

Parental Involvement - Policy Number 9.18

The Hillsboro City Board of Education directs the Superintendent to develop the necessary Administrative Guidelines to encourage active parental/guardian involvement in the education of their children within the Hillsboro District. Those Administrative Guidelines will:

1. Establish an on-going effective communication system between parents/guardians and the teachers and administrators of the schools their children attend
2. Assist parents/guardians in encouraging their children to perform to the best of their ability
3. Provide parents/guardians with methods and techniques which they can use to support classroom activities
4. Provide methods of encouraging a home and school partnership
5. Provide for programs which involve parents/guardians in the educational process
6. Provide techniques, strategies and skills which can be used at home to improve children's academic success and their development as responsible adult members of society.
7. To maintain open communication, opportunities will be provided for parents to contact the school beyond normal parental work hours

Through these efforts it is the desire of the Hillsboro City Board of Education to enhance the education and development of the students of the Hillsboro District.
