

STUDENT BAND

Participation by the Athens School Bands at any festival, contest, parade or athletic event is subject to approval by the principal and the Superintendent. Travel annually includes away high school varsity football games and those band activities sponsored by the Alabama Bandmasters Association. Major trips involving extended overnight stay are subject to approval by the Board. Consideration shall always include the availability of funds, educational value, frequency of occurrence, and time (if any) away from class.

Participation by students in any of the school instrumental music programs will be determined by audition with the band director(s). Students will be placed in the various instrumental music organizations depending on that student's level of playing ability (beginning, intermediate, or advanced). Course offerings are listed in the curriculum guide. Additional information may be obtained from the band director or counselor's office at the school.
