BLD23-01570	9 RYAN DR, Ellington, CT 06029	Issued	11/16/2023	\$7,329.00	\$139.32	I am framing out a room in the basement to be used as a gym. I am also framing one additional external wall to be used for a wood shop area. This application is connected to an electrical permit already submitted. The external walls of the framed area will be painted with basement sealing paint to prevent hydrostatic water intrusion. The external walls will then be covered with R5 rigid foam insulation and supplemented with R15 faced fiberglass insulation for a combined r value of R20. The interior walls will be filled with R15 wool insulation. All walls will include pressure treated floor plates and regular lumber for the top plates. The top plates will be secured to the ceiling joists. The floor plates will be secured with tapcons to the foundation floor. All walls will be approximately 8 feet in height. All walls will have studs spaced a maximum of 16 inch off center. All walls will use 2x4 lumber except for the room partition and front wall. The partition wall between the rooms will use 2x6 lumber. The front wall will use 2x3 lumber to accommodate the close proximity of the basement window to the front wall. The windows will be framed out with sills added. A 32 inch access door to the gym will be added near the bottom of the stairs. All walls will be covered by 1/2 inch drywall.
