

School Bond **PASSES**

School Bond **FAILS**

Growth and overcrowding will be addressed through classroom additions and new construction.

Growth and overcrowding will be addressed through redistricting elementary and middle schools county-wide, resulting in increased local transportation costs (reducing the budget in other areas) and redistribution of existing staff and resources.

Improvements will be made at all 19 schools including updating bathrooms, flooring, ceilings, electrical systems, and grounds/landscaping.

Improvement to schools will be limited to the availability of funds and projects priorities. BCS currently operates on a \$5 million annual capital budget for 2 million square feet of building space and over 500 acres of land. These limited funds support all necessary operations of our system including building maintenance, repairs, grounds and athletic field maintenance, and technology.

Modular units will be replaced by brick and mortar building additions.

Modular units will continue to be used as learning environments.

Technology infrastructure and equipment improvements will occur system-wide.

Technology improvements will occur as funding is available through existing resources. Equipment replacement schedules will be extended.

Science labs additions to middle schools and enhancements to career technical education (CTE) programs will occur county-wide.

Expansions or additions to middle school science labs or career technical education (CTE) will be considered on an annual basis in the budget process, with no guarantee of funding.

Improvements to fine arts programs at all middle schools.

Improvements to middle school fine arts program improvements will be considered on an annual basis in the budget process, with no guarantee of funding.

Improvements to middle and high school athletic fields and female athlete facilities.

Continue to patch issues with athletic fields which can lead to safety concerns and could possibly reduce athletic programs due to overuse of fields.
