<https://www.ctreg14.org/teaching-learning/vision-of-a-learner>

In support of our mission, we want the students in our Region 14 communities to be future ready. To ensure that all of our learners are prepared for the opportunities and challenges of the 21st century, we have developed a common understanding of the skills and qualities that will help them to thrive in life.

## Our History

Built in 1926 and established in 1927, the original elementary school remains part of our larger complex. Steeped in tradition, many of our students are in fact second and third generation BES students!
