Pear Deck: Student-Paced Mode

1. Student-Paced Mode can be turned on from a Sessions Menu, when teachers start a new Session, while inside a Live Presentation Session (from the Projector View).

Welcome to Pear Deck

PEAR DECK FOR POWERPOINT

Create simple and instructionally effective lessons from Microsoft PowerPoint Online. Students can work on their own, or you can guide them through it.

3. Student-Paced Mode can also be started when you start a new session through the Pear Deck for PowerPoint Online Add-In.

4. To start Student-Paced Mode while inside a Live Presentation from the Projector View, first scroll over the bottom of the slide to open the Navigation Bar.

On the Navigation Bar, click the *More Actions* (three dots) button.

Click *Turn on Student-Paced*.

5. Student-Paced Mode can be stopped at any time from the Navigation Bar by clicking *Stop-Student Paced*. This stops Student-Paced mode but makes the Session Live and gives the teacher control of the slides again. The Student View will sync up to your slide on the Projector View.

6. Student-Paced Mode can also be stopped in the Sessions menu by clicking the *three dots* to select *Turn Off Student-Paced*.
