Deck the Halls and Push all the Buttons with Flip**Andy Knueven****Session 201, Nurse's Conference Room****Target Audience: All Teachers**

This session is for educators at all levels ready to dive deeper into the Flip (formerly Flipgrid) camera! During this session, Andy Knueven, Flip Educator Innovation Lead and Social Engagement Manager, will share and invite you to push all the buttons as we explore creative effects and expressions inside the Microsoft Flip camera! Discover possibilities and supercharge ideas to create and then share with your learning community and beyond. Walk away with ideas and resources that you can use immediately in your classroom. Prepare to have some fun - this will be perfect for your next assessment and or class presentation!

Capture Student Learning with Canva**Session 202, Technology Lab****Target Audience: All Teachers**

In this hands-on workshop, participants will be guided through ways students can use Canva to demonstrate their learning and understanding. Participants will brainstorm and discover ways Canva can support student goal setting, planning, and showcasing their knowledge. The workshop will also cover how to capture student reflections of the learning process in Canva.

Empowering Students – A Journey of Discovery Education through Student-Centered Activities, Skill Builders, and More!**Tomi Rush****Session 203, Board Room****Target Audience: All Teachers**

Join us for an exciting session where we show how students can take the reins of their learning through Discovery Education resources. We'll explore a dynamic range of student-centered activities, skill builders, and interactives designed to engage, inspire, and empower learners. Discover how these tools can foster critical thinking, creativity, and collaboration while also promoting subject mastery and lifelong skills!

Jingle, Jolt, and Jive: Taking EduProtocols for a Merry Classroom Ride**Josh Vaden****Session 204, PD Room****Target Audience: All Teachers**

All teachers dream of a classroom where their students take ownership of their learning, but how often do we allow our students to truly take charge? Are you ready to take a step toward letting your students do most of the heavy lifting? Then come [jingle bell] rock with us and learn about EduProtocols and how they can boost creativity, ownership, and learning in your classroom!

ClassLink Tips and Tricks for Teachers

Kris Kling

Session 205, Focus Room

Target Audience: All Teachers

Discover the basics of ClassLink's user interface with a festive twist—packed with merry tips and tricks. This session offers something for everyone, whether you're seeking a holiday refresher or eager to explore new avenues. Join us in the merry exploration through ClassLink and be part of shaping its future by sharing your wishlist of features, as we add holiday sparkle to this platform for educators!

Session 3

5:45-6:40

Grab Your Candy Cane, Join the Adventure with Microsoft Flip Events and the Discovery Library

Andy Knueven

Session 301, Nurse's Conference Room

Target Audience: All Teachers

Connect your classroom to the world with Flip Events! Learn from authors, designers, scientists, museums, and more with enriching live experiences multiple times a month and empower your community to be creative communicators and global collaborators. But wait there's more! We also have partnered with so many great organizations who also have topics ready for you to explore and use, right away! In this session, you will not only learn how to leverage Flip Events and the Discovery Library, you'll walk away with tips, tools, and strategies to help your learners create and express ideas using Microsoft Flip (formerly known as Flipgrid). Get ready for some learning adventures and come ready to explore a sweet world of possibility.

Unlock the Magic with Canva for Education

Janice Wintermyer

Session 302, Technology Lab

Target Audience: All Teachers

Do you want to learn more about the newest tools including Canva's AI features? Then this is the session for you! Attendees will gain an understanding of how Canva's newest tools and AI features can be used in educational settings. Participants will discover how to create engaging lesson materials, automate repetitive tasks, and improve accessibility in their designs. This session will unlock the magic in Canva's AI features, leaving participants spellbound by the possibilities.

Unlocking the Power of Discovery Education with Studio & Quiz

Tomi Rush

Session 303, Board Room

Target Audience: All Teachers

In this session we'll delve into the treasure trove of resources available through Discovery Education's media library with a particular focus on Studio and Quiz. Join us to explore how Studio can ignite creativity and collaboration in your classrooms, allowing students to become content creators and storytellers. Dive into Quiz to see how it can transform assessments into an engaging, interactive experience that promotes deeper learning and comprehension.

BrainPOP: Unwrapping Awesome Learning

Dawn Rideout

Session 304, PD Room

Target Audience: All Grades

As we approach the holiday season, let's unwrap the gift of learning with BrainPOP! Just like Santa's workshop has a variety of tools to craft the perfect toys, BrainPOP offers an array of educational tools that empower students to take the reins of their learning journey. From interactive quizzes to engaging videos, concept mapping to creative coding challenges, BrainPOP is like a winter wonderland of resources that allow students to explore, learn, and own their educational adventure. Let's sleigh this learning experience together by harnessing the power of BrainPOP and granting students the gift of agency in their learning process.
