## Taxpayer Impact

The *combined* tax impact of remaining debt from 1999 bond with the new debt from the 2016 bond on a home valued at \$200,000 is estimated to be:

**\$1.54 a week** or roughly the cost of

**\$6.68 a month**

**\$80.20 a year**

It is important to remember that continued growth is likely to have a positive impact on the county's economy and ability to maintain a low tax rate.

- ✓ Learning environments impact student outcomes and school climate.
- ✓ Projects allow our district to address growth and overcrowding in schools.
- ✓ Fine arts and athletic program improvements promote lifelong success.
- ✓ Focus is continuous improvement...being better tomorrow than we are today.
