

Pleasanton Unified School District

High School Boundary Process

Board Community Meeting

October 16, 2023

Background Information

- Elementary and Middle School Boundaries were updated last Spring 2023
- Feeder boundaries have been adjusted from Elementary to Middle Schools.
- Board committed to evaluate and adjust boundaries for high school in 2023/24 for the 2024/25
- Since the 2019/20 PUSD has seen a decline of enrollment of about 1000 students
- Reevaluate the need of “Choice” areas

Process

Technical Committee

Develop guiding principles, work with demographer to develop initial options, support input and analysis, develop board recommendation

Stakeholder Committee

Review and refine the initial work of the Technical Committee

Parents and Community

Provide input on the options developed and refined by the Stakeholder Committee

Board of Trustees

Review recommendation and provide final approval of the new boundaries and implementation plan

Guiding Principles

1. The high schools school capacity (existing or with proposed new facilities) should be able to meet the projected enrollment for the next 5-7 years
2. Schools projected enrollments should be balanced using boundary adjustments and/or school programs (i.e language immersion) to the extent possible
3. The enrollments at the high schools should be balanced to the extent allowed by the schools capacity (existing or with proposed new facilities)
4. School boundaries should enhance neighborhood schools and community engagement
5. School boundaries should support safe routes to schools, student safety and public transportation routes to the extent possible
6. School boundaries should promote socioeconomic diversity among the students and community to the extent possible
7. Boundary adjustment should include a transition plan that minimize the impacts to students and families
