Good Morning,

As we all know McMaster did a press a release stating that local boards DO NOT have the authority to make our children wear mask. With that being said you are no longer acting on what "We The People" are demanding of you and instead you are dictating. Not many of us in our district are ok with a dictatorship.

You are hiding behind scientific studies that you refuse to share with us.. because there are none that prove masks work.

This so clearly infringing on our children's rights.

You speak of losing funding and that's a bunch of crap. They legally can not do that and would open themselves open to suit by an entire district.

I will add that I know several of you are looking at career politics. Let me say this you are committing political suicide. You are NOT hearing us and you will NOT have support when you are up for reelection or any other position you seek to hold.

We need LEADERS and not one of you is doing that because you all are afraid. You are politicking and that will get you no where. We are in a new age, you may have heard, The Great Awakening.

IF you want to be a leader STAND UP and BE FEARLESS for our children.

Today is the day!! STAND UP and call for emergency meeting and make this right. You are all fearing the wrong the people.

The only person you should be fearing you are clearly not because God does NOT APPROVE of what you are doing. You continue this and you are NOT on the RIGHT SIDE of this.

We The People of District DEMAND CHANGE TODAY!

Jan,

You need to call an emergency/special meeting today. You have the authority to do it so LEAD and do it. We don't need to wait til May 10th.

If this goes on until the next meeting there will be more backlash. We aren't going to stop fighting this. Change needs to happen today.

LEAD AND SHOW THEM YOU ARE FEARLESS FOR OUR CHILDREN!

I am in conversation with Dr. Melton concerning this and I do agree choice needs to be allowed. I am also concerned about the graduation allowing more guests. Please know this board is working hard to do what is best for our children. I do know the masks should be cho

We are hearing that Hines and Hogan are the holding up the special meeting. They do not want a special meeting and they want to wait until the 10th.

WHY??? I thought you two were LEADERS??

Call the meeting and be the change! You two are going to regret not making a stand for our children, mark my words.

Alan,

I am not sure what you are referring to as Matt and I do not have the authority to call a special meeting. We have both been very clear that we are not in favor of the mask policy as it is an overreach of government control. In fact, I asked for the masks issue to be put on the agenda weeks ago.

Jan - you have the ability to call a meeting. Originally, we did not believe we had the ability to call an emergency meeting without an executive order or change in the SCDOE policy and we did briefly discuss this earlier. However, if that is incorrect, please let us know. It is my understanding that someone is saying that Matt and I are holding up decisions as to whether a meeting is called. That is just not the case.

If you have any concerns, please call me. I am slammed with work today and in between meetings, but I will try to answer my phone when I can.

As I mentioned, there was discussion about whether an emergency meeting without an EO was appropriate (and I still don't know the answer - I would love clarification.) All I know is that I cannot call the meeting, but let me be clear - I am not holding it up.

I can speak for myself that I have shown up to every meeting, so I will not impact the lack of a quorum as I will be in attendance. In addition, I have been clear on my position regarding the mask mandate.

Good Morning,

As we all know McMaster did a press a release stating that local boards DO NOT have the authority to make our children wear mask. With that being said you are no longer acting on what "We The People" are demanding of you and instead you are dictating. Not many of us in our district are ok with a dictatorship.

You are hiding behind scientific studies that you refuse to share with us.. because there are none that prove masks work. This so clearly infringing on our children's rights.

You speak of losing funding and that's a bunch of crap. They legally can not do that and would open themselves open to suit by an entire district.

I will add that I know several of you are looking at career politics. Let me say this you are committing political suicide. You are NOT hearing us and you will NOT have support when you are up for reelection or any other position you seek to hold.

We need LEADERS and not one of you is doing that because you all are afraid. You are politicing and that will get you no where. We are in a new age, you may have heard, The Great Awakening.

IF you want to be a leader STAND UP and BE FEARLESS for our children. Today is the day!! STAND UP and call for emergency meeting and make this right. You are all fearing the wrong the people. The only person you should be fearing you are clearly not because God does NOT APPROVE of what you are doing. You continue this and you are NOT on the RIGHT SIDE of this.

We The People of District DEMAND CHANGE TODAY!

Robert & Alan Wright
