

EPSOS

See what our students, parents, and teachers have to say about their experiences!

“Advanced classes aren't easy, but they make everything else easier. You get incredible teachers who help you thoroughly learn the material; these wonderful teachers also help you learn lifelong skills that are not only applicable for other school classes, but also for life.”

Colin Walker- AP, LDC, IC Student

“Industry certifications allow students to gain credentials not normally offered in public education. By utilizing the same certifications that are used in industry, students gain skills that are relevant, in-demand, and that display initiative.”

Nick Sweeney- STEM Teacher

“AP courses provide an opportunity for our daughter to sharpen organizational and study skills, to productively grapple with advanced content, and to earn college credit.”

Dr. Dorian Brown- AP parent
