A LOOK AT LEADERSHIP – Throughout this month students have been engaged in learning about different leaders and lessons regarding social emotional learning with Mutt-i-Grees. Within these past few weeks, both STEM and FCLA are working on group and individual work focusing on the skills of collaboration, communication, and critical thinking. With leader studies, students have been engaged in creating a powerpoint lesson on Ruth Bader Ginsburg, a supreme court justice that fought for equality and a hero for women's rights. They are preparing a group presentation in efforts to conduct speeches in front of their peers. The students have shown perseverance and problem-solving through their time working with others. For Mutt-i-Grees, students were able to brainstorm what they find as positive traits to look for in a friend. They are learning more about themselves and animals as they take

part in different activities. The specific activity they completed was decorating a cat based on their preferences and writing the qualities of a good friend on the inside of the cat.

Overall, students are striving to grow up calm, confident, and caring learners.
