

RESOURCE CONSERVATION WORKSHOP

June 21 - June 26, 2020

NC STATE UNIVERSITY, RALEIGH, NC

The Resource Conservation Workshop is a weeklong intensive study and hands-on conservation workshop requiring student application and participation in a wide range of conservation topics. The workshop is intended to engage students to learn about natural resources and their management in today's environment. Students participate in field study, tours, hands-on sessions as well as evening activities that focus on college-decision making and career decisions. Awards and scholarships are won and presented to the students under several awards programs.

The Resource Conservation Workshop students stay on campus in NC State dormitories and attend workshop sessions in Williams Hall, Lake Wheeler Soils Field Lab as well as field studies at Falls Lake State Recreation Area and Clemmons State Educational Forest in Clayton. The Resource Conservation Workshop is sponsored by the Division of Soil and Water Conservation of the NC Department of Agriculture and Consumer Services, the Crop and Soil Sciences Department of N.C. State University, and the N.C. Association of Soil and Water Conservation Districts in conjunction with the Hugh Hammond Bennett Chapter – Soil and Water Conservation Society of America, and the N.C. Soil and Water Conservation Commission.

The 2020 Resource Conservation Workshop is June 21-26. Program participants are selected to attend through their local Soil and Water Conservation District. [Find the application here](#) and submit your application to [your local SWCD district](#). For any questions contact, Liz Driscoll, Program Coordinator with NC State University at liz_driscoll@ncsu.edu or Ralston James with the Division of Soil and Water, NC Department of Agriculture, ralston.james@ncagr.gov.
