# Sport List

This program will provide a list of students marked with sport codes. Choose one or more sport codes in the Sport filter box to make a specific sport code list.

** This list is good to use on field trips to keep on the bus. **

Menu Location

On the left navigation panel, select **Student Master** > **Lists** > **Sport List**.

Setup Options

You can select more than one sport.

Click in the column field to select specific columns to display on the report.

Year - Defaults to the current year. A prior year may be accessed by clicking in the field and making the appropriate selection from the drop down list.

School - Default value is based on the user's security settings. If the user is assigned to a school, the school default value will be their school site code.

Grade - Grade level of students whose names are to be included on a report.

Sport - Choose one or more sport codes to make a specific sport code list. Leave blank if all sports are to be included into the report.

Ethnic - Ethnicity of students whose names are to be included on a report.

Gender - Gender of students whose names are to be included on a report.

Team - This selection should only be used if your school is using Team Scheduling Update Utility. Leave blank if all team names are to be included into the report. Otherwise click in the field to select the desired Teams(s) to view.

Column - Choose the columns that are to be viewed on the report.

As of Date and Active Only - This choice will list only those students who are actively enrolled as of the date selected in the date field.

Order To List - This allows for the list to be sorted in the desired way upon clicking OK.

Print Break On - This option will create a print break based on the choices chosen below.

- **None** - No print break
- **Homeroom** - Print break on homeroom.
- **School** - Print break on

OK - Click to continue.

Main
