Subject: Question

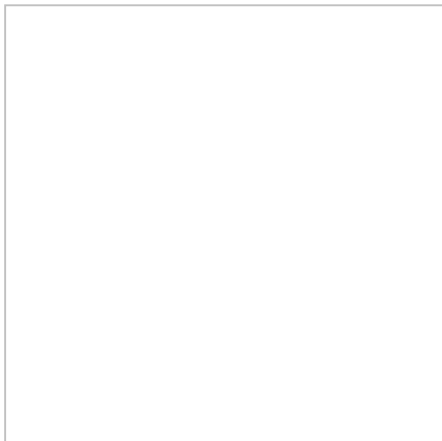

Akil:

I'm sorry to bother you! I only had your gmail account so I'm using it to ask the question.

Our office continues to get emails from parents in your district stating that the district/board of trustees has not implemented policies whereby books can be removed from the school library. It was my understanding that the board was reviewing the policies. Can you update me on the status of new policies, or send me a link to the existing policies?

Many thanks!

Melanie
