

INSERVICE FOR NONCERTIFIED PERSONNEL

The board encourages the school system to establish an on-going plan of inservice opportunities for all noncertified personnel. In addition, the board directs the school system to establish annual inservice seminars for all food service personnel, custodians and maids, bus drivers, secretaries, and other such personnel to instruct them on such things as community relations, school rules and regulations, board policy, legal limits of authority, student relations, job skills, etc. Through such seminars and workshops, employees should be encouraged to reach higher goals and, thus, improve the total school program.
