STOCK MARKET GAME

Want to try investing?

SMG InvestQuest is SIFMA Foundation's newest free, fun and informative investing experience emphasizing diversification and long-term investing over a simulated 5-year period.

Company-specific and market-wide news that may impact returns helps you manage a pretend portfolio of stocks, bonds, and mutual funds, across beginner, intermediate, and advanced levels.

Mini-Course

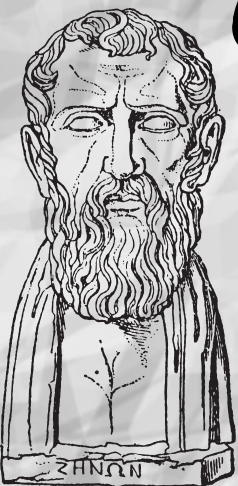

PHILOSOPHY

LESSONS ON STOICISM

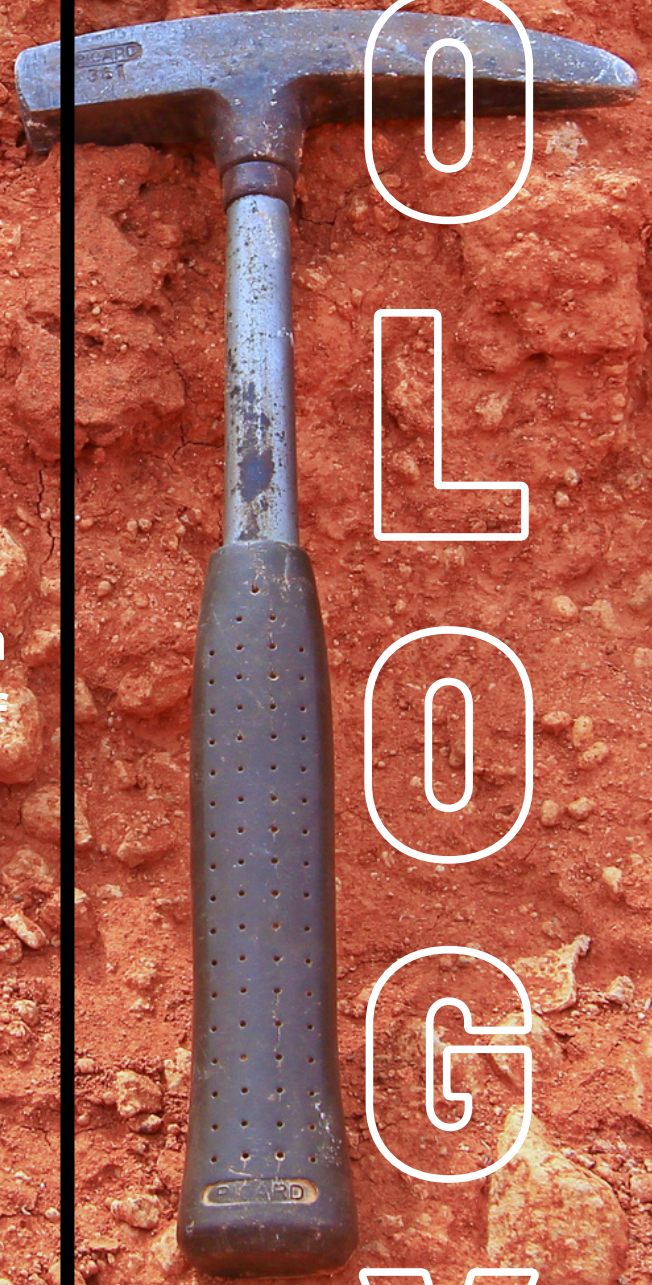

Learn about the great Stoic philosophers, Zeno of Citium, Seneca, Marcus Aurelius, & Epictetus, as you develop the Stoic principals of wisdom, courage, temperance, and justice in your own life.

CONSPIRACY

- The study of Earth's history through rocks and rock formations.
- Understanding how rocks and minerals are formed and classified provides an abundance of information about Earth's natural history and the development of our planet's living and non-living components.
- This course will be an introductory exploration into the fundamentals of geology, with particular emphasis on geologic time and mineralogy.
- We will learn this through hands-on activities and explorations, including labs.

saving money &
spending money

THE SIMPLE THINGS

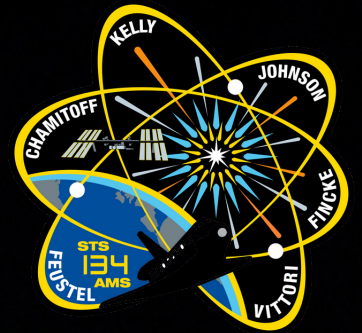

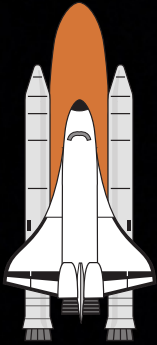

★ If you would like to learn a simple thing or two such as the difference between cooking and baking techniques, cooking up a simple dish and serving it using proper table setting and then topping it off with a unique napkin folding design, then this mini course is for you. Find out why these “simple things” can give you an edge and make your life much simpler. ★

DESTINATION

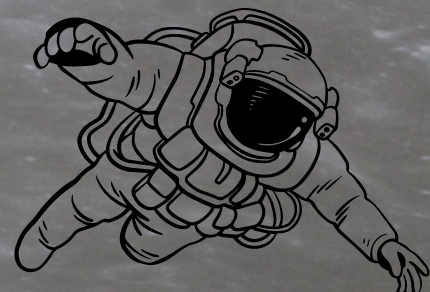

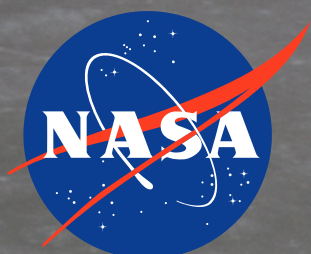

SPACE

HOW WILL WE LIVE?

NASA is expanding space exploration. Artemis II & Artemis III are scheduled to launch in 2024. What are the plans for human sustainability on the moon & other planets?

Let's explore and become architects of the New World.
