

PROGRAM OVERVIEW

Our program focuses on the acquisition of functional skills including social skills, life skills, prevocational skills, and recreational skills. Once skill acquisition is achieved in the classroom, our multidisciplinary team collaborates regularly to provide students with abundant opportunities to generalize these skills outside the classroom, throughout the school campus, and in the community.

PROGRAM VISION

FFA aims to produce a well-rounded individual with not only academic strength, but one who can excel socially with a variety of people in a variety of settings. Our program provides the foundation for the skill development our students will need to successfully transition to adult life. With a supportive team, it is possible for all of our students to reach their full potential.
