

What is a Family-School Compact?

A Title I Family-School Compact for Achievement is an agreement in which families, students and teachers develop together. It explains how families and teachers will work together to ensure all students receive the individual support they need to reach and exceed grade level standards.

Isanti Primary is a Schoolwide Title I school. The goal of a Schoolwide Title I program is to ensure all students, particularly low achieving students, demonstrate proficient and advanced levels of achievement.

ISD 911 Mission

The mission of Cambridge-Isanti Schools, in partnership with our community, is to EDUCATE, EMPOWER and INSPIRE EVERY STUDENT, EVERY DAY to achieve their full potential.

Questions

Families can contact classroom teachers to check on progress at any time.

Communicating About Learning

Isanti Primary School is committed to communicate regularly with families about learning in IPS classrooms. Ways in which families can expect to receive communication include:

- Daily student take home folder
- See Saw
- www.c-ischools.org/school/isanti-primary-school

In the Classroom

Cambridge Isanti Schools connect with students and families to support student success in reading and math. Some key connections with families include:

- District and school website resources support and enrich student learning.
- Minnesota Reading Corps (MRC) provides one-on-one support for grades K-2 students.
- ADS IS (Alternative Delivery of Specialized Instructional Services) provides additional small group support in reading and math.
- EveryDay Math in addition to research-based intervention are used to enhance student learning.
- The school will provide meaningful two-way communication by providing a translation and translators when applicable.
- Isanti Primary school will use FastBridge measures to track student progress and achievement in both reading and math.
- The Leadership Team will use baseline and trend data to create Specific, Measurable, Achievable, Relevant and Time-Bound (S.M.A.R.T.) Goals.

At Home

Reading and math take practice. Here are a few ideas to help with that:

- Attend family fun nights and participate in activities and strategies to promote student learning.
- Read with your child every day and talk about what you read.
- Have fun with math. Use materials found at home to explore math.
- Play word games with words your child is working on at school.
- Be informed by looking for communications from your child's teacher and visit the school website regularly.
- Encourage and support technology for school and academics. Use technology to enhance your child's learning and education.

Isanti Primary School

Students may want to try the following ideas to make connections between learning at home and at school:

- Talk with family about new vocabulary words and what they're learning in math.
- Bring home class newsletters and notices about family fun nights and events.
- Keep a log of games they play at home to practice reading and math skills.
- Utilize some of the many educational links available through the school website when they have screen time.
- Consider volunteering and participating in your child's classroom. Call the office for more details.
- Visit your local library to encourage a love of reading.
