If you are on the **Delta Dental PPO plan (Plan #1563)**, you can go to any dentist in the PPO Network or Premier Network, but those outside of the PPO network may charge over what is considered "reasonable and customary" to our plan and therefore you will be billed for that excess.

If you are on the **Delta Dental EPO plan (Plan #9098)**, you can only go to dentists in the PPO network. There is NO benefit outside of the PPO network.
