

Dear Staff,

Your assistance is invaluable in identifying strategies to sustain and enhance the overall **climate** within our school community. We invite you to take the **School Climate Survey**.

This survey includes questions about your attitudes and experiences with different aspects of our school's educational environment, including staff connectedness, structure for learning, school safety, the physical environment, peer and adult relations, and parent involvement.

Your responses give us important information to make the school even better. Beginning today, Monday, December 4th, we invite all school staff to complete the School Climate Survey for each school you work at. The survey is anonymous and brief; it contains 32 questions and takes 10-15 minutes to complete.

You can take the survey online at the following link or QR code:

<https://forms.gle/JY93vHKtZ1oy27d68>

Please complete the survey by Wednesday, December 13th. All your responses are completely anonymous. No identifying information (name, ID, classroom, email) will be connected to your answers, and results will only be reported as group responses. There are no right or wrong answers. If you feel providing certain demographic information would identify you as an individual, you may select "I prefer not to answer." As you respond to each item, think about your experiences as a staff member at the school or building you're completing the survey for. Please respond to all items or your response will not be saved, but you can mark "I prefer not to answer" for the demographic questions.

Thank you for your time and participation!

Erwin Garcia
Superintendent
