INDEPENDENT AUDITOR'S REPORT

To the School Board
Oregon School District
Oregon, Wisconsin

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Oregon School District, as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the Oregon School District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Oregon School District, as of June 30, 2023, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Oregon School District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Change in Accounting Principle

As discussed in Note 1 to the financial statements, effective July 1, 2022, the Oregon School District adopted the provisions of Governmental Accounting Standards Board Statement No. 96, Subscription-Based Information Technology Arrangements. Our opinions are not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Oregon School District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Oregon School District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Oregon School District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and required supplementary information listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Boards, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Oregon School District's basis financial statements. The combining nonmajor fund financial statements and schedules of expenditures of federal and state awards, as required by Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and the *State Single Audit Guidelines*, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basis financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining nonmajor fund financial statements and schedules of expenditures of federal and state awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 6, 2023, on our consideration of the Oregon School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Oregon School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Oregon School District's internal control over financial reporting and compliance.

Management Discussion & Analysis
June 30, 2023

The discussion and analysis of the Oregon School District's 2022-2023 financial performance provides an overall review of financial activities for the fiscal year. The analysis focuses on school district financial performance as a whole. Efforts have been made to provide comparison to prior year data when such data is available. It should be read in conjunction with the District's financial statements, which immediately follows this section.

Financial Highlights

The District's overall financial position, as reflected in total net position, increased by \$2,131,418.

Total District revenues were \$77,202,339, including \$35,513,824 of property and other taxes and \$28,640,182 of federal and state aid not restricted for any specific purpose. Total District expenditures were \$75,070,921, including \$37,776,458 for direct instruction.

The following events took place during fiscal 2022-2023:

- At the end of the current fiscal year, fund balance for the general fund was approximately \$17.9 million. \$3,828,301 of that amount was assigned for subsequent year expenditures. The fund balance of Total Governmental Funds was approximately \$22.9 million. The breakdown of the \$22.9 million is as follows:

\$17.9 General Fund

\$ 5.0 Non-Major Governmental Funds

- The District received \$788,864 more in State Equalization Aid than in 2021-2022.
- The 2022 tax levy increased from the prior year by 11.0% from a total levy of \$31,996,945 to \$35,513,824.
- The District's three-year average per pupil membership decreased by 11. This decrease in enrollment put us in declining enrollment. The District received two declining enrollment one-year exceptions which actually increased our revenue limit. While this is not favorable for the District in the long term, it did help reduce the deficit projected in the budget for the 2022-23 school year.
- The State provided a \$0 increase per member in the revenue limit formula for the 2022-2023 school year.
- The District received \$742 in per pupil state categorical aid. There were no increases to this allocation for the 2022-23 school year.
- The District continued to allocate funds for Other Postemployment Benefits (OPEB) during the 2022-2023 fiscal year. The District's 2022-2023 contribution was \$912,627. The District's expenses included \$441,849 for employee health benefits and \$151,317 for the implicit rate subsidy.

OREGON SCHOOL DISTRICT
Oregon, Wisconsin

Management Discussion & Analysis
June 30, 2023

Financial Highlights (Continued)

- In November 2022 the district passed a recurring referendum for a total increase in authority of \$11,400,000 over three years for recurring purposes consisting of expenses to pay compensation and to sustain District instruction and operations. The amount for each year is detailed below:

2022-2023 \$5,420,000

2023-2024 \$3,000,000

2023-2024 \$2,980,000

In November of 2018 the District's constituents approved a \$44.9 million referendum to build a new elementary school and for safety initiatives for the district. At the end of 2022-23 school year the remaining balance from the referendum was \$558,883. This funding is still being used for a playground at forest Edge Elementary and district safety initiatives.

Overview of the Financial Statements

The basic financial statements are comprised of 1) district-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. In addition, other information supplementary to the basic financial statements is provided.

The basic financial statements consist of two kinds of statements that present different views of the District's financial activities.

- The *Statement of Net Position and Statement of Activities* provide information on a district-wide basis. The statements present an aggregate view of the District's finances. District-wide statements contain useful long-term information as well as information for the just-completed fiscal year.
- The remaining statements are *fund financial statements* that focus on individual parts of the District. Fund statements generally report operations in more detail than the District-wide statements.

The *notes to the financial statements* provide further explanation of some of the information in the statements and provide additional disclosures so statement users have a complete picture of the District's financial activities and position.

Required supplementary information further explains and supports the financial statements by including a comparison of the District's budget data for the year.

The major features of the District's financial statements, including the activities reported and the type of information contained, is shown in the following table.

Management Discussion & Analysis
June 30, 2023

District-wide Statements

The district-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Activities reports all revenues and expenses used to support the District. The Statement of Net Position reports all assets and deferred outflow, liabilities and deferred inflows available to support District activities. The two district-wide statements report the District's *net position* and how they have changed. Net Position, the difference between the District's assets and liabilities, are one way to measure the District's overall financial position. Increases or decreases in the District's net position are one indicator of whether its financial position is improving or deteriorating, respectively. To assess the overall financial condition of the District, additional non-financial factors, such as changes in the District's property tax base and the condition of school buildings and other facilities should be considered.

In the district-wide financial statements, the District's activities are divided into two categories:

- *Governmental activities* – Most of the District's basic services are included here, such as regular and special education, transportation, support services, debt service, capital projects, and administration. Property taxes and state formula aid finance most of these activities.
- *Business-type activities* - Activities that are intended to be mostly self-supporting and meet certain accounting criteria are considered business-type activities. The District has no business-type activities.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's *funds*, focusing on its most significant or "major" funds – not the District as a whole. Funds are accounting devices the District uses to keep track of sources of funding and spending on particular programs and to demonstrate compliance with various regulatory requirements. Some funds are required by state law and by bond covenants. The District establishes other funds to control and manage money for particular purposes (like repaying its long-term debt) or to show that it is properly using certain revenues (like capital project funds).

The District has two kinds of funds:

- *Governmental funds* – Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for funding future basic services. Governmental funds statements provide a detailed short-term view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Governmental funds information does not report on long-term commitments as is reported on the district-wide statements.
- *Fiduciary funds* – The District serves as a trustee, or fiduciary, for Other Post-Employment Benefits trust. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and only by those to whom the assets belong. These activities are excluded from the district-wide financial statements because the District cannot use these assets to finance its operations.

Management Discussion & Analysis
June 30, 2023

Financial Analysis of the District as a Whole (Continued)

The District relies primarily on property taxes and state formula aid to fund governmental activities. Below lists the percent of each to total governmental revenues:

Year Ending	Property Tax	State Aid	Services	Op. Grants	Cap. Grants	Other
2023	46.0%	29.3%	3.6%	10.8%	0%	10.3%
2022	45.9%	31.3%	1.7%	11.2%	0%	9.9%
2021	47.0%	31.8%	2.5%	9.6%	0%	9.1%
2020	46.1%	32.8%	3.3%	7.5%	0%	10.3%
2019	45.7%	33.6%	4.0%	7.3%	0%	9.4%
2018	46.1%	34.2%	4.3%	7.8%	0%	7.6%
2017	45.4%	34.1%	4.1%	7.9%	0%	8.5%
2016	46.7%	36.2%	4.2%	7.4%	0%	5.5%
2015	45.4%	37.9%	3.8%	8.2%	0%	4.7%
2014	45.9%	37.6%	3.9%	8.6%	0%	4.0%

Table 3 presents the cost of the seven categories of District activities. The table reports each activity's net cost (total cost less fees generated by the activities and intergovernmental aid provided for specific programs). The net cost reflects the financial burden that was placed on the District's taxpayers by each of these functions.

Table 3
Net Cost of Governmental Activities

	Net Cost of Services 2023	Percent of Services 2023	Net Cost of Services 2022	Percent of Services 2022
Expenses				
Instruction	\$ 30,752,036	48.1%	\$ 25,949,279	47.1%
Pupil & instructional services	8,429,873	13.2%	7,400,349	13.4%
Administration & finance	5,100,241	8.0%	4,249,162	7.7%
Maintenance & operations	6,258,885	9.8%	4,656,726	8.5%
Transportation	2,732,504	4.3%	2,571,734	4.7%
Interest on debt	2,546,439	4.0%	2,688,110	4.9%
Other	8,091,444	12.7%	7,521,349	13.7%
Total Expenses	\$ 63,911,422	100%	\$ 55,036,709	100%

The cost of all governmental activities this year was \$75,070,921. Individuals who directly participated or benefited from a program offering paid for \$2,794,926 of costs. Federal and state governments subsidized certain programs with grants and contributions of \$8,364,573. The net cost of governmental activities of \$63,911,422 was financed by general revenues of the District, including \$35,513,824 in property taxes, \$22,648,653 in state formula aid, and \$7,880,363 in other.

OREGON SCHOOL DISTRICT
Oregon, Wisconsin

Management Discussion & Analysis
June 30, 2023

Financial Aspects of the District's Funds

- The general fund had a total increase in fund balance of \$2,981,795 and as of June 30, 2023 has a balance of \$17,864,138. The unassigned fund balance increased by \$1,458,416. Assigned fund balance increased by \$1,424,124. Fund balance restricted for dental insurance increased by \$62,346. Non-spendable fund balance decreased by \$4,495.
- The debt service fund (fund 38 & 39) had a decrease to fund balance of \$948 and as of June 30, 2023 has a balance of \$2,932,611.
- The capital projects fund had a decrease to fund balance of \$246,464 and as of June 30, 2023 has a balance of \$558,883.
- The OPEB (Other Postemployment Benefits) Liability fund balance increased by \$556,130 and as of June 30, 2023 has a balance of \$5,961,295.
- The Employee Trust fund, which holds employee benefits balances specific to individual retirees, decreased by \$43,719 and as of June 30, 2023 has a balance of \$189,986. The OPEB and Employee Trust fund balances are combined in the Employee Benefit Trusts Fund.

General Fund Budgetary Highlights

Consistent with current state statutes and regulations an *original* budget is adopted in October following determination of official enrollment and certification of states aids. Generally, the original budget is not significantly modified. There were modifications to the District's original budget in 2022-23.

The total tax levy was increased by \$2,420,000. Prior to the referendum passing the district was planning to levy an additional \$3,000,000 to keep levy rates consistent. The referendum gave us the authority to levy an additional \$5,420,000.

Budget modifications centered on compensation for employees. A 5.9% increase was awarded to employee salaries. Benefits were increased accordingly. Other budget initiatives were added relating to compensation and benefits.

A flood occurred in one of the school buildings. Approximately, one million dollars was added to both revenue and expenditures to repair the damages.

OREGON SCHOOL DISTRICT
Oregon, Wisconsin

Management Discussion & Analysis
June 30, 2023

Capital Assets

At the end of fiscal year 2023, the District had invested \$183,850,450 in capital assets; including buildings, sites and equipment (see Table 4). Total accumulated depreciation on assets was \$58,330,719. Asset acquisitions for governmental activities totaled \$2,542,210 and disposals totaled \$1,143,397. The District recognized depreciation expense of \$4,915,096, while also eliminating the disposed accumulated depreciation of \$1,110,491. The net effect of asset acquisitions, disposals, and depreciation expense resulted in a \$2,415,792 decrease in net capital assets. (Detailed information about capital assets can be found in Note 5 to the financial statements.)

Table 4
Capital Assets
(Net of depreciation)

	2023	2022
Land	\$ 4,852,933	\$ 4,852,933
Buildings	162,782,863	162,013,709
Furniture & equipment	12,902,173	12,692,822
Land improvements	2,736,649	2,684,280
Construction in progress	575,832	207,893
Accumulated depreciation	(58,330,719)	(54,516,114)
Net capital assets	\$ 125,519,731	\$127,935,523

Long-term Liabilities

At year-end the District had \$81,248,780 in general obligation bonds and other long-term debt outstanding. Payments were made for a total of \$3,900,000 to general obligations debt. A total of \$4,093,541 was retired on all long-term liabilities. Detailed information about the District's long-term liabilities is presented in Note 6 to the financial statements.

Table 5
Outstanding Long-term Obligations

	2023	2022
General Obligation Bonds	\$ 76,910,000	\$ 80,810,000
Compensated Absences	1,758,970	1,532,525
Premium (Discount) on Debt	2,579,810	2,773,351
Net Long Term Liabilities	\$ 81,248,780	\$ 85,115,876

General Obligation Bonds of the District are secured by an irrevocable tax levy adopted by the School Board at the time of issuance. Wisconsin state statutes require that the first property tax receipts be segregated for annual debt service payments.

Factors Bearing on the District's Future

Currently known circumstances that will impact the District's financial status in the future are:

- November 2022 referendum passing puts the district in a very stable position for the next few years. The district will be able to accommodate increases due to inflation.
- In the 2023-24 school year the state increased the state revenue limit formula by \$325 per person. This is the biggest increase in the last 20 years. This increase gave the district an additional \$1,230,775 in revenue limit authority.
- In 2023-24 the District's resident FTE increased by 14 students. The District is expecting growth in future years. There are many new developments within the school district.

Contacting the District's Financial Management

This financial report is designed to provide our citizens, taxpayers, customers, investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact Andy Weiland, Business Manager, Oregon School District, 123 E. Grove Street, Oregon, Wisconsin.

**Oregon School District
Oregon, Wisconsin**

**Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of
Governmental Funds to the Statement of Activities
For the Year Ended June 30, 2023**

Net change in fund balances - total governmental funds:	\$ 2,645,336
Amounts reported for Governmental Activities in the Statement of Activities are different because:	
Governmental funds report outlays for capital assets as expenditures because such outlays use current financial resources. In contrast, the Statement of Activities reports only a portion of the outlay as expense. The outlay is allocated over the assets' estimated useful lives as depreciation expense for the period. This is the amount by which capital outlays (\$2,542,210) were less than depreciation (\$4,915,096) in the current period.	(2,372,886)
Gain (Loss) on disposal of capital assets not reported on the fund financial statements.	(42,906)
Additions in current year related to subscription-based information technology arrangements net of amortization expense	(202,752)
Capital outlay expenditures related to subscription-based information technology arrangements on the governmental funds are only partial reported as expense on the Statement of Activities.	437,395
Repayment of principal on long-term debt is reported in the governmental funds as an expenditure, but is reported as a reduction in long-term debt in the Statement of Net Position and does not affect the Statement of Activities. The amount of long-term debt principal payments in the current year is:	3,900,000
The amount of principal payments on subscription-based information technology arrangements in the current year is:	57,152
The premium on long-term debt is shown as a liability in the Statement of Net Position. The premium is shown as an other financing source in the fund financial statements. This is the amount of the annual amortization of the premium. Annual amortization of the debt premium.	194,937
The debt discounts on long-term debt are shown as an asset in the Statement of Net Position. The discount is shown as part of interest and other fiscal charges in the fund financial statements. This is the amount of the annual amortization of the discount. Annual amortization of the debt discounts.	(1,396)
Some expenses reported in the Statement of Activities do not require the use of current financial resources and these are not reported as expenditures in governmental funds: Change in accrued interest not reflected on governmental funds Change in compensated absences Net (increase) decrease in OPEB liability and deferred outflows and inflows of resources Net (increase) decrease in supplemental pension liability and deferred outflows and inflows of resources	39,383 (226,445) 438,026 (124,480)
Pension expense reported in the governmental funds represents current year required contributions into the defined benefit pension plan. Pension expense in the Statement of Activities is actuarially determined by the defined benefit pension plan as the difference between the net pension liability from the prior year to the current year, with some adjustments. This is the amount of current year required contributions (\$2,249,964) into the defined benefit pension plan that were less than the actuarially determined (\$4,859,910) change in net pension liability (asset) and deferred inflows and outflows of resources between years, with adjustments. OREGON SCHOOL DISTRICT
Notes to Financial Statements
For the Year Ended June 30, 2023

1. Summary of Significant Accounting Policies

A. Introduction

The Oregon School District (the “District”) is organized as a common school district. The District, governed by a seven-member elected school board, operates grades 4K through 12 and is comprised of all or parts of eleven taxing districts. As required by accounting principles generally accepted in the United States of America, these financial statements present the District as the primary government.

The financial statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The significant accounting principles and policies utilized by the District are described below:

B. Component Units

Accounting principles generally accepted in the United States of America require that these financial statements include the primary government and its component units. Component units are separate organizations that are included in the District’s reporting entity because of the significance of their operational or financial relationships with the District. All significant activities and organizations with which the District exercises oversight responsibility have been considered for inclusion in the basic financial statements. The District has no component units, and it is not included in any other governmental reporting entity.

C. District-Wide Statements

The statement of net position and the statement of activities present financial information about the District’s governmental activities. These statements include the financial activities of the overall government in its entirety, except those that are fiduciary. Eliminations have been made to minimize the double counting of internal transactions. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions. Business-type activities are financed in part by fees charged to external parties. The District does not report any business-type activities.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the District’s governmental activities. Direct expenses are those that are specifically associated with and are clearly identifiable to a particular function. Program revenues include (a) charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

D. Fund Accounting

The fund statements provide information about the District’s funds, including fiduciary funds. Separate statements for each fund category, governmental and fiduciary, are presented.

The emphasis of fund financial statements is on major governmental funds; each displayed in a separate column. All remaining funds are aggregated and reported as non-major funds. Each fund is accounted for by providing a separate set of self-balancing accounts, which constitute its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund equity, revenues, and expenditures.

OREGON SCHOOL DISTRICT
Notes to Financial Statements
For the Year Ended June 30, 2023

1. Summary of Significant Accounting Policies (Continued)

D. Fund Accounting (Continued)

Funds are organized as major funds or non-major funds within the governmental and fiduciary statements. An emphasis is placed on major funds within the governmental category. A fund is considered major if it is the primary operating fund of the District or meets the following criteria:

- a. Total assets, deferred outflows of resources, liabilities, deferred inflows of resources, revenues, or expenditures of that individual governmental fund are at least 10 percent of the corresponding total for all funds of that category or type, and
- b. Total assets, deferred outflows of resources, liabilities, deferred inflows of resources, revenues, or expenditures of the individual governmental fund are at least 5 percent of the corresponding total for all governmental funds combined.
- c. In addition, any other governmental fund that the District believes is particularly important to financial statement users may be reported as a major fund.

The District reports the following major governmental funds:

General Fund – The General Fund is the operating fund of the District. It is used to account for all financial resources of the District except those required to be accounted for in other funds. Under GASB Statement No. 54, the General Fund includes the operations of the Special Education Fund.

The District also has the following non-major funds:

- | | |
|---------------------|-----------------------|
| - Special Revenue | - Food Service |
| - Community Service | - Package Cooperative |
| - Capital Projects | - Debt Service |

Fiduciary Funds (Not included in District-Wide Statements)

Fiduciary funds consist of pension (and other employee benefit) trust funds, private-purpose trust funds, investment trust funds, and custodial funds. Fiduciary funds should be used only to report resources held for individuals, private organizations, or other governments. A fund is presented as a fiduciary fund when all of the following criteria are met: a) The government controls the assets that finance the activity, b) Assets are not generated from the government’s own-source revenues or from the government-mandated or voluntary nonexchange transactions, c) Assets are administered through a qualifying trust or the government does not have administrative involvement and the assets are not generated from the government’s delivery of goods or services to the beneficiaries, or the assets are for the benefit of entities that are not part of the government’s reporting entity.

The District accounts for fiduciary activities for post-employment benefits in an employee benefits trust fund.

OREGON SCHOOL DISTRICT
Notes to Financial Statements
For the Year Ended June 30, 2023

1. Summary of Significant Accounting Policies (Continued)
E. Measurement Focus and Basis of Accounting

The district-wide and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash transaction takes place. Nonexchange transactions, in which the District gives or receives value without directly receiving or giving equal value in exchange, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

The governmental fund statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. Measurable means the amount of the transaction can be determined and available means collectible within the current period or soon enough thereafter to pay liabilities of the current period.

Under the modified accrual basis of accounting, expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences which are recognized as expenditures when paid. Interest cost on temporary borrowing is recognized as an expenditure of the fiscal period incurred. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under leases are reported as other financing sources.

Noncurrent portions of long-term receivables due to governmental funds are reported on the balance sheets, despite their spending measurement focus. Special reporting treatments are used to indicate, however, that they should not be considered “available spendable resources,” since they do not represent net current assets. Recognition of governmental fund type revenues represented by noncurrent receivables are deferred until they become current receivables.

Property taxes are recognized as revenue in the period for which the taxes are levied if they are due in the current year and available to pay current liabilities. The 2022 tax levy is used to finance operations of the District’s fiscal year ended June 30, 2023. All property taxes are considered due on January 1st, when an enforceable lien is assessed against the property and the taxpayer is liable for the taxes. All taxes are collected within 60 days of June 30th and are available to pay current liabilities.

State general and categorical aids, federal impact aid, and other entitlements are recognized as revenue at the time of receipt, or earlier if the “susceptible to accrual” criteria are met. Expenditure-driven programs currently reimbursable are recognized as revenue when the qualifying expenditures have been incurred. Aids received prior to meeting revenue recognition criteria are recorded as deferred inflows of resources.

Charges for services provided to other educational agencies and private parties are recognized as revenue when services are provided. Charges for special educational services are not reduced by anticipated state special aid entitlements.

Interest income on temporary investments is recognized in the fiscal period earned.

OREGON SCHOOL DISTRICT
Notes to Financial Statements
For the Year Ended June 30, 2023

1. Summary of Significant Accounting Policies (Continued)

E. Measurement Focus and Basis of Accounting (Continued)

Costs for educational services provided the District by other educational agencies or private organizations are recognized when incurred. Costs for special education services are not reduced by anticipated state special education aid entitlements.

F. Deposits and Investments

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from date of acquisition.

The District has pooled the cash resources of its funds in order to maximize investment opportunities. Each fund's portion of total cash and investments is reported as cash and cash equivalents/investments by the District's individual major funds, and in the aggregate for non-major and fiduciary funds.

State statutes permit the District to invest available cash balances, other than debt service funds, in time deposits of authorized depositories, U.S. Treasury obligations, U.S. Agency issues, high-grade commercial paper, and the local government pooled-investment fund administered by the state investment board. Available balances in the debt service fund may be invested in municipal obligations, obligations of the United States, and the local government pooled-investment fund.

Investments are stated at fair value, which is the amount at which an investment could be exchanged in a current transaction between willing parties. Fair values are based on quoted market prices. No investments are reported at amortized cost. Adjustments necessary to record investments at fair value are recorded in the operating statement as increases or decreases in investment income. Investment income on commingled investments of municipal accounting funds is allocated based on average balances.

Financial assets required to be measured on a recurring basis are classified under a three-tier hierarchy for fair value investments. Fair value is the amount that would be received to sell an asset, or paid to settle a liability, in an orderly transaction between market participants at the measurements date.

The District uses the following hierarchical disclosure framework:

Level 1 – Measurement based upon quoted prices for identical assets in an active market as of the reporting date.

Level 2 – Measurement based upon marketplace inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in inactive markets, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 – Measurement based on the District's assumptions about a hypothetical marketplace because observable market inputs are not available as of the reporting date.

The District uses appropriate valuation techniques based on the available inputs to measure the fair values of its assets and liabilities. When available, the District measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs have the lowest priority.

OREGON SCHOOL DISTRICT
Notes to Financial Statements

1. Summary of Significant Accounting Policies (Continued)
G. Receivables and Payables

Taxes

The aggregate District tax levy is apportioned and certified in November of the current fiscal year for collection to comprising municipalities based on the immediate past October 1st full or “equalized” taxable property values. As permitted by a collecting municipality’s ordinance, taxes may be paid in full or two or more installments with the first installment payable the subsequent January 31st, and the final payment no later than the following July 31st.

On or before January 15th, and by the 20th of each subsequent month thereafter, the District is paid by the collecting municipalities its proportionate share of tax collections received through the last day of the preceding month. On or before August 20th, the County Treasurer makes full settlement to the District for any remaining balance. The County assumes all responsibility for delinquent real property taxes.

Interfunds

The current portion of lending/borrowing arrangements between funds is identified as “due to/from other funds.” The noncurrent portion of outstanding balances between funds is reported as “advances to/from other funds.” Advances between funds are offset by a fund balance reserve account to indicate that they are not available for appropriation and are not expendable available financial resources.

Accounts Receivable

All accounts receivable are shown as gross amounts with uncollectible amounts recognized under the direct write-off method. No allowance for uncollectible accounts has been provided since it is believed that such allowance is not material.

Other Assets

Expendable supplies or noncapital items acquired for initial use in subsequent fiscal periods are recorded as inventories and/or prepaid expenses. Prepaid insurance or service contracts are not recorded unless their recognition as an expenditure would result in more than one year’s cost being recorded. Inventory and prepaid supplies are valued at the lower of cost (first-in, first-out method) or market. Inventory consists of expendable supplies held for consumption. Costs are recorded as expenditures at the time individual inventory items are consumed.

H. Capital Assets

In the district-wide financial statements, fixed assets are accounted for as capital assets. All fixed assets are valued at historical cost, or estimated historical cost if actual is unavailable, except for donated fixed assets which are recorded at their estimated acquisition value at the date of donation. The District maintains a threshold level of a unit cost of \$5,000 or more for capitalizing capital assets.

OREGON SCHOOL DISTRICT
Notes to Financial Statements
For the Year Ended June 30, 2023

1. Summary of Significant Accounting Policies (Continued)
H. Capital Assets (Continued)

Depreciation of all exhaustible fixed assets is recorded as an allocated expense in the statement of activities, with accumulated depreciation reflected in the statement of net position. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows:

Land improvements	10 - 20 years
Building improvements	20 years
Buildings	50 years
Furniture and equipment	5 - 20 years

In the fund financial statements, fixed assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Fixed assets are not capitalized and related depreciation is not reported in the fund financial statements.

I. Other Obligations

Long-Term Obligations

The accounting treatment of long-term debt depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the district-wide or fund financial statements.

All long-term debt to be repaid from governmental resources are reported as liabilities in the district-wide statements. The long-term debt consists primarily of notes, bonds or loans payables, lease liabilities and accrued compensated absences.

Long-term debt for governmental funds is not reported as a liability in the fund financial statements. The debt proceeds are reported as other financing sources and payment of principal and interest are reported as expenditures.

Compensated Absences

Liabilities and the related expenses for vacation and sick pay benefits are recognized when earned. Liabilities for accrued vacation and sick pay benefits are reflected in noncurrent liabilities. The District's policy on accumulated vested sick leave provides for a percentage payout of an employee's accumulated balance upon termination. The percentage of the payout varies based on employee position and years of service.

Benefits that require payment in future fiscal years, though related to services previously rendered, are recorded as a liability in the governmental funds to the extent they will be liquidated with expendable available resources.

The compensated absences liability accrued in the district-wide statements at June 30, 2023 represents an estimate of the compensated absences the District anticipates paying out at retirement. At retirement, employees can elect to convert unused sick leave into a post-retirement health-care benefit. The anticipated liability for these costs (once the election has been made) has been included in the District's actuarial determination of postemployment benefits and the liability under GASB Statement No. 75.

OREGON SCHOOL DISTRICT
Notes to Financial Statements
For the Year Ended June 30, 2023

1. Summary of Significant Accounting Policies (Continued)

I. Other Obligations (Continued)

Supplemental Pension (Stipend) Benefit

Eligible District employees hired on or after July 1, 2001 will receive a cash benefit in the form of a stipend upon their retirement. The total of the stipend is determined by the individual years of service and also participation in the District's medical plan. See Note 8 for additional information.

Net other postemployment benefit obligations (NOPEBO)

For purposes of measuring the NOPEBO, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the District's OPEB plan and additions to/deductions from the plan's fiduciary net position have been determined on the same basis as they are reported by the plan. For this purpose, the plan recognizes benefit payments when due and payable in accordance with benefit terms. See Note 9 for additional information.

J. Subscription-Based Information Technology Arrangements

The District has recorded an intangible right-to-use subscription asset and a corresponding subscription liability. The subscription asset is initially measured at the initial amount of the subscription liability, adjusted for payments made at or before the commencement date of the arrangement and qualifying implementation costs. Subsequently, the subscription asset is amortized on a straight-line basis over the shorter of the term of the subscription or its useful life. The subscription liability is recognized at the commencement of the subscription term and is initially measured at the present value of expected subscription payments over the subscription term. Subsequently, the subscription liability is reduced by the principal portion of subscription payments made. The District recognizes subscription-based information technology arrangements with an initial, individual value of \$5,000 or more.

Key estimates and judgements related to subscription-based information technology arrangements include how the District determines (1) the discount rate it uses to discount the expected subscription payments to present value, (2) subscription term, and (3) subscription payments.

- The District uses the interest rate charged by the vendor as the discount rate. When the interest rate charged by the vendor is not provided, the District generally uses its estimated incremental borrowing rate as the discount rate for subscriptions.
- The subscription term includes the noncancellable period of the subscription.
- Subscription payments included in the measurement of the subscription liability are composed of fixed payments.

The District monitors changes in circumstances that would require a remeasurement of its subscriptions and will remeasure the subscription asset and liability if certain changes occur that are expected to significantly affect the amount of the subscription liability.

OREGON SCHOOL DISTRICT
Notes to Financial Statements
For the Year Ended June 30, 2023

1. Summary of Significant Accounting Policies (Continued)

K. Pensions

The fiduciary net position of the Wisconsin Retirement System (WRS) has been determined using the flow of economic resources measurement focus and accrual basis of accounting. This includes for purposes of measuring the net pension liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense (revenue). Information about the fiduciary net position of the WRS and additions to/deductions from WRS' fiduciary net position have been determined on the same basis as they are reported by WRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

L. Deferred Outflows and Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expenditure) until then. The District has multiple items that qualify for reporting in this category.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until then. The District has multiple items that qualify for reporting in this category.

M. Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

N. Net Position

Net position represents the difference between assets, deferred outflows of resources, liabilities, and deferred inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement for those assets. Net position is reported as restricted when there are limitations imposed on their use through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

The District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

OREGON SCHOOL DISTRICT
Notes to Financial Statements
For the Year Ended June 30, 2023

1. Summary of Significant Accounting Policies (Continued)

O. Fund Balance

In the fund financial statements, governmental fund balance is presented in five possible categories:

Nonspendable – resources which cannot be spent because they are either a) not in spendable form or; b) legally or contractually required to be maintained intact.

Restricted – resources with constraints placed on the use of resources are either a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or b) imposed by law through constitutional provisions or enabling legislation.

Committed – resources which are subject to limitation the government imposes upon itself at its highest level of decision making, and that remain binding unless removed in the same manner.

Under the District fund balance policy these funds are used for specific purposes pursuant to constraints imposed by Board action pursuant to two motions. The first motion must identify the dollar amount to be allocated from the unassigned fund balance. The second motion must identify the purpose of the expenditure. Both motions shall be approved by a two-thirds vote of the entire Board. This commitment cannot be reversed except through the same process, which must be accomplished prior to the end of the District's fiscal year.

Assigned – resources neither restricted nor committed for which a government has a stated intended use as established by the District Board or a body or official to which the District Board has delegated the authority to assign amounts for specific purposes.

Under the District's fund balance policy these funds may be assigned by the Business Manager, who shall allocate these funds prior to the annual audit in consultation with the District Superintendent, Board President, and Board Treasurer. These funds include amounts remaining from the fiscal year's building or department budgets or from miscellaneous projects which are reserved for expenditure in subsequent years.

Unassigned – resources which cannot be properly classified in one of the other four categories. The General Fund is the only fund that reports a positive unassigned fund balance amount. Unassigned balances also include negative balances in the governmental funds reporting resources restricted for specific programs.

When restricted and other fund balance resources are available for use, it is the District's policy to use restricted resources first, followed by committed, assigned, and unassigned amounts, respectively.

P. District's Fund Balance Policy

The Board recognizes the need for carrying an operating reserve in the Unassigned General Fund Balance to:

1. Provide adequate working capital sufficient to meet the District's cash flow requirements;
2. Function as a safeguard to fund unanticipated expenses; and,
3. Demonstrate fiscal responsibility and maintain District bond rating.

OREGON SCHOOL DISTRICT
Notes to Financial Statements
For the Year Ended June 30, 2023

1. Summary of Significant Accounting Policies (Continued)

P. District's Fund Balance Policy (Continued)

The Unassigned General Fund Balance will be maintained to provide the District with sufficient working capital and a margin of safety to address emergencies without borrowing. Should the Unassigned General Fund Balance be less than 10% of general fund expenditures and transfers, the Board shall adopt a four-year plan to obtain the minimum 10% Unassigned General Fund Balance as outlined above. All unexpended funds at year end which are not included within another fund balance classification will be allocated to the Unassigned General Fund Balance.

Two separate two-thirds motions shall be required for an allocation from the Unassigned General Fund Balance and then only in the event of an emergency or a combined "deficit budget" between the General (Fund 10) and Special Education Fund (Fund 27).

When the Business Manager determines that budgeted expenditures are likely to exceed budgeted revenues for any District fund, the Business Manager shall inform the Board Treasurer who will report this fact to the Board at its next regularly scheduled meeting. Any use of the Unassigned General Fund Balance to fund such a deficit must be approved by a two-thirds majority vote of the Board.

Q. Change in Accounting Principle

Effective July 1, 2022, the District adopted GASB Statement No. 96, Subscription-Based Information Technology Arrangements (SBITA). The District determines if an arrangement contains a SBITA at inception based on whether the District has the right to control the information technology during the contract period and other facts and circumstances. The adoption of GASB Statement No. 96 did not have a material impact on the District's financial statements.

2. Explanation of Certain Differences Between Governmental Fund Statements and District-wide Statements

Due to the differences in the measurement focus and basis of accounting used on the government fund statements and district-wide statements, certain financial transactions are treated differently. The basic financial statements contain a full reconciliation of these items.

Explanation of Differences Between Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances and the Statement of Activities

Differences between the governmental funds statement of revenues, expenditures and changes in fund balances and the statement of activities fall into one of four broad categories:

1. Long-term revenue differences arise because governmental funds report revenues only when they are considered "available," whereas the statement of activities reports revenues when earned. Differences in long-term expenses arise because governmental funds report on a modified accrual basis whereas the accrual basis of accounting is used on the statement of activities.
2. Capital-related differences include the difference between recording an expenditure for the purchase of capital items in the governmental fund statements and depreciation expense on those items as recorded in the statement of activities.

OREGON SCHOOL DISTRICT
Notes to Financial Statements
For the Year Ended June 30, 2023

2. Explanation of Certain Differences Between Governmental Fund Statements and District-wide Statements (Continued)

Explanation of Differences Between Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances and the Statement of Activities (Continued)

3. Long-term debt transaction differences occur because both interest and principal payments are recorded as expenditures in the governmental fund statements, whereas interest expense is recorded in the statement of activities as incurred, and principal payments are recorded as a reduction of liabilities in the statement of net position.
4. Payments to retired employees for postemployment benefits are recorded when paid in the fund financial statements. Expenses are recorded in the statement of activities when incurred. Payments to retired employees reduce the postemployment liabilities.

3. Cash and Investments

For all the District's cash and investments shown below, the market value at the balance sheet date is substantially the same as the fair value. The difference between the bank balance and carrying value is due to outstanding checks and/or deposits in transit. At various times during the year, the District's deposits were higher than the June 30, 2023 balances. This means that the District's risk and exposure could be higher at these times.

Depository:	Carrying Amount	Fair Value	Associated Risk
Local Financial Institutions			
Checking and Savings Accounts	\$ 3,986,850	\$ 4,158,970	Custodial credit risk
Certificates of Deposit	125,675	125,675	Custodial credit risk
WISC			
Money Market Accounts	16,084,042	16,197,103	Credit risk, interest rate risk
Certificates of Deposit	237,350	237,350	Custodial credit risk, credit risk, interest rate risk
LGIP	4,437,079	4,437,079	Credit risk, interest rate risk
Total June 30, 2023	<u>\$ 24,870,996</u>	<u>\$ 25,156,177</u>	

A reconciliation of cash and investments as shown on the statements is as follows:

Governmental Activities	
Cash and Investments - Current	\$ 15,989,531
Restricted Cash and Investments - Current	3,491,494
Employee Benefit Trust	5,389,971
Total	<u>\$ 24,870,996</u>

Restricted cash in the amount of \$2,932,611 in the Debt Service fund and \$558,883 in the Capital Projects fund includes amounts set aside for future payment of G.O. debt and capital project expenditures. The restricted cash to pay for these future requirements is offset in the restricted fund balance of the respected funds.

OREGON SCHOOL DISTRICT
Notes to Financial Statements
For the Year Ended June 30, 2023

3. Cash and Investments (Continued)

The Wisconsin Local Government Investment Pool (LGIP) is part of the State Investment Fund (SIF) and is managed by the State of Wisconsin Investment Board. The SIF is not registered with the Securities and Exchange Commission but operates under the statutory authority of Wisconsin Chapter 25. The SIF reports the fair value of its underlying assets annually. All investments are valued at amortized cost by the SIF for purposes of calculating earnings to each participant. Specifically, the SIF distributes income to pool participants monthly, based on their average daily share balance. Distributions include interest income based on stated rates (both paid and accrued), amortization of discounts and premiums on a straight-line basis, realized investment gains and losses calculated on an amortized cost basis, and investment expenses. This method does not distribute to participants any unrealized gains or losses generated by the pool's investments. Detailed information about the SIF is available in separately issued financial statements available at <http://www.doa.state.wi.us/Divisions/Budget-and-Finance/LGIP>.

Participants in the LGIP have the right to withdraw their funds in total on one day's notice. At June 30, 2023, the fair value of the District's share of the LGIP's assets was substantially equal to the amount reported on this page.

Investment allocation in the LGIP as of June 30, 2023 was: 98% in U.S. Government Securities, 2% in Certificates of Deposit, Bankers' Acceptances, Commercial Paper, and Corporate Notes. The Wisconsin State Treasurer updates the investment allocations on a monthly basis.

Investments Authorized by Wisconsin State Statutes

Investment of District funds is restricted by state statutes. Available investments are limited to:

- Time deposits in any credit union, bank, savings bank, trust company or savings and loan association.
- Bonds or securities of any county, city, drainage district, technical college, village, town, or school district of the state.
- Bonds or securities issued or guaranteed by the federal government.
- The local government investment pool.
- Any security maturing in seven years or less and having the highest or second highest rating category of a nationally recognized rating agency.
- Securities of an open-end management company or investment trust, subject to various conditions and investment options.
- Repurchase agreements with public depositories, with certain conditions.
- Bonds issued by a local exposition district.
- Bonds issued by a local professional baseball park district.
- Bonds issued by the University of Wisconsin Hospital and Clinics Authority.
- Bonds issued by a local football stadium district.
- Bonds issued by a local arts dealer.
- Bonds issued by the Wisconsin Aerospace Authority.

OREGON SCHOOL DISTRICT
Notes to Financial Statements
For the Year Ended June 30, 2023

3. Cash and Investments (Continued)

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater sensitivity its fair value has to changes in market interest rates. The District's investment policy minimizes this risk by structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby, avoiding the need to sell securities on the open market prior to maturity.

The Local Government Investment Pool investments have an average maturity of 28 days.

Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. State law limits investments in commercial paper, corporate bonds and mutual bond funds to the top two ratings issued by nationally recognized statistical rating organizations. The District has an investment policy that limits investments to only those authorized under Wisconsin Statute 66.060.

As of June 30, 2023, the District's investment in the Wisconsin Local Government Investment Pool was not rated.

Concentration of Credit Risk

The District does not have a policy for concentration of credit risk. No District investment represents 5% or more of the total investments.

Custodial Credit Risk

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the District would not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial risk for investments is the risk that, in the event of failure of the counterparty (e.g. broker-dealer) to a transaction, the District would not be able to recover the value of its investment of collateral securities that are in the possession of another party. The District's investment policy eliminates this risk by having securities registered in the District's name and held by a third-party custodian. Safekeeping practices should qualify under the highest recognized safekeeping procedures. Deposits in each local and area bank are insured by the Federal Deposit Insurance Corporation (FDIC) in the amount of \$250,000 for time and savings accounts and \$250,000 for demand deposits accounts. Bank accounts are also insured by the State Deposit Guarantee Fund in the amount of \$400,000. The District's policy is to obtain collateral or insurance for all deposited amounts in excess of FDIC and State Deposit Guarantee Fund insurable limits.

As of June 30, 2023, the District's deposits with financial institutions were insured as follows:

Insured by FDIC and State Deposit Guarantee Fund	\$ 444,534
	<u>\$ 444,534</u>

OREGON SCHOOL DISTRICT
Notes to Financial Statements
For the Year Ended June 30, 2023

4. Capital Assets

Capital asset balances and activity for the year ended June 30, 2023 were as follows:

	Balance 6/30/2022	Additions	Retirements	Balance 6/30/2023
Governmental Activities				
Non-Depreciable Capital Assets:				
Land	\$ 4,852,933	\$ -	\$ -	\$ 4,852,933
Construction in Progress	207,893	565,332	(197,393)	575,832
Total Non-Depreciable Capital Assets	<u>5,060,826</u>	<u>565,332</u>	<u>(197,393)</u>	<u>5,428,765</u>
Capital Assets being Depreciated:				
Buildings	162,013,709	1,010,565	(241,411)	162,782,863
Furniture and Equipment	12,692,822	1,111,337	(901,986)	12,902,173
Land Improvements	2,684,280	52,369	-	2,736,649
Total Capital Assets being Depreciated	<u>177,390,811</u>	<u>2,174,271</u>	<u>(1,143,397)</u>	<u>178,421,685</u>
Less Accumulated Depreciation	<u>(54,516,114)</u>	<u>(4,915,096)</u>	<u>1,100,491</u>	<u>(58,330,719)</u>
Net Governmental Capital Assets	<u>\$ 127,935,523</u>	<u>\$ (2,175,493)</u>	<u>\$ (240,299)</u>	<u>\$ 125,519,731</u>

Depreciation expense was charged to the following functions:

Regular instruction	\$ 553,042
Special education instruction	2,834
Vocational instruction	26,798
Other instruction	50,984
Pupil services	4,252
Instructional staff services	269,358
Administration services	21,891
Operation and maintenance	374,155
Community service	2,106
Food service	19,487
Depreciation not charged to a specific function	<u>3,590,189</u>
Total depreciation	<u>\$ 4,915,096</u>

OREGON SCHOOL DISTRICT
Notes to Financial Statements
For the Year Ended June 30, 2023

5. Subscription-Based Information Technology Arrangements

The District has six subscription-based information technology arrangements (SBITAs) for:

- Various interactive instructional curriculum and courseware subscriptions.
- On premises calling subscriptions and licenses.
- Comparative analytics software subscriptions.
- Teachers, staff, and students survey software subscriptions.

The total amount of subscription assets and related accumulated amortization, and the amount of subscription liabilities, as of June 30, 2023 are as follows:

	Balance 6/30/2022	Additions	Subtractions	Balance 6/30/2023	Amounts Due Within One Year
Subscription Assets	\$ -	\$ 437,395	\$ -	\$ 437,395	
Less: Accumulated Amortization	-	(50,513)	-	(50,513)	
	<u>\$ -</u>	<u>\$ 386,882</u>	<u>\$ -</u>	<u>\$ 386,882</u>	
 Subscription Liabilities	 \$ -	 \$ 152,239	 \$ (57,152)	 \$ 95,087	 \$ 61,772

The total SBITA costs for the year ended June 30, 2023 are as follows:

	June 30, 2023
Amortization expense	\$ 50,513
Interest on lease liabilities	3,142
Total	<u>\$ 53,655</u>

The future minimum SBITA principal and interest payments under noncancellable contracts with terms greater than one year are listed below as of June 30, 2023:

	Principal	Interest	Total Payments
June 30, 2024	\$ 61,772	\$ 2,728	\$ 64,500
2025	33,315	1,013	34,328
Total	<u>\$ 95,087</u>	<u>\$ 3,741</u>	<u>\$ 98,828</u>

OREGON SCHOOL DISTRICT
Notes to Financial Statements
For the Year Ended June 30, 2023

6. Long-Term Obligations

Long-term obligations of the District are as follows:

	Balance 6/30/2022	Issued	Retired	Balance 6/30/2023	Amount Due Within One Year
G.O. Bonds	\$ 80,810,000	\$ -	\$ 3,900,000	\$ 76,910,000	\$ 3,655,000
Subtotal G.O. Debt	<u>80,810,000</u>	<u>-</u>	<u>3,900,000</u>	<u>76,910,000</u>	<u>3,655,000</u>
Premium (discount) on debt	2,773,351	-	193,541	2,579,810	191,450
Compensated absences	<u>1,532,525</u>	<u>226,445</u>	<u>-</u>	<u>1,758,970</u>	<u>-</u>
Total Long-Term Debt	<u><u>\$ 85,115,876</u></u>	<u><u>\$ 226,445</u></u>	<u><u>\$ 4,093,541</u></u>	<u><u>\$ 81,248,780</u></u>	<u><u>\$ 3,846,450</u></u>

The compensated absences liability is paid out of the General Fund.

General Obligation Debt

All general obligation debt is secured by the full faith and credit and unlimited taxing powers of the District. General obligation debt at June 30, 2023 is comprised of the following individual issues:

Description	Issue Date	Interest Rate %	Date of Maturity	Balance 6/30/2023	Amount Due Within One Year
GO School Improvement Bonds	3/2/2015	2.5-4.0%	3/1/2035	\$ 38,035,000	\$ 2,655,000
GO School Building & Improvement Bonds	3/1/2019	3.0-5.0%	3/1/2039	38,875,000	1,000,000
Total General Obligation Debt				<u><u>\$ 76,910,000</u></u>	<u><u>\$ 3,655,000</u></u>

The 2022 equalized valuation of the District as certified by the Wisconsin Department of Revenue is \$3,742,608,264. The legal debt limit and margin of indebtedness as of June 30, 2023, in accordance with §67.03(1)(b) of the Wisconsin statutes follows:

Debt Limit (10% of \$3,742,608,264)	\$ 374,260,826
Deduct long-term debt applicable to debt margin	<u>76,910,000</u>
Margin of indebtedness	<u><u>\$ 297,350,826</u></u>

2029-2033	23,395,000	8,230,121	31,625,121
2034-2038	27,725,000	3,992,200	31,717,200
2039	6,140,000	214,900	6,354,900
Totals	<u>\$ 76,910,000</u>	<u>\$ 24,378,866</u>	<u>\$101,288,866</u>

7. Employee Retirement Plans

Defined Benefit Pension Plan

Plan Description. The WRS is a cost-sharing multiple-employer defined benefit pension plan. WRS benefits and other plan provisions are established by Chapter 40 of the Wisconsin Statutes. Benefit terms may only be modified by the legislature. The retirement system is administered by the Wisconsin Department of Employee Trust Funds (ETF). The system provides coverage to all eligible State of Wisconsin, local government and other public employees. All employees, initially employed by a participating WRS employer on or after July 1, 2011, and expected to work at least 1200 hours a year (880 hours for teachers and school district educational support employees) and expected to be employed for at least one year from employee’s date of hire are eligible to participate in the WRS.

ETF issues a standalone Annual Comprehensive Financial Report (ACFR), which can be found at <https://etf.wi.gov/about-etf/reports-and-studies/financial-reports-and-statements>

Additionally, ETF issued a standalone Wisconsin Retirement System Financial Report, which can also be found using the link above.

Vesting. For employees beginning participation on or after January 1, 1990, and no longer actively employed on or after April 24, 1998, creditable service in each of five years is required for eligibility for a retirement annuity. Participants employed prior to 1990 and on or after April 24, 1998, and prior to July 1, 2011, are immediately vested. Participants who initially became WRS eligible on or after July 1, 2011, must have five years of creditable service to be vested.

OREGON SCHOOL DISTRICT
Notes to Financial Statements
For the Year Ended June 30, 2023

7. Employee Retirement Plans (Continued)

Benefits Provided. Employees who retire at or after age 65 (54 for protective occupations and 62 for elected officials and executive service retirement plan participants, if hired on or before 12/31/2016) are entitled to a retirement benefit based on a formula factor, their final average earnings, and creditable service.

Final average earnings is the average of the participant's three highest annual earnings periods. Creditable service includes current service and prior service for which a participant received earnings and made contributions as required. Creditable service also includes creditable military service. The retirement benefit will be calculated as a money purchase benefit based on the employee's contributions plus matching employer's contributions, with interest, if that benefit is higher than the formula benefit.

Vested participants may retire at or after age 55 (50 for protective occupations) and receive an actuarially-reduced benefit. Participants terminating covered employment prior to eligibility for an annuity may either receive employee-required contributions plus interest as a separation benefit or leave contributions on deposit and defer application until eligible to receive a retirement benefit.

The WRS also provides death and disability benefits for employees.

Post-Retirement Adjustments. The Employee Trust Funds Board may periodically adjust annuity payments from the retirement system based on annual investment performance in accordance with s. 40.27, Wis. Stat. An increase (or decrease) in annuity payments may result when investment gains (losses), together with other actuarial experience factors, create a surplus (shortfall) in the reserves, as determined by the system's consulting actuary. Annuity increases are not based on cost of living or other similar factors. For Core annuities, decreases may be applied only to previously granted increases. By law, Core annuities cannot be reduced to an amount below the original, guaranteed amount (the "floor") set at retirement. The Core and Variable annuity adjustments granted during recent years are as follows:

Year	Core Fund Adjustment (%)	Variable Fund Adjustment (%)
2013	(9.6)	9.0
2014	4.7	25.0
2015	2.9	2.0
2016	0.5	-5.0
2017	2.0	4.0
2018	2.4	17.0
2019	0.0	-10.0
2020	1.7	21.0
2021	5.1	13.0
2022	7.4	15.0

OREGON SCHOOL DISTRICT
Notes to Financial Statements
For the Year Ended June 30, 2023

7. Employee Retirement Plans (Continued)

Contributions. Required contributions are determined by an annual actuarial valuation in accordance with Chapter 40 of the Wisconsin Statutes. The employee required contribution is one-half of the actuarially determined contribution rate for general category employees, including teachers, and Executives and Elected Officials. Starting on January 1, 2016, the Executives and Elected Officials category was merged into the General Employee category. Required contributions for protective employees are the same rate as general employees. Employers are required to contribute the remainder of the actuarially determined contribution rate. The employer may not pay the employee required contribution unless provided for by an existing collective bargaining agreement.

During the reporting period, the WRS recognized \$2,249,964 in contributions from the employer.

Contribution rates as of June 30, 2023 are:

Employee Category	Employee	Employer
General (including teachers, executives and elected officials)	6.80%	6.80%
Protective with Social Security	6.80%	13.20%
Protective without Social Security	6.80%	18.10%

Pension Liabilities (Assets), Pension Expense (Revenue), and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2023, the District reported a liability (asset) of \$9,862,158 for its proportionate share of the net pension liability (asset). The net pension liability (asset) was measured as of December 31, 2022, and the total pension liability used to calculate the net pension liability (asset) was determined by an actuarial valuation as of December 31, 2021, rolled forward to December 31, 2022. No material changes in assumptions or benefit terms occurred between the actuarial valuation date and the measurement date. The District's proportion of the net pension liability (asset) was based on the District's share of contributions to the pension plan relative to the contributions of all participating employers. At December 31, 2021, the District's proportion was 0.18615911%, which was an increase of 0.00388578% from its proportion measured as of December 31, 2021.

For the year ended June 30, 2022, the District recognized pension expense of \$5,000,119.

7. Employee Retirement Plans (Continued)

At June 30, 2023, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 15,707,362	\$ (20,635,947)
Net differences between projected and actual earnings on pension plan investments	16,753,529	-
Changes in assumptions	1,939,308	-
Changes in proportion and differences between employer contributions and proportionate share of contributions	6,905	(60,159)
Employer contributions subsequent to the measurement date	1,329,456	-
Total	\$ 35,736,560	\$ (20,696,106)

\$1,329,456 reported as deferred outflows of resources related to pension resulting from the WRS Employer's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability (asset) in the year ended June 30, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense (revenue) as follows:

Year Ended June 30:	Net Deferred Outflows (Inflows) of Resources
2024	\$ 557,830
2025	2,833,761
2026	2,906,322
2027	7,413,085
2028	-
Total	\$ 13,710,998

OREGON SCHOOL DISTRICT
Notes to Financial Statements
For the Year Ended June 30, 2023

7. Employee Retirement Plans (Continued)

Actuarial Assumptions. The total pension liability in the December 31, 2022 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial Valuation Date:	December 31, 2021
Measurement Date of Net Pension Liability (Asset):	December 31, 2022
	January 1, 2018 - December 31 2020
Experience Study:	Published November 19, 2021
Actuarial Cost Method:	Entry Age Normal
Asset Valuation Method:	Fair Value
Long-Term Expected Rate of Return:	6.8%
Discount Rate:	6.8%
Salary Increases:	
Wage Inflation	3.0%
Seniority/Merit	0.1% - 5.6%
Mortality:	2020 WRS Experience Mortality Table
Post-Retirement Adjustments	1.7%*

* *No post-retirement adjustment is guaranteed. Actual adjustments are based on recognized investment return, actuarial experience and other factors. 1.7% is the assumed annual adjustment based on the investment return assumption and the post-retirement discount rate.*

Actuarial assumptions are based upon an experience study conducted in 2021 that covered a three-year period from January 1, 2018 to December 31, 2020. The Total Pension Liability for December 31, 2022 is based upon a roll-forward of the liability calculated from the December 31, 2021 actuarial valuation.

Long-term Expected Return on Plan Assets. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the table on the following page.

OREGON SCHOOL DISTRICT

Asset Allocation Targets and Expected Returns¹
As of December 31, 2022

<u>Core Fund Asset Class</u>	<u>Asset Allocation %</u>	<u>Long-Term Expected Nominal Rate of Return %</u>	<u>Long-Term Expected Real Rate of Return %²</u>
Public Equity	48	7.6	5.0
Public Fixed Income	25	5.3	2.7
Inflation Sensitive	19	3.6	1.1
Real Estate	8	5.2	2.6
Private Equity/Debt	15	9.6	6.9
Total Core Fund ³	115	7.4	4.8
<u>Variable Fund Asset Class</u>			
U.S. Equities	70	7.2	4.6
International Equities	30	8.1	5.5
Total Variable Fund	100	7.7	5.1

¹Asset Allocations are managed within established ranges; target percentages may differ from actual monthly allocations

²New England Pension Consultants Long Term US CPI (Inflation) Forecast: 2.5%

³The investment policy used for the Core Fund involves reducing equity exposure by leveraging lower volatility assets, such as fixed income securities. This results in an asset allocation beyond 100%. Currently, an asset allocation target of 15% policy leverage is used, subject to an allowable range of up to 20%.

Single Discount Rate. A single discount rate of 6.8% was used to measure the Total Pension Liability for the current and prior year. This discount rate is based on the expected rate of return on pension plan investments of 6.80% and a municipal bond rate of 4.05% (Source: Fixed-income municipal bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index’s “20-year Municipal GO AA Index” as of December 31, 2022. In describing this index, Fidelity notes that the Municipal Curves are constructed using option-adjusted analytics of a diverse population of over 10,000 tax-exempt securities.). Because of the unique structure of WRS, the 6.8% expected rate of return implies that a dividend of approximately 1.7% will always be paid. For purposes of the single discount rate, it was assumed that the dividend would always be paid. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefit payments (including expected dividends) of current plan members. Therefore, the municipal bond rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

7. Employee Retirement Plans (Continued)

Sensitivity of the District's Proportionate Share of the Net Pension Liability (Asset) to Changes in the Discount Rate. The following presents the District's proportionate share of the net pension liability (asset) calculated using the discount rate of 6.80 percent, as well as what the District's proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (5.80 percent) or 1-percentage-point higher (7.80 percent) than the current rate:

	1% Decrease to Discount Rate (5.80%)	Current Discount Rate (6.80%)	1% Increase to Discount Rate (7.80%)
District's proportionate share of the net pension liability (asset)	\$ 32,732,181	\$ 9,862,158	\$ (5,870,456)

Pension Plan Fiduciary Net Position. Detailed information about the pension plan's fiduciary net position is available in separately issued financial statements available at <https://etf.wi.gov/about-etf/reports-and-studies/financial-reports-and-statements>.

8. Supplemental Pension (Stipend) Benefit

The District follows GASB Statement No. 73, Accounting and Financial Reporting for Pensions and Related Assets that are not within the Scope of GASB Statement 68, which allows the District to report its liability for supplemental pension benefits and to reflect an actuarially determined liability for the present value of projected future benefits for employees on the financial statements.

At June 30, 2023, the District's total pension liability was actuarially valued as of June 30, 2021 and measured as of June 30, 2022.

Plan Description, Vesting, and Benefits Provided. Employees not classified as Administrators may receive, in lieu of the OPEB benefits as stated in Note 9, a stipend benefit. The annual amount of this stipend differs by classification. A brief description of the stipend benefits are noted below.

Stipend Benefit. At the time of retirement, if an employee is at least age 55 with a minimum of 10 years of service with the District, or is an Administrator without 10 years of service, the District shall contribute one lump sum to a 401(a) or 403(b) account for qualifying retirees at the following rates:

- \$1,000 per year of service for employees covered by District-sponsored family health coverage plan for a minimum of six months.
- \$500 per year of service for employees covered by District-sponsored single health coverage plan for a minimum of six months.
- \$250 per year of service for those employees who do not qualify for any of the above benefits.

After exhaustion of District benefit, eligible retirees are allowed to remain on the District's group medical plan provided that the retiree self-pays the full amount (100%) of the premiums.

There are 519 active employees and no retirees in the plan as of the measurement date of June 30, 2022.

OREGON SCHOOL DISTRICT
Notes to Financial Statements
For the Year Ended June 30, 2023

8. Supplemental Pension (Stipend) Benefit (Continued)

Funding Policy. Payments under the plan are made on a pay-as-you go basis. There are no invested plan assets accumulated for payment of future benefits. The general fund is used for funding of all pension/retirement benefits. The employer makes all contributions.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources Related to Pensions. For the year ended June 30, 2023, the District recognized a supplemental pension expense of \$162,480.

At June 30, 2023, the District reported deferred outflows of resources and deferred inflows of resources related to the supplemental pension plan from the following sources:

Gain / Loss	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experiences	\$ 28,949	\$ (65,087)
Changes of assumptions or other inputs	58,670	(175,425)
District contributions subsequent to the measurement date	38,000	-
Total	\$ 125,619	\$ (240,512)

\$38,000 reported as deferred outflows of resources related to the supplemental pension resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to the supplemental pension will be recognized in pension expense as follows:

Year Ended June 30:	Net Deferred Outflows (Inflows) of Resources
2024	\$ (11,852)
2025	(11,852)
2026	(11,852)
2027	(11,852)
2028	(11,852)
Thereafter	(93,633)
Total	\$ (152,893)

OREGON SCHOOL DISTRICT
Notes to Financial Statements
For the Year Ended June 30, 2023

8. Supplemental Pension (Stipend) Benefit (Continued)

Below is a schedule of changes in the total pension liability for the current reporting period:

Beginning Balance	\$ 1,079,606
Changes for the Year	
Service Costs	148,483
Interest	25,849
Differences Between Expected and Actual Experiences	10,200
Changes of Assumptions or Other Inputs	(131,639)
Benefit Payments	(10,000)
Net Changes	42,893
Ending Balance	\$ 1,122,499

Actuarial Assumptions. The total pension liability in the June 30, 2021 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial Valuation Date:	June 30, 2021
Measurement Date of Total Pension Liability	June 30, 2022
Discount Rate:	4.00% - Implicit in this rate is 2.50% assured rate of inflation. 4.00% based upon a municipal bond rate on the S&P Municipal Bond 20 Year High Grade Index published by the Federal Reserve for the week at the beginning of the measurement period.
Projected salary increases	3.00%

Mortality, disability and retirement rates are based on the Wisconsin 2018 Mortality Table adjusted for future mortality improvements using the MP-2018 fully generated improvement scale (multiplied 60%).

Actuarial assumptions are based upon an experience study conducted in 2018 using WRS experience from 2015-2017.

Single Discount Rate. A single discount rate of 4.00% (based upon all years of projected payments discounted at a municipal bond rate of 4.00%) was used in this valuation in calculating the supplemental pension liability. It was assumed that the District would continue to fund its retiree benefits out of its general fund assets on a pay-as-you-go basis.

Sensitivity of the District's Total Pension Liability to Changes in the Discount Rate. The following presents the District's total pension liability calculated using the discount rate of 4.00 percent, as well as what the District's total pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (3.00percent) or 1-percentage point higher (5.00 percent) than the current rate:

	1.00% Decrease to Discount Rate (3.00%)	Current Discount Rate (4.00%)	1.00% Increase to Discount Rate (5.00%)
Total Pension Liability	\$ 1,196,704	\$ 1,122,499	\$ 1,051,337

OREGON SCHOOL DISTRICT
Notes to Financial Statements
For the Year Ended June 30, 2023

9. Other Postemployment Benefits (OPEB) Plan

The District follows GASB Statement No. 75, Accounting and Financial Reporting by Employers for Postemployment Benefits Other than Pensions, which allows the District to report its liability for other postemployment benefits consistent with newly established generally accepted accounting principles and to reflect an actuarially determined liability for the present value of projected future benefits for retired and active employees on the financial statements.

At June 30, 2023, the District's net OPEB liability was measured as of June 30, 2022, and the total pension liability used to calculate the net OPEB liability was determined by an actuarial valuation as of June 30, 2021.

Description of the Plan. The District administers a single-employer defined benefit healthcare plan for the payment of the District's OPEB liability relating to medical and dental insurance. In addition, the District's group health insurance plan provides coverage to active employees and retirees (or other qualified terminated employees) at blended premium rates. Both of these result in another post-employment benefits, the latter commonly referred to as an implicit rate subsidy. Calculations are based on the pattern of sharing of costs between the employer and plan members at that point.

The District does not issue a stand-alone financial report for this plan.

Funding Policy. The District established the Oregon School District Post-Employment Benefits Trust in order to accumulate funds and finance the costs of OPEB.

Contributions. The trust does not require any employee or employer contributions.

Detail of Benefits. The District will contribute 90% of the lowest cost medical and dental premiums, frozen at the time of retirement, to qualified Administrators at least age 55, on behalf of the retiree for a period of eight years. The contribution may exceed Medicare-eligibility. Any monies resulting from unused sick leave accumulated upon retirement may be used to continue coverage under the District's group plans.

The District will contribute 90% of the lowest cost medical and dental premiums, frozen at the time of retirement, to all other qualified District employees, at least age 55 with a minimum of 10 years of service and hired prior to July 1, 2001, on behalf of the retiree for a period of four years but not to exceed Medicare-eligibility. Any monies resulting from unused sick leave accumulated upon retirement may be used to continue coverage under the District's group plans.

All other District employees not classified as administrators, hired on or after July 1, 2001, who retire at age 55 or greater and have reached ten years of service in the District are eligible for a supplemental stipend benefit described in Note 8.

After exhaustion of the District benefit, eligible retirees are allowed to remain on the District's group medical plan provided that the retiree self-pays the full amount (100%) of the premiums for the duration of COBRA.

OREGON SCHOOL DISTRICT
Notes to Financial Statements
For the Year Ended June 30, 2023

9. Other Postemployment Benefits (OPEB) Plan (Continued)

Employees Covered by Benefit Terms. Employees participating in the OPEB consisted of the following at June 30, 2021, the date of the latest actuarial valuation:

Inactive employees or beneficiaries currently receiving benefit payments	55
Active employees	443
	498
	498

Employees are not eligible for benefits unless they were hired prior to July 1, 2001. While the total number of participants noted above include those that are not currently eligible to receive benefits, those individuals were excluded in the calculation of the actual liability.

Net OPEB Liability

The District’s net OPEB liability of \$1,970,392 was measured at June 30, 2022, and was determined by an actuarial valuation as of June 30, 2021.

Actuarial Assumptions and Other Inputs. The net OPEB liability in the June 30, 2021 actuarial valuation, and measured as of June 30, 2022, was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.50%	
Salary increases	3.00% average, including inflation	
Discount rate	2.25%	
Healthcare cost trend rates	4.50% for the first four years, 10.00% in the fifth year, and then 6.00%	
	decreasing by 0.10% per year down to 5.00%, and level thereafter	

Mortality rates were based the Wisconsin 2018 Mortality Table adjusted for future mortality improvements using the MP-2018 fully generated improvement scale (multiplied 60%).

The actuarial assumptions used in the June 30, 2021 valuation and measured as of June 30, 2022 were based on a study conducted in 2018 using the WRS experience from 2015-2017.

Discount Rate. The discount rate used to measure the total net OPEB liability was 2.25%. The projection of cash flows used to determine the discount rate assumed that the District contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the OPEB plan’s fiduciary net position was projected to be available to make all projected OPEB payments for current active and inactive employees. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the net OPEB liability. The long-term expected rate of return is equal to the discount rate.

The discount rate is based upon all years of projected payments discounted at a 2.25% long-term expected rate of return. This rate is equivalent to the Bond Buyer GO 20-Year Municipal Bond Index published by the Federal Reserve as of the week of the measurement date.

The current investment allocation of the District’s OPEB plan’s asset classes are as follows: 100% - money market accounts.

Notes to Financial Statements
For the Year Ended June 30, 2023

9. Other Postemployment Benefits (OPEB) Plan (Continued)

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2023, the District recognized an OPEB expense of \$474,601. At June 30, 2023, the District reported deferred outflows of resources and deferred inflows of resources related the OPEB from the following sources:

Gain / Loss	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experiences	\$ 354,603	\$ (504,443)
Changes of assumptions or other inputs	471,798	(661,374)
Net differences between projected and actual earnings on OPEB plan investments	204,202	-
District contributions subsequent to the measurement date	912,627	-
Total	<u>\$ 1,943,230</u>	<u>\$ (1,165,817)</u>

\$912,627 reported as deferred outflows of resources related to OPEB resulting from the contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to the supplemental pension will be recognized in pension expense as follows:

Year Ended June 30:	Net Deferred Outflows (Inflows) of Resources
2024	\$ 29,500
2025	15,151
2026	(5,028)
2027	(26,817)
2028	(47,849)
Thereafter	(100,171)
Total	<u>\$ (135,214)</u>

10. Interfund Transactions

Receivables/Payables

Interfund receivable and payable balances in the fund financial statements on June 30, 2023 were as follows:

Payable Fund	Receivable Fund	Amount	Purpose
Employee Benefit Trust	General Fund	\$ 151,317	OPEB Implicit Rate
Package Cooperative	General Fund	59,352	Cash Shortfall
General Fund	Employee Benefit Trust	912,627	OPEB Contributions

OREGON SCHOOL DISTRICT
Notes to Financial Statements
For the Year Ended June 30, 2023

10. Interfund Transactions (Continued)

Transfers

Transfers in the fund financial statements for the year ended June 30, 2023 were as follows:

<u>Fund Transferred To</u>	<u>Fund Transferred From</u>	<u>Amount</u>	<u>Purpose</u>
General Fund	Debt Service	\$ 552	Fund Close-Out
Food Service	General Fund	135,520	Reorganization Settlement

In the statement of net position, amounts reported in the governmental funds as interfund transactions have been eliminated within the district-wide statements.

Additionally, during fiscal year ended June 30, 2023, the General Fund transferred \$5,585,131 to the Special Education Fund. These transfers were used to cover any costs not covered by direct revenues. The Special Education Fund is combined into the general fund in the governmental funds financial statements.

11. Self-Funded Insurance Program

In fiscal year 2011/12, the District established a self-funded dental benefit plan for its employees. The Plan administrator, Delta Dental of Wisconsin, is responsible for the approval, processing, and payment of claims, after which they bill the District for reimbursement. The District is also responsible for a monthly administrative fee. The Plan reports on a fiscal year ending June 30th.

Accounting and budgeting requirements for the Plan are established by the Wisconsin Department of Public Instruction. Currently, the Plan is accounted for in the General Fund of the District.

The District has no stop-loss coverage for dental care coverage of the Plan. However, there is a maximum benefit of \$2,000 per person per benefit accumulation period.

At June 30, 2023, the District has reported a liability of \$49,743, which represents reported and unreported claims which were incurred on or before June 30, 2023, but were not paid by the District as of that date. This amount consists of claims reported to the District by the Plan administrator of \$25,369 and claims which were not yet reported to either the Plan administrator or the District of \$24,374. The amounts not reported to the District were determined by the Plan administrator. Changes in the claims liability for the years ended June 30, 2021 through June 30, 2023 are as follows:

	Accrued Balance at Beginning of Year	Current Claims and Changes in Estimates	Claim Payments	Accrue Balance at End of Year
2020-2021	\$ 46,971	\$ 735,851	\$ 737,288	\$ 45,534
2021-2022	45,534	725,665	724,264	46,935
2022-2023	46,935	730,908	728,100	49,743

13. Limitation on School District Revenues

Wisconsin statutes limit the amount of revenues school districts may derive from general school aids and property taxes unless a higher amount is approved by a referendum. This limitation does not apply to revenues needed for the payment of any general obligation debt service (including refinanced debt) authorized by either of the following:

- A resolution of the school board or by a referendum prior to August 12, 1993.
- A referendum on or after August 12, 1993.

History of Increased Revenue Limits

In November of 2014 the residents of the Oregon School District passed a referendum that the District could override its revenue limit by \$355,864 each year on a recurring basis, beginning in the 2015-16 school year. This is in order to pay for increased maintenance and utility costs due to the building expansions.

In November of 2016 the residents of the Oregon School District passed a referendum that the District could override its revenue limit by \$1,500,000 each year on a recurring basis, beginning in the 2016-17 school year. This is in order to pay for employee compensation for teachers and other educational staff.

OREGON SCHOOL DISTRICT
Notes to Financial Statements
For the Year Ended June 30, 2023

13. Limitation on School District Revenues (Continued)

In November of 2019 the residents of the Oregon School District passed a referendum that the District could override its revenue limit by \$2,118,487 each year on a recurring basis, beginning in the 2020-21 school year. This is in order to pay for operation and maintenance expenses of the District including capital maintenance projects at the District facilities, the cost of operation a new elementary school and District staffing costs.

In November of 2022 the residents of the Oregon School District passed a referendum that the district could override its revenue limit by \$5,420,000 for the 2022-23 school year, by an additional \$3,000,000 (\$8,420,000 total) for the 2023-24 school year, and by an additional \$2,980,000 (\$11,400,000 total) for the 2024-25 school year and thereafter. This is in order to pay for compensation and other instructional and operation expenditures.

14. Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors and omissions; workers' compensation; and health care of its employees. All of these risks are covered through the purchase of commercial insurance, with minimal deductibles. There has been no reduction in insurance coverage in the prior year. Settled claims have not exceeded the commercial coverage in any of the past three years.

15. Commitments

Prior to June 30, 2023, the District entered into capital-related contract commitments totaling \$1,840,632. These contracts relate to projects associated with efficiency solutions upgrades, a solar energy system, new roofing a various school facilities, and the replacement of tennis courts. Total costs incurred on these projects as of June 30, 2023 were \$575,832, which are reported as construction in progress on the statement of net position.

Additionally, in July 2023, the District approved an asphalt paving contract totaling \$102,000.

16. Effect of New Accounting Standard on Current Period Financial Statements

The GASB has adopted GASB Statement No. 101, Compensated Absences, effective for periods beginning after December 15, 2023. When this standard becomes effective, application of these standards may restate portions of these financial statements.

2015	1,628,352	(1,628,352)	-	23,372,824	6.97%

**The contribution and other amounts presented above for each fiscal year are based on information that occurred during that fiscal year.

See accompanying notes to the required supplementary information.

OREGON SCHOOL DISTRICT
Notes to Required Supplementary Information
For the Year Ended June 30, 2023

1. Budgetary Information

The District's budget is adopted in accordance with Chapter 65 of the Wisconsin Statutes. Changes to appropriations authorized in the adopted budget generally require a vote of two-thirds of the entire membership of the governing body. Budgetary expenditure control is exercised at the department level.

Budget amounts include appropriations authorized in the original budget, any Board approved amendments, appropriations of restricted resources received for funding specific expenditures and designated portions of the beginning balance of the General Fund's equity expected to finance expenditures of the current fiscal year. Unused appropriations lapse at year-end unless specifically carried over for financing subsequent year expenditures.

Excess of Actual Expenditures over Budget

The District's General Fund and Special Education Fund had functions that had an excess of actual expenditures over budget of \$5,000 or more for the year ended June 30, 2023 as shown below:

Fund	Function	Amount
General	Operation and Maintenance	\$ 230,455
Special Education	Capital Outlay	28,520

2. District Net OPEB Liability Schedules

Governmental Accounting Standards Board Statement No. 75 requirements have been implemented prospectively, therefore, the illustrations do not present similar information for the 3 preceding years.

Actuarial assumptions. Key methods and assumptions used to calculate actuarially determined contributions (ADC) were as follows:

Valuation Date	6/30/2021
Actuarial Cost Method	Entry Age Normal
Asset Valuation Method	Market Value
Amortization Method	5 year Level \$
Discount Rate	2.25%
Inflation	2.00%

Changes of benefit terms. There were no changes of benefit terms during the year.

Changes of assumptions. There were no changes of assumptions during the year.

3. District Supplemental Pension Plan Schedules

Governmental Accounting Standards Board Statement No. 73 requirements have been implemented prospectively, therefore, the illustrations do not present similar information for the 3 preceding years.

Changes of benefit terms. There were no changes to benefit terms during the year.

OREGON SCHOOL DISTRICT
Notes to Required Supplementary Information
For the Year Ended June 30, 2023

3. District Supplemental Pension Plan Schedules (Continued)

Changes of assumptions. The discount rate was updated based on the S&P Municipal Bond 20 Year High Grade Index as of the week of the measurement date (4.00%).

Assets. There are no assets accumulated in a trust that meet the criteria in Governmental Accounting Standards to pay related benefits.

4. Wisconsin Retirement System Schedules

Governmental Accounting Standards Board Statement No. 68 requirements have been implemented prospectively, therefore, the illustrations do not present similar information for the next preceding year.

Changes of benefit terms. There were no changes of benefit terms for any participating employer in WRS.

Changes of assumptions. Based on a three-year experience study conducted in 2021 covering January 1, 2018 through December 31, 2020, the ETF Board adopted assumption changes that were used to measure the total pension liability beginning with the year-end December 31, 2021, including the following:

- Lowering the long-term expected rate of return from 7.0% to 6.8%
- Lowering the discount rate from 7.0% to 6.8%
- Lowering the price inflation rate from 2.5% to 2.4%
- Lowering the post-retirement adjustments from 1.9% to 1.7%
- Mortality assumptions were changed to reflect updated trends by transitioning from the Wisconsin 2018 Mortality Table to the 2020 WRS Experience Mortality Table.

Based on a three-year experience study conducted in 2018 covering January 1, 2015 through December 31, 2017, the ETF Board adopted assumption changes that were used to measure the total pension liability beginning with the year-ended December 31, 2018, including the following:

- Lowering the long-term expected rate of return from 7.2% to 7.0%
- Lowering the discount rate from 7.2% to 7.0%
- Lowering the wage inflation rate from 3.2% to 3.0%
- Lowering the price inflation rate from 2.7% to 2.5%
- Lowering the post-retirement adjustments from 2.1% to 1.9%
- Mortality assumptions were changed to reflect updated trends by transitioning from the Wisconsin 2012 Mortality Table to the Wisconsin 2018 Mortality Table.

OREGON SCHOOL DISTRICT

SINGLE AUDIT

INDEPENDENT AUDITOR’S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the School Board
Oregon School District
Oregon, Wisconsin

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Oregon School District, as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the Oregon School District’s basic financial statements, and have issued our report thereon dated December 6, 2023.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Oregon School District’s internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Oregon School District’s internal control. Accordingly, we do not express an opinion on the effectiveness of the Oregon School District’s internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity’s financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Oregon School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the of financial statements. However, providing an opinion on compliance with those provisions was not the objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is intended solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Oregon School District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Oregon School District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR’S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL AND STATE PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH THE UNIFORM GUIDANCE AND THE STATE SINGLE AUDIT GUIDELINES

To the School Board
Oregon School District
Oregon, Wisconsin

Report on Compliance for Each Federal and State Program

Opinion on Each Major Federal and State Program

We have audited the Oregon School District’s compliance with the types of compliance requirements identified in the OMB *Compliance Supplement* and the *State Single Audit Guidelines* that could have a direct and material effect on each of the Oregon School District’s major federal and state programs for the year ended June 30, 2023. The Oregon School District’s major federal and state programs are identified in the summary of auditor’s results section of the accompanying schedule of findings and questioned costs.

In our opinion, the Oregon School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the year ended June 30, 2023

Basis for Opinion on Each Major Federal and State Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance); and the *State Single Audit Guidelines*, issued by the Wisconsin Department of Administration. Our responsibilities under those standards, the Uniform Guidance, and the *State Single Audit Guidelines* are further described in the Auditor’s Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the Oregon School District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal and state program. Our audit does not provide a legal determination of the Oregon School District’s compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the Oregon School District's federal and state programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the Oregon School District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, the Uniform Guidance, and the *State Single Audit Guidelines* will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the Oregon School District's compliance with the requirements of each major federal and state program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, and the *State Single Audit Guidelines* we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the Oregon School District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the Oregon School District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance and *State Single Audit Guidelines*, but not for the purpose of expressing an opinion on the effectiveness of Oregon School District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section on the previous page and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and *State Single Audit Guidelines*. Accordingly, this report is not suitable for any other purpose.

OREGON SCHOOL DISTRICT
NOTES TO SCHEDULES OF EXPENDITURES OF FEDERAL AND STATE AWARDS
For the Year Ended June 30, 2023

Note 1 Reporting Entity

The accompanying schedules of expenditures of Federal and State Awards include the federal and state grant activity of the Oregon School District.

Note 2 Basis of Presentation

The accounting records for the grant programs are maintained on the accrual or modified accrual basis of accounting, depending on the fund type the federal and state awards are recorded in. The information in these schedules is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and the *State Single Audit Guidelines*.

Note 3 Special Education and School Age Parents Program

2022-2023 eligible costs under the State Special Education Program are \$8,545,171.

Note 4 Food Distribution

Nonmonetary assistance is reported in the schedule at the fair value of the commodities received and disbursed (\$132,382).

Note 5 Medical Assistance

Expenditures presented for the Medicaid SBS Benefit represent only the federal funds for the program that the District receives from DHS. District records should be consulted to determine the total amount expended for this program.

Note 6 De Minimis Cost Rate

The District did not elect to use the 10% de minimis indirect cost rate.

**OREGON SCHOOL DISTRICT
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
For the Year Ended June 30, 2023**

Section I - Summary of Auditor's Results

Financial Statements

Type of auditor's report issued on whether the financial statements audited were in accordance with GAAP: Unmodified

Internal control over financial reporting:

- * Material weakness identified? No
- * Significant deficiency(ies) identified? None Reported

Noncompliance material to financial statements noted? No

Federal Awards

Internal control over major programs:

- * Material weakness identified? No
- * Significant deficiency(ies) identified? None Reported

Type of auditor's report issued on compliance for major programs: Unmodified

Any audit findings disclosed that are required to be reported in accordance with 2 CFR 200.516(a)? No

Identification of major federal programs:

<u>Assistance Listing Number</u>	<u>Name of Program or Cluster</u>
93.778	Medical Assistance Program
84.425U	Elementary and Secondary School Emergency Relief Fund

Dollar threshold for distinguishing Types A and B programs: \$750,000

Auditee qualified as low-risk auditee? Yes

State Awards

Internal control over major programs:

- * Material weakness identified? No
- * Significant deficiency(ies) identified? None Reported

Type of auditor's report issued on compliance for major programs: Unmodified

Any audit findings disclosed that are required to be reported in accordance with *State Single Audit Guidelines*? Yes

SCHEDULE OF PRIOR YEAR FINDINGS AND QUESTIONED COSTS
For the Year Ended June 30, 2023**

Prior Year Financial Statement Finding

None

Prior Year Federal and State Award Findings and Questioned Costs

2022-001 Information on the Federal Program: U.S. Department of Agriculture, Assistance Listing Number 10.555/10.559, Child Nutrition Cluster, year Ended June 30, 2022

Condition: During the audit, the auditor became aware that the District did not maintain or keep the records that were used to compile and submit the annual verification report.

Auditor's Recommendation: We recommend the District keep records of all supporting documentation used for compliance reporting.

Current Status: The auditor determined that the District kept sufficient records for the 2022/23 reporting period.

2022-002 Staff Reported on Non-Valid License Report

Condition: As determined by DPI, the District had one special education staff member without a current license.

Auditor's Recommendation: We recommend that special education staff's licenses continue to be appropriate for their work assignments or, as in this case, staff has an appropriate license in place throughout the entire school year.

Current Status: Non-valid license monitoring and testing was conducted by the District and DPI. Any licensing issues would have been resolved directly with DPI.
