School Goals

At Clear Creek Middle School we are committed to promoting equity, engagement, and inclusion throughout our school. We are dedicated to ensuring that every student has equitable access to opportunities, resources, and support. Through a constant emphasis on Responsibility, Relationships, and Resilience, we will provide a superior academic, physical, and social/emotional education that supports all students towards being life-long learners, productive citizens, and caring adults. In addition, we will strengthen family engagement, continue developing our Multi-tiered Systems of Support, and work together to improve growth in math & reading.

State Goals

The Oregon Department of Education is partnering with school districts and local communities to ensure a 90% on-time, four year graduation rate by 2027. To progress toward this goal, the state will prioritize efforts to improve attendance, provide a well-rounded education, invest in implementing culturally responsive practices, and promote continuous improvement to close opportunity and achievement gaps for historically and currently underserved students.

Safe & Welcoming Environment

Together, we will create a school environment where everyone feels a sense of belonging, is welcome, and above all, feels safe. We believe that every student, staff member, and parent/family should feel valued and respected within our school community. We celebrate the diversity of our families, our staff, the rich language and cultural assets each person brings to our district. Our equity team continues to support culturally relevant teaching and learning to meet the diverse learner needs and improve cultural responsiveness within the school community.

About Our School

BULLYING, HARASSMENT, AND SAFETY POLICIES

We strive for our school to be free from discrimination, safe and healthy. Each student is entitled to come to school in an environment in which learning is valued and disruptions are minimized. Our discipline philosophy is designed to produce behavioral changes that will enable students to develop the self discipline necessary to remain in school and to function successfully in their educational and social environments. Lessons in regard to prevention of, and appropriate response to, acts of harassment or bullying are taught within our school and all entities are encouraged to report any bullying and harassment to school officials.

EXTRACURRICULAR ACTIVITIES

Clear Creek Middle School offers academic, enrichment, and athletic activities to students in district and SUN School sessions:

Including enrichment and co-curricular offerings before, during, and after school (Art, STEAM, leadership, Ecology, Computer Science, and others). They also provide academic support after school in homework and math, a meal program provides food after school, during breaks, and during summer session to enrolled students. Athletic partnerships and programs provide students athletic development opportunities in basketball, soccer, track, and wrestling. They create partnerships to provide parent, family, student education and support and they run Student Leadership Team, STREAM Labs and an Ecology Field Site.

PARENT ENGAGEMENT

Our school hosts a variety of events for attendance by families and the community. We also partner with local businesses to create opportunities for students. Please see our school website for specific information about our various activities. Two-way communication and active engagement is key. We have community liaisons to support Spanish and Russian families. In addition, we access telephonic language interpretation and schedule outside interpreters as needed to support families from all other language backgrounds.

COMMUNITY ENGAGEMENT

Clear Creek Middle School enjoys partnerships with local businesses and organizations to support school and community needs during and after the school day. Our Parent Association coordinates volunteer opportunities for families to support students and staff through fundraising, recognitions, and during-the-day volunteer activities in the school and classrooms. Student leadership identifies annual needs at the local, state, national, and international level to support.
