Accountant's Compilation Report

Management is responsible for the accompanying basic financial statements of the Bedford City School District as of and for the fiscal year ended June 30, 2020, in accordance with accounting principles generally accepted in the United States of America. We have performed compilation engagements in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. We did not audit or review the accompanying financial statements nor were we required to perform any procedures to verify the accuracy or completeness of the information provided by management. Accordingly, we do not express an opinion, a conclusion, nor provide any form of assurance on these financial statements.

Management's Discussion and Analysis is supplementary information required by the Governmental Accounting Standards Board and was prepared by management. We did not compile, review or audit the information nor do we express an opinion, a conclusion, nor provide any assurance on the information.

The Schedules of the School District's Proportionate Share of Net Pension Liability, the Schedules of the School District's Proportionate Share of Net OPEB Asset/Liability and the Schedules of the School District's Contributions are not part of the basic financial statements but the Governmental Accounting Standards Board requires their presentation to supplement the basic financial statement. We have compiled these schedules without audit or review and, accordingly, we do not express an opinion, a conclusion, nor provide any assurance on this information.

Bedford City School District
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2020
Unaudited

The discussion and analysis of the Bedford City School District's financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2020. The intent of this discussion and analysis is to look at the School District's financial performance as a whole; readers should also review the transmittal letter, the basic financial statements as well as the notes to the basic financial statements to enhance their understanding of the School District's financial performance.

Financial Highlights

Key financial highlights for fiscal year 2020 are as follows:

- The School District provided educational services to 2,830 students during fiscal year 2020. This is a decrease from the prior fiscal year. The School District also provides preschool education to 34 handicapped and 17 regular education students.
- Net position decreased in fiscal year 2020 due to changes in the net pension and net OPEB liabilities (asset) and the deferred outflows and deferred inflows of resources associated with these liabilities. Net position also decreased due to the issuance of notes and a decrease in property tax revenues attributable to the timing of advance settlements.
- Outstanding long-term obligations for the School District decreased from the prior fiscal year due to decreases in the net pension/OPEB liabilities combined with an additional year of debt payments offset by the issuance of general obligation bonds issued through a direct placement.
- Capital assets in the School District are being carried with a relatively old physical plant and bus fleet. The buildings of the School District are well maintained and in good repair. The School District consistently makes improvements when and where needed in order to ensure sustainability.
- Capital assets decreased from the prior fiscal year due to an additional year of depreciation outpacing current year additions. Capital asset additions included computer and technology equipment, a chiller, storage area network, carpeting, four busses and a truck, among other items.

Using This Comprehensive Annual Financial Report ("CAFR")

This annual report consists of a series of financial statements and notes to those statements. These statements are presented following the requirements of Governmental Accounting Standards Board ("GASB") Statement No. 34, and are organized so the reader can understand the Bedford City School District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The *Statement of Net Position* and *Statement of Activities* provide information about the activities of the whole School District, presenting both an aggregate view of the School District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the School District's most significant funds with all other non-major funds presented in total in one column. In the case of the Bedford City School District, the general fund is the most significant fund.

Reporting on the District as a Whole (District-wide)

Statement of Net Position and the Statement of Activities

The view of the School District as a whole looks at all financial transactions and asks the questions, “Are we in a better financial position this year than last?” and “Why” or “Why not”. The Statement of Net Position and the Statement of Activities provide the basis for answering these questions. The statements include *all assets and deferred outflows of resources* and *liabilities and deferred inflows of resources* using the *accrual basis of accounting* similar to the accounting used by most private-sector companies. This basis of accounting recognizes all of the current year’s revenues and expenses regardless of when cash is received or paid.

These two statements report the School District’s *net position* and any change in that position. The change in net position is important because it tells the reader that, for the School District as a whole, the *financial position* of the School District has improved or diminished. The causes of this change may be the result of many factors, some strictly within the scope of the School District, some not. External factors include the School District’s property tax base, community demographics, current property tax laws in Ohio restricting revenue growth, required educational programs and other factors. The School District’s overall net position decreased in fiscal year 2020.

The Statement of Net Position and the Statement of Activities is represented in one type of activity; Governmental Activities. The School District’s programs and services are reported here including instruction, support services, operation and maintenance of plant, pupil transportation and extracurricular activities as well as food service operations.

Reporting the School District’s Most Significant Funds (Fund Financials)

The analysis of the School District’s major fund begins with the balance sheet. Fund financial reports provide detailed information about the School District’s major fund. The School District uses many funds to account for a multitude of financial transactions. However, the fund financial statements focus on the School District’s most significant fund. The School District’s only major fund is the general fund.

Governmental Funds - The School District’s activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called *modified accrual* accounting, which measures cash and all other *financial assets* that can readily be converted to cash. The governmental fund statements provide a detailed *short-term view* of the School District’s general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental *activities* (reported in the Statement of Net Position and the Statement of Activities) and governmental *funds* is reconciled in the financial statements of the *Governmental Funds*.

Proprietary Funds - Proprietary funds have historically operated as *enterprise* and *internal service funds* using the same basis of accounting as business-type activities. The internal service self insurance fund accounts for run off claims of hospitalization/medical and prescription drug benefits of School District employees dated prior to January 1, 2019. The internal service fund is reported as the School District’s only proprietary fund.

The School District as a Whole

Recall that the *Statement of Net Position* provides the perspective of the School District as a whole, showing assets, liabilities, deferred outflows and inflows and the difference between them (net position). Table 1 provides a summary of the School District's governmental activities net position for fiscal year 2020 compared to fiscal year 2019:

Table 1
Net Position

	2020	2019	Change
Assets			
Current and Other Assets	\$64,868,590	\$62,039,027	\$2,829,563

Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2020
Unaudited

The net pension liability (NPL) is the largest single liability reported by the School District at June 30, 2020. GASB notes that pension and OPEB obligations, whether funded or unfunded, are part of the “employment exchange” – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension and other postemployment benefits. GASB noted that the unfunded portion of this promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the School District is not responsible for certain key factors affecting the balance of these liabilities. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The Ohio Revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability or the net OPEB liability. As explained above, changes in benefits, contribution rates, and return on investments affect the balance of these liabilities, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability and the net OPEB liability are satisfied, these liabilities are separately identified within the long-term liability section of the statement of net position.

As noted earlier, net position may serve as a useful indicator of a government’s financial position. For the School District, total liabilities and deferred inflows of resources exceeded total assets and deferred outflows of resources by (\$20,193,499) in fiscal year 2020 and (\$13,381,445) in fiscal year 2019.

A large portion of the School District’s net position reflects “Net Investment in Capital Assets” (i.e. land, construction in progress, buildings, improvements, furniture, fixtures, equipment and vehicles) less any related debt to acquire those assets that are still outstanding. The School District uses these capital assets to provide services to its students; consequently, these assets are not available for future spending. Although the School District’s investment in its capital assets is reported net of related debt, it should be noted that resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The School District continues to provide the services that the School District residents expect while maintaining the costs of providing those services. The most dramatic changes were increases to cash and cash equivalents and intergovernmental receivables offset by note and long-term debt issuances, the changes from net pension/OPEB changes noted above and deferred inflows specific to the timing of advance property tax settlements. Cash and cash equivalents increased from fiscal year 2019 mainly due to the School District having cash basis revenues outpacing expenditures. Note and long-term debt increased due to the issuance of tax anticipation notes for cash flow and real estate improvement bonds through direct placements.

In order to further understand what makes up the changes in net position for the current year, the following table gives readers further details regarding the results of activities for fiscal years 2020 and 2019.

Governmental Activities

The unique nature of property taxes in Ohio creates the need to routinely seek voter approval for operating funds. The overall revenue generated by a voted levy does not increase solely as a result of inflation. It increases as a result of new construction or collection from a new voted levy. Although school districts experience inflationary growth in expenses, tax revenue does not keep pace with the increased expenses due to House Bill 920. As an example, a homeowner with a home valued at \$100,000 and taxed at 1.0 mill would pay \$35.00 annually in taxes. If three years later the home were reappraised and increased to \$200,000 (and this inflationary increase in value is comparable to other property owners) the effective tax rate would become .5 mills and the owner would still pay \$35.00 and the School District would collect the same dollar value the levy generated in the year it passed. The 10 percent rollback on all residential/agricultural property and the 2.5 percent rollback on all owner occupied homes would reduce the amount of taxes paid.

Thus school districts dependent upon property taxes are hampered by a lack of revenue growth and must regularly return to the voters to maintain a constant level of service.

Revenue is divided into two major components: program revenues and general revenues. Program revenues are defined as fees, restricted grants and charges for services that are program specific. General revenues include taxes and unrestricted grants such as State Foundation support.

Program revenues increased for governmental activities in fiscal year 2020. Operating grants increased due to the School District seeking out restricted grant monies as additional sources of operating revenues along with a new grant specific to student health and wellness. General revenues decreased in fiscal year 2020 resulting from decreased property tax revenue specific to the timing of advance settlements. The decrease in grants and entitlements for fiscal year 2020 was due to a reduction in State Foundation funding due to the COVID-19 pandemic.

Instruction composes the most significant portion of governmental program expenses. The largest component of the increase in program expenses results from increases in pension and OPEB expenses, the most significant increase being related to STRS OPEB expenses. The School District's OPEB expense related to STRS increased from a negative expense of \$6,305,881 in fiscal year 2019 to a negative expense of \$949,524 for fiscal year 2020.

The *Statement of Activities* shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows the total cost of services and the net cost of services. That is, it identifies the cost of these services supported by tax revenue and unrestricted State entitlements.

Interest and Fiscal Charges	64,063	64,063	35,015	35,015
<i>Total</i>	<u>\$59,099,885</u>	<u>\$49,510,485</u>	<u>\$49,606,605</u>	<u>\$40,283,273</u>

The dependence on tax revenues and State subsidies for governmental activities is apparent. The majority of instructional activities are supported through taxes and other general revenues.

The School District's Funds

Information about the School District's major funds begins with the balance sheet. These funds are accounted for using the modified accrual basis of accounting. All governmental funds had total revenues of \$51,996,835 and expenditures of \$56,925,334. The decrease in fund balance for the general fund was primarily due to a decrease in tax revenues due to the timing of advance settlements offset by an increase in assessed values. General fund expenditures increased from the prior year due to increases in instructional expenses as the School District places an emphasis on the educational health of its students. The Administration carefully monitors the budget to help ensure positive cash flows. The School District continues to seek out additional sources of funding. The increase in fund balance for all other governmental funds was primarily due to the issuance of tax anticipation notes coupled with being supplemented through transfers from the general fund.

General Fund Budgeting Highlights

The School District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the general fund.

Bedford City School District
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2020
Unaudited

During the course of fiscal year 2020, the School District amended its general fund budget several times. The general fund final budget revenue amount was lower than the original budget amount as the School District adjusted estimates with updated information. Actual revenues were higher than the final budget amount due in large part to greater tax and intergovernmental revenues than anticipated. Actual expenditures were less than the final budget amount. The School District made a conscious effort to keep expenditures below budgeted amounts. Savings were the greatest in regular instruction, pupil transportation and operation and maintenance of plant due to management taking cost cutting measures. The School District ended the fiscal year with an unencumbered fund balance of \$16,796,900, a decrease from fiscal year 2019 and higher than what was estimated from the final budget.

The School District uses a modified site-based budget technique which is designed to tightly control site budgets while providing flexibility for site management. The School District prepares and monitors a detailed cashflow plan for the general fund annually. Actual cashflow is compared to monthly and year-to-date estimates, and a monthly report is prepared for top management and the Board of Education.

Capital Assets and Long-Term Obligations

Capital Assets

At the end of fiscal year 2020, the School District had, at cost, \$57,848,212 invested in land, buildings and improvements, furniture and equipment, and vehicles. That total carries an accumulated depreciation of \$40,282,294.

In fiscal year 2020, the School District's capital asset additions included computer and technology equipment, a chiller, storage area network, carpeting, four busses and a truck, among other items. Current year deletions included furniture, equipment and vehicles that were deemed obsolete.

In November of 2010, voters in the School District approved the renewal of a continuing one mill permanent improvement levy. This levy generates approximately \$475,000 a year, and coupled with reimbursements for lost levy proceeds in the amount of \$42,230, provides funds which are used exclusively for capital purchases. These funds are currently being used to finance several construction projects in 2020. The School District carries a relatively old physical plant and bus fleet. The buildings of the School District are well maintained and in good repair. In addition, approximately \$138,000 and \$150,000 was transferred to the permanent improvement and the capital replacement capital projects funds, respectively, to be used for technology and furniture in the schools. For additional information on capital assets, see Note 12 of the notes to the basic financial statements.

Long-Term Obligations

Energy conservation bonds were issued for the purpose of improvements throughout the School District. These bonds will be paid from the general fund. As of June 30, 2020, the remaining principal outstanding was \$305,504.

Real estate improvement bonds were issued for the purpose of improvements to School District property. These bonds will be paid from the bond retirement debt service fund. As of June 30, 2020, the remaining principal outstanding was \$500,000.

Bedford City School District
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2020
Unaudited

The School District's overall legal debt margin was \$65,880,324 with an unvoted legal debt margin of \$239,904. For additional information on long-term obligations, see Note 20 of the notes to the basic financial statements.

Current Financial Related Activities

As the preceding information shows, the School District is heavily dependent on property taxes. Property tax revenue does not increase solely as a result of inflation. Therefore, the School District must continue to monitor its revenues and expenses to ensure the public's confidence and support.

School Funding

The State funding formula for K-12 education in Ohio has changed several times in recent years. The current formula utilizes a different weighting formula taking into account both property and income wealth of school districts. The formula results in a large increase in State funding for the School District, however the State of Ohio is unable to fund the formula as designed. Therefore, the School District received a small increase over the previous years' funding. Changes continue to be made to the formula for reimbursing the School District for losses suffered due to the elimination of the Tangible Personal Property Tax. As a result the School District has experienced a measured decline in this source of funding. Consequently, all of the School District's financial abilities will be called upon to meet the challenges the future will bring. The School District's Board and management team continue to carefully and prudently plan in order to provide the resources required to meet the future needs of its students.

Contacting the School District's Financial Management

This financial report is designed to provide our citizens, taxpayers, and investors and creditors with a general overview of the District's finances and to show the School District's accountability for the money it receives. If you have any questions about this report or need additional financial information, contact the Treasurer of Bedford City School District, 475 Northfield Road, Bedford, OH 44146.

Reconciliation of Total Governmental Fund Balances to
Net Position of Governmental Activities
June 30, 2020

Total Governmental Funds Balances		\$18,538,370
<i>Amounts reported for governmental activities in the statement of net position are different because:</i>		
Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds.		17,565,918
Other long-term assets are not available to pay for current-period expenditures and therefore are unavailable revenue in the funds:		
Delinquent Property Taxes	5,056,314	
Grants	477,132	
Tuition and Fees	<u>817,478</u>	
Total		6,350,924
The internal service fund is used by management to charge the costs of insurance to individual funds. The assets and liabilities of the internal service fund are included in governmental activities in the statement of net position.		13,470
In the statement of activities, interest is accrued on outstanding general obligation bonds, whereas in governmental funds, an interest expenditure is reported when due.		(9,860)
The net pension liability and net OPEB liability (asset) are not due and payable in the current period; therefore, the liability (asset) and related deferred inflows/outflows are not reported in governmental funds:		
Net OPEB Asset	2,884,154	
Deferred Outflows - Pension	9,516,823	
Deferred Outflows - OPEB	990,680	
Net Pension Liability	(53,502,339)	
Net OPEB Liability	(6,240,780)	
Deferred Inflows - Pension	(4,464,449)	
Deferred Inflows - OPEB	<u>(6,109,944)</u>	
Total		(56,925,855)
Long-term liabilities are not due and payable in the current period and therefore are not reported in the funds:		
General Obligation Bonds	(805,504)	
Compensated Absences	<u>(4,920,962)</u>	
Total		<u>(5,726,466)</u>
<i>Net Position of Governmental Activities</i>		<u><u>(\$20,193,499)</u></u>

See accompanying notes to the basic financial statements

Bedford City School District
*Reconciliation of the Statement of Revenues, Expenditures and Changes
in Fund Balances of Governmental Funds to the Statement of Activities
For the Fiscal Year Ended June 30, 2020*

Net Change in Fund Balances - Total Governmental Funds (\$4,448,499)

*Amounts reported for governmental activities in the
statement of activities are different because:*

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation exceeded capital outlay in the current period:

Capital Asset Additions	934,184	
Current Year Depreciation	(1,692,146)	
Total		(757,962)

Governmental funds only report the disposal of capital assets to the extent proceeds are received from the sale. In the statement of activities, a gain or loss is reported for each disposal. (54,897)

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds:

Property Taxes	197,163	
Intergovernmental	265,504	
Tuition and Fees	(14,658)	
Miscellaneous	(157,013)	
Total		290,996

Repayment of bond, loan and capital lease principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. 293,456

Other financing sources in the governmental funds, such as general obligation bonds issued, increase long-term liabilities in the statement of net position: (500,000)

In the statement of activities, interest is accrued on outstanding obligations, whereas in governmental funds an interest expenditure is reported when due: 7,559

Contractually required contributions are reported as expenditures in governmental funds; however, the statement of net position reports these amounts as deferred outflows:

Pension	4,239,264	
OPEB	103,021	
Total		4,342,285

Except for amounts reported as deferred inflows/outflows, changes in the net pension/OPEB liability are reported as pension/OPEB expense in the statement of activities:

Pension	(6,753,169)	
OPEB	877,478	
Total		(5,875,691)

Some expenses reported in the statement of activities, such as compensated absences, do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. (131,711)

The internal service fund used by management to charge the costs of insurance to individual funds are not reported in the District-wide statement of activities. Governmental fund expenditures and related internal service fund revenues are eliminated. The net revenue (expense) of the internal service fund is allocated among the governmental activities. 22,410

Change in Net Position of Governmental Activities (\$6,812,054)

Bedford City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2020

Note 1 - Description of the School District and Reporting Entity

Bedford City School District (the School District) is a city school district as defined by Section 3311.02 of the Ohio Revised Code. The School District provides education to 2,830 students in grades K through 12. The School District also provides preschool education to 34 handicapped and 17 regular education students. The School District is located in northeast Ohio, covers approximately 25 square miles and includes the City of Bedford, most of the City of Bedford Heights, and the Villages of Walton Hills and Oakwood. The operation of the School District is governed by an elected five-member Board of Education.

Reporting Entity

A reporting entity is comprised of the primary government, component units and other organizations that are included to ensure that the financial statements are not misleading. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the School District. For Bedford City School District, the agencies and departments provide the following services: general operations, food service and student related activities of the School District.

Nonpublic Schools - Within the School District boundaries, there is one nonpublic school, Safely Home. Current State legislation provides funding to this non-public school. These monies are received and disbursed by the School District on behalf of the non-public school by the Treasurer of the School District, as directed by the non-public school. These transactions are reported in a special revenue fund and as a governmental activity of the School District.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization's governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organization's resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the School District in that the School District approves the budget, the issuance of debt or the levying of taxes. The School District has no component units.

The School District participates in an insurance purchasing pool and two jointly governed organizations. These organizations are the Northeast Ohio Safety Council Group Retrospective Rating Program, Connect and Ohio Schools Council Association. These organizations are presented in Notes 17 and 21 of the notes to the basic financial statements.

Note 2 - Summary of Significant Accounting Policies

The financial statements of the Bedford City School District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the School District's accounting policies are described below.

Bedford City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2020

Basis of Presentation

The School District's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities and fund financial statements which provide a more detailed level of financial information.

Government-wide Financial Statements The statement of net position and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The activity of the internal service funds is eliminated to avoid "doubling up" revenues and expenses. These statements usually distinguish between those activities of the School District that are governmental and those that are considered business-type. The School District, however has no business-type activities.

The statement of net position presents the financial condition of the governmental activities of the School District at fiscal year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the School District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the School District, within certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which a governmental function is self-financing or draws from the general revenues of the School District.

Fund Financial Statements During the fiscal year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the School District at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. The internal service funds are presented in a single column on the face of the proprietary fund statements. Fiduciary funds are reported by type.

Fund Accounting

The School District uses funds to maintain its financial records during the fiscal year. A fund is defined as a fiscal and accounting entity with a self balancing set of accounts. The funds of the School District are divided into three categories: governmental, proprietary and fiduciary.

Governmental Funds Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and deferred outflows of resources and liabilities and deferred inflows of resources is reported as fund balance. The following is the School District's only major governmental fund:

General Fund The general fund is the operating fund of the School District and is used to account for and report all financial resources except those required to be accounted for and reported in another fund. The general fund balance is available to the School District for any purpose provided it is expended or transferred according to the general laws of Ohio.

Bedford City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2020

The other governmental funds of the School District account for grants and other resources whose use is restricted, committed or assigned to a particular purpose.

Proprietary Fund Type Proprietary funds focus on the determination of operating income, changes in net position, financial position and cash flows and are classified as either enterprise or internal service. The School District only has one internal service fund.

Internal Service Funds The internal service funds account for the financing of services provided by one department or agency to other departments or agencies of the School District on a cost reimbursement basis. The School District's only internal service fund is a self insurance fund that accounts for run off claims of hospitalization/medical and prescription drug benefits of School District employees dated prior to January 1, 2019.

Fiduciary Fund Type Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension (and other employee benefit) trust funds, investment trust funds, private-purpose trust funds and custodial funds. Trust funds are distinguished from custodial funds by the existence of a trust agreement or equivalent arrangements that has certain characteristics. The School District's only trust fund is a private purpose trust which accounts for a college scholarship donations for students. Custodial funds are used to report fiduciary activities that are not required to be reported in a trust fund. The School District's only custodial fund is the district agency fund that reports Ohio High School Athletic Association tournament monies.

Measurement Focus

Government-wide Financial Statements The government-wide financial statements are prepared using the economic resources measurement focus. All assets and deferred outflows of resources and all liabilities and deferred inflows of resources associated with the operation of the School District are included on the statement of net position. The statement of activities presents increases (i.e., revenues) and decreases (i.e., expenses) in total net position.

Fund Financial Statements All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and deferred outflows of resources and current liabilities and deferred inflows of resources generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Like the government-wide statements, the internal service fund is accounted for on a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of the fund is included on the statement of net position. The statement of revenues, expenses and changes in net position presents increases (i.e., revenues) and decreases (i.e., expenses) in total position. The statement of cash flows provides information about how the School District finances and meets the cash flow needs of its internal service fund activity.

The private purpose trust fund is reported using the economic resources measurement focus.

Bedford City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2020

Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and fiduciary funds also use the accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, in the recording of deferred outflows/inflows of resources, and in the presentation of expenses versus expenditures.

Revenues - Exchange and Non-Exchange Transactions Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means expected to be received within sixty days of fiscal year-end.

Nonexchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. (See Note 8). Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the fiscal year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the School District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes available as an advance, payments in lieu of taxes, tuition, grants, and fees.

Deferred Outflows/Inflows of Resources In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the School District, deferred outflows of resources are reported on the government-wide statement of net position for pension and OPEB plans. The deferred outflows of resources related to pension and OPEB plans are explained in Notes 15 and 16.

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized until that time. For the School District, deferred inflows of resources include property taxes, pension, OPEB plans and unavailable revenue. Property taxes represent amounts for which there is an enforceable legal claim as of June 30, 2020, but which were levied to finance fiscal year 2021 operations. These amounts have been recorded as a deferred inflow on both the government-wide statement of net position and governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. For the School District, unavailable revenue includes delinquent property taxes, tuition and fees and intergovernmental revenues. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available. The details of these unavailable revenues are identified on the Reconciliation of Total Governmental Fund Balances to Net Position of Governmental Activities fund on page 17. Deferred inflows of resources related to pension and OPEB plans are reported on the government-wide statement of net position (See Notes 15 and 16).

Bedford City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2020

Expenses/Expenditures On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

Pensions/Other Postemployment Benefits (OPEB)

For purposes of measuring the net pension/OPEB liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions/OPEB, and pension/OPEB expense, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB plans report investments at fair value.

Budgetary Data

All funds, other than custodial funds, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the appropriation resolution and the certificate of estimated resources, which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amounts that the Board of Education may appropriate. The appropriation resolution is the Board's authorization to spend resources and set annual limits on expenditures plus encumbrances at a level of control selected by the Board. The legal level of control has been established by the Board of Education at the fund level for all funds; however, the budgets are monitored on a daily basis at the object account level within a function and fund. The Treasurer has been given the authority to allocate appropriations to the function and object levels within each fund.

The certificate of estimated resources may be amended during the fiscal year if projected increases or decreases in revenue are identified by the School District Treasurer. The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts in the certificate when the original appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts in the amended certificate in effect when the final appropriations were passed by the Board of Education.

The appropriation resolution is subject to amendment by the Board throughout the fiscal year with the restriction that appropriations may not exceed estimated revenues by fund. The amounts reported as the original budgeted amounts reflect the first appropriation for that fund that covered the entire fiscal year, including amounts automatically carried over from prior fiscal years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the fiscal year.

Cash and Cash Equivalents

To improve cash management, all cash received by the School District is pooled. Monies for all funds are maintained in this pool. Individual fund integrity is maintained through School District records. Interest in the pool is presented as "equity in pooled cash and cash equivalents."

Bedford City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2020

During fiscal year 2020, the School District's investments were limited to STAR Ohio. STAR Ohio (the State Treasury Asset Reserve of Ohio), is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but has adopted Governmental Accounting Standards Board (GASB), Statement No. 79, "Certain External Investment Pools and Pool Participants." The School District measures their investment in STAR Ohio at the net asset value (NAV) per share provided by STAR Ohio. The NAV per share is calculated on an amortized cost basis that provides an NAV per share that approximates fair value.

For fiscal year 2020, there were no limitations or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates. However, twenty-four hours advance notice is appreciated for deposits and withdrawals of \$100 million or more. STAR Ohio reserves the right to limit the transactions to \$100 million per day, requiring the excess amount to be transacted the following business day(s), but only to the \$100 million limit. All accounts of the participant will be combined for these purposes.

Following Ohio statutes, the Board of Education has, by resolution, identified the funds to receive an allocation of interest earnings. Interest revenue credited to the general fund during fiscal year 2020 amounted to \$422,587, which includes \$104,428 assigned from other School District funds.

Investments of the cash management pool and investments with an original maturity of three months or less at the time they are purchased by the School District are presented on the financial statements as cash equivalents. Investments with an initial maturity of more than three months not purchased from the pool are reported as investments.

Inventory

Inventories are presented at cost on a first-in, first-out basis and are expended/expensed when used. Inventory consists of expendable supplies held for consumption and donated and purchased food held for resale.

Capital Assets

All capital assets of the School District are classified as general capital assets. These assets generally result from expenditures in the governmental funds. They are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements.

Capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the fiscal year. Donated capital assets are recorded at their acquisition values as of the date received. The School District maintains a capitalization threshold of three thousand dollars. The School District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

All reported capital assets except land are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

Bedford City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2020

Description	Governmental Activities Estimated Lives
Buildings and Improvements	10 - 30 years
Furniture and Equipment	10 - 20 years
Vehicles	12 years

Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables." Interfund loans which do not represent available expendable resources are offset by a component of fund balance. These amounts are eliminated in the governmental activity column of the statement of net position.

Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the employer will compensate the employees for the benefits through paid time off or some other means. The School District records a liability for accumulated unused vacation time when earned for all employees with more than one year of service.

Sick leave benefits are accrued as a liability using the termination method. An accrual for earned sick leave is made to the extent that it is probable that benefits will result in termination payments. The liability is an estimate based on the School District's past experience of making termination payments.

The entire compensated absence liability is reported on the government-wide financial statements.

On the financial statements, compensated absences are recognized as a liability and expenditure to the extent payments come due each period upon the occurrence of employee resignations and retirements. These amounts are recorded in the account "Matured Compensated Absences Payable" in the fund from which the employee who has accumulated unpaid leave will be paid.

Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements and all payables, accrued liabilities and long-term obligations payable from the internal service funds are reported on the internal service fund financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, claims and judgments and compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current fiscal year. Bonds are recognized as a liability on the fund financial statements when due. Net pension/OPEB liability should be recognized in the governmental funds to the extent that benefit payments are due and payable and the pension/OPEB plan's fiduciary net position is not sufficient for payment of those benefits.

Bedford City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2020

Internal Activity

Transfers between governmental activities are eliminated on the government-wide financial statements. Internal allocations of overhead expenses from one function to another or within the same function are eliminated on the Statement of Activities. Interfund payments for services provided and used are not eliminated.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in internal service funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

Fund Balance Classifications

Fund balance is divided into five classifications based primarily on the extent to which the School is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

Nonspendable The nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash.

Restricted Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions.

Committed The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by the highest level formal action (resolution) of the School District Board of Education. Those committed amounts cannot be used for any other purpose unless the School District Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned Amounts in the assigned fund balance classification are intended to be used by the School District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. These amounts are assigned by the School District Board of Education. In the general fund, assigned amounts represent intended uses established by policies of the School District Board of Education or a School District official delegated that authority by State statute. State statute authorizes the Treasurer to assign fund balance for purchases on order provided such amounts have been lawfully appropriated. The Board of Education assigned fund balance for recreation, public school support, special enterprise, summer school and fiscal year 2021 operations.

Unassigned Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

Bedford City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2020

The School District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

Net Position

Net position represents the difference between all other elements in a statement of financial position. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use through external restrictions imposed by creditors, grantors or laws or regulations of other governments. Net position restricted for other purposes include resources restricted for auxiliary services, vocational education and support services.

The School District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the School District, these revenues are charges for services for the self-insurance program. Operating expenses are necessary costs incurred to provide the goods or services that are the primary activity of the fund. All revenues and expenses not meeting these definitions are reported as non-operating.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Note 3 –Accountability

At June 30, 2020, the following funds had deficit fund balances:

	<u>Amount</u>
Special Revenue Funds:	
Public School Preschool	\$1,457
Title VI-B	50,663
Vocational Education	6,261
Title III	7,879
Title I	247,072
Title VI-R	3,461
Miscellaneous Federal Grants	8,956
Capital Project Fund:	
Building	929,157

Bedford City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2020

The special revenue funds' deficits are due to adjustments for accrued liabilities. The deficit in the building fund is due to notes payable. The general fund is liable for any deficit in these funds and provides transfers when cash is required, rather than when accruals occur.

Note 4 – Fund Balances

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the School District is bound to observe constraints imposed upon the use of resources in the governmental funds. The constraints placed on fund balance for the major governmental fund and all other governmental funds are presented below:

Fund Balances	General	Other Governmental Funds	Total
<i>Nonspendable</i>			
Inventory	\$71,016	\$10,517	\$81,533
<i>Restricted for</i>			
Food Service	0	748,883	748,883
Technology Improvements	0	120,934	120,934
Student Activities and Athletics	0	101,046	101,046
Community Involvement	23,016	0	23,016
Student Wellness and Success	0	244,448	244,448
Miscellaneous State Grants	0	14,388	14,388
Debt Service Payments	0	94,463	94,463
Capital Improvements	0	558,645	558,645
<i>Total Restricted</i>	<u>23,016</u>	<u>1,882,807</u>	<u>1,905,823</u>
<i>Committed to</i>			
Educational Services	42,057	0	42,057
Health Services	3,710	0	3,710
Underground Storage Tanks	11,000	0	11,000
Capital Improvements	0	91,368	91,368
<i>Total Committed</i>	<u>56,767</u>	<u>91,368</u>	<u>148,135</u>
<i>Assigned to</i>			
Recreation	21,203	0	21,203
Public School Support	125,647	0	125,647
Special Enterprise	24,600	0	24,600
Summer School	861	0	861
Fiscal Year 2021 Operations	690,110	0	690,110
Purchases on Order			
Instruction	536,100	0	536,100
Support Services	438,410	0	438,410
Capital Outlay	2,256	0	2,256
<i>Total Assigned</i>	<u>1,839,187</u>	<u>0</u>	<u>1,839,187</u>
<i>Unassigned (Deficit)</i>	<u>15,818,598</u>	<u>(1,254,906)</u>	<u>14,563,692</u>
<i>Total Fund Balances</i>	<u><u>\$17,808,584</u></u>	<u><u>\$729,786</u></u>	<u><u>\$18,538,370</u></u>

Bedford City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2020

Note 5 - Budgetary Basis of Accounting

While the School District is reporting financial position, results of operations and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The Statement of Revenues, Expenditures and Changes in Fund Balances - Budget (Non-GAAP Basis) and Actual for the general fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis are as follows:

1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
2. Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
3. Encumbrances are treated as expenditures (budget basis) rather than restricted, committed, or assigned fund balance (GAAP basis).
4. Unrecorded cash represents amounts received but not reported by the School District on the operating statements (budget), but which is reported on the GAAP basis operating statements.
5. Advances in and advances out are operating transactions (budget basis) as opposed to balance sheet transactions (GAAP basis)
6. Budgetary revenues and expenditures of the public school support, special enterprise and summer school funds are classified to the general fund for GAAP reporting.

The following table summarizes the adjustments necessary to reconcile the GAAP basis statement to the budgetary basis statement for the general fund.

Net Change in Fund Balance	
GAAP Basis	(\$5,007,119)
Net Adjustment for Revenue Accruals	4,703,612
Advances In	3,000,000
Net Adjustment for Expenditure Accruals	871,453
Advances Out	(3,371,000)
Beginning Unrecorded Cash	115
Ending Unrecorded Cash	(508)
Perspective Difference:	
Public School Support	2,260
Special Enterprise	(11,600)
Summer School	15,540
Adjustment for Encumbrances	(1,711,783)
Budget Basis	<u><u>(\$1,509,030)</u></u>

Bedford City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2020

Note 6 - Deposits and Investments

Monies held by the School District are classified by State statute into three categories.

Active monies are public monies determined to be necessary to meet current demands upon the School District treasury. Active monies must be maintained either as cash in the School District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts.

Interim monies held by the School District can be deposited or invested in the following securities:

1. United States Treasury bills, bonds, notes, or any other obligation or security issued by the United States Treasury, or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or any other obligation or security issued by any federal government agency or instrumentality including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, and Government National Mortgage Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements in the securities listed above provided the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and the term of the agreement must not exceed thirty days;
4. Bonds and other obligations of the State of Ohio, and with certain limitations including a requirement for maturity within ten years from the date of settlement, bonds and other obligations of political subdivisions of the State of Ohio, if training requirements have been met;
5. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts;
6. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
7. The State Treasurer's investment pool (STAR Ohio); and

Bedford City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2020

8. Certain bankers' acceptances (for a period not to exceed one hundred eighty days) and commercial paper notes (for a period not to exceed two hundred seventy days) in an amount not to exceed 40 percent of the interim monies available for investment at any one time if training requirements have been met. The investment in commercial paper notes of a single issuer shall not exceed in the aggregate five percent of interim moneys available for investment at the time of purchase.

Investments in stripped principal or interest obligations, reverse repurchase agreements, and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage, and short selling are also prohibited. An investment must mature within five years from the date of purchase, unless matched to a specific obligation or debt of the School District, and must be purchased with the expectation that it will be held to maturity.

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

Deposits

Custodial credit risk for deposits is the risk that in the event of a bank failure, the School District will not be able to recover deposits or collateral securities that are in the possession of an outside party. At June 30, 2020, \$860,066 of the School District's total bank balance of \$3,256,184 was exposed to custodial credit risk because those deposits were uninsured and uncollateralized. The School District's financial institution participates in the Ohio Pooled Collateral System (OPCS) and was approved for a reduced collateral floor of 50 percent resulting in the uninsured and uncollateralized balance.

The School District has no deposit policy for custodial risk beyond the requirements of State statute. Ohio law requires that deposits either be insured or be protected by:

Eligible securities pledged to the School District and deposited with a qualified trustee by the financial institution as security for repayment whose market value at all times shall be at least one hundred five percent of the deposits being secured; or

Participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution. OPCS requires the total market value of the securities pledged to be one hundred two percent of the deposits being secured or a rate set by the Treasurer of State.

Investments

As of June 30, 2020, the School District had STAR Ohio as an investment. STAR Ohio is being held with an amount of \$22,509,161 which is insured at net asset value per share. The average maturity is 41.5 days.

Interest Rate Risk As a means of limiting its exposure to fair value losses caused by rising interest rates, the School District's investment policy requires that operating funds be invested primarily in short-term investments maturing within five years from the date of purchase and that the School District's investment portfolio be structured so that the securities mature to meet cash requirements for ongoing operations and/or long-term debt payments. The stated intent of the policy is to avoid the need to sell securities prior to maturity. To date, no investments have been purchased with a life greater than two years.

Bedford City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2020

Credit Risk Standard & Poor's has assigned an AAAM money market rating, its highest rating, to STAR Ohio. Ohio law requires that STAR Ohio maintain the highest rating provided by at least one nationally recognized standard rating service. The School District has no investment policy that addresses credit risk.

Note 7 - Receivables

Receivables at June 30, 2020, consisted of taxes, accounts (student fees and tuition), interfund and intergovernmental receipts. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs, and the current fiscal year guarantee of federal funds. All receivables except for delinquent property taxes are expected to be collected within one year. Property taxes, although ultimately collectible, include some portion of delinquencies that will not be collected within one year.

A summary of principal items of intergovernmental receivables follows:

Governmental Activities	Amount
Foundation Adjustments	\$842,565
Title I Grants and Subsidies	792,486
Title VI-B Grants and Subsidies	162,409
Vocational Education Grants and Subsidies	83,926
School Employees Retirement System	48,404
Universal Pre-K Reimbursement	33,266
Public School Preschool Grants and Subsidies	23,195
Federal Lunch Subsidy	21,238
Title VI-R Grants and Subsidies	17,433
Miscellaneous Federal Grants and Subsidies	10,511
Preschool Handicapped Grants and Subsidies	4,680
Cleveland State University	250
City of Bedford	216
Total	<u>\$2,040,579</u>

Note 8 - Property Taxes

Property taxes are levied and assessed on a calendar year basis, while the School District's fiscal year runs from July through June. First-half tax distributions are received by the School District in the second half of the fiscal year. Second-half tax distributions are received in the first half of the following fiscal year.

Property taxes include amounts levied against all real property and public utility property located in the School District. Real property tax revenues received in calendar year 2020 represents collections of calendar year 2019 taxes. Real property taxes received in calendar year 2020 were levied after April 1, 2019, on the assessed value listed as of January 1, 2019, the lien date. Assessed values for real property are established by State law at thirty-five percent of appraised market value. Real property are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Bedford City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2020

Public utility property tax revenues received in calendar year 2020 represents collections of calendar year 2019 taxes. Public utility real and tangible personal property taxes received in calendar year 2020 become a lien December 31, 2018, were levied after April 1, 2019 and are collected in 2020 with real property taxes. Public utility real property is assessed at thirty-five percent of true value; public utility tangible personal property currently is assessed at varying percentages of true value.

The School District receives property taxes from Cuyahoga County. The County Fiscal Officer periodically advances to the School District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2020, are available to finance fiscal year 2020 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

Accrued property taxes receivable includes real property and public utility property taxes which are measurable as of June 30, 2020 and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 were levied to finance current fiscal year operations are reported as revenue at fiscal year-end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred inflows of resources – property taxes. On the accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue while on the modified accrual basis the revenue has been reported as deferred inflows of resources – unavailable revenue.

The amount available as an advance at June 30, 2020 was \$1,826,129 in the general fund and \$26,440 in the permanent improvement capital projects fund. The amount available as an advance at June 30, 2019, was \$6,480,512 in the general fund and \$93,828 in the permanent improvement capital projects fund. The difference was in timing and collection by the County Fiscal Officer.

The assessed values upon which the fiscal year 2020 taxes were collected are:

	2019 Second Half Collections		2020 First Half Collections	
	Amount	Percent	Amount	Percent
Residential/Agricultural	\$376,046,050	50.92 %	\$375,900,150	50.80 %
Other Real Estate	281,920,870	38.17	279,904,370	37.83
Public Utility Personal	80,592,510	10.91	84,099,540	11.37
Total	\$738,559,430	100.00 %	\$739,904,060	100.00 %
Tax rate per \$1,000 of assessed valuation	\$75.72		\$75.72	

Bedford City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2020

Note 9 – Tax Abatements

School District property taxes were reduced as follows under Community Reinvestment Area (CRA) agreements entered into by overlapping governments, the City of Bedford and the Villages of Oakwood and Walton Hills. As a result of the agreements, the School District had \$538,725 in taxes abated for fiscal year 2020.

Pursuant to Section 5709.82 of the Ohio Revised Code, the overlapping governments and the Bedford City School District created various CRA compensation agreements. The School District received \$149,832 of income tax dollars as compensation for taxes abated in fiscal year 2020.

Note 10 – Other Employee Benefits

Compensated Absences

The criteria for determining vacation and sick leave benefits are derived from negotiated agreements and State laws. Classified employees and administrators earn ten to twenty days of vacation per year, depending upon length of service and hours worked. Accumulated unused vacation time is paid to classified employees upon termination of employment. Teachers do not earn vacation time. Each employee earns sick leave at a rate of one and one-fourth days per month. Sick leave may be accumulated to a maximum of 275 days for non-certificated, 260 days for certificated employees (unless in their final year of employment before retirement), 370 days for administrators and administrative assistants hired before July 1, 2016 and 340 days for administrative assistants hired after July 1, 2016. Upon retirement or termination after 25 years of consecutive service (or attaining age 52 and 20 years of consecutive service), payment is made for up to 40 days for certificated employees, 55 days for administrators and 30 days for administrative assistants, plus one-tenth of the days remaining. The maximum number of days to be paid out is 63.5 days for certificated staff, 86.5 days for administrators, 64 days for administrative assistants hired before July 1, 2016 and 61 days for administrative assistants hired after July 1, 2016. The non-certificated employees' payment is calculated using one-fourth of the days unless the employee has accumulated 90 percent or more of their maximum number of days in which case the calculation is made at 30 percent for a maximum of 82.5 days. For purposes of retirement, the employee receiving such payment must meet the eligibility requirement provisions set by STRS or SERS.

Social Security System

Effective July 1, 1991, all employees not otherwise covered by the School Employees Retirement System or the State Teachers Retirement System of Ohio have an option to choose Social Security or the School Employees Retirement System. As of June 30, 2020, two members of the Board of Education have elected Social Security. The Board's liability is 6.2 percent of wages.

Bedford City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2020

Note 11 - Interfund Transfers and Balances

Interfund Transfers

The general fund transferred \$100 to the student activities special revenue fund to provide financial support for various student activity programs, \$109,900 to the district managed student activities special revenue fund to provide financial support for the School District's athletics, \$137,754 to the permanent improvement capital projects fund to help fund capital improvements, \$150,000 to the capital replacement capital projects fund for bus purchases and \$20,000 to the self-insurance internal service fund to provide financial support for the School District's insurance expenses.

Interfund Balances

Interfund balances at June 30, 2020, consist of the following individual fund receivables and payables:

Interfund Payable	Interfund Receivable
	General
Other Governmental Funds	
Public School Preschool	\$75,000
Miscellaneous State Grants	5,000
ESSER	500,000
Title VI-B	580,000
Vocational Education	150,000
Title III	10,000
Title I	1,700,000
Preschool Handicapped	10,000
Title VI-R	225,000
Miscellaneous Federal Grants	55,000
Grand Total	\$3,310,000

The interfund receivables and payables are advances due to the timing of the receipt of grant monies and other monies collected for some programs received by various funds. The general fund provides money to operate the programs until grants and other monies are received and the advances can be repaid. These advances are expected to be repaid within the next fiscal year.

Bedford City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2020

Note 12 - Capital Assets

Capital asset activity for the fiscal year ended June 30, 2020, was as follows:

	Balance 6/30/19	Additions	Deletions	Balance 6/30/20
Governmental Activities				
<i>Capital Assets, not being depreciated:</i>				
Land	\$2,261,500	\$0	\$0	\$2,261,500
<i>Capital Assets, being depreciated:</i>				
Buildings and Improvements	44,210,861	266,228	0	44,477,089
Furniture and Equipment	7,073,410	313,444	(2,084,648)	5,302,206
Vehicles	5,745,579	354,512	(292,674)	5,807,417
Total Capital Assets, being depreciated	57,029,850	934,184	(2,377,322)	55,586,712

Extracurricular Activities	162,155
Total Depreciation Expense	\$1,692,146

Bedford City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2020

Note 13 - Contingencies

Grants

The School District received financial assistance from federal and State agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, the effect of any such disallowed claims on the overall financial position of the School District at June 30, 2020, if applicable, cannot be determined at this time.

School Foundation

School District foundation funding is based on the annualized full-time equivalent (FTE) enrollment of each student. The Ohio Department of Education (ODE) is legislatively required to adjust/reconcile funding as enrollment information is updated by schools throughout the State, which can extend past the fiscal year end. As of the date of this report, additional ODE adjustments for fiscal year 2020 have been finalized, which did not result in a material receivable to, or a liability of, the School District.

Litigation

The School District is not party to any material legal proceedings.

Note 14 - Risk Management

Property and Liability

The School District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees and natural disasters. During fiscal year 2020, the School District contracted for property and general liability insurance, and boiler and machinery coverage through the Ohio Schools Council Association Group Purchasing Consortium. The Netherlands Insurance Company (member of Liberty Mutual Group) is the carrier for the School District's insurance.

Aggregate property coverage is \$158,012,687 with a \$5,000 deductible. The policy is renewable on July 1, 2020, for each coverage. Casualty and fleet insurance coverage was provided with a combined single limit of \$1 million. Education and umbrella liability insurance coverage was provided with a combined single limit of \$9 million each occurrence and combined aggregate of \$9 million. Cyber risk insurance coverage was provided through Great American Insurance Group in the amount of \$1,000,000 with a \$2,500 deductible. The Treasurer is covered by a \$100,000 surety bond and the Superintendent, Board of Education President, and Business Manager are covered by \$50,000 position bonds.

Settled claims have not exceeded this commercial coverage in any of the past three years. There have been no significant reductions in coverage from last year.

Worker's Compensation

For fiscal year 2020, the School District participated in the Northeast Ohio Safety Council Group Retrospective Rating Program, an insurance purchasing pool (Note 17). The intent of the Group Rating Program, (GRP) is to achieve the benefit of a reduced premium for the School District by virtue of its grouping and representation with other participants in the GRP. The workers' compensation experience of

Bedford City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2020

the participating school districts is calculated as one experience and a common premium rate is applied to all school districts in the GRP. Each participant pays its workers' compensation premium to the State based on the rate for the GRP rather than its individual rate. Participation in the GRP is limited to school districts that can meet the GRP's selection criteria. The firm of Minute Men HR. provides administrative, cost control and actuarial services to the GRP.

Employee Benefits

Effective January 1, 2019, the School District transitioned into a fully-funded insurance program for employee hospitalization/medical benefits and prescription drug benefits. The School District intends to use up the balance in the self insurance internal service fund to pay off any remaining claims as well as future monthly insurance premiums. There is no claims liability reported in the fund at June 30, 2020.

During fiscal year 2020, the School District elected to provide employee hospitalization/medical benefits and prescription drug benefits through a fully funded program with Medical Mutual. Employees pay 13 percent of the monthly premium. If an employee receives a wellness physical, then the employee percentage contribution is reduced by one percent.

Dental benefits are provided with a fully-insured program and claims are limited to \$2,500 per covered individual per year, with a lifetime limit of \$1,000 on orthodontia.

Note 15 – Defined Benefit Pension Plans

The Statewide retirement systems provide both pension benefits and other postemployment benefits (OPEB).

Net Pension Liability/Net OPEB Liability (Asset)

The net pension liability and the net OPEB liability (asset) reported on the statement of net position represent liabilities to employees for pensions and OPEB, respectively. Pensions/OPEB are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions/OPEB are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension/OPEB liability (asset) represent the School District's proportionate share of each pension/OPEB plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension/OPEB plan's fiduciary net position. The net pension/OPEB liability (asset) calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting these estimates annually.

Ohio Revised Code limits the School District's obligation for this liability to annually required payments. The School District cannot control benefit terms or the manner in which pensions/OPEB are financed; however, the School District does receive the benefit of employees' services in exchange for compensation including pension and OPEB.

Bedford City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2020

GASB 68/75 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires funding to come from these employers. All pension contributions to date have come solely from these employers (which also includes pension costs paid in the form of withholdings from employees). The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits. In addition, health care plan enrollees pay a portion of the health care costs in the form of a monthly premium. State statute requires the retirement systems to amortize unfunded pension liabilities within 30 years. If the pension amortization period exceeds 30 years, each retirement system’s board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension/OPEB liability (asset). Resulting adjustments to the net pension/OPEB liability (asset) would be effective when the changes are legally enforceable. The Ohio Revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients.

The proportionate share of each plan’s unfunded benefits is presented as a *net OPEB asset* or long-term *net pension/OPEB liability* on the accrual basis of accounting. Any liability for the contractually-required pension/OPEB contribution outstanding at the end of the year is included in *intergovernmental payable* on both the accrual and modified accrual bases of accounting. The remainder of this note includes the required pension disclosures. See Note 16 for the required OPEB disclosures.

Plan Description - School Employees Retirement System (SERS)

Plan Description – School District’s non-teaching employees participate in SERS, a cost-sharing multiple-employer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS’ fiduciary net position. That report can be obtained by visiting the SERS website at www.ohsers.org under Employers/Audit Resources.

Age and service requirements for retirement are as follows:

	Eligible to Retire on or before August 1, 2017 *	Eligible to Retire on or after August 1, 2017
Full Benefits	Any age with 30 years of service credit	Age 67 with 10 years of service credit; or Age 57 with 30 years of service credit
Actuarially Reduced Benefits	Age 60 with 5 years of service credit Age 55 with 25 years of service credit	Age 62 with 10 years of service credit; or Age 60 with 25 years of service credit

* Members with 25 years of service credit as of August 1, 2017, will be included in this plan.

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on years of service; 2.2 percent for the first thirty years of service and 2.5 percent for years of service credit over 30. Final average salary is the average of the highest three years of salary.

Bedford City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2020

An individual whose benefit effective date is before April 1, 2018, is eligible for a cost of living adjustment (COLA) on the first anniversary date of the benefit. Beginning April 1, 2018, new benefit recipients must wait until the fourth anniversary of their benefit for COLA eligibility. The COLA is added each year to the base benefit amount on the anniversary date of the benefit. A three-year COLA suspension is in effect for all benefit recipients for the years 2018, 2019, and 2020. Upon resumption of the COLA, it will be indexed to the percentage increase in the CPI-W, not to exceed 2.5 percent and with a floor of 0 percent.

Funding Policy – Plan members are required to contribute 10 percent of their annual covered salary and the School District is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to statutory maximum amounts of 10 percent for plan members and 14 percent for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System's funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2020, the allocation to pension, death benefits, and Medicare B was 14.0 percent. For fiscal year 2020, the Retirement Board did not allocate any employer contribution to the Health Care Fund.

The School District's contractually required contribution to SERS was \$1,214,892 for fiscal year 2020. Of this amount \$74,489 is reported as an intergovernmental payable.

Plan Description - State Teachers Retirement System (STRS)

Plan Description – School District licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple employer public employee system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information, and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at www.strsoh.org.

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan, and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307.

The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation is 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of service. In April 2017, the Retirement Board made the decision to reduce COLA granted on or after July 1, 2017, to 0 percent to preserve the fiscal integrity of the retirement system. Benefit recipients' base benefit and past cost-of living increases are not affected by this change. Eligibility changes will be phased in until August 1, 2026, when retirement eligibility for unreduced benefits will be five year of service credit and age 65, or 35 years of service credit and at least age 60.

Eligibility changes for DB Plan members who retire with actuarially reduced benefits will be phased in until August 1, 2023, when retirement eligibility will be five years of qualifying service credit and age 60, or 30 years of service credit at any age.

Bedford City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2020

The DC Plan allows members to place all their member contributions and 9.53 percent of the 14 percent employer contributions into an investment account. The member determines how to allocate the member and employer money among various investment choices offered by STRS. The remaining 4.47 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, 12 percent of the 14 percent member rate is deposited into the member's DC account and the remaining 2 percent is applied to the DB Plan. Member contributions to the DC Plan are allocated among investment choices by the member, and contributions to the DB Plan from the employer and the member are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of service. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age fifty and after termination of employment.

New members who choose the DC plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. New members must have at least ten years of qualifying service credit that apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. Eligible survivors of members who die before service retirement may qualify for monthly benefits. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy – Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. The fiscal year 2020 employer and employee contribution rate of 14 percent was equal to the statutory maximum rates. For fiscal year 2020, the full employer contribution was allocated to pension.

The School District's contractually required contribution to STRS was \$3,024,372 for fiscal year 2020. Of this amount \$413,492 is reported as an intergovernmental payable.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The School District's proportion of the net pension liability was based on the School District's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

Bedford City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2020

	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
Proportion of the Net Pension Liability:			
Current Measurement Date	0.25057980%	0.17413862%	
Prior Measurement Date	<u>0.25461410%</u>	<u>0.17926494%</u>	
Change in Proportionate Share	<u>-0.00403430%</u>	<u>-0.00512632%</u>	
Proportionate Share of the Net			
Pension Liability	\$14,992,629	\$38,509,710	\$53,502,339
Pension Expense	\$1,867,890	\$4,885,279	\$6,753,169

At June 30, 2020, the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
Deferred Outflows of Resources			
Differences between expected and actual experience	\$380,180	\$313,533	\$693,713
Changes of assumptions	0	4,523,709	4,523,709
Changes in proportionate Share and difference between School District contributions and proportionate share of contributions	60,137	0	60,137
School District contributions subsequent to the measurement date	<u>1,214,892</u>	<u>3,024,372</u>	<u>4,239,264</u>
Total Deferred Outflows of Resources	<u>\$1,655,209</u>	<u>\$7,861,614</u>	<u>\$9,516,823</u>
Deferred Inflows of Resources			
Differences between expected and actual experience	\$0	\$166,701	\$166,701
Net difference between projected and actual earnings on pension plan investments	192,449	1,882,146	2,074,595
Changes in Proportionate Share and Difference between School District contributions and proportionate share of contributions	<u>358,780</u>	<u>1,864,373</u>	<u>2,223,153</u>
Total Deferred Inflows of Resources	<u>\$551,229</u>	<u>\$3,913,220</u>	<u>\$4,464,449</u>

\$4,239,264 is reported as deferred outflows of resources related to pension resulting from School District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

Bedford City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2020

	SERS	STRS	Total
Fiscal Year Ending June 30:			
2021	\$166,574	\$1,701,383	\$1,867,957
2022	(373,822)	(205,889)	(579,711)
2023	(12,806)	(584,241)	(597,047)
2024	109,142	12,769	121,911
Total	(\$110,912)	\$924,022	\$813,110

Actuarial Assumptions - SERS

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2019, are presented below:

Inflation	3.00 percent
Future Salary Increases, including inflation	3.50 percent to 18.20 percent
COLA or Ad Hoc COLA	2.5 percent
Investment Rate of Return	7.50 percent net of investment expense, including inflation
Actuarial Cost Method	Entry Age Normal (Level Percent of Payroll)

Mortality rates were based on the RP-2014 Blue Collar Mortality Table with fully generational projection and a five year age set-back for both males and females. Mortality among service retired members, and beneficiaries were based upon the RP-2014 Blue Collar Mortality Table with fully generational projection with Scale BB, 120 percent of male rates, and 110 percent of female rates. Mortality among disabled members were based upon the RP-2000 Disabled Mortality Table, 90 percent for male rates and 100 percent for female rates, set back five years is used for the period after disability retirement.

Bedford City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2020

The most recent experience study was completed for the five year period ended June 30, 2015.

The long-term return expectation for the Pension Plan Investments has been determined by using a building-block approach and assumes a time horizon, as defined in SERS' *Statement of Investment Policy*. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating an arithmetic weighted average of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalanced uncorrelated asset classes.

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Cash	1.00 %	0.50 %
US Stocks	22.50	4.75
Non-US Stocks	22.50	7.00
Fixed Income	19.00	1.50
Private Equity	10.00	8.00
Real Assets	15.00	5.00
Multi-Asset Strategies	10.00	3.00
Total	100.00 %	

Discount Rate The total pension liability was calculated using the discount rate of 7.50 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the long-term assumed investment rate of return (7.50 percent). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 7.50 percent, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.50 percent), or one percentage point higher (8.50 percent) than the current rate.

	1% Decrease (6.50%)	Current Discount Rate (7.50%)	1% Increase (8.50%)
School District's proportionate share of the net pension liability	\$21,010,033	\$14,992,629	\$9,946,282

Actuarial Assumptions - STRS

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results used in the July 1, 2019, actuarial valuation are presented below:

Bedford City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2020

Inflation	2.50 percent
Projected salary increases	12.50 percent at age 20 to 2.50 percent at age 65
Investment Rate of Return	7.45 percent, net of investment expenses, including inflation
Discount Rate of Return	7.45 percent
Payroll Increases	3 percent
Cost-of-Living Adjustments (COLA)	0.0 percent, effective July 1, 2017

Post-retirement mortality rates for healthy retirees are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. Pre-retirement mortality rates are based on RP-2014 Employee Mortality Table, projected forward generationally using mortality improvement scale MP-2016. Post-retirement disabled mortality rates are based on the RP-2014 Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016.

Actuarial assumptions used in the July 1, 2019, valuation are based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2016.

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

<u>Asset Class</u>	<u>Target Allocation *</u>	<u>Long-Term Expected Rate of Return **</u>
Domestic Equity	28.00 %	7.35 %
International Equity	23.00	7.55
Alternatives	17.00	7.09
Fixed Income	21.00	3.00
Real Estate	10.00	6.00
Liquidity Reserves	<u>1.00</u>	2.25
Total	<u>100.00 %</u>	

* Target weights will be phased in over a 24-month period concluding on July1, 2019.

** 10 year annualized geometric nominal returns, which include the real rate of return and inflation of 2.25 percent and does not include investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

Bedford City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2020

Discount Rate The discount rate used to measure the total pension liability was 7.45 percent as of June 30, 2019. The projection of cash flows used to determine the discount rate assumes that member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2019. Therefore, the long-term expected rate of return on pension plan investments of 7.45 percent was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2019.

Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate The following table presents the School District's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.45 percent, as well as what the School District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.45 percent) or one-percentage-point higher (8.45 percent) than the current rate:

	1% Decrease (6.45%)	Current Discount Rate (7.45%)	1% Increase (8.45%)
School District's proportionate share of the net pension liability	\$56,277,650	\$38,509,710	\$23,468,237

Note 16 - Defined Benefit OPEB Plans

See Note 15 for a description of the net OPEB liability (asset).

Plan Description - School Employees Retirement System (SERS)

Health Care Plan Description - The School District contributes to the SERS Health Care Fund, administered by SERS for non-certificated retirees and their beneficiaries. For GASB 75 purposes, this plan is considered a cost-sharing other postemployment benefit (OPEB) plan. SERS' Health Care Plan provides healthcare benefits to eligible individuals receiving retirement, disability, and survivor benefits, and to their eligible dependents. Members who retire after June 1, 1986, need 10 years of service credit, exclusive of most types of purchased credit, to qualify to participate in SERS' health care coverage. In addition to age and service retirees, disability benefit recipients and beneficiaries who are receiving monthly benefits due to the death of a member or retiree, are eligible for SERS' health care coverage. Most retirees and dependents choosing SERS' health care coverage are over the age of 65 and therefore enrolled in a fully insured Medicare Advantage plan; however, SERS maintains a traditional, self-insured preferred provider organization for its non-Medicare retiree population. For both groups, SERS offers a self-insured prescription drug program. Health care is a benefit that is permitted, not mandated, by statute. The financial report of the Plan is included in the SERS Comprehensive Annual Financial Report which can be obtained on SERS' website at www.ohsers.org under Employers/Audit Resources.

Bedford City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2020

Access to health care for retirees and beneficiaries is permitted in accordance with Section 3309 of the Ohio Revised Code. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). SERS' Retirement Board reserves the right to change or discontinue any health plan or program. Active employee members do not contribute to the Health Care Plan. The SERS Retirement Board established the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility, and retirement status.

Funding Policy - State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required pensions and benefits, the Retirement Board may allocate the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund in accordance with the funding policy. For fiscal year 2020, no allocation was made to health care. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro-rated if less than a full year of service credit was earned. For fiscal year 2020, this amount was \$19,600. Statutes provide that no employer shall pay a health care surcharge greater than 2 percent of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5 percent of the total statewide SERS-covered payroll for the health care surcharge.

For fiscal year 2020, the School District's surcharge obligation was \$103,021.

The surcharge, added to the allocated portion of the 14 percent employer contribution rate is the total amount assigned to the Health Care Fund. The School District's contractually required contribution to SERS was \$103,021 for fiscal year 2020. Of this amount \$103,021 is reported as an intergovernmental payable.

Plan Description - State Teachers Retirement System (STRS)

Plan Description – The State Teachers Retirement System of Ohio (STRS) administers a cost-sharing Health Plan administered for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums. Medicare Part B premium reimbursements will be discontinued effective January 1, 2021. The Plan is included in the report of STRS which can be obtained by visiting www.strsoh.org or by calling (888) 227-7877.

Funding Policy – Ohio Revised Code Chapter 3307 authorizes STRS to offer the Plan and gives the Retirement Board discretionary authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. All benefit recipients pay a portion of the health care costs in the form of a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions, currently 14 percent of covered payroll. For fiscal year ended June 30, 2020, STRS did not allocate any employer contributions to post-employment health care.

OPEB Liabilities (Asset), OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

The net OPEB liability (asset) was measured as of June 30, 2019, and the total OPEB liability used to calculate the net OPEB liability (asset) was determined by an actuarial valuation as of that date. The School District's proportion of the net OPEB liability (asset) was based on the School District's share of contributions to the respective retirement systems relative to the contributions of all participating entities. Following is information related to the proportionate share and OPEB expense:

Bedford City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2020

	SERS	STRS	Total
Proportion of the Net OPEB Liability:			
Current Measurement Date	0.24816310%	0.17413862%	
Prior Measurement Date	0.25387430%	0.17926494%	
Change in Proportionate Share	<u>-0.00571120%</u>	<u>-0.00512632%</u>	
Proportionate Share of the:			
Net OPEB Liability	\$6,240,780	\$0	\$6,240,780
Net OPEB (Asset)	\$0	(\$2,884,154)	(\$2,884,154)
OPEB Expense	\$72,046	(\$949,524)	(\$877,478)

At June 30, 2020, the School District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	SERS	STRS	Total
Deferred Outflows of Resources			
Differences between expected and actual experience	\$91,610	\$261,469	\$353,079
Changes of assumptions	455,818	60,625	516,443
Net difference between projected and actual earnings on OPEB plan investments	14,980	0	14,980
Changes in proportionate Share and difference between School District contributions and proportionate share of contributions	3,157	0	3,157
School District contributions subsequent to the measurement date	<u>103,021</u>	<u>0</u>	<u>103,021</u>
Total Deferred Outflows of Resources	<u>\$668,586</u>	<u>\$322,094</u>	<u>\$990,680</u>
Deferred Inflows of Resources			
Differences between expected and actual experience	\$1,371,057	\$146,735	\$1,517,792
Changes of assumptions	349,715	3,162,137	3,511,852
Net difference between projected and actual earnings on OPEB plan investments	0	181,146	181,146
Changes in Proportionate Share and Difference between School District contributions and proportionate share of contributions	<u>624,529</u>	<u>274,625</u>	<u>899,154</u>
Total Deferred Inflows of Resources	<u>\$2,345,301</u>	<u>\$3,764,643</u>	<u>\$6,109,944</u>

\$103,021 reported as deferred outflows of resources related to OPEB resulting from School District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ending June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Bedford City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2020

	SERS	STRS	Total
Fiscal Year Ending June 30:			
2021	(\$488,633)	(\$754,982)	(\$1,243,615)

2023	(313,363)	(682,383)	(995,746)
2024	(314,078)	(656,914)	(970,992)
2025	(249,493)	(596,661)	(846,154)
Thereafter	(96,409)	3,374	(93,035)
Total	(\$1,779,736)	(\$3,442,549)	(\$5,222,285)

Actuarial Assumptions - SERS

The total OPEB liability is determined by SERS' actuaries in accordance with GASB Statement No. 74, as part of their annual actuarial valuation for each retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment terminations). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total OPEB liability in the latest actuarial valuation date of June 30, 2019, are presented below:

Inflation	3.00 percent
Wage Increases	3.50 percent to 18.20 percent
Investment Rate of Return	7.50 percent net of investment expense, including inflation
Municipal Bond Index Rate:	
Measurement Date	3.13 percent
Prior Measurement Date	3.62 percent
Single Equivalent Interest Rate, net of plan investment expense, including price inflation	
Measurement Date	3.22 percent
Prior Measurement Date	3.70 percent
Medical Trend Assumption	
Medicare	5.25 to 4.75 percent
Pre-Medicare	7.00 to 4.75 percent

Bedford City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2020

Mortality rates were based on the RP-2014 Blue Collar Mortality Table with fully generational projection and Scale BB, 120 percent of male rates and 110 percent of female rates. RP-2000 Disabled Mortality Table with 90 percent for male rates and 100 percent for female rates set back five years.

The most recent experience study was completed for the five year period ended June 30, 2015.

The long-term expected rate of return on plan assets is reviewed as part of the actuarial five-year experience study. The most recent study covers fiscal years 2010 through 2015, and was adopted by the Board on April 21, 2016. Several factors are considered in evaluating the long-term rate of return assumption including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return, 7.50 percent, by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The capital market assumptions developed by the investment consultant are intended for use over a 10-year horizon and may not be useful in setting the long-term rate of return for funding pension plans which covers a longer timeframe. The assumption is intended to be a long-term assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

The SERS health care plan follows the same asset allocation and long-term expected real rate of return for each major asset class as the pension plan, see Note 15.

Discount Rate The discount rate used to measure the total OPEB liability at June 30, 2019 was 3.22 percent. The discount rate used to measure total OPEB liability prior to June 30, 2019, was 3.70 percent. The projection of cash flows used to determine the discount rate assumed that contributions will be made from members and the System at the state statute contribution rate of 2.00 percent of projected covered employee payroll each year, which includes a 1.50 percent payroll surcharge and 0.50 percent of contributions from the basic benefits plan. Based on these assumptions, the OPEB plan's fiduciary net position was projected to become insufficient to make future benefit payments during the fiscal year ending June 30, 2025. Therefore, the long-term expected rate of return on OPEB plan assets was used to present value the projected benefit payments through the fiscal year ending June 30, 2024 and the Fidelity General Obligation 20-year Municipal Bond Index rate of 3.13 percent, as of June 30, 2019 (i.e. municipal bond rate), was used to present value the projected benefit payments for the remaining years in the projection. The total present value of projected benefit payments from all years was then used to determine the single rate of return that was used as the discount rate. The projection of future benefit payments for all current plan members was until the benefit payments ran out.

Sensitivity of the School District's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate and Changes in the Health Care Cost Trend Rates The net OPEB liability is sensitive to changes in the discount rate and the health care cost trend rate. The following table presents the net OPEB liability of SERS, what SERS' net OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (2.22 percent) and higher (4.22 percent) than the current discount rate (3.22 percent). Also shown is what SERS' net OPEB liability would be based on health care cost trend rates that are 1 percentage point lower (6.00 percent decreasing to 3.75 percent) and higher (8.00 percent decreasing to 5.75 percent) than the current rate.

Bedford City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2020

	1% Decrease (2.22%)	Current Discount Rate (3.22%)	1% Increase (4.22%)
School District's proportionate share of the net OPEB liability	\$7,575,123	\$6,240,780	\$5,179,821
	1% Decrease (6.00% decreasing to 3.75%)	Current Trend Rate (7.00% decreasing to 4.75%)	1% Increase (8.00% decreasing to 5.75%)
School District's proportionate share of the net OPEB liability	\$5,000,000	\$6,240,780	\$7,886,824

Actuarial Assumptions – STRS

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results used in the June 30, 2019, actuarial valuation are presented below:

Projected salary increases	12.50 percent at age 20 to 2.50 percent at age 65
Investment Rate of Return	7.45 percent, net of investment expenses, including inflation
Payroll Increases	3 percent
Discount Rate of Return	7.45 percent
Health Care Cost Trends	
Medical	
Pre-Medicare	5.87 percent initial, 4 percent ultimate
Medicare	4.93 percent initial, 4 percent ultimate
Prescription Drug	
Pre-Medicare	7.73 percent initial, 4 percent ultimate
Medicare	9.62 initial, 4 percent ultimate

Projections of benefits include the historical pattern of sharing benefit costs between the employers and retired plan members.

For healthy retirees the mortality rates are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. For disabled retirees, mortality rates are based on the RP-2014 Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016.

Actuarial assumptions used in the June 30, 2019, valuation are based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2016.

Since the prior measurement date, there was no change to the claims costs process. Claim curves were trended to the fiscal year ending June 30, 2020 to reflect the current price renewals. The non-Medicare subsidy percentage was increased effective January 1, 2020 from 1.944 percent to 1.984 percent per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2020. The Medicare subsidy percentages were adjusted effective January 1, 2021 to 2.1 percent for the Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed to January 1, 2021.

Bedford City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2020

The STRS health care plan follows the same asset allocation and long-term expected real rate of return for each major asset class as the pension plan, see Note 15.

Discount Rate The discount rate used to measure the total OPEB liability was 7.45 percent as of June 30, 2019. The projection of cash flows used to determine the discount rate assumes STRS continues to allocate no employer contributions to the health care fund. Based on these assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2019. Therefore, the long-term expected rate of return on health care plan investments of 7.45 percent was used to measure the total OPEB liability as of June 30, 2019.

Sensitivity of the School District's Proportionate Share of the Net OPEB Asset to Changes in the Discount and Health Care Cost Trend Rate The following table represents the net OPEB asset as of June 30, 2019, calculated using the current period discount rate assumption of 7.45 percent, as well as what the net OPEB asset would be if it were calculated using a discount rate that is one percentage point lower (6.45 percent) or one percentage point higher (8.45 percent) than the current assumption. Also shown is the net OPEB asset as if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current health care cost trend rates.

	1% Decrease (6.45%)	Current Discount Rate (7.45%)	1% Increase (8.45%)
School District's proportionate share of the net OPEB asset	(\$2,461,051)	(\$2,884,154)	(\$3,239,884)
	1% Decrease	Current Trend Rate	1% Increase
School District's proportionate share of the net OPEB asset	(\$3,270,497)	(\$2,884,154)	(\$2,410,975)

Note 17 - Insurance Purchasing Pool

Northeast Ohio Safety Council Group Retrospective Rating Program - The School District participates in the Northeast Ohio Safety Council (NEOSC) Group Retrospective Rating Program, an insurance purchasing pool. The NEOSC program is an approved Ohio Bureau of Workers' Compensation certified workers' compensation discount program for public employer school districts and library districts. Each year participating school districts and public libraries must reenroll and pay an enrollment fee to the administrator of the NEOSC program, which covers the cost of the program, claims management and hearing representation within the Industrial Commission. The individual districts pay their own premium based on the experience of the previous years. The entire pool's standard premium is evaluated over the next 36 months based on parameters set forth by the rules of the program. The results after 24 or 36 months will produce an assessment or rebate based on the activity of the pool.

Note 18 - Set Asides

The School District is required by State statute to annually set aside in the general fund an amount based on a statutory formula for the acquisition and construction of capital improvements. Amounts not spent by fiscal year end or offset by similarly restricted resources received during the fiscal year must be held in cash at fiscal year end and carried forward to be used for the same purposes in future fiscal years.

Bedford City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2020

The following cash basis information describes the change in the fiscal year end set aside amounts for capital acquisition. Disclosure of this information is required by State statute.

	Capital Improvement
Set-aside Balances as of June 30, 2019	\$0
Current Year Set-aside Requirement	560,266
Current Year Offsets	(337,749)
Qualifying Disbursements	(1,761,849)
Totals	(\$1,539,332)
Set-aside Balance Carried Forward to Future Fiscal Years	\$0
Set-aside Balances as of June 30, 2020	\$0

While the current year offsets and qualifying disbursements during the fiscal year reduced the capital improvement set-aside amount to below zero, this amount may not be used to reduce the set-aside requirements of future fiscal years.

Note 19 – Notes Payable

The School’s note activity, including amounts outstanding and interest rates is as follows:

	Outstanding 6/30/2019	Issued	Retired	Outstanding 6/30/2020
Governmental Activities				
Tax Anticipation Notes, Series 2016	\$204,273	\$0	(\$102,000)	\$102,273
Tax Anticipation Notes, Series 2019	0	2,400,000	0	2,400,000
Total Governmental Activities	\$204,273	\$2,400,000	(\$102,000)	\$2,502,273

In fiscal year 2016, the School District issued \$609,273 in tax anticipation notes for capital projects. The notes will be paid from the general fund and the capital replacement capital projects fund.

In fiscal year 2020, the School District issued \$2,400,000 in tax anticipation notes for capital projects. The notes will be paid from the building capital projects fund.

Principal and interest payments to retire the tax anticipation notes are as follows:

	Principal	Interest	Total
2021	\$317,273	\$55,690	\$372,963
2022	221,000	48,543	269,543
2023	226,000	43,313	269,313
2024	231,000	37,967	268,967
2025	237,000	32,491	269,491
2026 - 2030	1,270,000	75,699	1,345,699
Total	\$2,502,273	\$293,703	\$2,795,976

Bedford City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2020

All notes are backed by the full faith and credit of the School. The note liability is reflected in the fund which received the proceeds and will repay the debt.

Note 20 - Long Term Obligations

The original issue date, interest rate, original issue amount and date of maturity of each of the School District's long-term obligations follows:

Debt Issue	Original Issue Date	Original Issue Amount	Interest Rate	Date of Maturity
General Obligation Bonds:				
Energy Conservation Improvement Bonds	2006	\$3,562,114	4.11%	October 15, 2020
General Obligation Bonds from Direct Placements:				
Real Estate Improvement Bonds	2020	500,000	2.34%	December 1, 2029

The changes in the School District's long-term obligations during the year consist of the following:

	Principal Outstanding 6/30/19	Additions	(Reductions)	Principal Outstanding 6/30/20	Amount Due in One Year
Governmental Activities:					
General Obligation Bonds:					
Energy Conservation Improvement Bonds	\$598,960	\$0	(\$293,456)	\$305,504	\$305,504
General Obligation Bonds from Direct Placements:					
Real Estate Improvement Bonds	0	500,000	0	500,000	45,000
Other Long Term Obligations:					
Net Pension Liability:					
SERS	14,582,221	410,408	0	14,992,629	0
STRS	39,416,336	0	(906,626)	38,509,710	0
Total Net Pension Liability	53,998,557	410,408	(906,626)	53,502,339	0
Net OPEB Liability:					
SERS	7,043,158	0	(802,378)	6,240,780	0
Compensated Absences	4,789,251	1,951,091	(1,819,380)	4,920,962	1,849,195
<i>Total Other Long Term Obligation</i>	65,830,966	2,361,499	(3,528,384)	64,664,081	1,849,195
Total Governmental Activities	\$66,429,926	\$2,861,499	(\$3,821,840)	\$65,469,585	\$2,199,699

Energy conservation improvement bonds were issued for the purpose of improvements throughout the School District. These bonds will be paid from the general fund.

On November 8, 2019, the School District issued real estate improvement bonds through direct placement, in the amount of \$500,000. The bonds were issued with a 2.34 percent interest rate. The bonds were issued for a ten year period with a final maturity on December 1, 2029.

Bedford City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2020

The School District pays obligations related to employee compensation from the fund benefitting from their service. Compensated absences are paid from the general fund, the food service, other local grants, public school preschool, student wellness and success, title VI-B, and title I special revenue funds. There are no repayment schedules for the net pension liability and net OPEB liability. However, employer pension contributions are made from the general fund and the food service, other local grants, public school preschool, student wellness and success, title VI-B and title I special revenue funds. For additional information related to the net pension and net OBEB liabilities see Notes 15 and 16.

The overall legal debt margin of the School District as of June 30, 2020, was \$65,880,324 with an unvoted legal debt margin of \$239,904. Principal and interest requirements to retire general obligation bonds outstanding at June 30, 2020, are as follows:

	General Obligation Bonds			
			From Direct Placement	
	Principal	Interest	Principal	Interest
2021	\$305,504	\$12,543	\$45,000	\$11,173
2022	0	0	46,000	10,109
2023	0	0	47,000	9,021
2024	0	0	48,000	7,909
2025	0	0	49,000	6,774
2026-2030	0	0	265,000	15,736
Total	<u>\$305,504</u>	<u>\$12,543</u>	<u>\$500,000</u>	<u>\$60,722</u>

Note 21 - Jointly Governed Organizations

Connect

Connect is a jointly governed computer service bureau owned and operated by thirteen public school districts. Connect was formed when the Lakeshore Northeast Ohio Computer Consortium and the Lake Erie Educational Computer Association merged during fiscal year 2012. The primary function of Connect is to provide to its members the support and leadership which enables organizations to achieve their objectives through innovative and cost effective shared technology solutions. Major areas of service provided by Connect include accounting, payroll, inventory, career guidance services, handicapped student tracking, pupil scheduling, attendance reporting and grade reporting. Connect is wholly owned by its member districts and is governed by a Board of Directors (member Superintendents). Connect's Board exercises total control over the operations of the organization including budgeting, appropriating, contracting and designating management. Each participant's degree of control is limited to its representation on the Board. Connect's current membership includes the Educational Service Center of Cuyahoga County and thirteen school districts in Cuyahoga County. Each year, the Board of Directors elects a Chairman, a Vice Chairman, and a Recording Secretary. The Treasurer of the fiscal agent is a nonvoting, ex-officio member of the Board of Directors. The Cuyahoga County Educational Service Center serves as the fiscal agent of Connect. Each school district supports Connect based upon a per pupil charge dependent upon the software packages used. Financial information can be obtained by contacting the Treasurer of the fiscal agent at 6393 Oak Tree Boulevard, Independence, Ohio 44131. During fiscal year 2020, the School District paid \$93,115 to Connect.

Bedford City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2020

Ohio Schools Council Association

The Ohio Schools Council Association (Council) is a jointly governed organization among 247 members. The jointly governed organization was created by school districts for the purpose of saving money through volume purchases. Each district supports the Council by paying an annual participation fee. Each school district member's superintendent serves as a representative of the Assembly. The Assembly elects five of the Council's Board members and the remaining four are representatives of the Greater Cleveland School Superintendents' Association. The Council operates under a nine-member Board of Directors (the Board). The Board is the policy making authority of the Council. The Board meets monthly from September through June. The Board appoints an Executive Director who is responsible for receiving and disbursing funds, investing available funds, preparing financial reports for the Board and Assembly and carrying out such other responsibilities as designated by the Board. The degree of control exercised by any participant is limited to its representation on the Governing Board. The Board exercises total control over the operations of the Council including budgeting, appropriating, contracting and designating management. In fiscal year 2020, the School District paid \$729 to the Council. Financial information can be obtained by contacting William J. Zelei, the Executive Director of the Ohio Schools' Council at 6393 Oak Tree Blvd, Suite 377, Independence, Ohio 44131.

The School District participates in the Council's natural gas purchase program. This program allows the School District to purchase natural gas at reduced rates. Constellation New Energy (formerly Compass Energy) has been selected as the supplier and program manager. There are currently 161 participants in the program, including the Brecksville-Broadview Heights City School District. The participants make monthly payments based on estimated usage. Each September, these estimated payments are compared to their actual usage for the year (July to June). Districts that paid more in estimated billings than their actual billings are issued credits on future billings beginning in September until the credits are exhausted and districts that did not pay enough on estimated billings are invoiced for the difference on the September monthly estimated billing.

The School District also participates in the Council's current electric purchase program. The Power 4 Schools Program provides a fixed price rate for electricity supplied by First Energy Solutions of \$0.03194 per kwh for the generation of electricity. There are currently 185 participants in the program including the School District. School districts are not charged a fee by OSC to participate in this program. School districts pay the utility (Ohio Edison, Toledo Edison or Cleveland Electric Illuminating Co.) directly and receive a discount for the fixed price of generation.

Note 22 – Encumbrances

Encumbrances are commitments related to unperformed contracts for goods or services. Encumbrance accounting is utilized to the extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. At fiscal year end the amount of encumbrances expected to be honored upon performance by the vendor in the next fiscal year were as follows:

General	\$1,711,783
Other Governmental Funds	2,151,442
Internal Service	1,251
Total	<u>\$3,864,476</u>

Bedford City School District
Notes to the Basic Financial Statements

Note 23 – Change in Accounting Principle and Restatement of Fund Balances and Net Position

Change in Accounting Principles

The Governmental Accounting Standards Board (GASB) recently issued GASB Statement No. 95, *Postponement of the Effective Dates of Certain Authoritative Guidance*. The School District evaluated implementing these certain GASB pronouncements based on the guidance in GASB 95.

For fiscal year 2020, the School District implemented Governmental Accounting Standards Board (GASB) Statement No. 84, *Fiduciary Activities* and related guidance from (GASB) Implementation Guide No. 2019-2, *Fiduciary Activities*.

For fiscal year 2020, the School District also implemented the Governmental Accounting Standards Board’s (GASB) *Implementation Guide No. 2018-1*. These changes were incorporated in the School District’s fiscal year 2020 financial statements; however, there was no effect on beginning net position/fund balance.

GASB Statement No. 84 established specific criteria for identifying activities that should be reported as fiduciary activities and clarifies whether and how business type activities should report their fiduciary activities. Due to the implementation of GASB Statement No. 84, the School District will no longer be reporting agency funds. The School District reviewed its private purpose trust fund and its agency funds and certain funds will be reported in the new fiduciary fund classification of custodial funds, while other funds have been reclassified as governmental funds. GASB Statement 84 was incorporated into the School District’s fiscal year 2020 financial statements.

Restatement of Fund Balances and Net Position

The implementation of GASB Statement No. 84 had the following effect on fund balance as of June 30, 2019:

	General	Other Governmental Funds	Total Governmental Funds
Fund Balances, June 30, 2019	\$22,815,703	\$109,013	\$22,924,716
Adjustments:			
GASB Statement 84	0	62,153	62,153
Restated Fund Balances, June 30, 2019	\$22,815,703	\$171,166	\$22,986,869

Bedford City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2020

The implementation of GASB Statement No. 84 had the following effect on governmental and fiduciary net position as of June 30, 2019:

	Governmental Activities		Private Purpose Trust		Custodial		Agency
Net Position June 30, 2019	(\$13,443,598)		\$71,293		\$0		\$0
Adjustments:							
GASB Statement 84	62,153		0		160		0
Assets	0		0		0		(62,313)
Liabilities	0		0		0		62,313
Restated Net Position, June 30, 2019	(\$13,381,445)		\$71,293		\$160		\$0

Note 24 – COVID-19

The United States and the State of Ohio declared a state of emergency in March of 2020 due to the COVID-19 pandemic. The financial impact of COVID-19 and the continuing emergency measures will impact subsequent periods of the School District. The School District’s investment portfolio and the investments of the pension and other employee benefit plans in which the School District participates fluctuate with market conditions, and due to market volatility, the amount of gains or losses that will be recognized in subsequent periods, if any, cannot be determined. In addition, the impact on the School District’s future operating costs, revenues, and additional recovery from emergency funding, either federal or state, cannot be estimated.

Net Pension Liability

Changes in Assumptions – SERS

Beginning in fiscal year 2018, an assumption of 2.5 percent was used for COLA or Ad Hoc Cola. Prior to 2018, an assumption of 3 percent was used.

Beginning with fiscal year 2017, amounts reported incorporate changes in assumptions used by SERS in calculating the total pension liability in the latest actuarial valuation. These assumptions compared with those used in fiscal year 2016 and prior are presented below:

	<u>Fiscal Year 2017</u>	<u>Fiscal Year 2016 and Prior</u>
Wage Inflation	3.00 percent	3.25 percent
Future Salary Increases, including inflation	3.50 percent to 18.20 percent	4.00 percent to 22.00 percent
Investment Rate of Return	7.50 percent net of investments expense, including inflation	7.75 percent net of investments expense, including inflation

Beginning with fiscal year 2017, mortality assumptions use mortality rates that are based on the RP-2014 Blue Collar Mortality Table with fully generational projection and a five year age set-back for both males and females. Amounts reported for fiscal year 2016 and prior, use mortality assumptions that are based on the 1994 Group Annuity Mortality Table set back one year for both men and women. Special mortality tables were used for the period after disability retirement.

Changes in Assumptions - STRS

Beginning with fiscal year 2018, amounts reported incorporate changes in assumptions and changes in benefit terms used by STRS in calculating the total pension liability in the latest actuarial valuation. These new assumptions compared with those used in fiscal year 2017 and prior are presented below:

	<u>Fiscal Year 2018</u>	<u>Fiscal Year 2017 and Prior</u>
Inflation	2.50 percent	2.75 percent
Projected salary increases	12.50 percent at age 20 to 2.50 percent at age 65	12.25 percent at age 20 to 2.75 percent at age 70
Investment Rate of Return	7.45 percent, net of investment expenses, including inflation	7.75 percent, net of investment expenses, including inflation
Payroll Increases	3 percent	3.5 percent
Cost-of-Living Adjustments (COLA)	0.0 percent, effective July 1, 2017	2 percent simple applied as follows: for members retiring before August 1, 2013, 2 percent per year; for members retiring August 1, 2013, or later, 2 percent COLA commences on fifth anniversary of retirement date.

Beginning with fiscal year 2018, post-retirement mortality rates for healthy retirees are based on the RP-2014 Annuity Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. Post-retirement disabled mortality rates are based

Bedford City School District, Ohio
Notes to Required Supplementary Information
For the Fiscal Year Ended June 30, 2020

on the RP-2014 Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016. Pre-retirement mortality rates are based on RP-2014 Employee Mortality Table, projected forward generationally using mortality improvement scale MP-2016.

For fiscal year 2017 and prior actuarial valuation, mortality rates were based on the RP-2000 Combined Mortality Table (Projection 2022—Scale AA) for Males and Females. Males' ages are set-back two years through age 89 and no set-back for age 90 and above. Females younger than age 80 are set back four years, one year set back from age 80 through 89, and no set back from age 90 and above.

Net OPEB Liability

Changes in Assumptions – SERS

Amounts reported incorporate changes in key methods and assumptions used in calculating the total OPEB liability as presented below:

Municipal Bond Index Rate:	
Fiscal year 2020	3.13 percent
Fiscal year 2019	3.62 percent
Fiscal year 2018	3.56 percent
Fiscal year 2017	2.92 percent
Single Equivalent Interest Rate, net of plan investment expense, including price inflation	
Fiscal year 2020	3.22 percent
Fiscal year 2019	3.70 percent
Fiscal year 2018	3.63 percent
Fiscal year 2017	2.98 percent

Changes in Assumptions – STRS

For fiscal year 2018, the discount rate was increased from 3.26 percent to 4.13 percent based on the methodology defined under *GASB Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans (OPEB)* and the long term expected rate of return was reduced from 7.75 percent to 7.45 percent. Valuation year per capita health care costs were updated, and the salary scale was modified. The percentage of future retirees electing each option was updated based on current data and the percentage of future disabled retirees and terminated vested participants electing health coverage were decreased. The assumed mortality, disability, retirement, withdrawal and future health care cost trend rates were modified along with the portion of rebated prescription drug costs.

For fiscal year 2019, the discount rate was increased from the blended rate of 4.13 percent to the long-term expected rate of return of 7.45.

Changes in Benefit Terms – STRS OPEB

For fiscal year 2018, the subsidy multiplier for non-Medicare benefit recipients was reduced from 2.1 percent to 1.9 percent per year of service. Medicare Part B premium reimbursements were discontinued for certain survivors and beneficiaries and all remaining Medicare Part B premium reimbursements will be discontinued beginning January 2020.

For fiscal year 2019, the subsidy multiplier for non-Medicare benefit recipients was increased from 1.9 percent to 1.944 percent per year of service effective January 1, 2019. The non-Medicare frozen subsidy base premium was increased effective January 1, 2019 and all remaining Medicare Part B premium reimbursements will be discontinued beginning January 1, 2020.

For fiscal year 2020, there was no change to the claims costs process. Claim curves were trended to the fiscal year ending June 30, 2020 to reflect the current price renewals. The non-Medicare subsidy percentage was increased effective January 1, 2020 from 1.944 percent to 1.984 percent per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2020. The Medicare subsidy percentages were adjusted effective January 1, 2021 to 2.1 percent for the Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed to January 1, 2021.
