

On-Site "Still Life" Drawing Visual Art Rubric (80 points)

Student #: _____ Score: _____/80

Criteria	Advanced 16 pts each	Above Average 12 pts each	Average 8 pts each	Below Average 4 pt each	Score
Composition balance & movement	The composition selected illustrates effective balance that creates a focal point and interesting movement. It attracts and holds the viewer's interest.	The composition selected has balance and some movement.	The composition selected has some limited success in creating effective balance and movement.	The composition is not balanced and/or does not create interesting movement.	
Depth through overlap & placement	An accurate illusion of depth is created using overlap and placement to clearly represent the foreground, midground, and background.	A mostly (80%) accurate illusion of depth is created using overlap and placement to represent the foreground, midground, and background.	Some depth is created using overlap or placement to create a foreground and background.	The illusion of depth is not created or highly inaccurate. Overlap and placement are used ineffectively.	
Proportion	All the objects in the composition have accurate proportions in relation to each other and the whole.	Most (80%) of the objects in the composition have accurate proportions in relation to each other and the whole.	Some (60%) of the objects in the composition have accurate proportions in relation to each other and the whole.	Few (40%) of the objects in the composition have accurate proportions in relation to each other and the whole.	
Value to create the illusion of form	Uses a 5+ value scale to create highlights, mid-tones, and shadows to accurately model the drawn objects as 3Dimensional. Has smooth transitions between values and uses contour shading to convey form.	Uses a 3 value scale to create highlights, mid-tones, and shadows to accurately model the drawn objects as 3Dimensional. Mostly smooth transitions between values	Uses some contrasting values to begin to model the drawn objects as 3Dimensional. Value transitions are choppy.	Less than 40% of the image has value and/or the value application does not accurately model the drawn objects as 3Dimensional objects.	
Details & Craftsmanship	Drawing has many details. Contour lines, patterns, and textures are accurately illustrated.	Drawing has adequate use of details. 80% of contour lines, patterns, and textures are accurately illustrated.	Drawing has some details. 60% of contour lines, patterns, and textures are accurately illustrated.	Drawing has little detail. 40% or less contour lines, patterns, and textures are accurately illustrated.	

On-Site "Creative" Drawing Visual Art Rubric (20 points)

Student #: _____ Score: _____/20

Advanced 20 pts	Above Average 15 pts	Average 10 pts	Below Average 5 pts	Score
+Clear transformation of one object to another through 4 GRADUAL steps +Animal to object has 3+ elements the morph +MANY details (shape, texture, movement, and color) utilized in each image to support the morphing.	+Transformation of one object to another through 4 steps +Animal to object has 2 elements morph +Some details (shape, texture, movement, and/or color) utilized to support the morphing.	+Transformation of one object to another through 3 steps +Animal to object has 1 element morph +A few details included to support the morphing or large jumps between images.	+Transformation of one object to another is vague or unclear with little progression shown or details used to support the morphing.	

Student #: _____ Adjudicator's Initials: _____ Total Score: _____/100

Gifted & Talented Placement	Yes 100-76	Maybe 75-51	No 50-Below
