

Coachella Valley Unified School District

Reclassification Process for Dually Identified Students - English Learners and Special Education

All Special Education students also identified as English learners must participate in either the ELPAC or the Alternate ELPAC assessment as noted on the special factors page of their IEP. Please reference the CDE Alternate assessment decision making tool for California to determine a student's eligibility to take the Alternate ELPAC assessment. The procedures below apply ONLY if a student does NOT meet all the criteria to reclassify.
