

# SUCCESSFUL SCHOOL VISIT WITH FUTURE DEWALT USERS

# DADE COUNTY HIGH SCHOOL

CONSTRUCTION AND ELECTRICAL CLASS  
David Howard Construction Trades Teacher

A couple of weeks ago I had the privilege to do a jobsite visit with Howard at the Dade County High School Construction Class. He is a huge fan of our DEWALT brand and the school has spent over \$30,000 on DEWALT tools in the last year from my Fort Oglethorpe LOWES for his students to work with.

I would like to tell you a little about David Howard. He has a background in the Military and was a Staff Sergeant E-6 his main assignment was an Electronics Technician working on the M1-A1 battle tanks. After his retirement he went back to school and earned his AAS in Engineering Systems. He started his own Electrical business then became a Site Superintendent for General Construction Contractors. One of David's last projects was the renovations of the Dade County High School, while working on the renovation project he was offered the Construction Trades Teacher position. He loved the area so much that he accepted the job and moved his family there. He currently teaches the following classes:

**Occupational Safety** with 22 students

**Electrical 1 & 2** with 20 students

**Intro to Construction** with 25 students

**Carpentry 1** with 6 students

The students build everything from birdhouses, dog houses, picnic tables, American Flags and sheds which they then sell to the community to help fund more projects.

David says that teaching these classes allows him to encourage students to seek a career in these fields. Each year he has several start working in their chosen fields, some of these include:

Electrical – 8

Welding – 3

Carpentry – 8

General Construction -8

He also had 4 join the military.

His students are getting a great head start when going into the Construction or electrical fields and are getting firsthand knowledge about our brand!
