**I. Opening Items**

**A. Call the Meeting to Order**

Danielle Malconian called a meeting of the Finance and Investment Committee of El Camino Real Charter High School to order on Thursday Jan 19, 2023 at 5:34 PM.

**B. Record Attendance and Guests**

Ms. Lopez Vargas arrived at 5:36 p.m., shortly after the initial roll call. Her arrival and attendance were noted/announced.

**D. Public Comments**

No requests for Public Comment were made/received.

**E. CBO Report**

Mr. Wood, CBO, provided the CBO report, with highlights as follow:

1. We are partnering with Birmingham CHS, GHCHS, Partnerships to Uplift Communities (PUC) CMO in order to challenge what we view as billing overcharging by Fulgent regarding COVID-19 testing; at this point, the amount that ECRCHS is contesting is \$1.6M at this point; no process to validate the process, including what insurance company is paying; we made need to hire a forensic auditor; some invoices have been billed but not all; possible class action or group claim to be determined; Fulgent attempted to contact LACOE and the Dept. of Public Health;
2. State is back-funding us for ADA; funds to arrive in February, 2023, and will provide this information to the board;
3. Noted that he and Ms. Ilyas went to School Services of CA meeting to get a glimpse of Governor's budget for planning purposes; pre-planning for school districts; good news is COLA adjustment based on eight factors, six of which are

present; Preliminary COLA adjustment is 8.1% increase which is a good number, Mr. Wood noted; potential caveat is that LACOE is expected to lose 7% of public school enrollment and predicted to have future enrollment declines; SSC provided a hypothetical example, he said, of how an 8.1% COLA increase is reduced at a \$10K ADA School that experiences an enrollment decline of 200 to an approximate adjusted COLA 5.6%; we'll stay tuned and hope for the best; Marketing and holding onto enrollment are priorities for our school and others in the State;

4. Possible categoricals; possible one-time twelfth grade culture enrichment grant for field trips; about \$200 per student 12th grade for a total of approximately \$180K for our seniors.

5. Sent to CDE - Will present the ESSER Funds for full board presentation next month; how much we've received, how much we've spent, and spending deadlines, etc.

- \* Healthy organizations recognize their employees
- \* can do this in a fiscally responsible ways and with Board support

Program 1: Royal Recognition Award (monthly nominees; online form; HR/Bus. Office,/others Award certificates/PA announcements/photos on website/display case

Program 2: Royal Ovation Award (two times per semester; one outstanding nominee recognized at a Board meeting (Dec. or June); preferred parking space; PA announcement; photo on webiste; display case;

Program 3: "Real Longevity Award" - award longevity; recognize length of service; Possible recognition after year one and year two and then at possible 5, 10, 15, etc. increments.

Board Member Malconian asked what might be the largest expense, to which Dr. Lowry responded that it depends on how many people are recognized for the different programs and what the cost might be for the awards;

Program 4: "Royal Raffle!" Quad, music, once per month; random drawing for prizes "just for being ECRCHS employees.

Program 4: Teacher or Employee Appreciation Week: Themes for each weekday during the week, with small gifts each day;

Dr. Lowry noted that we can scale the program and/or tailor programs and costs to what works for our school; Dr. Lowry noted that this program is a prudent investment in the welfare and morale of employees.

Boardmember Ramirez asked who would administer the program to which Dr. Lowry noted that HR would take the lead, while expecting some support from Administrative Directors, Teachers, Staff, parent volunteers, and the Board;

After some discussion about appreciation week (Employee appreciation is March 2023) and Teacher Appreciation is in May, 2023) other timing and logistics needs, the Finance and Investment Committee recommended that Dr. Lowry present this item to the full board next week for additional input and ideas for implementation.

Accordingly, no vote was taken at this time and this item will be a discussion item next week ahead of a vote in the near future.

Ms. Malconian, Mrs. Ramirez, Mr. Hussey, Mr. Wood, and Ms. Lopez-Vargas noted the program benefits staff welfare, retention, recruitment, and efforts to market and brand our school.

Cost out and identification of sources of funds will be a priority; no gift cards unless donated, etc.

## **B. 2023-2024 Budget Planning**

Mr. Wood, CBO, provided an opening/preliminary discussion on 2023-2024 Budget Planning, with highlights as follow:

- \* Continuing efforts to enact a bottoms-up approach to budgeting at ECRCHS (student-centered, staff needs/input-based, data-driven)
- \* Next month, we should have a budget calendar with the goal of capturing the total budget from each department and not just for instructional materials and textbooks, but when they go on field trips, purchase supplies, licenses, and technology items for their classrooms, etc.
- \* Trying to capture needs and costs
- \* training and involve students and staff in the budgeting training/impact of their efforts and projections of revenues projected, actuals, and impacts on budget and expenditures moving forward.
- \* Student Body Funds via Student Council/Associated Student Body (ASB); they have oversight of ASB funds as elected student government/officials and need to exercise those duties and responsibilities, accordingly (student body governance of ASB funds/trust accounts);
- \* Mr. Hussey noted that this process has worked with staff in terms of asking people to think about wants versus needs and in the process take greater ownership of ASB funds management process/governance.
- \* Mr. Wood added that we've been blessed with one-time funding and certain categorical amounts; when one-time funds dry up, enrollment decreases, etc., goal is to continue to be more financially nimble, responsive, and transparent in response to unknown circumstances/revenue changes.

# PERFORMANCE DISCLOSURES & GLOSSARY TERMS

**General Disclosure:** This information is confidential and proprietary and may not be reproduced or used for any reason other than the purposes expressed by the Beacon Pointe Family of Companies, which includes Beacon Pointe Advisors, LLC ("BPA") and Beacon Pointe Wealth Advisors, LLC ("BPWA"), without the prior written consent of BPA or BPWA. For presentation purposes we included the performance for subadvisors that we are recommending based on current market conditions. As BPA's & BPWA's recommendations of subadvisors vary based on the client's needs and objectives and our market outlook at any given time, the performance of actual client accounts varies substantially from the blended performance presented and the performance shown may not be representative of a client's actual experience. **Hypothetical Performance:** The performance results for the blended portfolio represent a hypothetical simulation based on accounts managed by subadvisors. The subadvisors' performance is based on actual portfolios traded in real time. The actual returns for portfolios managed by the subadvisors are weighted. The managers we have selected for this simulation are based on an in-depth screening process by BPA's & BPWA's manager research team, which includes both quantitative and qualitative analysis. The full performance presentation and disclosures of the subadvisors presented is available upon request. You should be aware of the following: 1) the hypothetical performance simulation does not reflect the impact that material economic and market factors might have had on BPA's & BPWA's decision-making process if BPA or BPWA have been recommending these subadvisors for the full period presented, 2) the allocation presented and the subadvisors selected for the simulation can be changed at any time in order to reflect better hypothetical performance results, and 3) the allocation and subadvisor selection can continue to be tested and adjusted until the desired results are achieved. **Performance Disclosure:** Past performance is not indicative of future results. Performance includes the reinvestment of all income and dividends. Valuations and returns stated in U.S. dollars. Returns labeled "Gross of BPA or BPWA Fees" are presented net of the standard subadvisors' fees, and do not reflect any discounts that BPA or BPWA may have negotiated with the subadvisor, nor do these returns reflect BPA's or BPWA's management fee. BPA's & BPWA's highest management fee is 1.65%. Returns will be reduced further by BPA or BPWA management fees and other miscellaneous fees charged by the custodian. Returns labeled "Gross of All Management Fees" are presented gross of the subadvisors' fees and BPA's or BPWA's management fee. Returns will be reduced further by BPA or BPWA management fees, subadvisor management fees, and other miscellaneous fees charged by the custodian. The deduction of management fees reduces the total rate of return. As an example, the compounded effect of investment management fees on the total value of a client's portfolio assuming (a) quarterly fee assessment, (b) \$1,000,000 investment, (c) portfolio return of 8% a year, and (d) 2.65% annual investment advisory fee would be \$28,620 in the first year and cumulative effects of \$158,580 over five years and \$362,306 over ten years. BPA's and BPWA's fee schedule is disclosed in each Form ADV Part 2 and the individual subadvisor's fee schedules are disclosed in their Form ADV Part 2. Upon request, BPA and BPWA will provide clients with copies of BPA's and BPWA's and the subadvisor's Form ADV Part 2. **Risks:** An investment in the blended portfolio has risks, including risk of losing some or all of the invested capital. Carefully consider the risks and suitability of the described strategy. **No Independent Verification:** BPA and BPWA have exercised all reasonable professional care in preparing the information. However, BPA and BPWA have not independently verified, or attested to, the accuracy or authenticity of the information, including any investment performance measurement. **Indices:** Indices are not available for direct investment and do not reflect the deduction of any fees. Performance for blended benchmarks is calculated based on allocations that are rebalanced back to the stated targets on a quarterly basis and are not adjusted for transaction costs or management fees.

**Definitions:** **Up/down Capture:** The up and down capture is a measure of how well a manager was able to replicate or improve on phases of positive benchmark returns and how badly the manager was affected by phases of negative benchmark returns. **Standard Deviation:** Shows how much variation or dispersion exists from the average (mean), or expected value. The more spread apart the data, the higher the deviation. In Finance, standard deviation is applied to the annual rate of return of an investment to measure the investment's volatility. **Annualized Returns:** The average amount of money earned by an investment each year over a given time period. An annualized total return provides only a snapshot of an investment's performance and does not give investors any indication of its volatility. Annualized total return merely provides a geometric average, rather than an arithmetic average. **Excess Return:** Excess return represents the difference between the returns of two portfolios. In a typical application, excess return provides a measure of the difference between a manager's return and the return of a benchmark for that manager. In the context of a beta benchmark, excess return refers to the difference between a manager or market benchmark and T-bills. A positive excess return implies that the manager outperformed the benchmark. **Information Ratio:** A ratio of portfolio returns above the returns of a benchmark (usually an index) to the volatility of those returns. The information ratio (IR) measures a portfolio manager's ability to generate excess returns relative to a benchmark, but also attempts to identify the consistency of the investor. This ratio will identify if a manager has beaten the benchmark by a lot in a few months or a little every month. The higher the IR the more consistent a manager is and consistency is an ideal trait. **Significance Level:** The significance level of a manager series vs. a benchmark series indicates the level of confidence with which the statement "the manager's annualized excess return over the benchmark is positive" or "the manager's annualized excess return over the benchmark is negative," as the case may be, holds true. This measurement ranges from 50% (chance) to 100%. A manager with consistent under- or over-performance compared to its benchmark over a long period of time would have a high significance level. **Explained Variance:** The variance explained is also referred to as Standard R<sup>2</sup> in StyleADVISOR. This is usually very close to the correlation squared. To understand what variance explained means, think of a manager and a style benchmark. Any variance in the difference between manager and style benchmark (i.e. any variance in the excess return of manager over benchmark) represents a failure of the style benchmark variance to explain the manager variance. Hence, the quotient of variance of excess return over variance of manager represents the unexplained variance. The variance explained is 1 minus the unexplained variance:  $\text{Variance Explained} = 1 - \text{Var}(e) / \text{Var}(M)$ , Where:  $\text{var}(M) = \text{variance of manager returns}$   $\text{var}(e) = \text{variance of excess return of manager over benchmark}$ . **Tracking Error:** A divergence between the price behavior of a position or a portfolio and the price behavior of a benchmark. Tracking errors are reported as a "standard deviation percentage" difference. This measure reports the difference between the return an investor receives and that of the benchmark he or she was attempting to imitate. **Alpha:** Alpha is a measure of risk (beta)-adjusted return. Alpha measures the difference between a portfolio's actual returns and what it might be expected to deliver based on its level of risk. Theoretically, higher risk should equate to higher return. A positive alpha means the fund has beaten expectations. A negative alpha means that the fund has failed to match performance given its level of risk. If two managers have the same return, but one has a lower beta, that manager would have a higher alpha. **Beta:** Beta represents the systematic risk of a portfolio and measures its sensitivity to a benchmark. A portfolio with a beta of one is considered to be as risky as the benchmark and would therefore provide expected returns equal to those of the market benchmark during both up and down periods. A portfolio with a beta of two would move approximately twice as much as the benchmark. **Cumulative Return:** The aggregate amount that an investment has gained or lost over time, independent of the period of time involved. Presented as a percentage, the cumulative return is the raw mathematical return of the following calculation:  $(\text{Current Price of Security}) - (\text{Original Price of Security}) / (\text{Original Price of Security})$ . **Sharpe Ratio:** The Sharpe ratio is calculated as the portfolio's excess return over the risk-free rate divided by the portfolio's standard deviation. **The Barclays 1-10 Year Managed Money (MM) Index:** A subset of the Barclays Municipal Managed Money Index, representing bonds with one to ten years to maturity. The Barclays Municipal Managed Money Index is an unmanaged index that is rules-based, market-value weighted engineered for the tax exempt bond market. All bonds in the National Municipal Bond Index must be rated Aa3/AA- or higher by at least two of the following statistical ratings agencies: Moody's, S&P and Fitch.
