

## Health Science Academy

### Assunpink Center

The healthcare industry is one of the fastest-growing employment sectors, as well as the number one employer in Mercer County. The overall health of New Jersey's economy and people are clearly tied to the capabilities of this evolving profession. The Health Science Academy will help to prepare students for a wide array of career opportunities in the healthcare field including nurses, surgical technicians, physicians, dentists, pediatricians, physical therapists, dietitians, pharmacists, and other healthcare occupations. Students will learn professional responsibility, how to assess patient needs, workplace-ready skills, medical terminology, and patient safety. This immersive program educates students in the healthcare profession, mental health, community health, and theoretical foundations of nursing and applications of the nursing process.

Throughout the duration of the program, students learn to use a wide range of professional medical equipment in a professional setting, as classrooms are designed to mirror real-world medical offices and institutions. This pathway includes a rigorous series of courses, including Dynamics of Healthcare, Medical Terminology, Anatomy & Physiology I, and Anatomy & Physiology II. All Health Science students join their respective Career Technical Student Organization, HOSA-Future Health Professionals, and are continually challenged as they compete in local, regional, and state-level competitions. Senior year, students have the opportunity to enroll in Mercer County Community College to continue their career progression through dual enrollment courses.

Health Science Academy students earn Industry valued credentials each academic year through their Clinicals, labs, and Emergency Care coursework. Students in year one (1) will earn their Blood Borne Pathogens certification. In year two (2), students will earn their basic lifesaving skills & CPR certification and First Aid certifications through American Red Cross. In year three (3), students will earn their Automated External Defibrillator (AED) certification through the American Heart Association. Membership in the Career Technical Student Organization of HOSA (Health Occupation Students of America) is included as an intra-curricular part of this Academy. Students who successfully complete our Health Science Academy pathway will also earn dual credits as part of our dual credit arrangement with Mercer County Community College.
