

FENTANYL EDUCATION

Education is key to combatting the fentanyl crisis, as it empowers individuals and communities to make informed choices, promotes harm-reduction strategies, and aids in preventing the misuse of fentanyl. By prioritizing education, we can take a proactive education approach to address the risks associated with fentanyl and work toward a safer future.

DISTRICTWIDE

- Parent Education in November and December presented by Sgt. Gunsolley from OC Sheriff's Department and OC Health Agency.
- NMUSD collaborated with Costa Mesa and Newport Beach Police to provide training to all secondary school certificated employees. Elementary certificated employees were trained separately by Health Services.

ELEMENTARY

- OC Sheriff Sgt. Gunsolley to provide fentanyl education.
- Elementary teachers trained on fentanyl crisis and response.
- Classified employees also will be trained using online modules.

SECONDARY

- In-class fentanyl video to be shown to all secondary students before Winter Break.
- OC Sheriff Sgt. Gunsolley will do a video presentation to all secondary students and parents in the spring.
- Waymakers is working with Costa Mesa and TeWinkle Middle Schools on alcohol and drug education.
- All secondary teachers trained on Narcan with the support of Costa Mesa and Newport Beach Police Departments.
- Youth-led activities surrounding healthy living and prevention.
