

Carnegie Units Earned

(Transcripts >Lists>Carnegie Units Earned)

Run this report to see total Carnegie units earned including credit earned at mid-term in the current year (must be run after all the EOY calculations have been run). You must choose the options listed below in the set up box.

**** Caution:** If you take off "Use Final Grades only", the total projected column will show a half of all credits pursued this year instead of only those where the course has a final grade.

If you use Projected instead of Earned, you get all courses with the full credits pursued in the current year in the Total Projected column.
