### Biography

Hello, I'm an alumna of South Texas ISD Health Professions. After graduating high school in 2005, I went on to earn my Bachelors of Science in Biology with a double minor in Chemistry and English, and my Masters of Science in Biology at UTRGV while conducting research on the distribution patterns and blood-feeding habits of *Anopheles* mosquitoes in the Lower Rio Grande Valley. Once I concluded my Masters, I began teaching and have done so for the past ten years. Even though my background is in science, my true passion is teaching literature. I am so happy to be part of South Texas Preparatory Academy. In my spare time, I hang out with my three cats, watch anime, and scroll through TikTok, where I take in reading recommendations from "BookTok".
