Reproductive Health & Family Planning

Revised July 2020

Notification to Parents/Guardians:

The Jackson Public Schools Board of Education has adopted a comprehensive Health Education Program which includes age appropriate Sexual Health Education and HIV/AIDS education. On the back of this notice is an outline of what areas will be covered in each grade level.

In compliance with State law and with its desire to maintain effective communication with parents and the community, the Board has made arrangements for the programs and instructional materials to be available for review by any parent or interested member of the community. If you wish to review any or all of the programs, please contact the principal of your child's school. After reviewing the programs, if you wish to discuss them, please contact the principal or the school office.

Your child is required to participate in these courses, but the law allows you the right to have your child excused from participating in classes which include instruction in sex education, reproductive health, family planning and AIDS education. The Board's policy is to honor parents' written requests that their child be excused from certain classes in any course. We encourage you to personally review the program lessons and materials and return the bottom portion of this letter to your child's school principal so appropriate alternative activities can be provided during the times of those classes.

Sincerely,

Jeff Beal, Superintendent

Only fill this portion out if you DO NOT want your student to participate in the Reproductive Health & Family Planning instruction.

Please excuse my child from the classes in which the following subject(s) are presented or discussed:

Choose one of the following:

- I DO NOT want my student to participate in this instruction for this school year only
- I DO NOT want my student to participate in this instruction for all K-12 school years.
