A10832 signed by the Governor of New York State on September 7, 2020, requires public employers to adopt a plan for operations in the event of a declared public health emergency involving a communicable disease. The plan includes the identification of essential positions, facilitation of remote work for non-essential positions, provision of personal protective equipment, and protocols for supporting contact tracing.

## **Scope**

This plan was developed exclusively for and is applicable to Williamsville Central School District. This plan is pertinent to a declared public health emergency in the State of New York which may impact our operations; and it is in the interest of the safety of our employees and contractors, and the continuity of our operations that we have promulgated this plan.

## **Situation Overview**

On March 11, 2020 the World Health Organization declared a pandemic for the novel coronavirus which causes the COVID-19 severe acute respiratory syndrome. This plan has been developed in accordance with amended laws to support continued resilience for a continuation of the spread of this disease or for other infectious diseases which may emerge and cause a declaration of a public health emergency.

The health and safety of our employees and contractors is crucial to maintaining our mission essential operations. We encourage all employees and contractors to use [CDC Guidance for Keeping Workplaces, Schools, Homes, and Commercial Establishments Safe](#). The fundamentals of reducing the spread of infection include:

- Using hand sanitizer and washing hands with soap and water frequently, including:
  - After using the restroom
  - After returning from a public outing
  - After touching/disposing of garbage
  - After using public computers, touching public tables, and countertops, etc.
- Practice social distancing when possible
- If you are feeling ill or have a fever, notify your supervisor immediately and go home
- If you start to experience coughing or sneezing, step away from people and food, cough or sneeze into the crook of your arm or a tissue, the latter of which should be disposed of immediately
- Clean and disinfect workstations on a daily basis or as needed.
- Other guidance which may be published by the CDC, the State Department of Health, or County health officials

## **Planning Assumptions**

This plan was developed based on information, best practices, and guidance available as of the date of publication. The plan was developed to largely reflect the circumstances of the current Coronavirus pandemic but may also be applicable to other infectious disease outbreaks.

The following assumptions have been made in the development of this plan:

- The health and safety of our employees and contractors, and their families, is of utmost importance
- The circumstances of a public health emergency may directly impact our own operations
- Impacts of a public health emergency will take time for us to respond to, with appropriate safety measures put into place and adjustments made to operations to maximize safety
- The public and our constituency expects us to maintain a level of mission essential operations
- Resource support from other jurisdictions may be limited based upon the level of impact the public health emergency has upon them
- Supply chains, particularly those for personal protective equipment (PPE) and cleaning supplies, may be heavily impacted, resulting in considerable delays in procurement
- The operations of other entities, including the private sector (vendors, contractors, etc.), non-profit organizations, and other governmental agencies and services may also be impacted due to the public health emergency, causing delays or other disruptions in their services
- Emergency measures and operational changes may need to be adjusted based upon the specific circumstances and impacts of the public health emergency, as well as guidance and direction from public health officials and the governor
- Per S8617B/A10832, 'essential employee' is defined as a public employee or contractor that is required to be physically present at a work site to perform their job
- Per S8617B/A10832, 'non-essential employee' is defined as a public employee or contractor that is not required to be physically present at a work site to perform their job

## Reducing Risk Through Remote Work and Staggered Shifts

Through assigning certain staff to work remotely and by staggering work shifts, we can decrease crowding and density at work sites and on public transportation.

### Remote Work Protocols

Non-essential employees and contractors able to accomplish their functions remotely will be enabled to do so at the greatest extent possible. Working remotely requires:

1. Identification of staff who will work remotely
2. Approval and assignment of remote work
3. Equipping staff for remote work, which may include:
  - a. Internet capable laptop
  - b. Necessary peripherals
  - c. Access to VPN and/or secure network drives
  - d. Access to software and databases necessary to perform their duties
  - e. A solution for telephone communications
    - i. Note that phone lines may need to be forwarded to off-site staff

The Superintendent of Schools and the District Labor Relations Specialist will determine the level of remote working for all district employees in conjunction with all NYSDOH guidelines.

### Staggered Shifts

Implementing staggered shifts may be possible for personnel performing duties which are necessary to be performed on-site but perhaps less sensitive to being accomplished only within core business hours. As possible, management will identify opportunities for staff to work outside core business hours as a strategy of limiting exposure. Regardless of changes in start and end times of shifts, Williamsville Central School District will ensure that employees are provided with their typical or contracted minimum work hours per week. Staggering shifts requires:

1. Identification of positions for which work hours will be staggered
2. Approval and assignment of changed work hours

The Director of Facilities and Operations will work with the Superintendent of Schools or a designee to formulate a calendar that schedules employees based on the needs of the District.

## Personal Protective Equipment

The use of personal protective equipment (PPE) to reduce the spread of infectious disease is important to supporting the health and safety of our employees and contractors. PPE which may be needed can include:

- Masks
- Face shields
- Gloves
- Disposable gowns or aprons

Note that while cleaning supplies are not PPE, there is a related need for cleaning supplies used to sanitize surfaces, as well as hand soap and hand sanitizer. The Coronavirus pandemic demonstrated that supply chains were not able to keep up with increased demand for these products early in the pandemic. As such, we are including these supplies in this section as they are pertinent to protecting the health and safety of our employees and contractors.

Protocols for providing PPE include the following:

1. Identification of need for PPE based upon job duties and work location
2. Procurement of PPE
  - a. As specified in the amended law, public employers must be able to provide at least two pieces of each required type of PPE to each essential employee during any given work shift for at least six months
  - b. Public employers must be able to mitigate supply chain disruptions to meet this requirement
3. Storage of, access to, and monitoring of PPE stock
  - a. PPE must be stored in a manner which will prevent degradation
  - b. Employees and contractors must have immediate access to PPE in the event of an emergency
  - c. The supply of PPE must be monitored to ensure integrity and to track usage rates

The Director of Facilities and Operations and the Custodial Supervisor will be responsible for insuring the proper PPE is available at all buildings for required applications. The District will work to ensure to maintain a six-month supply of PPE as directed above for all faculty, students. An extra supply of PPE will be available in all buildings with the Principals, Nurses or Custodial staff. The Williamsville Central School District participates in Corporative Bid Purchasing Agreements where possible that provide a comprehensive list of suppliers and products used for maintaining employee safety, disinfecting and sanitization protocols.

Surplus PPE will be stored in a dry, secured central location. Access to the surplus PPE can only be made by the Director of Facilities and Operations or the Custodial Supervisor as this will ensure the accurate accountability of all supplies on hand. The Custodial Supervisor will be responsible for keeping accurate records and reporting.

## **EXHIBIT "A"**

### **SCHOOL RESOURCE OFFICER PLACEMENT PLAN**

#### **Amherst Police Department & Williamsville Central School District**

#### **Introduction**

With more attention being paid to the safety of students while they are at school, many communities are considering strategies which are intended to make schools safer environments. Although statistics on school crime and violence convey that such crime and violence are not necessarily occurring in greater numbers, there is, at a minimum, anecdotal evidence which suggests that the types of incidents which are taking place on school property may be more severe in nature and may be having marked negative impact on the educational processes for which schools are responsible. Additionally, media coverage of tragic school shootings and other violence which occurred during the past decade has motivated many communities to act.

One of the ways communities are taking action is by making decisions that law enforcement officers need to be assigned to provide coverage to schools so that safety, security, and order can be maintained. The underlying rationale which is being employed by communities is that a given school's crime and violence problems are not exclusively that school's problems, but are reflective of community problems. Such a rationale leads to consideration of community approaches. Hence, in many communities the "School Resource Officer" (SRO) approach is being considered.

The U.S. Departments of Education, Health and Human Services, and Justice provide a definition for "School Resource Officer":

*A career law enforcement officer, with sworn authority, deployed in community oriented policing, and assigned by the employing police department or agency to work in collaboration with schools and community-based organizations to: (a) address crime and disorder problems, gangs, and drug activities affecting or occurring in or around an elementary or secondary school; (b) develop or expand crime prevention efforts for students; (c) educate likely school-age victims in crime prevention and safety; (d) develop or expand community justice initiatives for students; (e) train students in conflict resolution, restorative justice, and crime awareness; (f) assist in the identification of physical changes in the environment that may reduce crime in or around the school; and (g) assist in developing school policy that addresses crime and recommend procedural changes (Safe Schools/Healthy Students Initiative).*

The National Association of School Resource Officers (NASRO) defines “School Resource Officer” as:

*Officers (who) promote a better understanding of our laws, why they were enacted and their benefits. They provide a visible and positive image for law enforcement. They serve as a confidential source of counseling to students concerning the problems they face. They bring expertise into schools that will help young people make more positive choices in their lives. They also work to protect the school environment and to maintain an atmosphere where teachers feel safe to teach and students feel safe enough to learn (NASRO website).*

Regardless of definition, School Resource Officers have three main functions: *law enforcement officer, law-related teacher, and law-related counselor*. First, as a law enforcement officer, the SRO maintains a safe and secure environment on the school campus that will be conducive to an educationally stimulating atmosphere and serve as a means of preventing criminal activities and disturbances. Second, as a teacher, the SRO promotes positive attitudes regarding the police role in society and informs the students of their rights and responsibilities as lawful citizens. Third, as a counselor, the SRO establishes a more complete liaison with school personnel and students in an effort to prevent juvenile delinquency. According to the National Assessment of School Resource Officer Programs (National Institute of Justice, 2005), SRO's spend on average about 60-65 percent of their time on law enforcement, 25-30 percent counseling, and 5-10 percent teaching.

The most effective way an SRO can accomplish these goals is to be a positive role model; students learn from every interaction they have with an SRO. It is essential for an SRO to endorse high moral standards, use good judgment and discretion, be consistent and fair, respect all students, and display a sincere concern for the school community. School Resource Officers must maintain a professional appearance; be visible, accessible and willing to talk to the students; attend and participate in school activities both during the school year and the summer months; interact positively with the students and the community while taking their concerns seriously; maintain a relationship with the students' parents by attending PTA meetings and parent conferences; and maintain a relationship with the faculty and school administrators.

The SRO interacts with the school administrators and faculty, the student body, and the outside community. Although working in the school, the SRO is still an employee of the law enforcement agency and is responsible for identifying and resolving school safety problems. However, the SRO is not the disciplinarian or chaperone for the school –which job remains with the principal and faculty. As a resource for school administrators, the SRO serves as a means of establishing order and safety so learning can take place. The SRO shares information with faculty on gang activity and truants, provides expertise on crime prevention and responds to and investigates criminal activity in the school. The SRO is also a teacher who provides law-related education to students. As a resource for the student body, the SRO's office with the school serves as a resource center and makes available to students information on topics ranging from date rape to drug abuse. The SRO

also assists the school guidance department by counseling students; giving them the opportunity to talk about their problems and helping them find positive solutions. When necessary, the SRO refers students and family members to appropriate social agencies for additional assistance. Additionally, the SRO responds to requests from parents and the community regarding truants, drug activity, domestic problems, burglaries, thefts, and other school safety issues.

The SRO Program works to prevent juvenile delinquency and create a favorable student/police officer relationship. The Town of Amherst, the Amherst Town Court, school administrators, teachers, parents, and students are all beneficiaries of the SRO Program and, as stakeholders in the search for safer schools, must support and work with the SRO to reduce criminal conduct both on and off campus.

### **Job Description**

- Provide law enforcement and police services to the school, school grounds and areas adjacent to the school. Investigate allegations of criminal incidents per police department policies and procedures. Enforce state and local laws and ordinances. Make appropriate referrals to juvenile authorities or other governmental agencies
- Work to prevent juvenile delinquency through close contact and positive relationships with students. In addition the SRO shall develop crime prevention programs and conduct security inspections to deter criminal or delinquent activities. The SRO should monitor crime statistics and work with other police personnel, school administration and faculty, and students to design crime prevention strategies.
- Establish and maintain a close partnership with school administrators in order to provide for a safe school environment. Assist school officials with their efforts to enforce School District policies and procedures, Assist school administration in emergency response planning and building security matters. Provide a course of training for school personnel in handling crisis situations, which may arise at the school.
- Be visible within the school community. Attend and participate in school functions. Build working relationships with the school's staff as well as with student and parent groups.
- Develop, implement and instruct classes in law related topics to support the educational efforts of the faculty. Work closely with teachers in designing and presenting law-related topics and the role of police in our society.
- Work with school counselors and other student support staff to assist students and to provide services to students involved in situations where referral to service agencies are necessary. Assist in conflict resolution efforts.
- Initiate interaction with students in the classroom and general areas of the school building; participate in individual and small group meetings and conferences with students. Promote the profession of police officer and be a positive role model. Increase the accessibility of police to the school community.

## **Juvenile Crime**

Contemporary theories on juvenile delinquency suggest that the proliferation of negative influences in children's lives relate directly to juvenile crime rates. Some of these negative elements are poverty, discrimination, peer pressure, an unstable home life (broken or single parent homes), and unstable school life, psychological instability, changing morals of society, ineffectiveness of the juvenile justice system, direct influences of the mass media, and ignorance to the law and criminal justice system.

Recent statistics indicate that although the overall juvenile violent crime rate within the nation has been on the decline after decades of escalation, juvenile crime rates for other offenses have remained relatively static. Crime in schools has also seen a steady rise during the same periods. According to the National Crime Safety Center, juveniles commit more than 3 million crimes in schools each year. Although part of these changes may be attributable to greater public awareness of crime in schools and increasing pressure on education officials to report school crime incidents, there is no question that violence and crime are on the rise in our schools and affecting our children's ability to learn.

## **Project Goals**

- To maintain a safe and secure environment on the school campus which will be conducive to an educationally stimulating atmosphere and serve as a means of preventing criminal activities and disturbances.
- To promote positive attitudes regarding the police role in society and to inform the students of their rights and responsibilities as lawful citizens.
- To establish a more complete liaison with school personnel and students in a cooperative effort to prevent juvenile delinquency.
- To bridge the gap between police officers and adolescents in order to increase positive attitudes toward law enforcement and to reduce juvenile crime through counseling, teaching about the criminal justice system, and taking a personal interest in the students.

## **Project Objectives**

- Promote student understanding of the law and the criminal justice system.
- Decrease the number of student conduct/criminal violations occurring during the school day and during extracurricular school functions.
- Decrease gang activity and involvement in gangs by students.
- Improve students' attitudes and relationships with law enforcement personnel.
- Increase access of students, parents, and families to community agencies which offer assistance to youths and their families for problems that require professional help.
- Conduct crime prevention programs and improve school officials' response to criminal activity and violence.

## **Performance Indicators**

- Present law-related education to classes during the school year. The SRO will keep a record of all law-related courses that are taught including drug prevention presentations and other programs deemed necessary and appropriate by school administrators and police management.
- The number of student conduct/criminal violations for the school year will be compared to the number from previous school years to determine any increase or decrease.
- The SRO will keep a record of all gang activity on or near campus, attempt to identify the individuals involved, and relate this information to the police department. This information will be compared to records from previous years to determine changes in gang activity. If necessary, the SRO will present gang awareness and prevention training to the student body, faculty, and parent organizations.
- The SRO will assess the students' attitudes toward law enforcement by interacting with them during the school day and during extracurricular activities and through the use of student surveys at the beginning and end of each school year. The relationship between the SRO and the student body will also be assessed through surveys completed by parents, faculty members, and administrators to gauge the effectiveness of the SRO program.
- The SRO will research and document all municipal, county, and state agencies available to provide services to students and their families. A directory of such agencies including points of contact will be developed or maintained. The SRO will hold conferences with students, parents, and school faculty when appropriate and keep a log of this activity. The SRO will also maintain a record of all referral services rendered and follow-up the referrals to determine if they were helpful or if other services are necessary.
- The SRO will maintain a record of all crime prevention lectures or seminars given to the student body or public. The SRO will assist school administrators in surveying school facilities for areas that provide opportunities for commission of a crime and develop a plan to correct the problem. The SRO will also assist school violence prevention teams in developing strategic responses to incidents of violence within the school.
- The commanding officer will be responsible to collect and analyze data, prepare progress reports and write the annual evaluation report.
- Data will be gathered on law enforcement related incidents, law enforcement related course grades, parent and teacher survey results, and outcomes of conferences with students, parents and faculty members, as well as any other information that is explicitly mentioned in the projects' performance indicators.

## **APPENDIX 6**

### **WCSD - REMOTE INSTRUCTION PLAN**

#### **Williamsville Central School District**

#### **REMOTE LEARNING**

##### ***Remote Model***

Neither students nor staff will attend school in the physical building. Instruction will be conducted digitally through online methods. In this document, the structure of classes, expectations for students and teachers, and protocols for taking attendance, delivering lessons and instructional material, assessing student work, and grading/providing feedback will be explained.

##### **Structures and Expectations for K-12 Hybrid/Remote Learning**

A predefined set of structures has been established for hybrid/remote learning. When planning for and delivering instruction, faculty and staff will follow the expectations outlined below:

##### ***Systems Management***

**Grades K-12 will use a combination of WITS, Google Platform (*Classroom, Drive, Sheets, Docs, Slides, Meet*), and Teacher Landing Page to post assignments, communicate with students' parents, create assessments, and share digital information.**

A Landing Page is used to plan, deliver, and manage the learning content for Hybrid/Remote instruction. Content is created in other applications and uploaded and organized within the Landing Page. Learning content may include documents, videos, learning activities, and assessments.

The District will be responsible for the following:

- All students will be provided with an electronic device for use at home.
- Provide portable connections to the internet (WIFI hotspots) will be provided to students who do not have an internet connection at home.
- Maintain a regular school schedule with exact times for course/subject area instruction. Times established by K-4, 5-8, 9-12 grade level bands.
- Take attendance for each lesson or course.

##### ***Communication Protocols for Students and Families***

The District has established a clear communication plan for how students and their families/caregivers can contact the school and teacher with questions about their instruction and/or technology. District protocols for communication include, but are not limited to:

- Providing clear communication to students and families to share course expectations and online learning participation expectations, including set office hours and opportunities to collaborate with educators and other students.
- District Welcome Letter will be sent to all students and families including directions for parent access to WITS through the Executive Director of Communications.

## Williamsville Central School District

### REMOTE LEARNING

- Teachers will follow-up with a WITS/Google Platform post to welcome all students and families outlining class/course schedule and online participation expectations, including teacher contact information.
- Teachers will commit to a response time for emails, discussion board posts, and submittal work (Suggested Best Practices: Emails-24 hours, Discussion Board-48 hours, and Submitted Work:72 hours).
- In addition to daily class meetings, teachers will host regular office hours for individual student questions (Suggested Best Practices: two sessions each week, opposite days of class meetings).
- In the event the District remains in session, when it would otherwise close due to an emergency condition, the remote learning model will be implemented by the Superintendent.

Each building Principal will establish remote classroom material access for students and families that include:

- Providing guidance and ensuring all students are able to login to all systems that are part of the class/course.
- Setup, test, and troubleshoot hardware in the audio/video enabled meeting space.
- Provide information on tech-help protocol for logistical and technical support.

### *Setting Learning Objectives*

Classroom teachers will be responsible for:

- Establishing weekly checklists with clear instructions that can be followed on or off-site.
- Provide resources for students to create evidence of their knowledge in a variety of formats to demonstrate mastery.
- Create customized learning pathways, where learning goals and objectives are linked to explicit directions for completion.
- Ensure that regular check-ins with students on a daily/weekly/set intervals are taking place so quality instruction may continue.
- Providing students with additional time and support for assignments, activities, and assessments in consideration for the diverse home experiences for remote learning.
- Ensuring that remote learning timeframes by grade level are followed for approximately time of overall (daily) instruction including activities that are both technology based and those not technology based:
  - Elementary (Grade K-1): **3 hours**; (Grades 2-4): **4 hours**
  - Middle (Grade 5-8): **Up to 5 hours**
  - High (Grade 9-12): **Up to 6 hours**

**Williamsville Central School District**  
**REMOTE LEARNING**

***Engagement Strategies and Online Tools***

**Asynchronous Learning:** Asynchronous virtual learning occurs when students work independently on learning activities and assignments. Teacher provide guided lesson content through written materials and video presentations. Students show what they know by completing interactive learning activities, self-grading and teacher graded assessments, and teacher graded written work and projects.

**Synchronous Learning:** Synchronous virtual learning occurs when students join an audio/video enabled meeting space at the same time. This space is greatly enhanced when the meeting space includes an interactive whiteboard, chat, and breakout rooms. This synchronous session may include who group instruction led by the instructor and small group amongst the learners. The structure of this session is much like an In Person learning experience.

Using video conferencing (Google Meet, Zoom) software for daily live (synchronous) lesson instruction.

**Online Tool: Chat**

One way to keep students engaged in the learning process during the lesson is to pose questions that they must respond to. Students who may not raise their hand in a face-face classroom may feel more comfortable sharing a response in chat. Students can also ask questions and provide insights during the lesson.

Wait time is important when asking question in the classroom. This gives students time to prepare response. Wait time is especially important in the virtual classroom. Students may have delays in video and audio feed due to equipment, network, or bandwidth limitations. Students may type or click at difference speeds.

**Online Tool: Interactive Whiteboard**

During class meetings, instructors can use the whiteboard to keep learners engaged in the material. Design activities that learners must respond to using the whiteboard tools by typing or drawing. Remember that using the whiteboard will be new for most learners. Offer practice activity to give them the time and opportunity to figure out how the tool works.

Recording each video conference lesson (asynchronous) and store the saved file to an easily accessible location for sharing with students.

***Hybrid Model***

Students will be back in school with an altered schedule to reduce student population within the building and classroom. Students would attend school in-person for a portion of the week and the rest of the time they would engage in remote instruction. **In the event of a contagion-related concern, the district will follow NYSED, NYS Department of Health and Erie County Department of Health guidelines.**

## Williamsville Central School District

### REMOTE LEARNING

#### **Vulnerable (high-needs) students should be prioritized for full-time in-person learning when feasible.**

Even if most students are not in school each day, schools should consider setting up small programs that would run daily for one or more cohorts of vulnerable (high-needs) students, including students with disabilities and English language learners who are most in need of in-person services. Students with disabilities will include those receiving district special education programming in a 15:1:1, 12:1:1, 8:1:1 classroom setting, due to their significant academic and therapeutic needs.

#### **Hybrid Model Details**

- Grades K-4

Students whose last name begin with the letters A—L will attend school on Mondays and Tuesdays and students whose last names begin with letters M—Z will attend on Thursdays and Fridays and **all students will have remote learning on Wednesday (asynchronous).**

- Grades 5-8

Students whose last name begin with the letters A—L will attend school on Mondays and Tuesdays and students whose last names begin with letters M—Z will attend Thursdays and Fridays and **all students will have remote learning on Wednesday (asynchronous).**

- Grades 9-12

Students whose last name begin with the letters A—L will attend school on Mondays and Tuesdays and students whose last names begin with letters M—Z will attend Thursdays and Fridays and **all students will have remote learning on Wednesday (asynchronous).**

*\* For all three scenarios describe above, we will need to balance students in the two groups when actual schedules are created, which may mean a limited number of students will be moved from one group to another.*
