

School District of Onalaska Fall 2023-24 Enrollment Report

This report contains current and historical enrollment information. Enrollment includes all students who are, for the most part, served in our schools. The exception is early childhood students who are served offsite and some 4K students who are served at partner daycare sites.

This report also contains open enrollment information. The difference between enrollment and membership is shown in the table below. Open enrollment in students are served in our schools but reside in a different school district, and open enrollment out students reside in our district but choose to receive their education in a different public “bricks and mortar” school district or a virtual school option. As a declining enrollment district, attracting students from neighboring districts helps us maintain funding for programming and services for all students.

There is an open enrollment transfer amount that passes between the resident district and the educating district. For 2023-24, the amounts are estimated to be \$8,618 per FTE for regular education students and \$13,470 per FTE for those students with a disability.

In the Revenue Limit formula, districts are funded based upon membership. Some counting of summer school attendance is allowed for revenue limit membership purposes. Specifically, 48,600 minutes of instruction count as 1 FTE. The membership information presented in this report is yearly (not averaged) membership used to calculate the District’s Revenue Limit.

Enrollment vs Membership						
Enrollment						Membership
Head count	Minus	Open Enrollment In	Plus	Open Enrollment Out		
Early childhood students counted at .5 FTE					Equals	Membership
4K students counted at .6 FTE						

Membership for Revenue Limit Purposes		
Yearly Membership averaged over 3 years	Plus	Summer School FTE averaged over 3 years times .4 FTE
