

## Free Transition/Employment Planning workshop for any parent/guardian of an individual with Autism Spectrum Disorder (ages up to 22)

In this webinar workshop you will:

- Learn about state and federal transition policies according to IDEA
- Understand the basic components of transition planning
- Get educated on the benefits of social security programs for transition age youth
- Learn about self-determination skills you can teach your child to support pre-employment skill development
- Learn about important soft skills/networking for job success for your child
- Hear about practical tips/strategies for career development for youth with autism.

**WHAT:** This workshop is part of a study funded by the state of Texas to provide training to parents of children with autism about transition to adulthood planning

**WHEN:** On-line webinar that you attend on your own time schedule

**ELIGIBILITY:** Are a parent or caregiver of a child with autism between the ages of 3-22 and live in the state of Texas

**HOW TO PARTICIPATE:** To immediately determine eligibility and register, click here [Transition Workshop Webinar](#) or if you get this in paper format, you can type the address in your browser (pls. note there is an underscore \_ between V and 0; this is a zero; the others are the letter O).
