

SUPERINTENDENT DR. KASEY PERKINS

# COMMUNITY COMPASS

## *The District's Future Direction*

### DID YOU KNOW?

The SWL District passed a bond in 2017 for \$78,369,647. This bond was part of an Ohio Facilities Construction Committee (OFCC) project which allowed the state to contribute an additional \$51,936,242 to the building and renovating of schools. Since that bond, the District has renovated the preschool, built a new high school and intermediate, renovated Etna Elementary and is currently in the process of renovating Kirkersville Elementary which will re-open in the fall of 2024.

### PATASKALA SOUTH FORK

The original scope of the OFCC master plan included renovating Pataskala Elementary. In August 2021, the District worked with the OFCC to amend the master plan to remove the renovation of Pataskala Elementary and add a new K-3 building instead. The future Pataskala South Fork Elementary is located on Watkins Rd. next to the current Kirkersville Elementary. Progress can be seen weekly as you're driving down Watkins Rd. The old middle school (current Kirkersville Elementary) next to the new elementary, will be abated this summer and plans for additional parking are in the works.

### FUTURE DEVELOPMENTS

#### THE RESIDENCES AT EASTWOOD (RT.40 IN REYNOLDSBURG)

- apartments - 264
- condominiums - 159
- single family - 248
