Guiding Principles

1. The high schools school capacity (existing or with proposed new facilities) should be able to meet the projected enrollment for the next 5-7 years
2. Schools projected enrollments should be balanced using boundary adjustments and/or school programs (i.e language immersion) to the extent possible
3. The enrollments at the high schools should be balanced to the extent allowed by the schools capacity (existing or with proposed new facilities)
4. School boundaries should enhance neighborhood schools and community engagement
5. School boundaries should support safe routes to schools, student safety and public transportation routes to the extent possible
6. School boundaries should promote socioeconomic diversity among the students and community to the extent possible
7. Boundary adjustment should include a transition plan that minimize the impacts to students and families

Transition Process

- Anticipate the approval of new boundaries for 2024/25 School Year
- There will be a transition process for current students
 - Affected 8th grade and 7th grade students can elect their current high school boundary or new boundary
 - Siblings can attend the same high school if impacted by the boundary change
- New incoming students for 2024/25 will attend the new high school boundary

Next Steps

- Collect input from community
 - December 4 and 6
 - Input through our website:
<https://www.pleasantonusd.net/departments/business-services/school-boundary-adjustment-process>
- Refine options and transition process
- Board and community input on January 11, 2024
- Board Approval January 25, 2024
