<p>PSTN to VoIP Solutions</p>		
<p>\$121</p>	<p><u>Grandstream GXW4004</u></p> <p>The GXW-4004 is a next generation IP voice gateway that is interoperable and compatible with leading IP-PBXs, Soft Switches and SIP platforms. The GXW FXS Gateway series is auto-configurable, remotely manageable and scalable. Each model features flexible dialing plans, PSTN failover, integrated call routing to support a pure IP network call and an external power supply. The GXW FXS Gateway series enables small and medium businesses to create seamless office environments, integrate a traditional phone system into a VoIP network, and efficiently manage communication costs.</p>

Business Administrator, Board Secretary/QPA

"Reliable Phone & Secure Internet Services"

<p>\$196</p>	<p><u>Grandstream GXW4008</u></p> <p>The GXW FXS Analog IP Gateway series has a compact and quiet design (no fans) and offers superb audio quality, rich feature functionality, strong security protection, good manageability, and compelling price-performance ratio. It is auto-configurable, remotely manageable and scalable. It features 4 or 8-port FXS interface for analog telephones, dual routed or switched 10M/100M network ports with integrated router, PSTN life line in case of power failure, and an RS232 serial port for administration.</p>	
<p>\$225</p>	<p><u>Grandstream GXW4104</u></p> <p>The Grandstream GXW- Series Analog 4 FXO IP Gateways are designed and tested for full interoperability with leading IP-PBXs, Soft switches and most SIP-based environments.</p>
